

# ANNUAL REPORT 2013

Citizens Holding Company<sup>SM</sup>

I am pleased to announce that The Citizens Bank enjoyed a successful and profitable year. By virtually any standard, your bank achieved significant success while we continue to embrace timeless values of true community banking in our service to customers and communities.

For fiscal year 2013, The Citizens Bank increased Net Income by 5.4%, while deposits rose 1.9%. Our Total Loans increased 6.3%, testament to our commitment of meeting the financial needs of families and business owners across our market area. In our role as a true community bank, that investment ripples through communities to enhance the quality of life we share. This performance also continues our legacy of strong, consistent stockholder returns and was accomplished in a less-than-perfect national economy.

Your Board and management team believe that our fiscal strength and stability sits at the heart of our mission. Without financial stability, our prominence is diminished and our role diluted. The principles of strength and soundness are the result of the pursuit of integrity in our actions, our plans and our daily performance. I am proud of the leadership your Board has provided, the diligence of our management team in working to foster an environment of respect and service-driven banking to our customers, and to our employees for sharing a common thread of dedication to excellence as we help those customers reach their financial goals. Truly, ours is a team approach that shares common values; values that drive our decisions each and every day.

The Citizens Bank was selected as a Top 200 Community Bank in the United States by the American Banker magazine. While we appreciate the continuing recognition, we will not rest on our laurels as 2014 unfolds and in the years ahead. Our brand of banking and the management model we have created works well.

Personal service is, and will remain, the signature of The Citizens Bank. With that being said, we recognize the need to introduce convenient, safe technologies to enhance our customers' banking experience. During 2013 we unveiled a new Online Banking system, a more responsive website and Mobile Deposit Capture, which allows customers with smart devices the capability to scan and make non-cash deposits 24/7, from wherever they have internet access.

As always, I appreciate your support in the continuing success of this great company.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg L. McKee". The signature is fluid and cursive.

Greg McKee  
President & CEO

**Front row seated:**

---

For over 100 years,  
we have been a strong, solid community  
bank with a legacy of integrity and  
commitment to our customers, bank family,  
stockholders and communities.

#### WE CONTINUE TO DEMONSTRATE THAT COMMITMENT TO YOU:

- **OUR CUSTOMERS**, by offering innovative quality products and outstanding service that meet your business and personal needs.
- **OUR STOCKHOLDERS**, by consistently providing you with an optimum return on your investments.
- **OUR BANK FAMILY**, by fostering a positive, productive work environment, while making financial provisions that enhance your economic well-being.
- **OUR COMMUNITIES**, by investing our time, talents and financial resources.

**The Citizens Bank** —

As we close the book on 2013, it's appropriate to pause for a moment to honor a group of local business and civic leaders from more than a century ago.

While our founders would not recognize modern banking with our host of technologies, they would certainly recognize the core values under which we operate. Since 1908, we have embraced the principles of true community banking as the foundation of our growth, success and strength. For having set this institution on such a course, we are grateful.

### How have these principles determined our fate?

It begins with a core commitment of service to the community. We provide banking services for customers who grace our doorway, but we also invest in the growth of area businesses and volunteer countless hours in a wide array of civic, economic development and charitable endeavors. By doing so, we work daily to enhance a shared quality of life and we are recognized corporately and individually as friends and neighbors.

The Citizens Bank has opened and maintains many accounts. But it's the relationships behind the accounts that have the greatest value to us. In today's world, service is perhaps the most over-promised and under-delivered word in American business but it sits at the heart of our daily mission. Relationship-based banking uniquely positions us as a bank that knows its customers far beyond the numbers, imploring us to help our customers reach their goals. A customer's success is truly our success.

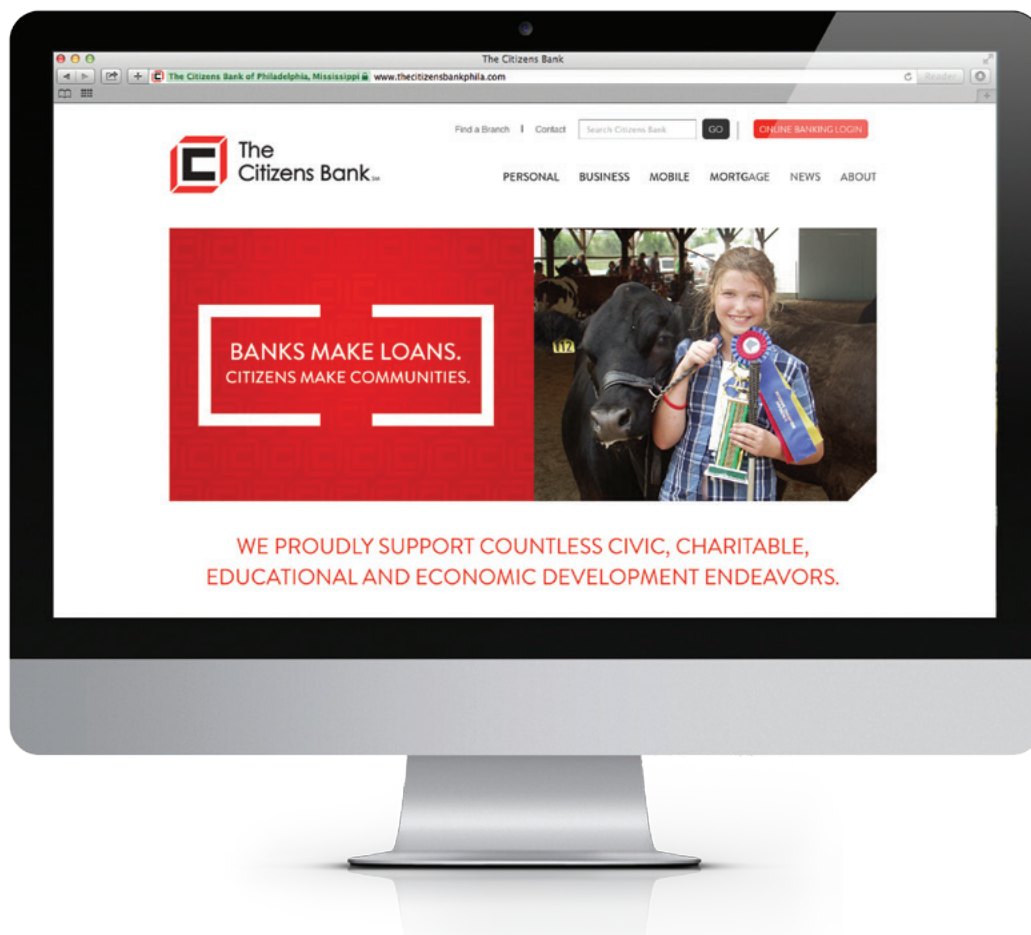

**Our commitment** extends beyond the relationships we share with our consumer customers. The Citizens Bank is equally committed to the total financial needs and convenience of business customers. This commitment is reflected in a complete array of deposit accounts and services along with loans and technologies designed to enhance the corporate banking relationship. We offer Remote Deposit Capture to businesses, allowing them to make non-cash deposits from their desktop computers and alleviating the need to make a trip to the bank during a business day.

Additionally, Online Cash Management is available to business owners along with Merchant Services for credit and debit card purchases at their point-of-sale; business credit cards and loans. Among the many credit resources we offer area businesses are Working Capital Loans, Construction Loans, Seasonal or Operating Lines of Credit, Inventory Loans, Business Acquisition Loans, Land

Development Loans and more. Our Commercial Loan professionals are consistently of service to businesses large and small. At The Citizens Bank, we approach every business as a big business.

In the course of pursuing these measures of doing business, our bank has become synonymous with traditions of trust, fiscal integrity and service. Like a table relying on each leg to stand strong, we recognize the importance of each of these traits as being essential to our prosperity. Without any one component of these, we are unfulfilled in our mission. That being said, we are confirmed in having excelled in these areas by our selection as a **TOP 200 COMMUNITY BANK IN THE UNITED STATES** by American Banker Magazine. The Citizens Bank has achieved this honor each of the last four years as we meet the financial needs of families and business owners throughout Attala, Forrest, Lamar, Lauderdale, Leake, Kemper, Neshoba, Newton, Oktibbeha, Rankin, Scott, Winston, Harrison and Jackson Counties.

Beyond principles and achievement, however, it's important to note the changing face of banking in banks across the nation. New and more stringent regulatory oversight will require more of management's time in 2014 and beyond. New and changing technologies are altering the delivery system of products and financial services as an enhancement to the personal service we have long provided.

Our new Online Banking system brings new features such as Finance 360, a personal financial management program. We are also introducing Mobile Remote Deposit Capture, allowing customers to make deposits to their accounts via their smart device through our Mobile Banking application. Slowly but surely, we are witnessing an increase in the use of these services by a customer base that appreciates convenience. As the new year unfolds, we will be creating a new Online Banking website that is both robust and responsive. By definition, a responsive website such as ours is one that can be pulled up on a desktop computer, a tablet or a smart phone browser; each equally visible to the user.

This state-of-the-art capability will be the newest manner in which we are meeting the needs of those who rely on us. As more and more individuals rely on the smart devices to access information wherever they have internet access, our responsive website will provide a high level of viability.

**The 2013 Christmas Season** brought an ugly reality to the lives of millions of Americans in the form of identity theft. More than 70 million Target customers learned their debit card information, including Personal Identification Number, had been breached. As a result, our bank...along with most every bank...has been re-issuing new debit cards to affected customers. It is important to note that The Citizens Bank has a security system in place to help protect our debit card customers. Working with our card processor, we notify customers if large or “unusual” transaction requests are being processed against their debit card; and we can notify our customers to seek verification that the transaction is legitimate. Additionally, we take every precaution to protect our customers from identity theft when we are notified by card processors of a security breach at specific stores or other retail establishments.

As has long been our privilege and tradition, The Citizens Bank is proud to recognize our employees who roll up their sleeves in a wide spectrum of community endeavors. Most recently, the bank had floats in local Christmas parades, serving free hot chocolate to families enjoying the holiday event. Throughout the year, the bank is invested in serving area students and local civic organizations in the communities we serve. A case in point is our participation in high school and college career days and the participation of 25 of our staff members in the Mississippi Bankers Association’s “A Banker In Every Classroom” program.

**But it doesn’t stop there.** The Citizens Bank provides eleven scholarships yearly to deserving students across our market area. The bank has awarded funds in excess of \$100,000 to high school juniors and seniors since the Reward A’s programs inception to pursue their educational goals. In many of our markets, we have introduced School Stash debit cards in partnership with local schools, with funds being generated for the benefit of the participating schools.

Corporately and individually, The Citizens Bank and its staff are actively involved in area scouting and the Mississippi Special Olympics. You’ll find we have our hand in Kiwanis and the Mississippi Gulf Coast Honor Flight, not to mention Red Cross and the State Games of Mississippi. You’ll find us at work for the benefit of the Blair E. Batson Hospital for Children and serving in Adult Volunteer Literacy Programs, along with the Mississippi Sound Maritime Historical Foundation and the Salvation Army. We also work to support several high school Key Clubs, Mississippi Main Street and 4-H Clubs, along with our Chambers of Commerce, Lions Club, Sertoma and Rotary. We even have teams hitting the pavement for the American Cancer Society Relay for Life and a number of employees serve as coaches for Little League baseball, basketball, soccer and football. Every moment we invest in service is a moment of privilege.

The future is not without challenge. With 106 years of experience and a foundation of service, solutions and strength, however, we will face challenges and create opportunities, following the formula for success that has served us generation after generation. In the process of doing so, we will continue to define what successful and responsive community banking is all about. Our standards of excellence will never be negotiable.

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders  
Citizens Holding Company  
Philadelphia, Mississippi

We have audited the accompanying consolidated statements of condition of Citizens Holding Company and subsidiary (the "Company") as of December 31, 2013 and 2012, and the related consolidated statements of income, comprehensive (loss) income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2013. We have also audited the Company's internal control over financial reporting as of December 31, 2013, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 1992. The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Assessment of Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

To the Board of Directors and Stockholders  
Citizens Holding Company

Page Two

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

A handwritten signature in black ink that reads "Horne LLP". The signature is written in a cursive, flowing style.

## **MANAGEMENT'S ASSESSMENT OF INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management of Citizens Holding Company (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed under the supervision of the Company's principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Management, under the direction of the chief executive officer and chief financial officer, assessed the Company's internal control over financial reporting as of December 31, 2013 based on the criteria for effective internal control over financial reporting established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 1992. Based on this assessment, management believes that, as of December 31, 2013, the Company maintained effective internal control over financial reporting.

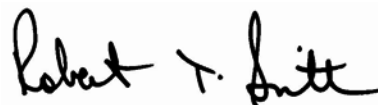

The Company's internal control over financial reporting includes policies and procedures that (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

HORNE LLP, the Company's Independent Registered Public Accounting Firm, has audited the Company's internal control over financial reporting as of December 31, 2013, as stated in their report, beginning on page 1, which expresses an unqualified opinion on the Company's internal control over financial reporting as of December 31, 2013.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Summary of Significant Accounting Policies**

Basis of Financial Statement Presentation

The accounting policies of Citizens Holding Company and its subsidiary conform to generally accepted accounting principles (“GAAP”) in the United States of America and to general practices within the banking industry. The consolidated financial statements of Citizens Holding Company include the accounts of its wholly-owned subsidiary, The Citizens Bank of Philadelphia, Mississippi (collectively, the “Company”). All significant intercompany transactions have been eliminated in consolidation.

Nature of Business

The Citizens Bank of Philadelphia, Mississippi (the “Bank”) operates under a state bank charter and provides general banking services. As a state bank, the Bank is subject to regulations of the Mississippi Department of Banking and Consumer Finance and the Federal Deposit Insurance Company. Citizens Holding Company is also subject to the regulations of the Federal Reserve. The area served by the Bank is Neshoba County, Mississippi and the immediately surrounding areas. Services are provided at several branch offices.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Estimates that are particularly susceptible to significant change relate to the determination of the allowance for loan losses and the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans. In connection with the determination of the allowance for loan losses and valuation of foreclosed real estate, management obtains independent appraisals for significant properties.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

While management uses available information to recognize losses on loans and to value foreclosed real estate, future additions to the allowance or adjustments to the valuation may be necessary based on changes in local economic conditions. In addition, regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses and valuations of foreclosed real estate. Such agencies may require the Company to recognize additions to the allowance or to make adjustments to the valuation based on their judgments about information available to them at the time of their examination. Due to these factors, it is reasonably possible that the allowance for loan losses and valuation of foreclosed real estate may change materially in the near term.

Cash, Due from Banks and Interest Bearing Deposits with Other Banks

For the purpose of reporting cash flows, cash and due from banks includes cash on hand and demand deposits. Cash flows from loans originated by the Company, deposits, and federal funds purchased and sold are reported net in the statement of cash flows. The Company is required to maintain average reserve balances with the Federal Reserve Bank based on a percentage of deposits. The average reserve required by the Federal Reserve Bank at December 31, 2013 and 2012 was \$2,015,000 and \$1,902,000, respectively.

Interest-bearing deposits with other banks mature within one year and are carried at cost.

Investment Securities

In accordance with the investments topic of the Accounting Standards Codification ("ASC"), securities are classified as "available-for-sale," "held-to-maturity" or "trading". Fair values for securities are based on quoted market prices where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments. Gains or losses on the sale of securities are determined using the specific identification method. Currently, the Company has no held-to-maturity or trading securities.

Securities Available-for-Sale

Securities that are held for indefinite periods of time or used as part of the Company's asset/liability management strategy and that may be sold in response to interest rate changes, changes in prepayment risk, the need to increase regulatory capital and other similar factors are classified as available-for-sale. Securities available-for-sale are reported at fair value, with unrealized gains and losses reported, net of related income tax effect, as a separate component of stockholders' equity.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

Realized gains or losses, determined on the basis of the cost of specific securities sold, are included in earnings. The amortization of premiums and accretion of discounts are recognized in interest income.

The Company periodically reviews its securities for impairment based upon a number of factors, including but not limited to, length of time and extent to which the fair value has been less than cost, the likelihood of the security's ability to recover any decline in its fair value, financial condition of the underlying issuer, ability of the issuer to meet contractual obligations and ability to retain the security for a period of time sufficient to allow for recovery in fair value. Impairments on securities are recognized when management, based on its analysis, deems the impairment to be other-than-temporary. Disclosures about unrealized losses in our securities portfolio that have not been recognized as other-than-temporary impairments are provided in Note 3.

Loans and Allowance for Loan Losses

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal amount outstanding, net of unearned income and an allowance for loan losses. The Company has no loans held-for-sale.

Unearned income includes deferred fees net of deferred direct incremental loan origination cost. Unearned income attributable to loans held with a maturity of more than one year is recognized as income or expense over the life of the loan.

Unearned discounts on installment loans are recognized as income over the terms of the loans by a method that approximates the interest method. Unearned income and interest on commercial loans are recognized based on the principal amount outstanding. For all other loans, interest is accrued daily on the outstanding balances. For impaired loans, interest is discontinued on a loan when management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful. Cash collections on impaired loans are credited to the loan receivable balance, and no interest income is recognized on those loans until the principal balance has been collected. The Company generally discontinues the accrual of interest income when a loan becomes 90 days past due as to principal or interest; however, management may elect to continue the accrual when the estimated net realizable value of collateral is sufficient to cover the principal balance and the accrued interest. Interest income on other nonaccrual loans is recognized only to the extent of interest payments. Upon discontinuance of the accrual of interest on a loan, any previously accrued but unpaid interest is reversed against interest income.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

A loan is impaired when management determines that it is probable the Company will be unable to collect all contractual principal and interest payments due in accordance with the terms of the loan agreement. Impaired loans are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. The amount of impairment, if any, and any subsequent changes are included in the allowance for loan losses.

Troubled debt restructurings are those for which concessions have been granted to the borrower due to a deterioration of the borrower's financial condition. Such concessions may include reduction in interest rates or deferral of interest or principal payments. In evaluating whether to restructure a loan, management analyzes the long-term financial condition of the borrower, including guarantor and collateral support, to determine whether the proposed concessions will increase the likelihood of repayment of principal and interest. Restructured loans are classified as performing, unless they are on nonaccrual status of 90 days or more delinquent, in which case they are considered nonperforming.

The allowance for loan losses is established through a provision for loan losses charged against net income. Loans determined to be uncollectible are charged against the allowance for loan losses, and subsequent recoveries, if any, are credited to the allowance. The allowance represents an amount, which, in management's judgment, will be adequate to absorb estimated probable losses on existing loans that may become uncollectible. In order to determine an adequate level of allowance, management utilizes a model that calculates the allowance for loan loss by applying an average historical charge-off percentage by loan segment and over a 20 quarter period of time with the most current quarters weighted to show the effect of the most recent chargeoff activity to the current loan balances in the corresponding loan segment. Additionally, specific reserves on an individual loan basis may be applied in addition to the allowance calculated using the model. This specific reserve is determined by an extensive review of the borrower's credit history, capacity to pay, adequacy of collateral and general economic conditions related to the respective loan. This specific reserve will stay in place until such time that the borrower's obligation is satisfied or the loan is greatly improved.

Large groups of small-balance homogenous loans are collectively evaluated for impairment. Accordingly, the Company does not separately identify individual consumer and residential loans for impairment disclosures.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

Bank Premises, Furniture, Fixtures and Equipment

The Company's premises, furniture, fixtures and equipment are stated at cost less accumulated depreciation computed by straight-line methods over the estimated useful lives of the assets, which range from three to forty years. Costs of major additions and improvements are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

Other Real Estate Owned

Other real estate owned ("OREO") consists of properties repossessed by the Company on foreclosed loans. These assets are stated at fair value at the date acquired less estimated costs to sell. Losses arising from the acquisition of such property are charged against the allowance for loan losses. Declines in value resulting from subsequent revaluation of the property or losses resulting from disposition of such property are expensed as incurred. Revenue and expenses from operations of other real estate owned are reflected as other income (expense).

Cash Surrender Value of Life Insurance

The Company has purchased life insurance contracts on certain employees and directors. Certain of such policies were acquired to fund deferred compensation arrangements with employees and directors. The cash surrender value of the Company owned policies is carried at the actual cash surrender value of the policy at the balance sheet date. Changes in the value of the policies are classified in non-interest income.

Intangible Assets

Intangible assets include core deposits purchased and goodwill. Core deposit intangibles are amortized on a straight-line basis over their estimated economic lives ranging from 5 to 10 years. At December 31, 2013, all core deposit intangibles had been fully amortized. Goodwill and other intangible assets with indefinite lives are not amortized, but are tested at least annually for impairment. Fair values are determined based on market valuation multiples for the Company and comparable businesses based on the assets and cash flow of the Bank, the Company's only reportable segment. If impairment has occurred, the goodwill or other intangible asset is reduced to its estimated fair value through a charge to expense.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

Trust Assets

Assets held by the trust department of the Company in its fiduciary or agency capacities are not assets of the Company and are not included in the consolidated financial statements.

Income Taxes

Provisions for income taxes are based on taxes payable or refundable for the current year and the changes in deferred tax assets and liabilities, excluding components of other comprehensive income. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Comprehensive (Loss) Income

Comprehensive income includes net earnings reported in the consolidated statements of income and changes in unrealized gain (loss) on securities available-for-sale reported as a component of stockholders' equity. Unrealized gain (loss) on securities available-for-sale, net of related income taxes, is the only component of accumulated other comprehensive income for the Company.

Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

Net Income Per Share

Net income per share-basic is computed by dividing net income by the weighted average number of common shares outstanding during the year. Net income per share-diluted is based on the weighted average number of shares of common stock outstanding for the periods, including the dilutive effect of the Company's outstanding stock options. The effect of the dilutive shares for the years 2013, 2012 and 2011 is illustrated in the following table.

	2013	2012	2011
Basic weighted average shares outstanding	4,868,263	4,857,798	4,842,353
Dilutive effect of stock options	1,504	8,067	6,456
Dilutive weighted average shares outstanding	4,869,767	4,865,865	4,848,809
Net income	\$ 7,149,860	\$ 6,783,999	\$ 7,217,847
Net income per share-basic	\$ 1.47	\$ 1.40	\$ 1.49
Net income per share-diluted	\$ 1.47	\$ 1.39	\$ 1.49

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 1. Continued**

Advertising Costs

Advertising costs are charged to expense when incurred. Advertising expense was \$621,216, \$636,652 and \$730,496 for the years ended December 31, 2013, 2012 and 2011, respectively.

Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase are accounted for as collateralized financing transactions and are recorded at the amounts at which the securities were sold. Securities, generally U. S. Government, federal agency and state county municipal securities, pledged as collateral under these financing arrangements cannot be sold or re-pledged by the secured party.

Reclassifications

Certain information for 2011 and 2012 has been reclassified to conform to the financial presentation for 2013. Such reclassifications had no effect on net income or stockholders' equity.

Stock-Based Compensation

At December 31, 2013, the Company had outstanding grants under two stock-based compensation plans, which are the 1999 Employees' Long-Term Incentive Plan, which expired in 2009, and the 1999 Directors' Stock Compensation Plan. Compensation expense for the option grants is determined based on the estimated fair value of the stock options on the applicable grant date. Further, compensation expense is based on an estimate of the number of grants expected to vest and is recognized over the grants' implied vesting period of 6 months and 1 day. The Company did not estimate any forfeitures for 2013, 2012 or 2011, due to the low historical forfeiture rate. Expense associated with the Company's stock based compensation is included in salaries and benefits on the Consolidated Statements of Income. The Company recognizes compensation expense for all share-based payments to employees in accordance with ASC 718, "Compensation – Stock Compensation." See Note 18 for further details regarding the Company's stock-based compensation.

Subsequent Events

The Company has evaluated, for consideration of recognition or disclosure, subsequent events that have occurred through the date of issuance of its financial statements, and has determined that no significant events occurred after December 31, 2011 but prior to the issuance of these financial statements that would have a material impact on its Consolidated Financial Statements.

Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 2. Intangible Assets**

In 2002, the Company acquired CB&T Capital Corporation, a one-bank holding company, whose wholly-owned subsidiary was Citizens Bank & Trust Company in Louisville, Mississippi. In addition to the intangible assets related to the purchase of CB&T Capital Corporation, the Company recorded intangible assets from the purchase of branches located in Kosciusko and Scooba, Mississippi and from the purchase of Three D Mortgage Company. The following table details the goodwill associated with each purchase, which is no longer being amortized, in accordance with ASC Topic 350, *Intangibles- Goodwill and Other*.

Purchase	Total
Kosciusko Branch	\$ 295,837
Scooba Branch	220,000
Three D Mortgage Company	66,220
CB&T Capital Corporation	<u>2,567,600</u>
Total goodwill	<u>\$ 3,149,657</u>

The Company has also allocated intangible assets to be recognized as core deposit intangibles from the CB&T Capital Corporation acquisition. The core deposit intangible balance is detailed as follows:

Purchase	Total	Life to Date Amortization	Unamortized Balance
CB&T Capital Corporation	<u>\$ 1,846,909</u>	<u>\$ 1,846,909</u>	<u>\$ -</u>
Total core deposit intangible	<u>\$ 1,846,909</u>	<u>\$ 1,846,909</u>	<u>\$ -</u>

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 3. Continued**

**Investment Securities.**

The Company's unrealized losses on its Obligations of U. S. Government agencies, Mortgage backed securities and State, County and Municipal bonds are the result of upward trend in interest rates, mainly in the mid-term sector. None of the unrealized losses disclosed in the previous table are related to credit deterioration. The Company has determined that none of the securities in this classification are other-than-temporarily impaired at December 31, 2013 or 2012.

**Other investments.** The Company's unrealized loss on other investments relates to an investment in a pooled trust preferred security. The decline in value of the pooled trust preferred security is related to the deterioration of the markets for these types of securities brought about by the lowered credit ratings and past deferrals and defaults of the underlying issuing financial institutions. However, due to the reductions in defaults and deferrals during the year, the unrealized losses have improved from \$287,209 in 2012 to \$259,248 in 2013. The Company owns a senior tranche of this security and therefore has a higher degree of which future deferrals and defaults would be required before the cash flow for the Company's tranche is negatively impacted. The Company does not intend to sell this security and it is not more likely than not that the Company will be required to sell at a price less than amortized cost prior to maturity. Given these factors, the Company does not consider the investment to be other-than-temporarily impaired at December 31, 2013 or 2012. This security is not subject to any of the restrictions put forth under the Volcker Rule that was brought about by the passage of the Dodd-Frank Act.

The amortized cost and estimated fair value of securities at December 31, 2013, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	<b>Amortized Cost</b>	<b>Fair Value</b>
Securities available-for-sale		
Due in one year or less	\$ 2,429,035	2,448,452
Due after one year through five years	25,040,034	26,060,534
Due after five years through ten years	106,046,230	101,286,491
Due after ten years	298,550,291	268,380,925
	<hr/>	<hr/>
Total	\$ 432,065,590	398,176,402
	<hr/>	<hr/>

Investment securities with carrying values of \$133,977,764 and \$107,788,715 at December 31, 2013 and 2012, respectively, were pledged as collateral for public deposits.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 3. Continued**

Gross realized gains and losses are included in net gains on sales of securities. Total gross realized gains and gross realized losses from the sale of investment securities for each of the years ended December 31 were:

	<b>2013</b>		<b>2012</b>		<b>2011</b>	
Gross realized gains	\$	1,039,793	\$	459,934	\$	715,223
Gross realized losses		616,405		-		-
	\$	423,388	\$	459,934	\$	715,223

**Note 4. Federal Home Loan Bank Stock**

The Company, as a member of the Federal Home Loan Bank of Dallas (“FHLB”) system, owns stock in the organization. No ready market exists for the stock, and it has no quoted market value. The Company’s investment in the FHLB is carried at cost of \$2,633,300 and \$3,235,300 at December 31, 2013 and 2012, respectively, and is included in other assets. The Company has purchased stock and had stock redeemed in 2013 and 2012 at the par value of \$100 per share.

While the Federal Home Loan Banks have been negatively impacted by the current economic conditions, the Federal Home Loan Bank of Dallas reported profits for 2013 and 2012, as of 2012 and 2013, was in compliance with its regulatory capital and liquidity requirements, and in 2012 and 2013, continued to pay dividends on its stock and make redemptions at the par value. With consideration given to these factors, management concluded that the stock was not impaired at December 31, 2013 or 2012.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 5. Loans**

The composition of loans, net at December 31, 2013 and 2012 is as follows:

	<b>2013</b>	<b>2012</b>
	<b>(In Thousands)</b>	
Real Estate:		
Land Development and Construction	\$ 27,224	\$ 12,755

Consumer Loans:		
Credit Cards	1,087	1,050
Other Consumer Loans	26,744	28,341
Total Consumer Loans	<u>27,831</u>	<u>29,391</u>
Total Gross Loans	<u>392,668</u>	<u>369,138</u>
Unearned income	(485)	(248)
Allowance for loan losses	<u>(8,078)</u>	<u>(6,954)</u>
Loans, net	<u>\$ 384,105</u>	<u>\$ 361,936</u>

The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews these policies and procedures and submits them to the Company's Board of Directors for its approval when needed, but no less frequently than annually. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies and non-performing and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions.

The Company maintains an independent loan review department that reviews and validates the credit risk program on a periodic basis. Results of this review are presented to management with quarterly reports made to the board of directors. The loan review process complements and reinforces the risk identification and assessment decisions made by the lenders and credit personnel, as well as the Company's policies and procedures.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 5. Continued**

Loans are made principally to customers in the Company's market. The Company's lending policy provides that loans collateralized by real estate are normally made with loan-to-value ratios of 80 percent or less. Commercial loans are typically collateralized by property, equipment, inventories or receivables with loan-to-value ratios from 50 percent to 80 percent. Real estate mortgage loans are collateralized by personal residences with loan-to-value ratios of 80 percent or less. Consumer loans are typically collateralized by real estate, vehicles and other consumer durable goods. Approximately \$54.8 million and \$51.1 million of the loans outstanding at December 31, 2013 and 2012, respectively, were variable rate loans.

In the ordinary course of business, the Company has granted loans to certain directors and their affiliates (collectively referred to as "related parties"). These loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other unaffiliated persons and do not involve more than normal risk of collectability. Activity in related party loans during 2013 is presented in the following table.

Balance outstanding at December 31, 2012	\$ 1,853,223
Principal additions	525,049
Principal reductions	<u>1,051,945</u>
Balance outstanding at December 31, 2013	<u><u>\$ 1,326,327</u></u>

Loans are considered to be past due if the required principal and interest payments have not been received as of the date such payments were due. Loans are placed on non-accrual status, when, in management's opinion, the borrower may be unable to meet payment obligations as they become due, as well as when required by regulatory provisions. Loans may be placed on non-accrual status regardless of whether such loans are considered past due. When interest accruals are discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 5. Continued**

Year-end non-accrual loans, segregated by class of loans, were as follows:

	2013	2012
	(in thousands)	
Real Estate:		
Land Development and Construction	\$ 136	\$ 142
Farmland	352	1,087
1-4 Family Mortgages	1,866	2,356
Commercial Real Estate	8,894	10,175
Total Real Estate Loans	11,248	13,760
Business Loans:

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 5. Continued**

Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect all the amounts due in accordance with the original contractual terms of the loan agreement, including scheduled principal and interest payments. In determining which loans to evaluate for impairment, management looks at past due loans, bankruptcy filings and any situation that might lend itself to cause a borrower to be unable to repay the loan according to the original contract terms. If a loan is determined to be impaired and the collateral is deemed to be insufficient to fully repay the loan, a specific reserve will be established. Interest payments on impaired loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis. Impaired loans or portions thereof, are charged-off when deemed uncollectible.

Impaired loans as of December 31, by class of loans, are as follows (in thousands):

<u>2013</u>	Unpaid Principal Balance	Recorded Investment With No Allowance	Recorded Investment With Allowance	Total Recorded Investment	Related Allowance	Average Recorded Investment

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 5. Continued**

The following table presents troubled debt restructurings segregated by class (in thousands, except number of loans):

December 31, 2013	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Commercial real estate	5	\$ 9,261	\$ 7,119
Total	5	\$ 9,261	\$ 7,119

December 31, 2012	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Commercial real estate	4	\$ 6,850	\$ 5,602
Total	4	\$ 6,850	\$ 5,602

Changes in the Company's troubled debt restructurings are set forth in the table below:

	Number of Loans	Recorded Investment
Totals at January 1, 2013	4	\$ 5,602
Additional loans with concessions	1	2,411
Reductions due to:		
Writedown		(333)
Principal paydowns		(561)
Total at December 31, 2013	5	\$ 7,119

The allocated allowance for loan losses attributable to restructured loans was \$1,196,274 and \$42,850 at December 31, 2013 and 2012, respectively.

The Company had no remaining availability under commitments to lend additional funds on these troubled debt restructurings at December 31, 2013.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 5. Continued**

The Corporation utilizes a risk grading matrix to assign a risk grade to each of its loans when originated and is updated as factors related to the strength of the loan changes. Loans are graded on a scale of 1 to 9. A description of the general characteristics of the 9 risk grades is as follows.

Grade 1. MINIMAL RISK - These loans are without loss exposure to the Corporation. This classification is reserved for only the best, well secured loans to borrowers with significant capital strength, low leverage, stable earnings and growth and other readily available financing alternatives. This type of loan would also include loans secured by a program of the government.

Grade 2. MODEST RISK - These loans include borrowers with solid credit quality and moderate risk of loss. These loans may be fully secured by certificates of deposit with another reputable financial institution, or secured by readily marketable securities with acceptable margins.

Grade 3. AVERAGE RISK - This is the rating assigned to most of the loans held by the Corporation. This includes loans with average loss exposure and average overall quality. These loans should liquidate through possessing adequate collateral and adequate earnings of the borrower. In addition, these loans are properly documented and are in accordance with all aspects of the current loan policy.

Grade 4. ACCEPTABLE RISK - Borrower generates sufficient cash flow to fund debt service but most working asset and capital expansion needs are provided from external sources. Profitability and key balance sheet ratios are usually close to peers but one or more may be higher than peers.

Grade 5. MANAGEMENT ATTENTION - Borrower has significant weaknesses resulting from performance trends or management concerns. The financial condition of the borrower has taken a negative turn and may be temporarily strained. Cash flow is weak but cash reserves remain adequate to meet debt service. Management weakness is evident.

Grade 6. OTHER LOANS ESPECIALLY MENTIONED (OLEM) - Loans in this category are fundamentally sound but possess some weaknesses. OLEM loans have potential weaknesses, which may, if not checked or corrected, weaken the asset or inadequately protect the Bank's credit position at some future date. These loans have an identifiable weakness in credit, collateral, or repayment ability but there is no expectation of loss.

Grade 7. SUBSTANDARD ASSETS - Assets classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets classified as substandard must have a well-defined weakness based upon objective evidence. Assets classified as substandard are characterized by the distinct possibility that the

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 5. Continued**

insured institution will sustain some loss if the deficiencies are not corrected. The possibility that liquidation would not be timely requires a substandard classification even if there is little likelihood of total loss.

Grade 8. DOUBTFUL - A loan classified as doubtful has all the weaknesses of a substandard classification and the added characteristic that the weakness makes collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable or improbable. The possibility of loss is extremely high, but because of certain important and reasonable specific pending factors that may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until its more exact status may be determined. A doubtful classification could reflect the fact that the primary source of repayment is gone and serious doubt exists as to the quality of a secondary source of repayment.

Grade 9. LOSS - Loans classified loss are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the asset has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this basically worthless asset even though partial recovery may occur in the future. Also included in this classification is the defined loss portion of loans rated substandard assets and doubtful assets.

These internally assigned grades are updated on a continual basis throughout the course of the year and represent management's most updated judgment regarding grades at December 31, 2013.

The allowance for loan losses is a reserve established through a provision for possible loan losses charged to expense, which represents management's best estimate of probable losses that will occur within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio.

The allowance on the majority of the loan portfolio is calculated using a historical chargeoff percentage applied to the current loan balances by loan segment. This historical period is the average of the previous 5 years with the most current years weighted to show the effect of the most recent chargeoff activity. This percentage is also adjusted for economic factors such as unemployment and general business conditions, both local and nationwide.

The group of loans that are considered to be impaired are individually evaluated for possible loss and a specific reserve is established to cover any loss contingency. Loans that are determined to be a loss with no benefit of remaining in the portfolio are charged off to the allowance. These specific reserves are reviewed periodically for continued impairment and adequacy of the specific reserve and adjusted when necessary.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 5. Continued**

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 5. Continued**

The Company's recorded investment in loans as of December 31, 2013 and 2012 related to each balance in the allowance for possible loan losses by portfolio segment and disaggregated on the basis of the Company's impairment methodology was as follows (in thousands):

<b>2013</b>	Real Estate	Business Loans	Consumer	Total
Loans individually evaluated for impairment	\$ 11,248	\$ 2,224	\$ 120	\$ 13,592
Loans collectively evaluated for impairment	296,468	54,897	27,711	379,076
	<u>\$ 307,716</u>	<u>\$ 57,121</u>	<u>\$ 27,831</u>	<u>\$ 392,668</u>
<b>2012</b>	Real Estate	Business Loans	Consumer	Total
Loans individually evaluated for impairment	\$ 13,760	\$ 170	\$ 212	\$ 14,142
Loans collectively evaluated for impairment	278,990	46,827	29,179	354,996
	<u>\$ 292,750</u>	<u>\$ 46,997</u>	<u>\$ 29,391</u>	<u>\$ 369,138</u>

**Note 6. Bank Premises, Furniture, Fixtures and Equipment**

Bank premises, furniture, fixtures and equipment consist of the following at December 31, 2013 and 2012:

	<b>2013</b>	<b>2012</b>
Land and buildings	\$ 23,291,103	\$ 23,235,058
Furniture, fixtures and equipment	14,257,831	13,975,261
	<u>37,548,934</u>	<u>37,210,319</u>
Less accumulated depreciation	18,925,780	17,785,027
Total	<u>\$ 18,623,154</u>	<u>\$ 19,425,292</u>

Depreciation expense for the years ended December 31, 2013, 2012 and 2011 was \$1,140,753, \$1,149,029 and \$1,181,257, respectively.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 7. Deposits**

The composition of deposits as of December 31, is as follows:

	<b>2013</b>	<b>2012</b>
Non-interest bearing	\$ 120,424,895	\$ 119,946,574
NOW and money market accounts	248,015,410	228,111,275
Savings deposits	53,745,787	46,240,652
Time deposits, \$100,000 or more	124,886,164	131,935,125
Other time deposits	107,557,540	116,315,712
Total	<u>\$ 654,629,796</u>	<u>\$ 642,549,338</u>

The scheduled maturities of time deposits at December 31, 2013 are as follows:

<b>Year Ending December 31,</b>	<b>Amount</b>
2014	\$ 196,696,024
2015	33,234,264
2016	2,359,252
2017	56,684
2018	97,480
	<u>\$ 232,443,704</u>

Interest expense for time deposits over \$100,000 was approximately \$754,000, \$996,000 and \$1,158,000 for the years ended December 31, 2013, 2012 and 2011, respectively.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**Note 8. Federal Home Loan Bank Advances**

Pursuant to collateral agreements with the FHLB, advances are collateralized by all of the Bank's FHLB stock (\$2,633,300 included in other assets at December 31, 2013) and qualifying first mortgages and other loans. As of December 31, 2013, the balance in qualifying first mortgages and other loans was \$145,282,544. At December 31, 2013 and 2012, advances from the FHLB, along with their rate and maturity date, consist of the following:

<b>Advance Amount at December 31,</b>		<b>Interest Rate</b>	<b>Final Maturity</b>
<b>2013</b>	<b>2012</b>		
-	10,000,000	3.66	June 17, 2013
-	15,000,000	3.07	June 24, 2013
-	10,000,000	3.24	July 16, 2013
-	10,000,000	3.66	July 16, 2013
10,000,000	-	0.16	January 21, 2014
3,500,000	3,500,000	4.67	December 16, 2014
20,000,000	20,000,000	2.53	January 09, 2018
<u>\$ 33,500,000</u>	<u>\$ 68,500,000</u>		

The scheduled payments for the next five years are as follows:

<b>Year Due</b>	<b>Payment</b>
2014	13,500,000
2015	-
2016	-
2017	-
2018	20,000,000
Thereafter	-
	<u>\$ 33,500,000</u>

Other expenses	3,081,797	2,770,430	2,671,150
Total other expense	<u>\$ 7,220,876</u>	<u>\$ 7,875,192</u>	<u>\$ 7,878,439</u>

Other losses in 2013, 2012 and 2011 include the write-down on Other Real Estate Owned in the amount of \$276,400, \$309,797 and \$265,876, respectively.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 10. Income Taxes**

The consolidated provision for income taxes consists of the following:

	<b>2013</b>	<b>2012</b>	<b>2011</b>
Currently payable			
Federal	\$ 2,335,959	\$ 1,917,068	\$ 1,677,406
State	284,044	270,114	211,796
	<u>2,620,003</u>	<u>2,187,182</u>	<u>1,889,202</u>
Deferred tax benefit	(850,100)	(536,374)	(572,140)
Income tax expense	<u>\$ 1,769,903</u>	<u>\$ 1,650,808</u>	<u>\$ 1,317,062</u>

The differences between income taxes calculated at the federal statutory rate and income tax expense were as follows:

	<b>2013</b>	<b>2012</b>	<b>2011</b>
Federal taxes based on statutory rate	\$ 3,032,719	\$ 2,867,834	\$ 2,901,869
State income taxes, net of federal benefit	187,469	178,275	139,785
Tax-exempt investment interest	(1,159,571)	(1,231,567)	(1,201,271)
Other, net	<u>(290,714)</u>	<u>(163,734)</u>	<u>(523,321)</u>
Income tax expense	<u>\$ 1,769,903</u>	<u>\$ 1,650,808</u>	<u>\$ 1,317,062</u>

At December 31, 2013 and 2012, net deferred tax assets consist of the following:

	<b>2013</b>	<b>2012</b>
Deferred tax assets		
Allowance for loan losses	\$ 3,012,907	\$ 2,593,942
Deferred compensation liability	2,506,541	2,207,288
Intangible assets	154,037	215,797
Unrealized loss on available-for-sale securities	12,640,667	-
Other	<u>689,235</u>	<u>678,366</u>
Total	19,003,387	5,695,393
Deferred tax liabilities		
Premises and equipment	1,056,263	1,197,848
Unrealized gain on available-for-sale securities	-	2,586,339
Other	<u>152,844</u>	<u>194,033</u>
Total	<u>1,209,107</u>	<u>3,978,220</u>
Net deferred tax asset	<u>\$ 17,794,280</u>	<u>\$ 1,717,173</u>

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 10. Continued**

The net deferred tax asset of \$17,794,280 and \$1,717,173 at December 31, 2013 and 2012, respectively, is included in other assets. The Company has evaluated the need for a valuation allowance related to the above deferred tax assets and, based on the weight of the available evidence, has determined that it is more likely than not that all deferred tax assets will be realized.

As of December 31, 2013, the Company has no unrecognized tax benefits related to federal and state income tax matters. As of December 31, 2013, the Company has not accrued for interest and penalties related to uncertain tax positions. It is the Company's policy to recognize interest or penalties related to income tax matters in income tax expense.

The Company and the Bank file a consolidated U. S. federal income tax return. The Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2010 through 2013. The Company and Bank's state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2010 through 2013.

**Note 11. Summarized Financial Information of Citizens Holding Company**

Summarized financial information of Citizens Holding Company, excluding the Bank, at December 31, 2013 and 2012, and for the years ended December 31, 2013, 2012 and 2011, is as follows:

**Balance Sheets**  
December 31, 2013 and 2012

	<b>2013</b>	<b>2012</b>
Assets		
Cash (1)	\$ 1,750,766	\$ 1,657,268

The Bank is required to obtain approval from state regulators before paying dividends. The Bank paid dividends of \$4,332,000, \$4,332,000 and \$4,332,000 to the Citizens Holding Company during the years ended December 31, 2013, 2012 and 2011, respectively.

**Note 12. Related Party Transactions**

The Company had, and may be expected to have in the future, banking transactions in the ordinary course of business with directors, significant stockholders, principal officers, their immediate families, and affiliated companies in which they are principal stockholders (commonly referred to as related parties). In management's opinion, such loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated parties, and do not involve more than the normal risk of collectability at the time of the transaction.

Activity in related party loans is detailed in tabular form in Note 5 of the notes to the Financial Statements.

Deposits from related parties at December 31, 2013 and 2012 approximated \$3,698,844 and \$5,903,725, respectively.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 13. Off-Balance Sheet Financial Instruments, Commitments and Contingencies and Concentrations of Risks**

Commitments to Extend Credit

In the ordinary course of business, the Company makes various commitments and incurs certain contingent liabilities to fulfill the financing needs of its customers. These commitments and contingent liabilities include commitments to extend credit and issue standby letters of credit. They involve, to varying degrees, elements of credit risk in excess of the amount recognized in the balance sheets. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments. At December 31, 2013 and 2012, commitments related to unused lines of credit were \$40,701,380 and \$45,428,316, respectively, and standby letters of credit were \$2,809,330 and \$2,892,830, respectively. The fair value of such commitments is not materially different than stated values. As some of these commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company applies the same credit policies and standards as it does in the lending process when making these commitments. The collateral obtained is based upon the assessed credit worthiness of the borrower. Collateral held varies, but may include accounts receivable, crops, livestock, inventory, property and equipment, residential real estate and income-producing commercial properties.

Interest Rate Risk

The Company is principally engaged in providing short-term and medium-term installment, commercial and agricultural loans with interest rates that are fixed or fluctuate with the prime lending rate. These assets are primarily funded through short-term demand deposits and long-term certificates of deposit with variable and fixed rates. Accordingly, the Company is exposed to interest rate risk because in changing interest rate environments interest rate adjustments on assets and liabilities may not occur at the same time or in the same amount. The Company manages the overall rate sensitivity and mix of its asset and liability portfolio and attempts to minimize the effects that interest rate fluctuations will have on its net interest margin.

Legal Proceedings

The Company is party to lawsuits and other claims that arise in the ordinary course of business. The lawsuits assert claims related to the general business activities of the Company. The cases are being vigorously contested. In the regular course of business, management evaluates estimated losses or costs related to litigation, and provision is made for anticipated losses whenever management believes that such losses are probable and can be reasonably estimated. While management believes that the final resolution of pending legal proceedings will not have a material impact on the Company's financial position or results of operations, the final resolution of such proceedings could have a material adverse effect.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 13. Continued**

Concentration of Risk

The Company makes agricultural, agribusiness, commercial, residential and consumer loans primarily in eastern central Mississippi. A substantial portion of the customers' abilities to honor their contracts is dependent on their business and the agricultural economy in the area.

Although the Company's loan portfolio is diversified, there is a relationship in this region between the agricultural economy and the economic performance of loans made to nonagricultural customers. The Company's lending policies for agricultural and nonagricultural customers require loans to be well-collateralized and supported by cash flows. Collateral for agricultural loans includes equipment, crops, livestock, and land. Credit losses from loans related to the agricultural economy are consistent with credit losses experienced in the portfolio as a whole. The concentration of credit in the regional agricultural economy is taken into consideration by management in determining the allowance for loan losses. See Note 5 for a summary of loans by type.

**Note 14. Lease Commitment and Total Rental Expense**

The Company has operating leases under non-cancellable operating lease agreements for banking facilities and equipment. Future minimum rental payments due under the leases are as follows:

<b>Years Ending December 31,</b>	<b>Amounts</b>
2014	\$ 452,928
2015	378,444
2016	378,444
2017	378,444
2018	378,444
	<u>\$ 1,966,704</u>

The total rental expense included in the income statements for the years ended December 31, 2013, 2012 and 2011 is \$150,333, \$177,416 and \$145,207, respectively.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 15. Benefit Plans**

The Company provides its employees with a profit sharing and savings plan, which allows employees to direct a percentage of their compensation into a tax deferred retirement account, subject to statutory limitations. To encourage participation, the Company provides a 50 percent matching contribution for up to 6 percent of each participant's compensation, plus discretionary non-matching contributions. Employees are eligible after one year of service. For 2013, 2012 and 2011, the Company's contributions were \$511,984, \$778,724 and \$786,824, respectively.

Deferred Compensation Plans

The Company provides a deferred compensation plan covering its directors. Participants in the deferred compensation plan can defer a portion of their compensation for payment after attaining age 70. Life insurance contracts have been purchased which may be used to fund payments under the plan. Net expenses related to this plan were \$157,017, \$26,862 and \$75,327 for the plan years ended December 31, 2013, 2012 and 2011, respectively.

The Company has also entered into deferred compensation arrangements with certain officers that provide for payments to such officers or their survivors after retirement. Life insurance policies have been purchased that may be used to fund payments under these arrangements. The obligations of the Company under both the directors and officers deferred compensation arrangements are expensed on a systematic basis over the remaining expected service period of the individual directors and officers. Net expenses related to this plan were \$804,755, \$882,904 and \$844,184 for the plan years ended December 31, 2013, 2012 and 2011, respectively.

**Note 16. Regulatory Matters**

The Company (on a consolidated basis) and the Bank are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet the minimum regulatory capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material adverse effect on the Company.

Under the regulatory capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company must meet specific capital guidelines involving quantitative measures of the Company's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Company's capital amounts and classification under the prompt corrective action guidelines are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Quantitative measures established by regulation to ensure capital adequacy require the Company to maintain minimum amounts and ratios of total capital and Tier I capital to risk-weighted assets (as defined in the regulations) and Tier I capital to average assets (as defined in the regulations). Management believes, as of December 31, 2013, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 16. Continued**

As of December 31, 2013 and 2012, the most recent regulatory notification categorized the Bank as well capitalized. There have been no conditions or events that would cause changes to the capital structure of the Company since this notification. To continue to be categorized as well capitalized under the regulatory framework for prompt corrective action, the Company would have to maintain minimum total risk-based, Tier I risk-based, and Tier I leverage ratios as disclosed below, in comparison with actual capital amounts and ratios:

	<b>Actual</b>		<b>For Capital Adequacy Purposes</b>		<b>To Be Well Capitalized under Prompt Corrective Action Provisions</b>

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 17. Fair Values of Financial Instruments**

Under the authoritative guidance on fair value measurements, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. Based on these approaches, the Company often utilizes certain assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the three following categories:

- |         |  |
|---------|--|
| Level 1 | Quoted prices in active markets for identical assets or liabilities;   |
| Level 2 | Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or |
| Level 3 | Unobservable inputs, such as discounted cash flow models or valuations.  |

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value estimates, methods and assumptions used by the Company in estimating its fair value disclosures for financial instruments were:

Cash and Due from Banks and Interest Bearing Deposits with Banks

The carrying amounts reported in the balance sheet for these instruments approximate fair value because of their immediate and shorter-term maturities, which is considered to be three months or less at the time of purchase.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 17. Continued**

Securities Available-for-Sale

Fair values for investment securities are based on quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments (Level 2). When neither quoted prices nor comparable instruments are available, unobservable inputs are needed to form an expected future cash flow analysis to establish fair values (Level 3).

The Company owns certain beneficial interests in one collateralized debt obligation secured by community bank trust preferred securities. These interests do not trade in a liquid market, and therefore, market quotes are not a reliable indicator of their ultimate realizability. The Company utilizes a discounted cash flow model using inputs of (1) market yields of trust-preferred securities as the discount rate and (2) expected cash flows which are estimated using assumptions related to defaults, deferrals and prepayments to determine the fair values of these beneficial interests. Many of the factors that adjust the timing and extent of cash flows are based on judgment and not directly observable in the markets. Therefore, these fair values are classified as Level 3 valuations for accounting and disclosure purposes. Since observable transactions in these securities are extremely rare, the Company uses assumptions that a market participant would use in valuing these instruments. These assumptions primarily include cash flow estimates and market discount rates. The cash flow estimates are sensitive to the assumptions related to the ability of the issuers to pay the underlying trust preferred securities according to their terms. The market discount rates depend on transactions, which are rare given the lack of interest of investors in these types of beneficial interests.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 17. Continued**

The following table reports the activity in assets measured at fair value on a recurring basis using significant unobservable inputs, during the years ended December 31, 2013 and 2012.

	2013	2012
Balance at January 1	\$ 2,806,253	\$ 2,029,295
Principal payments received	(68,012)	-
Unrealized gains included in other comprehensive income	27,962	776,958
Balance at December 31	<u>\$ 2,766,203</u>	<u>\$ 2,806,253</u>

The amount of total gains or losses for the period included in earnings attributable to the change in unrealized gains

As of December 31, 2013 and 2012, management determined, based on the current credit ratings, known defaults and deferrals by the underlying banks and the degree to which future defaults and deferrals would be required to occur before the cash flow for the Company's tranche is negatively impacted, that no other-than-temporary impairment exists.

The Company recorded no gains or losses in earnings for the period that were attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

Net Loans

For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans (i.e., commercial real estate and rental property mortgage loans, commercial and industrial loans, financial institution loans, and agricultural loans) are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 17. Continued**

Impaired Loans

Loans considered impaired are reserved for at the time the loan is identified as impaired taking into account the fair value of the collateral less estimated selling costs. Collateral may be real estate and/or business assets including but not limited to, equipment, inventory and accounts receivable. The fair value of real estate is determined based on appraisals by qualified licensed appraisers. The fair value of the business assets is generally based on amounts reported on the business's financial statements. Appraised and reported values may be adjusted based on management's historical knowledge, changes in market conditions from the time of valuation and management's knowledge of the client and the client's business. Since not all valuation inputs are observable, these nonrecurring fair value determinations are classified Level 3. Impaired loans are reviewed and evaluated on at least a quarterly basis for additional impairment and adjusted accordingly, based on the same factors previously identified.

Other real estate owned

OREO is comprised of commercial and residential real estate obtained in partial and total satisfaction of loan obligations. OREO acquired in settlement of indebtedness is recorded at fair value of the real estate, less costs to sell. Subsequently, it may be necessary to record nonrecurring fair value adjustments for decline in fair value. Fair value, when recorded, is determined based on appraisals by qualified licensed appraisers and adjusted for management's estimates of costs to sell. As such, values for OREO are classified as Level 3.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 17. Continued**

The following table presents assets measured at fair value on a nonrecurring basis during December 31, 2013 and 2012 and were still held at those respective dates:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Totals
<u>December 31, 2013</u>				
Impaired loans	\$ -	\$ -	\$ 8,782,923	\$ 8,782,923
Other real estate owned	-	-	645,468	645,468
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,428,391</u>	<u>\$ 9,428,391</u>
<u>December 31, 2012</u>				
Impaired loans	\$ -	\$ -	\$ 4,099,031	\$ 4,099,031
Other real estate owned	-	-	2,469,110	2,469,110
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,568,141</u>	<u>\$ 6,568,141</u>

Impaired loans with a carrying value of \$11,079,526 and \$5,192,258 had an allocated allowance for loan losses of \$2,296,603 and \$1,093,227 at December 31, 2013 and 2012, respectively. The allocated allowance is based on the carrying value of the impaired loan and the fair value of the underlying collateral less estimated costs to sell.

After monitoring the carrying amounts for subsequent declines or impairment after foreclosure, management determined that a fair value adjustment to OREO in the amount of \$276,400 and \$309,797 was necessary and was recorded during the year ended December 31, 2013 and 2012, respectively.

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 17. Continued**

Federal Funds Sold and Securities Sold Under Agreement to Repurchase

Due to the short term nature of these instruments, the carrying amount is equal to the fair value.

Deposits

The fair values for demand deposits, NOW and money market accounts and savings accounts are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). The carrying amounts for variable-rate, fixed-term money market accounts and time deposits approximate their fair values at the reporting date. Fair values for fixed-rate time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on similar deposits to a schedule of aggregated expected monthly maturities on time deposits.

Federal Home Loan Bank Borrowings

The fair value of FHLB advances is based on discounted cash flow analysis.

Off-Balance Sheet Instruments

The fair value of commitments to extend credit and letters of credit are estimated using fees currently charged to enter into similar agreements. The fees associated with these financial instruments are not material.

**Note 18. Stock Options**

The Company has a directors' stock compensation plan and had an employees' long-term incentive plan. Under the directors' plan, the Company may grant options for up to 210,000 shares of common stock. The price of each option is equal to the market price determined as of the option grant date. Options granted are exercisable after six months and expire after 10 years. The employee plan expired on April 13, 2009 and no options have been granted since this date. The options previously granted under the employee plan expire 10 years from the grant date. The exercise price is equal to the market price of the Company's stock on the date of grant. The Company has adopted the 2013 Incentive Compensation Plan (the "2013 Plan") which the Company intends to use for all future equity grants until the termination of the 2013 Plan. No awards have been granted under the 2013 Plan.

The fair value of each option granted is estimated on the date of the grant using the Black-Sholes option-pricing model. The following assumptions were used in estimating the fair value of the options granted in 2012 and 2011. No options were granted in 2013 therefore no calculations were required in 2013 to determine fair values.

**DIRECTORS**

<b><u>Assumption</u></b>	<b>2012</b>	<b>2011</b>

**CITIZENS HOLDING COMPANY**  
Years Ended December 31, 2013, 2012 and 2011

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**Note 18. Continued**

The following table presents the outstanding stock options granted in relation to the option price and the weighted average maturity.

Range of Exercise Prices	Options Outstanding	Weighted Average Price	Weighted Average Life Remaining
\$15.01 to \$20.00	36,000	18.79	5 years, 1 month
\$20.01 to \$22.50	99,500	21.39	2 years, 5 months
\$22.51 and above	50,000	24.11	3 years, 5 months
Total	185,500	\$21.64	3 years, 2 months

The intrinsic value of options granted under the Directors' Plan at December 31, 2013 was \$7,200 and the intrinsic value of the Employees' Plan at December 31, 2013 was \$900 for a total intrinsic value at December 31, 2013 of \$8,100. Additionally, the total intrinsic value of options exercised during 2013 and 2012 was \$39,050 and \$32,620, respectively. There was no unrecognized stock-based compensation expense at December 31, 2013.

Management's Discussion and Analysis of Financial Condition and Results of Operations as of  
December 31, 2013, 2012 and 2011

## **OVERVIEW**

The following information discusses the financial condition and results of operations of Citizens Holding Company (the "Company") as of December 31, 2013, 2012 and 2011. In this discussion, all references to the activities, operations or financial performance of the Company reflect the Company's activities, operations and financial performance through its wholly-owned subsidiary, The Citizens Bank of Philadelphia, Mississippi (the "Bank"), unless otherwise specifically noted.

Over the past three years, the Company has experienced growth in total assets and total deposits as management has capitalized on opportunities for organic growth within our market area and the addition of a branch in 2011. The Company has received approval to add two additional branches in 2014. Despite a decrease in 2013, total assets increased over the three-year period by \$54.8 million or 6.7%. In the three-year period, net income increased in 2011, decreased in 2012 and then increased again in 2013. Although the cost of deposits decreased in all three years, the interest received on earning assets decreased at a faster rate and the net interest margin decreased in all three years. Loan loss provisions in 2013 increased after decreasing in 2012. Regardless of the decreases in the interest margins, management believes it has made appropriate provisions for loan losses.

During 2013, the Company's assets decreased by \$7,770,999, or 0.9%, from 2012, loans increased by \$22,168,271, or 6.1% and total deposits increased by \$12,080,458, or 1.9%. Loans increased in 2013 due to the Company's expansion into new market areas and an increase in loan demand. Certificates of deposit ended 2013 at \$232,443,704, or 6.4% lower than 2012. Demand, NOW, savings and money market accounts increased \$27,887,591, or 7.1%, to \$422,186,092 at December 31, 2013.

During 2012, the Company's assets increased by \$26,894,444, or 3.1%, from 2011, loans decreased by \$20,644,034, or 5.4% and total deposits increased by \$70,211,203, or 12.3%. Loans decreased in 2012 due to the continuing downturn in national and local economies and the weak loan demand that resulted from the sluggish economy. Certificates of deposit ended 2012 at \$248,250,837, or 3.0% higher than 2011. Demand, NOW, savings and money market accounts increased \$62,941,350, or 19.0%, to \$394,298,501 at December 31, 2012.

During 2011, the Company's assets increased by \$35,712,722, or 4.4%, from 2010, loans decreased by \$32,916,191, or 7.9% and total deposits increased by \$34,908,413, or 6.5%. Loans decreased in 2011 due to the downturn in national and local economies and the weak loan demand that resulted from the recession. Certificates of deposit ended 2011 at \$240,980,983, or 0.4% lower than 2010. Demand, NOW, savings and money market accounts increased \$33,928,766, or 11.4%, to \$331,357,152 at December 31, 2011.

In 2013, the Company's net income after taxes increased to \$7,149,860, an increase of \$365,861 from 2012. The decrease in rates on earning assets was greater than the decrease in rates paid on deposits in 2013. This decrease was offset by the increase in non-interest income

and a decrease in other operating expenses. Net income for 2013 produced, on a fully diluted basis, earnings per share of \$1.47 compared to \$1.39 in 2012 and \$1.49 for 2011.

In 2012, the Company's net income after taxes decreased to \$6,783,999, a decrease of \$433,848 from 2011. The decrease in rates on earning assets was greater than the decrease in rates paid on deposits in 2012. This decrease was offset by the decrease in the provision for loan losses and other operating expenses causing earnings to decrease slightly. Net income for 2012 produced, on a fully diluted basis, earnings per share of \$1.39 compared to \$1.49 in 2011 and \$1.48 for 2010.

In 2011, the Company's net income after taxes increased to \$7,217,847, an increase of \$55,316 over 2010. The decrease in the rates paid on deposits being greater than the decrease in rates on earning assets was offset by the increase in the provision for loan losses and other operating expenses causing earnings to increase slightly. Net income for 2011 produced, on a fully diluted basis, earnings per share of \$1.49 compared to \$1.48 in 2010 and \$1.45 for 2009.

The Company's return on average assets ("ROA") was 0.81% in 2013, compared to 0.81% in 2012 and 0.87% in 2011. The Company's return on average equity ("ROE") was 9.00% in 2013, 7.71% in 2012 and 8.78% in 2011. During these periods, leverage capital ratios (the ratio of equity to average total assets) increased from 9.47% in 2011 to 9.58% in 2012 and increased again to 9.63% in 2013. The ROE in 2013, 2012 and 2011 is a function of the level of net income during those years. The changes in ROA were also a result of the Company's income increasing in 2011 before decreasing in 2012 and again increasing in 2013 and also affected by the change in total assets during these time periods. The Company set the annual dividend payout rate to approximately 59.86% of 2013 earnings per share, as compared to 62.86% in 2012 and 59.06% in 2011. The leverage capital ratio of 9.63% in 2013 remains well above the regulatory requirement of 5% to be considered "well capitalized" under applicable Federal Deposit Insurance Corporation (the "FDIC") guidelines for the Bank.

## **CRITICAL ACCOUNTING POLICIES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The accounting policy most important to the presentation of our financial statements relates to the allowance for loan loss and the related provision for loan losses. The allowance for loan losses is available to absorb probable credit losses inherent in the entire loan portfolio. The appropriate level of the allowance is based on a monthly analysis of the loan portfolio and represents an amount that management deems adequate to provide for inherent losses, including collective impairment as recognized under ASC Subtopic 450-20, *Loss Contingencies*. The collective impairment is calculated based on loans grouped by similar risk characteristics. Another component of the allowance is losses on loans assessed as impaired under ASC Subtopic 310-10, *Loan Impairments*. The balance of these loans determined to be impaired under ASC Subtopic 310-10 and their related allowance is included in management's estimation and

analysis of the allowance for loan losses. For a discussion of other considerations in establishing the allowance for loan losses and our loan policies and procedures for addressing credit risk, please refer to the disclosures in this Item under the heading “Provision for Loan Losses and Asset Quality.”

The Company currently classifies all of its debt securities as available-for-sale as they might be sold before maturity. Securities available for sale are carried at fair value, with unrealized holding gains and losses reported in other comprehensive income (loss), net of tax. Interest income includes amortization of purchase premium or discount. Premiums and discounts on securities are amortized on the level-yield method without anticipating prepayments, except for mortgage-backed securities where prepayments are anticipated. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

Management evaluates securities for other-than-temporary impairment (“OTTI”) on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities in an unrealized loss position, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the income statement; and 2) OTTI related to other factors, which is recognized in other comprehensive income. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis.

Real estate acquired through foreclosure on a loan or by surrender of the real estate in lieu of foreclosure is called “OREO”. OREO is initially recorded at the fair value of the property less estimated costs to sell, which establishes a new cost basis. OREO is subsequently accounted for at the lower of cost or fair value of the property less estimated costs. If fair value declines subsequent to foreclosure, a valuation allowance is recorded through noninterest expense. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Valuation adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Valuation adjustments are also required when the listing price to sell an OREO has had to be reduced below the current carrying value. If there is a decrease in the fair value of the property from the last valuation, the decrease in value is charged to noninterest expense. All income produced from, changes in fair values in, and gains and losses on OREOs is also included in noninterest expense. During the time the property is held, all related operating and maintenance costs are expensed as incurred.

Goodwill resulting from business combinations prior to January 1, 2009 represents the excess of the purchase price over the estimated fair value of the net assets acquired. Goodwill and intangible assets acquired in a business combination and determined to have an indefinite useful life are not amortized, but instead reviewed for impairment when there is evidence to suggest that the estimated fair value of the net assets is lower than the carrying value, or at a minimum of once a year. Intangible assets with definite useful lives are amortized over their estimated useful lives to their estimated residual values. Goodwill was the only intangible asset with an indefinite life on our balance sheet. Other intangible assets consisted of core deposit and acquired customer relationship intangible assets arising from the Company's acquisition of the Citizens Bank and Trust Company of Louisville, Mississippi. These assets are initially measured at fair value and then are amortized on an accelerated method over their estimated useful lives, which were determined to be 15 years.

The Company recognizes stock compensation expenses in accordance with FASB ASC Topic 718, *Compensation-Stock Compensation*. Generally, all options granted to employees and directors fully vest six months and one day after the date of grant, rather than vesting in tranches over a specified period. Given the limited historical amount of forfeited options, the Company has not reduced compensation expense for estimated forfeitures.

The Company utilizes the Black-Scholes valuation model to determine the fair value of stock options. The Black-Scholes model requires the use of certain assumptions, including the volatility of the Company's stock price, the expected life of the option, the expected dividend rate and the discount rate. The Company does not currently expect to change the model or its methods for determining the assumptions underlying the valuation of future stock option grants. For more information on the Company's stock options and the assumptions used to calculate the expense of such options, please refer to Note 1, "Summary of Significant Accounting Policies," and Note 18, "Stock Options" to the Company's Consolidated Financial Statements included in this Annual Report.

The Company uses the asset and liability method, which recognizes the future tax consequences attributable to an event or a liability or asset that has been recognized in the consolidated financial statements. Due to tax regulations, several items of income and expense are recognized in different periods for tax return purposes than for financial reporting purposes. These items represent "temporary differences." Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. Deferred tax assets represent future deductions in the Company's income tax return, while deferred tax liabilities represent future payments to tax authorities. Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. The Company recognizes interest and/or penalties related to income tax matters in income tax expense.

Please refer to Note 1, "Summary of Significant Accounting Policies," to the Consolidated Financial Statements of the Company included in this Annual Report for a detailed discussion of our other significant accounting policies affecting the Company.

## **DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS**

In addition to historical information, this Annual Report contains statements which constitute forward-looking statements and information that are based on management's beliefs, plans, expectations, assumptions and on information currently available to management. The words "may," "should," "expect," "anticipate," "intend," "plan," "continue," "believe," "seek," "estimate," and similar expressions used in this report that do not relate to historical facts are intended to identify forward-looking statements. The Company notes that a variety of factors could cause its actual results or experience to differ materially from the anticipated results or other expectations described or implied by such forward-looking statements. The risks and uncertainties that may affect the operation, performance, development and results of the business of the Company and the Bank, include, but are not limited to, the following:

- the risk of adverse changes in business conditions in the banking industry generally and in the specific markets in which the Company operates;
- changes in the legislative and regulatory environment that negatively impact the Company and the Bank through increased operating expenses;
- increased competition from other financial institutions;
- the impact of technological advances;
- expectations about the movement of interest rates, including actions that may be taken by the Federal Reserve Board in response to changing economic conditions;
- changes in asset quality and loan demand;
- expectations about overall economic strength and the performance of the economy in the Company's market area; and
- other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission.

The Company undertakes no obligation to update or revise any forward-looking statements subsequent to the date on which they are made.

## **SELECTED FINANCIAL DATA**

The following selected financial data has been taken from the Company's Consolidated Financial Statements and related notes included in this Annual Report and should be read in conjunction with such consolidated financial statements and related notes. Dollar references in all of the following tables are in thousands except for per share data.

The major components of the Company's operating results for the past five years are summarized in Table 1 - Five Year Financial Summary of Consolidated Statements and Related Statistics.

**TABLE 1 - FIVE YEAR SUMMARY OF CONSOLIDATED STATEMENTS AND RELATED STATISTICS** (in thousands, except per share and ratio amounts)

## NET OPERATING INCOME

Net operating income for 2013 increased by 6.0% to \$7,149,860 or \$1.47 per share-basic and -diluted, from \$6,783,999, or \$1.40 per share-basic and \$1.39 per share-diluted for 2012. The provision for loan losses for 2013 was \$2,204,366 compared to the provision of \$1,545,797 in 2012. The increase in the loan loss provision for 2013 was mainly due to management's assessment of inherent losses in the loan portfolio including the impact caused by current local and national economic conditions. Non-interest income increased by \$414,323, or 5.6%, and non-interest expense decreased by \$1,372,356 or 5.3%, in 2013. Non-interest income for 2013 increased primarily due to an increase in service fees on deposit accounts and other service charges. Non-interest expense decreased due to a decrease in salaries and benefits and a decrease in regulatory costs. The decrease in salaries and benefits is related to a reduction in the number of employees and the reduction in 401-k matching for our officers and employees.

Net operating income for 2012 decreased by 6.0% to \$6,783,999, or \$1.40 per share-basic and \$1.39 per share-diluted, from \$7,217,847, or \$1.49 per share basic and diluted for 2011. The provision for loan losses for 2012 was \$1,545,797 compared to the provision of \$2,995,426 in 2011. The decrease in the loan loss provision for 2012 was mainly due to management's assessment of inherent losses in the loan portfolio including the impact caused by current local and national economic conditions. Non-interest income decreased by \$40,600, or 0.5%, and non-interest expense decreased by \$143,653 or 0.5%, in 2012. Non-interest income for 2012 decreased primarily due to a reduction in the gains from sales of securities. Non-interest expense decreased due to a decrease in salaries and benefits. The decrease in salaries and benefits is related to a reduction in the number of employees and the freezing of salaries for our existing officers and employees.

Net operating income for 2011 increased by 0.3% to \$7,217,847, or \$1.49 per share-basic and diluted, from \$7,162,531, or \$1.48 per share basic and diluted for 2010. The provision for loan losses for 2011 was \$2,995,426 compared to the provision of \$2,455,790 in 2010. The increase in the loan loss provision for 2011 was mainly due to management's assessment of inherent losses in the loan portfolio including the impact caused by current local and national economic conditions. Non-interest income increased by \$33,813, or 0.5%, and non-interest expense increased by \$1,123,880 or 4.5%, in 2011. Non-interest income for 2011 increased primarily due to normal growth in other service charges. Non-interest expense increased due to

an increase in equipment expenses and increases in salaries and benefits. The increase in salaries and benefits is related to our new staffing for branching and credit administration and normal raises for our existing officers and employees.

## **NET INTEREST INCOME**

Net interest income is the most significant component of the Company's earnings. Net interest income is the difference between interest and fees realized on earning assets, primarily loans and securities, and interest paid on deposits and other borrowed funds. The net interest margin is this difference expressed as a percentage of average earning assets. Net interest income is affected by several factors, including the volume of earning assets and liabilities, the mix of earning assets and liabilities, and interest rates. The discussion below is presented on a tax equivalent basis which management believes to be the best way to analyze net interest income.

Net interest income on a tax equivalent basis was \$29,229,000, \$29,978,000 and \$31,563,000 for the years 2013, 2012 and 2011, respectively. Net interest margin was 3.59%, 3.93% and 4.20% for the same periods. During 2013, the yields on interest earning assets declined more than the rates paid on interest bearing deposits with the largest decrease occurring in the rates paid on certificates of deposit. For the year ended December 31, 2013, the average yield on earnings assets was 4.08%, a decrease of 58 basis points compared to the average yield at December 31, 2012. The average rate paid on interest-bearing liabilities was 0.60%, a decrease of 28 basis points compared to the average rate at December 31, 2012. The volume of earning assets increased 6.9% while the volume of interest-bearing liabilities increased 5.2% in 2013.

For the year ended December 31, 2012, the average yield on earnings assets was 4.66%, a decrease of 42 basis points compared to the average yield at December 31, 2011. The average rate paid on interest-bearing liabilities was 0.88%, a decrease of 15 basis points compared to the average rate at December 31, 2011. The volume of earning assets increased 1.4% while the volume of interest-bearing liabilities decreased 0.2% in 2012.

For the year ended December 31, 2011, the average yield on earnings assets was 5.08%, a decrease of 9 basis points compared to the average yield at December 31, 2010. The average rate paid on interest-bearing liabilities was 1.03%, a decrease of 27 basis points compared to the average rate at December 31, 2010. The volume of earning assets decreased 1.3% while the volume of interest-bearing liabilities decreased 3.3% in 2011.

During this three-year period, loan demand was weak in 2011 and 2012 before improving in 2013. Loans generally provide the Company with yields that are greater than the yields on typical investment securities.

During 2003, the Company purchased \$11.4 million of additional bank-owned life insurance. The income received by the Company on these policies increased the Company's total investment to approximately \$20.4 million at December 31, 2011, \$21.2 million at December 31, 2012 and \$22.2 million at December 31, 2013. The additional purchases were

made to provide a future funding source for certain of the Company's deferred compensation arrangements. Such insurance also offers more attractive yields than other investment securities.

Table 2 – Average Balance Sheets and Interest Rates sets forth average balance sheet data, including all major categories of interest-earning assets and interest-bearing liabilities, together with the interest earned or interest paid and the average yield or average rate paid on each such category for the fiscal years ended December 31, 2013, 2012 and 2011.

- (1) Overdrafts on demand deposit accounts are not included in the average volume calculation as they are not considered interest earning assets by the Company. They are included in the “Non-Earning Assets” balance above.
- (2) Earning Assets in Table 2 does not include the dividend paying stock of the Federal Home Loan Bank.
- (3) Demand deposits are not included in the average volume calculation as they are not interest bearing liabilities. They are included within the non-interest bearing liabilities section above.

Table 3 – Net Average Interest Earning Assets illustrates net interest earning assets and liabilities for 2013, 2012, and 2011.

TABLE 3 – NET AVERAGE INTEREST EARNING ASSETS  
(in thousands)

	2013	2012	2011
Average interest earning assets	\$ 815,991	\$ 763,041	\$ 752,299
Average interest bearing liabilities	673,413	639,851	641,039
Net average interest earning assets	\$ 142,578	\$ 123,190	\$ 111,260

Table 4 – Volume/Rate Analysis depicts the effect on interest income and interest expense of changes in volume and changes in rate from 2011 through 2013. Variances, which were attributable to both volume and rate, are allocated proportionately between rate and volume using the absolute values of each for a basis for the allocation. Non-accruing loans are included in the average loan balances used in determining the yields. Interest income on tax-exempt securities and loans has been adjusted to a tax equivalent basis using a federal income tax rate of 34%.

## LOANS

The loan portfolio constitutes the major earning asset of the Company and, in the opinion of management, offers the best alternative for maximizing net interest margin. The Company's loan personnel have the authority to extend credit under guidelines established and approved by the Board of Directors. Any aggregate credit that exceeds the authority of the loan officer is forwarded to the Board's loan committee for approval. The loan committee is composed of certain directors, including the Chairman of the Board of Directors. All aggregate loans that exceed the loan committee's lending authority are presented to the full Board of Directors for ultimate approval or denial. The loan committee not only acts as an approval body to ensure consistent application of the Company's loan policy but also provides valuable insight through communication and pooling of knowledge, judgment, and experience of its members.

The Company has stated in its loan policy the following objectives for its loan portfolio:

- to make loans after sound and thorough credit analysis;
- to properly document all loans;
- to eliminate loans from the portfolio that are under-priced, high risk or difficult and costly to administer;
- to seek good relationships with the customer;
- to avoid undue concentrations of loans; and
- to keep non-accrual loans to a minimum by aggressive collection policies.

Loan demand in the Company's market improved in 2013 after declining in 2012 and 2011 due to economic conditions. Although the Company continues to face intense competition for available loans from other financial institutions and the current economic conditions have improved slightly, the Company was able in 2013 to increase the amount of loans outstanding. The impact on the housing market caused by the opening of a casino on the nearby Choctaw Indian Reservation in 1995 is beginning to show less of an impact in the area. Real estate mortgage loans originated by the Company decreased by 8.93%, or \$10,347,060 in 2013, by 13.6%, or \$18,150,577, in 2012 and by 6.7%, or \$9,639,327, in 2011 when compared to the prior year. The decrease in mortgage loans in all years reflects the weakness in the national and local housing markets after seeing normal growth in the previous years.

Commercial and agricultural loans increased by \$22,476,553, or 10.6% in 2013, and by \$6,229,238 or 3.0% in 2012 and decreased by \$11,625,283, or 5.4% in 2011. Commercial, financial and agricultural loans are the largest segment of the loan portfolio and, by nature, bear a higher degree of risk. Management believes the lending practices, policies and procedures applicable to this loan category are adequate to manage any risk represented by the growth of the loans in this category.

Consumer loans declined by \$1,560,119, or 5.3% in 2013, \$7,681,230, or 21.1% in 2012 and \$3,010,288, or 7.6% in 2011, compared to the prior year. The Company believes that changes in consumer purchasing habits and the increase in loan sources have affected the growth of this segment of loans.

Table 5 – Loans Outstanding reflects outstanding balances by loan type for the past five years. Additional loan information is presented in Note 5, “Loans,” to the Company’s Consolidated Financial Statements included in this Annual Report.

Fixed rates	\$230,165	\$14,795
Variable rates	10,474	14,325
Total loans	<u>\$240,639</u>	<u>\$29,120</u>

Each loan the Company makes either has a stated maturity as to when the loan is to be repaid or is subject to an agreement between the Company and the customer governing its progressive reduction. The Company's policy is that every loan is to be repaid by its stated maturity and not carried as a continuing debt. Generally, the Company requires that principal reductions on a loan must have begun prior to the second renewal date of the loan.

### PROVISION FOR LOAN LOSSES AND ASSET QUALITY

The allowance for loan losses represents an amount that in management's judgment will be adequate to absorb estimated probable losses within the existing loan portfolio. Loans that management determines to be uncollectible are charged against the allowance for loan losses, and subsequent recoveries, if any, are credited to the allowance. Management's judgment in determining the adequacy of the allowance is based on evaluations of the collectability of specific loans and prior loss experience. Other factors considered by management include specific economic events, general economic conditions and trends, and loan portfolio mix and growth. The allowance for loan losses is subject to close regulatory review from the FDIC and the Mississippi Department of Banking and Consumer Finance and is also a factor in each agency's determination of our capital adequacy. The estimation of losses in our loan portfolio is susceptible to changes resulting from changes in the financial condition of individual borrowers and economic conditions in the Company's market area.

The allowance for loan losses is established through a provision for loan losses charged against net income. This expense is determined by a number of factors, including historical loan losses, assessment of specific credit weaknesses within the portfolio, assessment of the prevailing economic climate, and other factors that may affect the overall condition of the loan portfolio. Management utilized these factors to determine the provision for loan losses for each of 2011, 2012 and 2013. The ratio of net loans charged off to average loans was 0.29% in 2013, 0.33% in 2012 and 0.66% in 2011. The chargeoffs in 2011, 2012 and 2013 reflect the weakness of the economy and the continuing local and national high unemployment. Management evaluates the adequacy of the allowance for loan loss on a monthly basis and makes adjustments to the allowance based on this analysis.

The provision for loan losses in 2013 was \$2,204,366 compared to \$1,545,797 in 2012 and \$2,995,426 in 2011. The increase in the provision for 2013 was mainly due to management's assessment of incurred losses in the loan portfolio including the impact caused by current local and national economic conditions. The Company uses a model that takes into account historical charge-offs and recoveries and applies that to certain loan segments of our

portfolio. At the end of 2013, the total allowance for loan losses was \$8,077,499, an amount that management believes to be sufficient to cover estimated probable losses in the loan portfolio.

Activity in the allowance for loan losses is reflected in Table 7 – Analysis of Allowance for Loan Losses. The Company’s policy is to charge-off loans when in management’s opinion the loan is deemed uncollectible. Even after it is charged off, however, the Company makes concerted efforts to maximize recovery of such loan.

	100.00%	100.00%	100.00%	100.00%	100.00%

Loan balances outstanding, as illustrated in Table 5, declined in 2011 and 2012 as the Company's credit standards tightened, loan demand weakened and the competition for loans increased. In 2013 loans increased due to increased loan demand even though the Company maintained its tightened credit standards and competition for available loans was still present. The highest percentage increase in 2013 occurred in the construction real estate category, primarily due to an increase in the demand in this market. The allowance for loan losses is allocated to the various categories based on the historical loss percentage for each segment of loan and any specific reserves that might be assigned to those loans.

Non-performing assets and the relative percentages of such assets to loan balances are presented in Table 8 – Non-performing Assets. Non-performing loans include non-accrual loans, loans delinquent 90 days or more based on contractual terms and troubled debt restructurings. Management classifies loans as non-accrual when it believes that collection of interest is doubtful. This typically occurs when payments are past due over 90 days, unless the loans are well secured and in the process of collection. Another measurement of asset quality is other real estate owned (OREO), which represents properties acquired by the Company through foreclosure following loan defaults by customers. The percentage of OREO to total loans at December 31, 2013 was 0.98% compared to 1.29% in 2012. OREO decreased in 2013 after increasing in 2012 and 2011 due to a larger amount of foreclosures in 2011 and the sale of several parcels that were acquired in foreclosure and a write-down of several parcels to fair market value during 2012 and 2013.

Loans on non-accrual status amounted to \$13,591,793 in 2013 as compared to \$14,141,887 in 2012 and \$11,299,060 in 2011. Interest income forgone on loans classified as non-accrual in 2013 was \$813,710 as compared to \$770,509 in 2012 and \$673,858 in 2011.

Upon the classification of a loan as non-accrual, all interest accrued on the loan prior to the time it is classified as non-accrual is reversed and interest accruals are suspended until such time that the loan is in compliance with its terms and deemed collectable.

TABLE 8 – NON-PERFORMING ASSETS  
(in thousands, except percentages)

	As of December 31,				
	2013	2012	2011	2010	2009

ASC Subtopic 310-10, *Loan Impairments* outlines the guidance for evaluating impaired loans. These statements changed the methods of estimating the loan loss allowance for problem loans. In general, when management determines that principal and interest due under the contractual terms of a loan are not fully collectible, management must value the loan using discounted future expected cash flows. Management considers the Company's nonaccrual loans as being impaired under ASC Subtopic 310-10. The balances of impaired (including non-accruals) loans for the years 2013, 2012 and 2011 were \$13,591,793, \$14,141,887 and \$11,398,698, respectively.

This table details the impaired loans by category for years ending 2013, 2012 and 2011.

	AT DECEMBER 31,		
	2013	2012	2011
Commercial, financial and agricultural	\$ 11,469,394	\$ 11,431,714	\$ 7,763,051
Real estate - construction	136,271	141,917	1,134,329
Real estate - mortgage	1,865,718	2,258,167	2,065,784
Consumer	120,410	310,089	435,534
Total loans	\$ 13,591,793	\$ 14,141,887	\$ 11,398,698

Management monitors any loans that are classified under FDIC regulations as loss, doubtful or substandard, even if management has not classified the loans as non-performing or impaired. In addition to loans classified for regulatory purposes, management also designates certain loans for internal monitoring purposes in a “watch” category. Loans may be placed on management’s watch list as a result of delinquent status, management’s concern about the borrower’s financial condition or the value of the collateral securing the loan, a substandard classification during regulatory examinations, or simply as a result of management’s desire to monitor more closely a borrower’s financial condition and performance. Watch category loans may include loans that are still performing and accruing interest and may be current under the terms of the loan agreement but which management has a significant degree of concern about the borrowers’ ability to continue to perform according to the terms of the loan agreement. Watch category loans may also include loans, which, although adequately secured and performing, reflect a past delinquency problem or unfavorable financial trends exhibited by the borrower. Loss exposure on these loans is typically evaluated based primarily upon the estimated liquidation value of the collateral securing the loan.

At December 31, 2013, loans totaling \$40,836,320 were included on the Company’s watch list compared to \$42,731,860 at December 31, 2012. The majority of these loans are real estate loans that, although adequately collateralized, have experienced frequent delinquencies in scheduled payments. The inclusion of loans on this list does not indicate a greater risk of loss; rather it indicates that the loan possesses one of the several characteristics described above warranting increased oversight by management.

## SECURITIES

At December 31, 2013, the Company classified all of its securities as available-for-sale. Securities available-for-sale are reported at fair value, with unrealized gains and losses included as a separate component of equity, net of tax. The Company does not hold any securities classified as held to maturity or held for trading purposes.

Table 9 – Securities and Securities Maturity Schedule summarizes the carrying value of securities from 2011 through 2013 and the maturity distribution at December 31, 2013, by classification.

TABLE 9 – SECURITIES

(in thousands)

	2013	2012	2011
SECURITIES AVAILABLE FOR SALE			
U. S. Government Agencies	\$316,305	\$269,194	\$234,356
Mortgage Backed Securities	16,476	36,386	32,435
State, County and Municipal Obligations	96,259	105,301	93,655
Other Securities	3,026	3,093	3,093
TOTAL SECURITIES AVAILABLE FOR SALE	\$432,066	\$413,974	\$363,539

## SECURITIES MATURITY SCHEDULE

	1 year or less		1 to 5 years		5 to 10 years		over 10 years	
	Actual Balance	Average Yield	Actual Balance	Average Yield	Actual Balance	Average Yield	Actual Balance	Average Yield
AVAILABLE-FOR-SALE								
U. S. Government Agencies(1)	\$ -	0.00%	\$ 11,438	4.46%	\$ 79,883	2.36%	\$ 241,460	2.48%
State, County and Municipal(2)	2,429	4.98%	13,602	5.01%	26,163	5.62%	54,065	4.84%
Other Securities	-	0.00%	-	0.00%	-	0.00%	3,025	5.20%
TOTAL AVAILABLE-FOR-SALE	\$ 2,429	4.98%	\$ 25,040	4.76%	\$ 106,046	3.16%	\$ 298,550	2.94%

(1) The maturities for the mortgage backed securities included in this line item are based on final maturity.

(2) Average yields were calculated on tax equivalent basis using a marginal federal income tax rate of 34% and a state tax rate of 5%.

The change in the carrying value of the available-for-sale portfolio is due to market value fluctuations resulting from the changing interest rate environment during 2013. This change is not used in the Tier 1 capital calculation.

The above table shows an increase in the U. S. Government Agencies securities and a decrease in the Mortgage Backed Securities and State, County and Municipal classifications. The increase was due to the Company's effort to increase yields while maintaining credit quality and to purchase securities for our commercial repurchase agreement program with certain customers. As a result of this commercial repurchase agreement program, the Company increased its margin on the balances in this program. The Company strives to maximize the yields on its portfolio while balancing pledging needs and managing risk. The Company seeks to invest most of its funds not needed for loan demand in higher yielding securities and not in the lower yielding federal funds sold.

## DEPOSITS

The Company offers a wide variety of deposit services to individual and commercial customers, such as non-interest-bearing and interest-bearing checking accounts, savings accounts, money market deposit accounts and time deposits. The deposit base is the Company's major funding source for earning assets. Time deposits decreased in 2013 due to customers desiring to stay short and liquid with their deposits and increased in 2012 due to the pricing strategy of the Company to manage liquidity needs. During this time, all other segments of deposits increased.

A three-year schedule of average deposits by type and maturities of time deposits greater than \$100,000 is presented in Table 10 – Deposit Information.

TABLE 10 – DEPOSIT INFORMATION  
(in thousands, except percentages)

	2013		2012		2011	
	Average Balance	Average Rate	Average Balance	Average Rate	Average Balance	Average Rate
Noninterest-bearing	\$120,457		\$107,130		\$98,131	
Interest-bearing demand	240,524	0.22%	191,930	0.39%	170,323	0.47%
Savings	49,933	0.15%	44,777	0.22%	40,365	0.33%
Time deposits	239,104	0.55%	248,886	0.74%	234,892	0.97%
	\$650,018	0.30%	\$592,723	0.55%	\$543,711	0.59%

## MATURITY RANGES OF TIME DEPOSITS OF \$100,000 OR MORE

AS OF DECEMBER 31, 2013

3 months or less	\$31,679
3 through 12 months	75,692
1 year to 3 years	17,515
over 3 years	-
	<u>\$124,886</u>

The Company, in its normal course of business, will acquire large time deposits, generally from public entities, with a variety of maturities. These funds are acquired on a bid basis and are considered to be part of the deposit base of the Company.

## BORROWINGS

Aside from the core deposit base and large denomination time deposits mentioned above, the remaining funding sources utilized by the Company include short-term and long-term borrowings. Short-term borrowings consist of Federal Funds Purchased from other financial institutions on an overnight basis, short-term advances from the FHLB and securities sold under agreement to repurchase. Long-term borrowings are advances from the FHLB with an initial maturity of greater than one year.

TABLE 11 - SHORT-TERM BORROWINGS  
(in thousands)

	As of December 31,		
	2013	2012	2011
Short-term borrowings			
Year-end balance	\$82,421	\$73,307	\$120,220
Weighted average rate	0.67%	0.95%	0.95%
Maximum month-end balance	\$151,929	\$103,355	\$136,110
Year to date average balance	\$80,393	\$79,002	\$114,000
Weighted average rate	0.77%	0.95%	0.94%

The Company borrows funds for short periods from the FHLB as an alternative to Federal Funds Purchased. The Company foresees short-term borrowings to be a continued source of liquidity and likely will continue to use these borrowings as a method to fund short-term needs. At December 31, 2013, the Company had the capacity to borrow up to \$145,282,544 from the FHLB and other financial institutions in the form of Federal Funds Purchased. The Company generally will use these types of borrowings if loan demand is greater than the growth in deposits. In 2013, the Company reduced its borrowings from the FHLB to \$33,500,000 and its Federal Funds Purchased increased to \$27,500,000. In 2012, the Company maintained its borrowing at \$68,500,000 from the FHLB and decreased its Federal Funds Purchased to zero. In 2013, the balances in Securities Sold Under Agreement to Repurchase increased \$9,114,016, or 12.4%. In 2012, these balances decreased to \$73,306,765, a decrease of \$46,913,668, or 39.0%.

At the end of 2013, the Company had long-term debt in the amount of \$33,500,000 to the FHLB for advances and \$126,498 payable to the State of Mississippi for advances under the Mississippi Agribusiness Enterprise Loan Program. This program provides interest-free loans to banks to fund loans to qualifying farmers. Farmers that qualify for the program receive 20% of their loan at zero interest. When the loan is repaid, the State of Mississippi receives 20% of the principal payment, which is equal to the amount advanced by the state, and the Company retains the balance of the principal payment.

The remaining maturity schedule of the long-term debt at December 31, 2013 is listed below.

	(in thousands)
	2013
Less than one year	\$13,508
One year to three years	13
Over three years	20,105
Total long-term borrowings	<u>\$33,626</u>

## NON-INTEREST INCOME AND EXPENSE

Table 12 - Non-Interest Income and Expense illustrates the Company's non-interest income and expense from 2011 through 2013 and percentage changes between such years.

TABLE 12 - NON-INTEREST INCOME & EXPENSE  
(in thousands)

	% CHANGE		% CHANGE		
	2013	FROM '12	2012	FROM '11	2011
NON-INTEREST INCOME					
Service charges on deposit accounts	\$ 3,885	4.94%	\$ 3,702	0.35%	\$ 3,689
Other operating income	3,931	6.24%	3,700	-1.41%	3,753
TOTAL NON-INTEREST INCOME	<u>\$ 7,816</u>	<u>5.59%</u>	<u>\$ 7,402</u>	<u>-0.54%</u>	<u>\$ 7,442</u>
NON-INTEREST EXPENSE					
Salaries and employee benefits	\$ 13,111	-4.56%	\$ 13,737	-2.28%	\$ 14,057
Occupancy expense, including equipment	4,396	-2.05%	4,488	4.15%	4,309
Other operating expense	7,221	-8.30%	7,875	-0.04%	7,878
TOTAL NON-INTEREST EXPENSE	<u>\$ 24,728</u>	<u>-5.26%</u>	<u>\$ 26,100</u>	<u>-0.55%</u>	<u>\$ 26,244</u>

Non-interest income typically consists of service charges on checking accounts, including debit card fees, and other financial services. With continued pressure on interest rates, the Company has sought to increase its non-interest income through the expansion of fee income and the development of new services. Currently, the Company's main sources of non-interest income are service charges on checking accounts, safe deposit box rentals, credit life insurance premiums and title insurance service fees.

During 2013, non-interest income increased by \$414,323, or 5.59%, when compared to 2012. An increase in other income and service charge income from checking accounts was partially offset by a decrease in proceeds from gains on sales of investment securities.

During 2012, non-interest income decreased by \$40,600, or 0.55%, when compared to 2011. An increase in other income and service charge income from checking accounts was offset by a decrease in proceeds from gains on sales of investment securities.

During 2011, non-interest income increased by \$33,813, or 0.45%, when compared to 2010. An increase in other income and proceeds from gains on sales of investment securities was offset by a decrease in service charge income from checking accounts.

Non-interest expenses consist of salaries and benefits, occupancy expense and other overhead expenses incurred by the Company in the transaction of its business. In 2013, non-interest expense decreased by \$1,372,356, or 5.3%, to \$24,727,611. Included in this decrease was a reduction in salaries and benefits in the amount of \$626,336, or 4.6% and a decrease in occupancy expense in the amount of \$91,704, or 2.0%. The decrease in occupancy expense is related to cost savings and the closing of a branch in Meridian, Mississippi in 2013.

In 2012, non-interest expense decreased by \$143,653, or 0.55%, to \$26,099,967. Included in this was a decrease in salaries and benefits in the amount of \$319,597, or 2.3% and an increase in occupancy expense in the amount of \$80,710, or 4.2%. The increase in occupancy expense is related to cost increases and the addition of a branch in Flowood, Mississippi in 2012.

In 2011, non-interest expense increased by \$1,123,880, or 4.47%, to \$26,243,620. Included in this was an increase in salaries and benefits in the amount of \$276,148, or 2.0% and an increase in occupancy expense in the amount of \$504,188, or 13.3%. The increase in occupancy expense is in part related to the opening of the new branch building in Hattiesburg.

In 2013, the Company's efficiency ratio was 67.52%, compared to 70.73% in 2012 and 68.51% in 2011. The efficiency ratio is calculated to measure the cost of generating one dollar of revenue. The efficiency ratio is calculated by dividing non-interest expense by the sum of net interest income, on a fully tax equivalent basis, and non-interest income. The overall increase in the efficiency ratio over the past three years reflects increases in non-interest expense associated with managing the growth in assets during the period.

## **INCOME TAXES**

The Company records a provision for income taxes currently payable, along with a provision for deferred taxes to be realized in the future. Such deferred taxes arise from differences in timing of certain items for financial statement reporting rather than income tax reporting. The deferred tax amount of \$17,794,280 is considered realizable without the use of extraordinary tax planning strategies.

The Company's effective tax rate was 19.84%, 19.57% and 15.43% in 2013, 2012 and 2011, respectively. The major difference between the effective tax rate applied to the Company's financial statement income and the federal statutory rate of 34% is interest on tax-exempt securities and loans. Further tax information is disclosed in Note 10, "Income Taxes" to the Company's Consolidated Financial Statements included in this Annual Report.

## **LIQUIDITY AND RATE SENSITIVITY**

Liquidity management is the process by which the Company ensures that adequate liquid funds are available to meet its financial commitments on a timely basis. These commitments include honoring withdrawals by depositors, funding credit obligations to borrowers, servicing long-term obligations, making shareholder dividend payments, paying operating expenses, funding capital expenditures and maintaining reserve requirements.

The Company's predominant sources of funding include: core deposits (consisting of both commercial and individual deposits); proceeds from maturities of securities; repayments of loan principal and interest; Federal Funds Purchased; and short-term and long-term borrowing from the FHLB. In 2013, the Company experienced an increase in deposits and an increase in loans outstanding. The decrease in investment securities is mainly the result of the decrease in market value brought about by the increase in medium term investment interest rates. The Company relies upon non-core sources of funding, such as Federal Funds Purchased and short and long term borrowings from the FHLB, when deposit growth is not adequate to meet its short term needs. While the strategy of using these wholesale funding sources is adequate to cover liquidity deficiencies in the short term, the Company's goal is to increase core deposits as a source of long term funding. Management does not intend to rely on borrowings from the FHLB as the first choice as a source of funds but prefers to increase core deposits through increased competition for available deposits. Management believes that core deposits can be increased by offering more competitive rates and superior service to our customers.

The Company paid off \$45 million of FHLB advances that matured during 2013 and will continue to pay off advances at maturity if they are no longer needed to maintain the Company's liquidity position.

The deposit base is diversified between individual and commercial accounts, which the Company believes helps it avoid dependence on large concentrations of funds. The Company does not solicit certificates of deposit from brokers. The primary sources of liquidity on the asset side of the balance sheet are federal funds sold and securities classified as available-for-sale. The entire investment securities portfolio is classified in the available-for-sale category, and is available to be sold, should liquidity needs arise. Management, through its Asset Liability Committee ("ALCO"), and the Board review the Company's liquidity position on a monthly basis. At December 31, 2013, both the ALCO and the Board of Directors determined that the Company's liquidity position was adequate.

Table 13 - Funding Uses and Sources details the main components of cash flows for 2013 and 2012.

TABLE 13 - FUNDING USES AND SOURCES  
(in thousands)

	2013			2012

<b>TOTAL SOURCES</b>	<b>\$ 793,870</b>	<b>\$ 46,889</b>	<b>6.23%</b>	<b>\$ 753,096</b>	<b>\$ 7,637</b>	<b>1.01%</b>

The Company's liquidity depends substantially on the ability of the Bank to transfer funds to the Company in the form of dividends. The information under the heading "Market Price and Dividend Information" in this Annual Report discusses federal and state statutory and regulatory restrictions on the ability of the Bank to transfer funds to the Company in the form of dividends.

## CAPITAL RESOURCES

The Company and Bank are subject to various regulatory capital guidelines as required by federal and state banking agencies. These guidelines define the various components of core capital and assign risk weights to various categories of assets.

The Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA") required federal regulatory agencies to define capital tiers. These tiers are: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized. Under FDICIA, a "well-capitalized" institution must achieve a Tier 1 risk-based capital ratio of at least 6.00%, a total capital ratio of at least 10.00%, a leverage ratio of at least 5.00% and not be under a capital directive order. These ratios generally measure the percentage of a bank's capital to all or certain categories of assets. Failure to meet capital requirements can initiate regulatory action that could have a direct material effect on the

Company's financial statements. If a bank is only adequately capitalized, regulatory approval is required before the bank may accept brokered deposits. If undercapitalized, capital distributions, asset growth, and expansion are limited, and the institution is required to submit a capital restoration plan.

During 2013, total capital increased primarily due to earnings that were in excess of dividends.

Management believes the Company and the Bank meet all the capital requirements to be well-capitalized under the guidelines established by FDICIA as of December 31, 2013, as noted below in Table 14 - Capital Ratios. To be classified as well-capitalized, the Company and Bank must maintain the ratios described above.

**TABLE 14 – CAPITAL RATIOS**  
(in thousands, except percentage amounts)

	At December 31,		
	2013	2012	2011
Tier 1 capital			
Shareholders' equity	\$ 66,266	\$ 88,869	\$ 86,082
Less: Intangibles	(3,150)	(3,150)	(3,229)
Add/less: Unrealized loss/(gain) on securities	21,249	(4,348)	(4,443)
<b>TOTAL TIER 1 CAPITAL</b>	<b>\$ 84,365</b>	<b>\$ 81,371</b>	<b>\$ 78,410</b>
Total capital			
Tier 1 capital	\$ 84,365	\$ 81,371	\$ 78,410
Allowable allowance for loan losses	6,517	6,008	6,030
<b>TOTAL CAPITAL</b>	<b>\$ 90,882</b>	<b>\$ 87,379</b>	<b>\$ 84,440</b>
<b>RISK WEIGHTED ASSETS</b>	<b>\$ 519,766</b>	<b>\$ 479,658</b>	<b>\$ 481,784</b>
<b>AVERAGE ASSETS (FOURTH QUARTER)</b>	<b>\$ 875,659</b>	<b>\$ 848,966</b>	<b>\$ 828,295</b>
<b>RISK BASED RATIOS</b>			
TIER 1	16.23%	16.96%	16.27%
TOTAL CAPITAL	17.49%	18.22%	17.53%
<b>LEVERAGE RATIOS</b>	<b>9.63%</b>	<b>9.58%</b>	<b>9.47%</b>

Management's strategy with respect to capital levels is to maintain a sufficient amount of capital to allow the Company to respond to growth and acquisition opportunities in our service area. Over the past three years, the Company has been able to increase the amount of its capital, through retention of earnings, while still increasing the dividend payout ratio to approximately 59.9% of earnings per share. The Company does not currently have any commitments for capital expenditures that would require the Company to raise additional capital by means other than retained earnings. The Company does not plan to change this strategy unless needed to support future acquisition activity.

#### **OFF-BALANCE SHEET ARRANGEMENTS**

In the ordinary course of business, the Company makes various commitments and incurs certain contingent liabilities to fulfill the financing needs of its customers. These commitments and contingent liabilities include commitments to extend credit and issue standby letters of credit. These off-balance sheet arrangements are further detailed in Note 13, "Off-Balance Sheet Financial Instruments, Commitments and Contingencies and Concentrations of Risks," in the notes to the Company's Consolidated Financial Statements included in this Annual Report.

## CONTRACTUAL OBLIGATIONS

The following table summarizes the contractual obligations of the Company as of December 31, 2013.

Contractual Obligations	Payments Due by Period (in thousands)				
	Total	Less than 1 year	1-3 Years	3 - 5 Years	Over 5 Years
Long Term Debt	\$ 33,500	\$ 13,500	\$ -	\$ 20,000	\$ -
Operating Leases	1,967	453	757	757	-
Other Long-term Liabilities	126	8	13	105	-
Total	<u>\$ 35,593</u>	<u>\$ 13,961</u>	<u>\$ 770</u>	<u>\$ 20,862</u>	<u>\$ -</u>

Long-term debt obligations represent borrowings from the FHLB that have an original maturity in excess of one year. Operating leases are primarily for the lease of ATM machines and other leases for mailing equipment. The equipment leases are for various terms. The other long-term liabilities are those obligations of the Company under the Agribusiness Enterprise Loan Program of the State of Mississippi.

## **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

### ***OVERVIEW***

The definition of market risk is the possibility of loss that could result from adverse changes in market prices or interest rates. The Company has taken steps to assess the amount of risk that is associated with its asset and liability structure. The Company measures the potential risk on a regular basis and makes changes to its strategies to manage these risks. The Board of Directors reviews important policy limits each month, with a more detailed risk analysis completed on a quarterly basis. These measurement tools are important in allowing the Company to manage market risk and to plan effective strategies to respond to any adverse changes in risk. The Company does not participate in some of the financial instruments that are inherently subject to substantial market risk. All of the financial instruments entered into by the Company are for purposes other than trading.

## ***MARKET/INTEREST RATE RISK MANAGEMENT***

Interest rate risk is the primary market risk that management must address. Interest rate risk is the exposure of Company earnings and capital to changes in interest rates. All financial institutions assume interest rate risk as an integral part of normal operations.

The primary purpose in managing interest rate risk is to effectively invest capital and preserve the value created by the core banking business of the Company. The Company utilizes an investment portfolio to manage the interest rate risk naturally created through its business activities. The process of managing interest rate risk generally involves both reducing the exposure of the Company's net interest margin to swings in interest rates and concurrently ensuring that there is sufficient capital and liquidity to support balance sheet growth. The Company uses a quarterly interest rate risk report to evaluate its exposure to interest rate risk, project earnings and manage the composition of the balance sheet and its growth.

In addition to the quarterly interest rate risk report, the Company employs a number of tools to measure interest rate risk. One tool is static gap analysis, which matches assets with specified maturities to liabilities with corresponding maturities. Although management believes that this does not provide a complete picture of the Company's exposure to interest rate risk, it does highlight significant short-term repricing volume mismatches. The following table presents the Company's rate sensitivity static gap analysis at December 31, 2013 (\$ in thousands):

	Interest Sensitive Within	
	90 days	One year
Total rate sensitive assets	\$ 282,344	\$ 136,015
Total rate sensitive liabilities	480,271	141,354
Net gap	\$ (197,927)	\$ (5,339)

The analysis shows a negative gap position over the next three-month period, which indicates that the Company would benefit somewhat from a decrease in market interest rates in the very short term. Although rate increases would be detrimental to the interest rate risk of the Company, management believes there is adequate flexibility to alter the overall rate sensitivity structure as necessary to minimize exposure to these changes.

Management believes that static gap analysis does not fully capture the impact of interest rate movements on interest sensitive assets and liabilities. Thus, the Company also measures interest rate risk by analyzing interest rate sensitivity and the rate sensitivity gap. Table 15 - Interest Rate Sensitivity provides additional information about the financial instruments that are sensitive to changes in interest rates. This tabular disclosure is limited by its failure to depict accurately the effect on assumptions of significant changes in the economy or interest rates or changes in management's expectations or intentions relating to the Company's financial statements. The information in the interest rate sensitivity table below reflects contractual interest rate pricing dates and contractual maturity dates. For indeterminate maturity deposit products (money market, NOW and savings accounts), the tables present principal cash flows in

the shortest term. Although these deposits may not reprice within this time frame, the depositors of such funds have the ability to reprice. Weighted average floating rates are based on the rate for that product as of December 31, 2013 and 2012.

TABLE 15 - INTEREST RATE SENSITIVITY AS OF DECEMBER 31, 2013  
(in thousands)

	2014	2015	2016	2017	2018	Thereafter	Carrying Value	Fair Value

Rate sensitivity gap analysis is another tool management uses to measure interest rate risk. The rate sensitivity gap is the difference between the repricing of interest-earning assets and the repricing of interest-bearing liabilities within certain defined time frames. The Company's interest rate sensitivity position is influenced by the distribution of interest-earning assets and interest-bearing liabilities among the maturity categories. Table 16 - Rate Sensitivity Gap reflects interest-earning assets and interest-bearing liabilities by maturity distribution as of December 31, 2013. Product lines repricing in time periods predetermined by contractual agreements are included in the respective maturity categories.

TABLE 16 - RATE SENSITIVITY GAP AT DECEMBER 31, 2013  
(in thousands, except percentage amounts)

	1 - 90 Days	91 - 365 Days	1 - 5 Years	Over 5 years	Total
<b>INTEREST EARNING ASSETS</b>					
Loans	\$ 55,750	\$ 59,863	\$ 226,143	\$ 27,581	\$ 369,337
Investment securities	225,910	76,152	53,588	42,526	398,176
Interest Bearing Due From Bank Accounts	684	-	-	-	684
<b>TOTAL INTEREST BEARING ASSETS</b>	<b>\$ 282,344</b>	<b>\$ 136,015</b>	<b>\$ 279,731</b>	<b>\$ 70,107</b>	<b>\$ 768,197</b>
<b>INTEREST BEARING LIABILITIES</b>					
Interest bearing demand deposits	\$ 231,542	\$ -	\$ -	\$ -	\$ 231,542
Savings and Money Market deposits	69,957	-	-	-	69,957
Time deposits	58,851	137,854	35,740	-	232,445
Short term borrowings	109,921	-	-	-	109,921
Long term borrowings	10,000	3,500	20,126	-	33,626
<b>TOTAL INTEREST BEARING LIABILITIES</b>	<b>\$ 480,271</b>	<b>\$ 141,354</b>	<b>\$ 55,866</b>	<b>\$ -</b>	<b>\$ 677,491</b>
Rate sensitive gap	\$ (197,927)	\$ (5,339)	\$ 223,865	\$ 70,107	\$ 90,706
Rate sensitive cumulative gap	(197,927)	(203,266)	20,599	90,706	-
Cumulative gap as a percentage of total earning assets	-25.77%	-26.46%	2.68%	11.81%	

The purpose of the above table is to measure interest rate risk utilizing the repricing intervals of interest sensitive assets and liabilities. Rate sensitive gaps constantly change as funds are acquired and invested and as rates change. Rising interest rates are likely to increase net interest income in a positive gap position while falling interest rates are beneficial in a negative gap position.

The above rate sensitivity analysis places interest-bearing demand and savings deposits in the shortest maturity category because these liabilities do not have defined maturities. If these deposits were placed in a maturity distribution representative of the Company's deposit base history, the shortfall of the negative rate sensitive gap position would be reduced in the 1-to-90 day time frame. It is the goal of the Company to achieve a cumulative gap ratio of plus or minus 15% for all periods under one year, with maximum acceptable limits of plus or minus 20%. Quarterly, management discusses with the ALCO and the board of directors the gap position in relation to the established goals, highlights any reasons for variances from the goals and suggests

changes to better align the Company's position with the established goals. When reviewing the Company's position, impacting factors and suggested changes, the board of directors also considers other corporate objectives, including increasing core deposits and increasing profitability, before implementing changes intended to align the Company's position with the established goals. While the board of directors continues to closely monitor the Company's negative gap position, at this time, management does not anticipate making any significant changes to the Company's operating practices in order to mitigate the negative gap position.

The rate sensitivity gap table illustrates that the Company had a large negative cumulative gap position for the one-year period as of December 31, 2013. This negative gap position was mainly due to: (1) the interest-bearing and savings deposits being classified in the 1-90 day category; (2) approximately 84.6% of certificates of deposit maturing during the next twelve months; and (3) a significant portion of the Company's loans maturing after one year.

The interest rate sensitivity and rate sensitivity gap tables, taken together, indicate that the Company continues to be in a liability sensitive position when evaluating the maturities of interest-bearing items. Thus, a decline in the interest rate environment would enhance earnings, while an increase in interest rates would have the opposite effect on the Company's earnings. The Company has attempted to mitigate the impact of its interest rate position by increasing the amount of its variable rate loans and also by structuring deposit rates to entice customers to shorten the maturities of their time deposits. The effect of any changes in interest rates on the Company would be mitigated by the fact that interest-bearing demand and savings deposits may not be immediately affected by changes in general interest rates.

Short term interest rates decreased in 2011 and remained low in 2012 and 2013 in connection with decreases in the target Federal Funds rate by the Federal Reserve Bank. However during 2013, medium term interest rates increased in anticipation of the ending of bond buying program by the Federal Reserve Bank. Overall, the effect on the Company was marginal. The Company's net interest margin in 2013 was 3.58% and in 2012 was 3.93%.

## Quarterly Financial Trends

## Market Price and Dividend Information

### **MARKET PRICE**

The Company's common stock trades on The NASDAQ Global Market ("NASDAQ") under the symbol "CIZN". On March 6, 2014, the common stock's closing price on NASDAQ was \$18.12. The following table sets forth the high and low sales prices for the common stock as reported on NASDAQ, as well as the dividends declared, in each quarter in the past two fiscal years.

		High	Low	Dividends Declared (per common share)
2012				
January - March	\$	20.63	\$ 17.51	0.22
April - June		19.99	18.01	0.22
July - September		19.90	18.13	0.22
October - December		19.84	17.55	0.22

		High	Low	Dividends Declared (per common share)
2013				
January - March	\$	19.80	\$ 18.55	0.22
April - June		20.17	17.50	0.22
July - September		18.80	17.63	0.22
October - December		19.30	17.75	0.22

On March 6, 2014, shares of the Company's common stock were held of record by approximately 452 shareholders.

### **DIVIDENDS**

Dividends totaled \$0.88 per share for 2013 and 2012.

If funds are available, the Board of Directors of the Company typically declares dividends on a quarterly basis in March, June, September and December with payment following at the end of the month in which the dividend was declared. Funds for the payment by the Company of cash dividends are obtained from dividends, loans or advances received by the Company from the Bank. Accordingly, the declaration and payment of dividends by the Company depend upon the Bank's earnings and financial condition, general economic conditions, compliance with regulatory requirements, and other factors. The Bank must also receive the approval of the Mississippi Department of Banking and Consumer Finance prior to the payment of a dividend.

## STOCK PERFORMANCE GRAPH

The following performance graph compares the performance of the Company's common stock to the NASDAQ Composite Index and the Morningstar Regional Bank index (a peer group of other regional bank holding companies) for the Company's reporting period. The graph assumes that the value of the investment in the Company's common stock and each index was \$100 at December 31, 2008 and that all dividends were reinvested.

**Performance Graph**  
**December 31, 2008 - December 31, 2013**

	<u>12/29/2008</u>	<u>12/31/2009</u>	<u>12/31/2010</u>	<u>12/31/2011</u>	<u>12/31/2012</u>	<u>12/31/2013</u>
Citizens Holding Company	100.00	110.23	108.39	94.21	109.46	109.74
NASDAQ Market Index	100.00	145.34	171.70	170.34	200.57	281.14
Morningstar Regional Banks	100.00	88.51	107.76	97.00	115.23	159.88

There can be no assurance that the Company's common stock performance will continue in the future with the same or similar trends depicted in the performance graph above. The Company does not and will not make or endorse any predictions as to future stock performance.
