

Hawaiian Holdings, Inc. | 2018 Annual Report

April 5, 2019

#### To Our Stockholders:

It is my kuleana and pleasure to report on another year of growth and profit for Hawaiian Airlines.

In 2018, we delivered on our key priorities: modernizing our fleet with the delivery of A321neos and orders for Boeing 787-9 aircraft, enhancing guest experience with the completion of our cabin remodeling program, and upgrading our commercial offerings with improvements to our co-branded credit card offering and the launch of a new partnership with Japan Air Lines. As we proceed into 2019 – our 90<sup>th</sup> year of serving Hawai'i – we are committed to further bolstering our competitiveness, with a focus on delivering to our guests products and features they value, improving our cost structure, and building a foundation for our future as the world's best premium leisure airline. We have a terrific management team and stellar employees, and we are excited about the growth opportunities our new fleets provide.

#### Some 2018 highlights:

- Operating revenue reached a record \$2.8 billion, despite increased capacity in North America which pressured yield, as well some unusual natural events, including hurricanes, typhoons and volcanic eruptions, that hampered demand.
- Operating income of \$314 million.
- Adjusted net income of \$275 million or \$5.44 per diluted share.
- We carried a record 11.8 million passengers, marking the 14th straight year of passenger growth.
- We were the nation's most punctual airline for the 15<sup>th</sup> straight year.
- We returned \$126 million to shareholders through the repurchase of 2.8 million shares and \$24 million in dividends, at a quarterly rate of 12 cents per share.
- Unrestricted cash and cash equivalents and short-term investments reached \$501 million compared to \$460 million in 2017.
- The remodeling of our A330-200 cabins was completed. All our aircraft now have interiors that are new as of 2015.
- We welcomed the first 11 of 18 A321neo aircraft. This modern, fuel-efficient aircraft is a critical asset in the competitive marketplace for West Coast-to-Hawai'i travel. With smaller capacity than our widebody aircraft, these airplanes position us to compete in mid-sized origin and destination city-pairs that are not as economically accessible with our widebody fleet. Going forward they will also free up our A330 widebodies to increase frequencies in high demand existing markets as well as for new markets (Boston being the most recent example).

Our strong 2018 performance – despite a range of challenges – is reflective of the seamless transition in corporate leadership that took place in March. Peter Ingram knows the company inside and out. He has the respect of our ever-growing workforce, the vision to carry us forward, and the tenacity required to deal with the challenges of our marketplace.

#### **Recent Developments**

At the start of April 2019, Hawaiian Airlines launched two new routes, Honolulu to Boston using our Airbus A330, and Sacramento-Maui using our A321neo. Prior to launch, Boston was the largest U.S. travel market to Hawai'i without nonstop service. In addition, we benefit from our partnership with JetBlue as it brings connecting feed from beyond New England. Sacramento-Maui continues the development of our Maui hub for which the A321neo is the ideal aircraft. Kahului, Maui now has daily service to and from eight West Coast cities, including service from Portland and San Diego which were added in 2018.

On the technology front, Hawaiian Airlines established a Technology Center in Phoenix and rolled out a native app featuring new capabilities aimed at improving the day-of-travel experience for our guests.

We continue to deepen our relationship with JAL as we await regulatory approval of our joint venture with Japan Airlines that promises significant consumer benefits and the opportunity for service expansion. In October, we implemented reciprocal frequent flyer benefits for HawaiianMiles and JAL Mileage Bank members. This development followed the establishment of reciprocal codesharing in early 2018.

Looking forward, Main Cabin Basic will be the fourth distinct cabin product offering for our guests when we launch it on our North American routes in the second half of this year, joining our existing Main Cabin, Extra Comfort and First Class offerings. Providing options to our guests allows them to choose the specific product attributes they value most highly, even as we deliver the same authentic Hawaiian hospitality to everyone who travels on Hawaiian Airlines.

We expect capacity in North America and parts of our international network to increase in the first half of 2019. The entry of Southwest Airlines to our markets has been widely reported, and they obviously represent a serious and competent competitor. Nonetheless, as Hawai'i's airline we have a knowledge of and affinity for Hawai'i that others cannot replicate. We will continue to deliver a uniquely Hawaiian product that provides a level of "aloha" that our competitors cannot match.

#### **Our Future**

New routes, new airplanes, excellent management and dedicated employees is an equation that equals excellence. We are well positioned for success. Our fleet is ideally suited for our unique mission of transporting people and goods to, from and between the Hawaiian Islands. The Boeing 787-9 Dreamliner will join our fleet in 2021 and will increase opportunities for new long-range routes. At the same time, our reliable 717s remain an ideal aircraft for high frequency Neighbor Island service and will continue to do so into the next decade.

#### **Our Employees**

The foundation of the company's success is our more than 7,200 employees who provide our guests with award-winning service that is authentic, efficient, and is highly valued. The board is very pleased to have been able to reward our employees' dedication with 2018 profit-sharing payment and performance bonuses totaling \$31 million.

Our employee base – our 'ohana – cares deeply about Hawai'i. This is reflected by our 90<sup>th</sup> anniversary companymatched employee giving campaign that generated \$187,000 in donations to non-profit agencies across the state. The 90th year fundraiser is in addition to the good work the Company provides annually through its Team Kokua program and Hawaiian Airlines Foundation.

To all our employees, and on behalf of the entire Board of Directors, a most sincere mahalo.

Lawrence S. Hershfield

Chairman of the Board of Directors

This letter contains forward-looking statements within the meaning of the U.S. securities laws that are subject to risks and uncertainties that could cause our actual results to differ materially from those indicated in these forward-looking statements, including but not limited to risks described in our filings with the Securities and Exchange Commission. For important cautionary language regarding these forward-looking statements, please see the section titled "Cautionary Note Regarding Forward-Looking Statements" in our Annual Report on Form 10-K, included herein. The Company undertakes no obligations to update any forward-looking statements.

#### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to certain current and future events and financial performance. Such forward-looking statements include, without limitation, statements related to our financial statements and results of operations; any expectations of operating expenses, deferred revenue, interest rates, tax rates, income taxes, deferred tax assets, valuation allowances or other financial items; expectations regarding our operating performance for the first quarter and full year of 2019; statements regarding factors that may affect our operating results; statements regarding our goals, mission and areas of focus; statements regarding our working capital, and capital expenditures; statements related to funding our aircraft orders, growth strategy and market opportunities; statements regarding the effect of fleet changes on our business, operations and cost structure; statements regarding our ability to pay taxes with working capital; estimates of fair value measurements; statements related to aircraft maintenance and repair; statements related to cash flow from operations and seasonality; statements regarding our intention to pay quarterly dividends and the amounts thereof, if any; statements regarding our ability and intention to repurchase our shares; estimates of required funding of and contributions to our defined benefit pension and disability plans; estimates of annual fuel expenses and measure of the effects of fuel prices on our business; statements regarding our wages and benefits and labor costs and agreements; statements regarding the status and effects of federal and state legislation and regulations promulgated by the Federal Aviation Administration (FAA), U.S. Department of Transportation (DOT) and other regulatory agencies; statements related to airport rent rates and landing fees; statements related to our lease of the cargo and maintenance hangar at the Daniel K. Inouye International Airport; statements regarding a joint venture with Japan Airlines; statements regarding aircraft rent expense; statements regarding our total capacity and yields on routes; statements regarding potential dilution of our securities; statements related to our frequent flyer program; statements related to our hedging program; statements concerning accounting principles, policies, standards, estimates, and the effect of the adoption thereof; statements regarding our net operating loss carryforwards; statements regarding our credit card holdback; statements regarding our debt or lease obligations and financing arrangements; statements regarding our financing needs; statements related to risk management, credit risks, and air traffic liability; statements related to future U.S. and global economic conditions or performance; statements related to changes in our fleet plan and related cash outlays; statements related to expected delivery of new aircraft and associated costs; statements related to the effects of any litigation on our operations or business; statements related to competition on our routes; statements related to continuous investments in technology and systems; and statements as to other matters that do not relate strictly to historical facts or statements of assumptions underlying any of the foregoing. Words such as "expects," "anticipates," "projects," "intends," "plans," "believes," "estimates," "could," "may," variations of such words, and similar expressions are also intended to identify such forward-looking statements. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties, and assumptions relating to our operations and business environment, all of which may cause our actual results to be materially different from any future results, expressed or implied, in these forwardlooking statements.

Factors that could affect such forward-looking statements include, but are not limited to: our ability to accurately forecast quarterly and annual results; global economic volatility; macroeconomic developments; political developments; our dependence on the tourism industry; the price and availability of fuel; foreign currency exchange rate fluctuations; competitive pressures, including the potential impact of increasing industry capacity between North America and Hawai'i; fluctuations in demand for transportation in the markets in which we operate, including due to the occurrence of natural disasters, such as hurricanes, volcanic eruptions, earthquakes, and tsunamis; maintenance of privacy and security of customer-related information and compliance with applicable federal and foreign privacy or data security regulations or standards; our dependence on technology and automated

systems; our reliance on third-party contractors; satisfactory labor relations; our ability to attract and retain qualified personnel and key executives; successful implementation of growth strategy and cost reduction goals; adverse publicity; risks related to the airline industry; our ability to obtain and maintain adequate facilities and infrastructure; seasonal and cyclical volatility; the effect of applicable state, federal and foreign laws and regulations; increases in insurance costs or reductions in coverage; the limited number of suppliers for aircraft, aircraft engines and parts; our existing aircraft purchase agreements; delays in aircraft or engine deliveries or other loss of fleet capacity; our ability to continue to generate sufficient cash flow to support the payment of a quarterly dividend; changes in our future capital needs; fluctuations in our share price; our financial liquidity; and our ability to implement our growth strategy. The risks, uncertainties, and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements also include those discussed under the heading "Risk Factors" in Item 1A in this Annual Report on Form 10-K and the risks, uncertainties and assumptions discussed from time to time in our public filings and public announcements. All forward-looking statements included in this report are based on information available to us as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date hereof.

#### PART I

#### ITEM 1. BUSINESS.

#### Overview

Hawaiian Holdings, Inc. (the Company, Holdings, we, us, and our) is a holding company incorporated in the State of Delaware. The Company's primary asset is sole ownership of all issued and outstanding shares of common stock of Hawaiian Airlines, Inc. (Hawaiian). Hawaiian was originally incorporated in January 1929 under the laws of the Territory of Hawai'i and became our indirect wholly-owned subsidiary pursuant to a corporate restructuring that was consummated in August 2002. Hawaiian became a Delaware corporation and the Company's direct wholly-owned subsidiary concurrent with its reorganization and reacquisition by the Company in June 2005.

#### Our Business

We are engaged in the scheduled air transportation of passengers and cargo amongst the Hawaiian Islands (the Neighbor Island routes) and between the Hawaiian Islands and certain cities in the United States (the North America routes together with the Neighbor Island routes, the Domestic routes), and between the Hawaiian Islands and the South Pacific, Australia, New Zealand and Asia (the International routes), collectively referred to as our Scheduled Operations. We offer non-stop service to Hawai'i from more U.S. gateway cities (13) than any other airline, and also provide approximately 180 daily flights between the Hawaiian Islands. In addition, we operate various charter flights.

We are the longest serving airline, as well as the largest airline headquartered, in the State of Hawai'i, and the 10th largest domestic airline in the United States based on revenue passenger miles (RPMs) reported by the Research and Innovative Technology Administration Bureau of Transportation Services as of September 2018, the latest data available.

At December 31, 2018, our fleet consisted of 20 Boeing 717-200 aircraft for the Neighbor Island routes, four Boeing 767-300 aircraft, 24 Airbus A330-200 aircraft, and eleven Airbus A321-200 for the North America, International, and charter routes. We also own four ATR42 aircraft for the "Ohana by Hawaiian" Neighbor Island service and three ATR71 aircraft for our Neighbor Island cargo operations. During the first quarter of 2019, we expect to retire all four of our remaining Boeing 767-300 aircraft, completing the transition to our A321 aircraft, allowing for optimization of our products and increased management of capacity.

Our goal is to be the number one destination carrier serving Hawai'i. We are devoted to the travel needs of the residents of and visitors to Hawai'i and we offer a unique travel experience. We are strongly rooted in the culture and people of Hawai'i and we seek to provide quality service to our customers that exemplifies the spirit of Aloha.

#### Outlook

Our mission is to continue to grow a profitable airline with a passion for excellence, our customers, our people and the spirit of Hawai'i. In 2019, we will continue to focus on strengthening our competitive position in the markets that we serve primarily by continuing to mature the routes we launched over the past decade, improving our long term competitive cost structure, improving the guest experience by making travel effortless and furthering our segmentation efforts through our offering of additional value-added products and services, including the introduction of our Main Cabin Basic product in 2019.

#### Flight Operations

Our flight operations are based in Honolulu, Hawai'i. At December 31, 2018, we operated 246 scheduled flights with:

- Daily service on our North America routes between the State of Hawaii and Long Beach, Los Angeles, Oakland, Sacramento, San Diego, San Francisco, and San Jose, California; Las Vegas, Nevada; Phoenix, Arizona; Portland, Oregon; Seattle, Washington; and New York City, New York.
- Daily service on our Neighbor Island routes among the six major islands of the State of Hawai'i.
- Daily service on our International routes between the State of Hawai'i and Sydney, Australia; and Tokyo (Haneda and Narita); and Osaka, Japan; and scheduled service between the State of Hawai'i and Pago Pago, American Samoa; Papeete, Tahiti; Brisbane, Australia; Auckland, New Zealand; Sapporo, Japan; and Seoul, South Korea.
- Various ad hoc charters.

#### Fuel

Our results of operations are significantly impacted by changes in the price and availability of aircraft fuel. The following table shows our aircraft fuel consumption and costs:

Year	Gallons consumed	Total cost, including taxes	Average cost per gallon	Percent of operating expenses
	(in t	housands)		
2018	273,783	\$599,544	\$2.19	23.8%
2017	259,915	\$440,383	\$1.69	19.9%
2016	244,118	\$344,322	\$1.41	16.9%

As illustrated by the table above, fuel costs constitute a significant portion of our operating expenses. We purchase aircraft fuel at prevailing market prices, and seek to manage economic risks associated with fluctuations in aircraft fuel prices by entering into various derivative financial instruments.

#### Aircraft Maintenance

Our aircraft maintenance programs consist of a series of phased or continuous checks for each aircraft type. These checks are performed at specified intervals measured by calendar months, time flown, and by the number of takeoffs and landings, or cycles operated. In addition, we perform inspections, repairs, and modifications of our aircraft in response to Federal Aviation Administration (FAA) directives. We perform checks ranging from "walk around" inspections before each flight's departure to major overhauls of the airframes which can take several weeks to complete. Aircraft engines are subject to phased maintenance programs designed to detect and remedy potential problems before they occur. The service lives of certain airframe and engine parts and components, which are time or cycle controlled, are replaced or refurbished prior to the expiration of their time or cycle limits. We have contracts with third parties to provide certain maintenance on our aircraft and aircraft engines.

#### Marketing and Ticket Distribution

We utilize various distribution channels including our website www.hawaiianairlines.com, primarily for our North America and Neighbor Island routes, and travel agencies and wholesale distributors for our International routes.

Our website is available in English, Japanese, Korean, and Chinese and offers our customers information on our flight schedules, information on our *HawaiianMiles* frequent flyer program, the

ability to book reservations on our flights or connecting flights with any of our code-share partners, the status of our flights as well as the ability to purchase hotels, cars and vacation packages. We also distribute our fares through online travel agencies.

#### Frequent Flyer Program

The *HawaiianMiles* frequent flyer program was initiated in 1983 to encourage and develop customer loyalty. *HawaiianMiles* allows passengers to earn mileage credits by flying with us and our partner carriers. In addition, members earn mileage credits for patronage with our other program partners, including credit card issuers, hotels, car rental firms, and general merchants pursuant to our exchange partnership agreements. We also sell mileage credits to other companies participating in the program.

HawaiianMiles members have a choice of various awards based on accumulated mileage credits, with most of the awards being redeemed for free air travel on Hawaiian.

HawaiianMiles accounts with no activity (frequent flyer miles earned or redeemed) for 18 months automatically expire. The number of free travel awards used for travel on Hawaiian was approximately 685,000 in 2018. The number of free travel awards as a percentage of total revenue passengers was approximately 6% in 2018. We believe displacement of revenue passengers is minimal due to our ability to manage frequent flyer seat inventory, and the relatively low ratio of free award usage to total revenue passengers.

#### Code-Share and Other Alliances

Together with Japan Airlines, we filed an application with the U.S. Department of Transportation (DOT) and Japan's Ministry of Land, Infrastructure, Transport and Tourism (MLIT) seeking antitrust immunity to create a joint venture that promises significant consumer benefits and the opportunity for service expansion. We further enhanced our comprehensive partnership with Japan Airlines with the announcement of reciprocal frequent flyer benefits for HawaiianMiles and JAL Mileage Bank members in October 2018. The initial partnership launched in March 2018 with codeshare flights between Japan and Hawaii. We have not yet received approval and we do not anticipate operations commencing under the joint venture until late 2019.

We also have marketing alliances with other airlines that provide reciprocal frequent flyer mileage accrual and redemption privileges and code-shares on certain flights (one carrier placing its name and flight numbers, or code, on flights operated by the other carrier). These programs enhance our revenue opportunities by:

- increasing value to our customers by providing easier access to more travel destinations and better mileage accrual/redemption opportunities;
- gaining access to more connecting traffic from other airlines; and
- providing members of our alliance partners' frequent flyer programs an opportunity to travel on our system while earning mileage credit in the alliance partners' programs.

Our marketing alliances with other airlines as of December 31, 2018 were as follows:

	Hawaiian Miles Frequent Flyer Agreement	Other Airline Frequent Flyer Agreement	Code-share—Hawaiian Flight # on Flights Operated by Other Airline	Code-share—Other Airline Flight # on Flights Operated by Hawaiian
Air China	No	No	No	Yes
American Airlines	No	Yes	No	Yes
China Airlines	Yes	Yes	Yes	Yes
Delta Air Lines	No	Yes	No	Yes
JetBlue	Yes	Yes	Yes	Yes
Korean Air	Yes	Yes	Yes	Yes
Philippine Airlines	No	No	No	Yes
Turkish Airlines	No	No	No	Yes
United Airlines	No	Yes	No	Yes
Virgin Atlantic Airways	Yes	Yes	No	No
Virgin Australia	Yes	Yes	No	Yes

Although these programs and services increase our ability to be more competitive, they also increase our reliance on third parties.

#### Competition

The airline industry is highly competitive. We believe that the principal competitive factors in the airline industry are:

- Fares;
- Flight frequency and schedule;
- Customer service;
- On-time performance and reliability;
- Name recognition;
- Marketing affiliations;
- Frequent flyer benefits;
- Aircraft type;
- · Safety record; and
- In-flight services.

Domestic—We face multiple competitors on our North America routes including major network carriers such as Alaska (AS), American Airlines (AA), United Airlines (UA), and Delta Airlines (DL). In addition, Southwest Airlines (WN) announced their intent to launch service to and from (and possibly within the islands of) Hawai'i in 2018. Various charter companies also provide non-scheduled service to Hawai'i, mostly under public charter arrangements. Our Neighbor Island competitors consist of regional carriers, which include Mokulele Airlines and a number of other "air taxi" companies.

International—Currently, we are the only provider of direct service between Honolulu and each of Sapporo, Japan; Pago Pago, American Samoa; and Papeete, Tahiti. However, we face multiple competitors from both domestic and foreign carriers on our other international routes.

#### **Employees**

As of December 31, 2018, we had 7,244 active employees, of whom approximately 84% were covered by labor agreements with the following organized labor groups:

<b>Employee Group</b>	Represented by	Number of Employees	Agreement amendable on(*)
Flight deck crew members	Air Line Pilots Association (ALPA)	800	July 1, 2022
Cabin crew members	Association of Flight Attendants (AFA)	2,101	January 1, 2017(**)
Maintenance and			
engineering personnel	International Association of Machinists and Aerospace Workers (IAM-M)	1,111	January 1, 2021
Clerical	IAM-C	2,031	January 1, 2021
Flight dispatch personnel	Transport Workers Union (TWU)	52	August 1, 2021

<sup>(\*)</sup> Our relations with labor unions representing our airline employees are governed by the Railway Labor Act of 1926. Under the Railway Labor Act, a collective bargaining agreement between us and the labor unions does not expire, but instead becomes amendable as of a stated date if either party wishes to modify the terms of the agreement.

#### Seasonality

Hawai'i is a popular vacation destination for travelers. For that reason, our operations and financial results are subject to substantial seasonal and cyclical volatility, primarily due to leisure and holiday travel patterns. Demand levels are typically weaker in the first quarter of the year with stronger demand periods occurring during June, July, August, and December. We may adjust our pricing or the availability of particular fares to obtain an optimal passenger load factor depending on seasonal demand differences.

#### Customers

Our business is not dependent upon any single customer or a few customers. The loss of any one customer would not have a material adverse effect on our business.

#### Regulation

Our business is subject to extensive and evolving international, federal, state and local laws and regulations. Many governmental agencies regularly examine our operations to monitor compliance with applicable laws and regulations. Governmental authorities can enforce compliance with applicable laws and regulations and obtain injunctions or impose civil or criminal penalties or modify, suspend, or revoke our operating certificates in case of violations.

#### Industry Regulations

We are subject to the regulatory jurisdiction of the U.S. Department of Transportation (DOT) and the Federal Aviation Administration (FAA). The DOT has jurisdiction over international routes and fares for some countries (based upon treaty relations with those countries), consumer protection policies including baggage liability, denied boarding compensation, and unfair competitive practices as set forth in the Airline Deregulation Act of 1978. The FAA has regulatory jurisdiction over flight operations, including equipment, ground facilities, security systems, maintenance, and other safety matters. Pursuant to these regulations, we have established, and the FAA has approved, a maintenance program

<sup>(\*\*)</sup> As of December 31, 2018, contract negotiations are ongoing with the AFA.

for each type of aircraft we operate that provides for the ongoing maintenance of our aircraft, ranging from frequent routine inspections to major overhauls.

#### Maintenance Directives

The FAA approves all airline maintenance programs, including modifications to the programs. In addition, the FAA licenses the repair stations and mechanics that perform inspections, repairs and overhauls, as well as the inspectors who monitor the work.

The FAA frequently issues airworthiness directives in response to specific incidents or reports by operators or manufacturers, requiring operators of specified equipment types to perform prescribed inspections, repairs or modifications within stated time periods or numbers of cycles. In the last several years, the FAA has issued a number of maintenance directives and other regulations relating to, among other things, wiring requirements for aging aircraft, fuel tank flammability, cargo compartment fire detection/suppression systems, collision avoidance systems, airborne windshear avoidance systems, noise abatement, and increased inspection requirements.

#### Airport Security

The Aviation and Transportation Security Act (ATSA) mandates that the Transportation Security Administration (TSA) provide screening of all passengers and property, including mail, cargo, carry-on and checked baggage, and other articles that will be carried aboard a passenger aircraft. Under the ATSA, substantially all security screeners at airports are federal employees and airline and airport security is overseen and performed by federal employees, including security managers, law enforcement officers, and Federal Air Marshals. The ATSA also provides for increased security on flight decks of aircraft (and requires Federal Air Marshals to be present on certain flights), improved airport perimeter access security, airline crew security training, enhanced security screening of passengers, baggage, cargo, mail, employees and vendors, enhanced training and qualifications of security screening personnel, provision of passenger data to U.S. Customs and Border Protection and enhanced background checks.

The TSA also has the authority to impose additional fees on air carriers, if necessary, to cover additional federal aviation security costs.

#### Environmental and Employee Safety and Health

We are subject to various laws and regulations concerning environmental matters and employee safety and health in the U.S. and other countries in which we do business. Many aspects of airlines' operations are subject to increasingly stringent federal, state, local, and foreign laws protecting the environment. U.S. federal laws that have a particular impact on us include the Airport Noise and Capacity Act of 1990, the Clean Air Act, the Resource Conservation and Recovery Act, the Clean Water Act, the Safe Drinking Water Act, and the Comprehensive Environmental Response, Compensation, and Liability Act. Certain of our operations are also subject to the oversight of the Occupational Safety and Health Administration (OSHA) concerning employee safety and health matters. The U.S. Environmental Protection Agency (EPA), OSHA, and other federal agencies have been authorized to promulgate regulations that affect our operations. In addition to these federal activities, states have been delegated certain authority under the aforementioned federal statutes. Many state and local governments have adopted environmental and employee safety and health laws and regulations, some of which are similar to or stricter than federal requirements, such as California.

The EPA is authorized to regulate aircraft emissions and has historically implemented emissions control standards previously adopted by the International Civil Aviation Organization. Our aircraft comply with the existing EPA standards as applicable by engine design date.

We seek to minimize the impact of carbon emissions from our operations through reductions in our fuel consumption and other efforts. We have reduced the fuel needs of our aircraft fleet through the retirement and replacement of certain aircraft in our fleet with newer, more fuel efficient aircraft. In addition, we have implemented fuel saving procedures in our flight and ground support operations that further reduce carbon emissions. In 2012, we earned the first-ever aviation based carbon credits through the reduction of carbon dioxide emissions with the use of an eco-friendly engine washing technology. We are also supporting initiatives to develop alternative fuels and efforts to modernize the air traffic control system in the U.S. as part of our efforts to reduce our emissions and minimize our impact on the environment.

#### Noise Abatement

Under the Airport Noise and Capacity Act, the DOT allows local airport authorities to implement procedures designed to abate special noise problems, provided such procedures do not unreasonably interfere with interstate and foreign commerce, or the national transportation system. Certain airports, including the major airports at Los Angeles, San Diego, San Francisco, and San Jose, California; Sydney, Australia; and Tokyo, Japan, have established airport restrictions to limit noise, including restrictions on aircraft types to be used and limits on the number of hourly or daily operations or the time of such operations. Local authorities at other airports could consider adopting similar noise restrictions. In some instances, these restrictions have caused curtailments in services or increases in operating costs, and such restrictions could limit our ability to expand our operations.

#### Civil Reserve Air Fleet Program

The U.S. Department of Defense regulates the Civil Reserve Air Fleet (CRAF) and government charters. We have elected to participate in the CRAF program by agreeing to make aircraft available to the federal government for use by the U.S. military under certain stages of readiness related to national emergencies. The program is a standby arrangement that allows the U.S. Department of Defense U.S. Transportation Command to call on as many as 12 contractually committed Hawaiian aircraft and crews to supplement military airlift capabilities. None of our aircraft are presently mobilized under this program.

#### Other Regulations

The State of Hawai'i is uniquely dependent upon air transportation. The Hawai'i state legislature has enacted legislation that reflects and attempts to address its concerns. For example, House Bill 2250 HD1, Act 1 of the 2008 Special Session, establishes a statutory scheme for the regulation of Hawai'i neighbor island air carriers, provided that federal legislation is enacted to permit its implementation. The U.S. Congress has yet to enact legislation that would allow this proposed legislation to go into effect.

Additionally, several aspects of airline operations are subject to regulation or oversight by federal agencies other than the FAA and the DOT. Federal antitrust laws are enforced by the U.S. Department of Justice. The U.S. Postal Service has jurisdiction over certain aspects of the transportation of mail and related services provided by our cargo services. Labor relations in the air transportation industry are generally regulated under the Railway Labor Act. We and other airlines certificated prior to October 24, 1978 are also subject to preferential hiring rights granted by the Airline Deregulation Act to certain airline employees who have been furloughed or terminated (other than for cause). The Federal Communications Commission issues licenses and regulates the use of all communications frequencies assigned to us and other airlines. There is increased focus on consumer protection both on the federal and state level. We cannot always accurately predict the cost of such requirements on our operations.

Additional laws and regulations are proposed from time to time, which could significantly increase the cost of airline operations by imposing additional requirements or restrictions. U.S. law restricts the ownership of U.S. airlines to corporations where no more than 25% of the voting stock may be held by non-U.S. citizens and the airline must be under the actual control of U.S. citizens. The President and two thirds of the Board of Directors and other managing officers must also be U.S. citizens. Regulations also have been considered from time to time that would prohibit or restrict the ownership and/or transfer of airline routes or takeoff and landing slots and authorizations. Also, the award of international routes to U.S. carriers (and their retention) is regulated by treaties and related agreements between the U.S. and foreign governments, which are amended from time to time. We cannot predict what laws and regulations will be adopted or what changes to international air transportation treaties will be adopted, if any, or how we will be affected by those changes.

#### Available Information

General information about us, including the charters for the committees of our Board of Directors can be found at <a href="https://www.hawaiianairlines.com">https://www.hawaiianairlines.com</a>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K, as well as any amendments and exhibits to those reports that we file with the Securities and Exchange Commission (SEC) are available free of charge through our website. The SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, which can be found at <a href="http://www.sec.gov">http://www.sec.gov</a>.

We also use the investor relations section of our website https://newsroom.hawaiianairlines.com/investor-relations and our website (https://www.hawaiianairlines.com), as a means of disclosing material information and for complying with our disclosure obligations under Regulation FD.

Information on our website is not incorporated into this Annual Report on Form 10-K or our other securities filings and is not a part of such filings.

#### ITEM 1A. RISK FACTORS.

In addition to the risks identified elsewhere in this report, the following risk factors apply to our business, results of operations, and financial conditions.

#### **ECONOMIC RISKS**

#### Our business is affected by global economic volatility.

Our business and results of operations are significantly impacted by general world-wide economic conditions. Demand for discretionary purchases including air travel and vacations to Hawai'i remains unpredictable. Deterioration in demand resulting from economic uncertainty or another recession may result in a reduction in our passenger traffic and/or increased competitive pressure on fares in the markets we serve, which would negatively impact our results of operations and financial condition. We cannot assure that we would be able to offset such revenue reductions by reducing our costs.

Our business is highly dependent on tourism to, from, and amongst the Hawaiian Islands and our financial results could suffer if there is a downturn in tourism levels.

Our principal base of operations is in Hawai'i and our revenue is linked primarily to the number of travelers (mainly tourists) to, from and amongst the Hawaiian Islands. Hawai'i tourism levels are affected by the political and economic climate in Hawai'i's main tourism markets, the availability of hotel accommodations, the popularity of Hawai'i as a tourist destination relative to other vacation destinations, and other global factors, including natural disasters, safety, and security. From time to

time, various events and industry specific problems such as labor strikes have had a negative impact on tourism in Hawai'i. The occurrence of natural disasters, such as hurricanes, earthquakes, volcanic eruptions, and tsunamis, in Hawai'i or other parts of the world, could also have a material adverse effect on Hawai'i tourism. In addition, the potential or actual occurrence of terrorist attacks, wars, and the threat of other negative world events have had, and may in the future have, a material adverse effect on Hawai'i tourism. A decline in the level of Hawai'i passenger traffic could have a material adverse effect on our results of operations and financial condition.

#### Our business is highly dependent on the price and availability of fuel.

Our results and operations are heavily impacted by the price and availability of jet fuel. While we have benefited in the past from lower fuel costs, fuel costs increased in 2017 and 2018 and we cannot assure that fuel costs will not increase further in the future. The cost and availability of jet fuel remains volatile and is subject to political, economic, and market factors that are generally outside of our control. Prices may be affected by many factors including, without limitation, the impact of political instability, crude oil production and refining capacity, unexpected changes in the availability of petroleum products due to disruptions to distribution systems or refineries, unpredicted increases in demand due to weather or the pace of global economic growth, inventory reserve levels of crude oil and other petroleum products, the relative fluctuation between the U.S. dollar and other major currencies, and the actions of speculators in commodity markets. Because of the effects of these factors on the price and availability of jet fuel, the cost and future availability of fuel cannot be predicted with any degree of certainty. Also, due to the competitive nature of the airline industry, there can be no assurance that we will be able to increase our fares or other fees to sufficiently offset any increase in fuel prices.

We enter into derivative agreements to protect against the volatility of fuel costs. There is no assurance that such agreements will protect us during unfavorable market conditions or that our counterparties will be able to perform under these hedge arrangements.

See Item 7A, Quantitative and Qualitative Disclosures About Market Risk, for further information regarding our exposure to the price of fuel.

#### Our business is exposed to foreign currency exchange rate fluctuations.

Our business is expanding internationally with an increasing percentage of our passenger revenue generated from our International routes. The fluctuation of the U.S. dollar relative to foreign currencies can significantly affect our results of operations and financial condition. To manage the effects of fluctuating exchange rates, we periodically enter into foreign currency forward contracts, execute payment of expenditures in those locations in local currency, and recently entered into \$86.5 million in Japanese Yen denominated debt in connection with two aircraft financing transactions. There is no assurance that such agreements will protect us against foreign currency exchange rate fluctuations during unfavorable market conditions or that our counterparties will be able to perform under these hedge arrangements.

See Item 7A, Quantitative and Qualitative Disclosures About Market Risk, for further information regarding our exposure to the foreign currency exchange rates.

#### COMPETITIVE ENVIRONMENT RISKS

#### We operate in an extremely competitive environment.

The airline industry is characterized by low profit margins, high fixed costs, and significant price competition. We compete with other airlines on all of our Domestic and International routes. The commencement of, or increase in, service on our routes by existing or new carriers could negatively

impact our operating results. Many of our competitors on our North America and International routes are much larger and have greater financial resources and brand recognition than we do. Aggressive marketing tactics or a prolonged fare war initiated by one or more of these competitors could adversely affect our financial resources and our ability to compete in these markets. Since airline markets have few natural barriers to entry, we also face the constant threat of new entrants in all of our markets.

Additional capacity to Hawai'i, whether from network carriers or LCCs, could decrease our share of the markets in which we operate, could cause a decline in our yields, or both, which could have a material adverse effect on our results of operations and financial condition.

### The concentration of our business in Hawai'i, and between Hawai'i and the U.S. mainland, provides little diversification of our revenue.

During 2018, approximately 74% of our passenger revenue was generated from our Domestic routes. Many of our competitors, particularly major network carriers with whom we compete on our North America routes, enjoy greater geographical diversification of their revenue. A reduction in the level of demand for travel within Hawai'i, or to Hawai'i from the U.S. mainland, or an increase in the level of industry capacity on these routes, may reduce the revenue we are able to generate and adversely affect our financial results. As these routes account for a significantly higher proportion of our revenue than they do for many of our competitors, such a reduction would have a relatively greater adverse effect on our financial results.

#### Our business is affected by the competitive advantages held by network carriers in the North America market.

During 2018, approximately 52% of our passenger revenue was generated from our North America routes. The majority of competition on our North America routes is from network carriers such as Alaska Airlines, American Airlines, Delta Air Lines, and United Airlines, all of whom have a number of competitive advantages. Primarily, network carriers generate passenger traffic from and throughout the U.S. mainland, which enable them to attract higher customer traffic levels as compared to us. Also, there have been recent announcements by other carriers, such as Southwest Airlines, that there will be an increase in capacity to and from Hawai'i, and possibly amongst the Hawaiian Islands.

In contrast, we lack a comparable direct network to feed passengers to our North America flights and are therefore more reliant on passenger demand in the specific cities we serve. We also rely on our code-share partner agreements (e.g. with JetBlue) to provide customers access to and from North American destinations currently unserved by us. Most network carriers operate from hubs, which can provide a built-in market of passengers depending on the economic strength of the hub city and the size of the customer group that frequent the airline. Our Honolulu and Maui hubs do not originate a large proportion of North American travel, nor do they have the population or potential customer franchise of a larger city to provide us with a built-in market. Passengers in the North American market, for the most part, do not originate in Honolulu, but on the U.S. mainland, making Honolulu primarily a destination rather than an origin of passenger traffic.

#### Our Neighbor Island routes are affected by increased capacity provided by our competitors.

During 2018, approximately 22% of our passenger revenue was generated from our Neighbor Island routes. Although we enjoy a strong competitive position on our Neighbor Island routes, our competitors could increase capacity to Hawai'i either by introducing new routes or increasing the frequency of existing routes from North America to the Neighbor Islands or by the introduction of additional flights within the Neighbor Islands. This additional capacity could have the effect of decreasing our share of traffic on our Neighbor Island routes, which could have a material adverse effect on our results of operations and financial condition.

#### Our International routes are affected by competition from domestic and foreign carriers.

During 2018, approximately 26% of our passenger revenue was generated from our International routes. Our competitors on these routes include both domestic and foreign carriers. Both domestic and foreign competitors have a number of competitive advantages that may enable them to attract higher customer traffic levels as compared to us.

Many of our domestic competitors have joined airline alliances, which provide customers access to each participating airline's international network, allowing for convenience and connectivity to their destinations. These alliances formed by our domestic competitors have increased in recent years. In some instances our domestic competitors have been granted antitrust exemptions to form joint venture arrangements in certain geographies, further deepening their cooperation on certain routes. To mitigate this risk, we rely on code-share agreements with partner airlines to provide customers access to international destinations currently unserved by us.

Many of our foreign competitors are network carriers that benefit from network feed to support International routes on which we compete. In contrast, we lack a comparable direct network to feed passengers to our International flights, and are therefore more reliant on passenger demand in the specific destinations that we serve. Most network carriers operate from hubs, which can provide a built-in home base market of passengers. Passengers on our International routes, for the most part, do not originate in Hawai'i, but rather internationally, in these foreign carriers' home bases. We also rely on our code-share agreements and our relationships with travel agencies and wholesale distributors to provide customers access to and from International destinations currently unserved by us.

#### INFORMATION TECHNOLOGY AND THIRD-PARTY RISKS

If we do not maintain the privacy and security of customer-related information or fail to comply with applicable U.S. and foreign privacy or data security regulations or security standards imposed by our commercial partners, our reputation could be damaged, we could incur substantial additional costs, and we could become subject to litigation or regulatory penalties.

We receive, retain, and transmit personal information about our customers and we are subject to increasing legislative, regulatory and customer focus on privacy and data security both domestically and internationally. A number of our commercial partners, including credit card companies, have imposed data security standards that we are obligated to meet and these standards continue to evolve. We will continue our efforts to meet new and increasing privacy and security standards; however, it is possible that such new standards may prove difficult to meet, require us to expend additional resources, and result in us being unable to process credit card transactions if determined to be non-compliant. Additionally, any compromise of our technology systems could result in the loss, disclosure, misappropriation of or access to our customers', employees' or business partners' information. Any such loss, disclosure, misappropriation or access could result in legal claims or proceedings, liability or regulatory penalties under laws protecting the privacy of personal information. Any significant data breach or our failure to comply with applicable U.S. and foreign privacy or data security regulations or security standards imposed by our commercial partners may adversely affect our reputation, business, results of operations and financial condition, and may require that we expend significant additional resources related to the security of information systems.

#### We are increasingly dependent on technology and automated systems to operate our business.

We depend heavily on technology and automated systems to effectively operate our business. These systems include flight operations systems, communications systems, airport systems, reservations systems, management and accounting systems, commercial websites, including www.hawaiianairlines.com, and other systems, all of which must be able to accommodate high traffic volumes, maintain secure information and provide accurate flight information, as well as process critical financial related

transactions. Any substantial or repeated failures of these systems could negatively affect our customer service, compromise the security of customer information, result in the loss of important data, loss of revenue and increased costs, and generally harm our business. Like other companies, our systems may be vulnerable to disruptions due to events beyond our control, including natural disasters, power disruptions, software or equipment failures, terrorist attacks, cybersecurity threats, computer viruses and hackers. There can be no assurance that the measures we have taken to reduce the adverse effects of certain potential failures or disruptions are adequate to prevent or remedy disruptions of our systems. In addition, we will need to continuously make significant investments in technology to periodically upgrade and replace existing systems. If we are unable to make these investments or fail to successfully implement, upgrade or replace our systems, our business could be adversely impacted.

We are highly reliant on third-party contractors to provide certain facilities and services for our operations, and termination of our third-party agreements could have a potentially adverse effect on our financial results.

There are a limited number of qualified employees and personnel in the airline and information technology industry, especially within the Hawai'i market. Due to these limitations, we historically relied on outside vendors for a variety of services and functions critical to our business, including aircraft maintenance and parts, code-sharing, reservations, computer services including hosting and software maintenance, accounting, frequent flyer programs, passenger processing, ground facilities, baggage and cargo handling, personnel training, and the distribution and sale of airline seats. Our reliance on outside vendors may continue to increase in the future.

The failure of any of our third-party service providers to adequately perform their service obligations, or other interruptions of services may reduce our revenues, increase expenses, and/or prevent us from operating our flights and providing other services to our customers. Our business and financial performance would be materially harmed if our customers believe that our services are unreliable or unsatisfactory.

#### LABOR RELATIONS AND RELATED COSTS RISKS

#### We are dependent on satisfactory labor relations.

Labor costs are a significant component of airline expenses and can substantially impact an airline's results of operations. A significant portion of our workforce is represented by labor unions. We may make strategic and operational decisions that may require the consent of one or more of these labor unions, and these labor unions could demand additional wages, benefits or other consideration in return for their consent.

In addition, we have entered into collective bargaining agreements with our pilots, mechanical group employees, clerical group employees, flight attendants, and dispatchers. We cannot ensure that future agreements with our employees' labor unions will be on terms in line with our expectations or comparable to agreements entered into by our competitors, and any future agreements may increase our labor costs or otherwise adversely affect our business. We are currently in labor negotiations with our flight attendants' union, AFA, whose contract became amendable on January 1, 2017. If we are unable to reach an agreement with any unionized work group, we may be subject to future work interruptions and/or stoppages, which may hamper or halt operations. In addition, the threat of future work interruptions and/or stoppages may cause a decline in our passenger traffic, negatively impacting our results of operations and financial condition.

Our operations may be adversely affected if we are unable to attract and retain qualified personnel and key executives.

We believe that our future success is dependent on the knowledge and expertise of our key executives and highly qualified management, technical, and other personnel. Attracting and retaining such

personnel in the airline industry is highly competitive. We cannot be certain that we will be able to retain our key executives or attract other qualified personnel in the future. Any inability to retain our key executives, or attract and retain additional qualified executives, could have a negative impact on our operations.

In addition, as we continue to expand our operations through the acquisition of new aircraft and introduction of service to new markets, it may be challenging to attract a sufficient number of qualified personnel including pilots, mechanics and other skilled labor. As we compete with other carriers for qualified personnel, we also face the challenge of attracting individuals who embrace our team-oriented, friendly and customer-driven corporate culture. Our inability to attract and retain qualified personnel who embrace our corporate culture could have a negative impact on our reputation and overall operations.

#### STRATEGY AND BRAND RISKS

#### Our failure to successfully implement our route and network strategy could harm our business.

Our route and network strategy (how we determine to deploy our fleet) includes initiatives to increase revenue, decrease costs, mature our network, and improve distribution of our sales channels. It is critical that we execute upon our planned strategy in order for our business to attain economies of scale and to sustain or improve our results of operations. If we are unable to utilize and fill increased capacity provided by additional aircraft entering our fleet, hire and retain skilled personnel, or secure the required equipment and facilities in a cost-effective manner, we may be unable to successfully develop and grow our new and existing markets, which may adversely affect our business and operations.

We continue to strive toward aggressive cost-containment goals which are an important part of our business strategy to offer the best value to passengers through competitive fares while maintaining acceptable profit margins and return on capital. We believe a lower cost structure will better position us to fund our strategy and take advantage of market opportunities. If we are unable to adequately contain our non-fuel unit costs, our financial results may suffer.

### Our reputation and financial results could be harmed in the event of adverse publicity, including the event of an aircraft accident or incident.

Our customer base is broad and our business activities have significant prominence, particularly in Hawai'i and other destinations we serve. Consequently, negative publicity resulting from real or perceived shortcomings in our customer service, employee relations, business conduct, or other events affecting our operations could negatively affect the public image of our company and the willingness of customers to purchase services from us, which could affect our financial results.

Additionally, we are exposed to potential losses that may be incurred in the event of an aircraft accident or incident. Any such accident or incident involving our aircraft or an aircraft operated by one of our code-share partners could involve not only the repair or replacement of a damaged aircraft and its consequential temporary or permanent loss of revenue, but also significant claims of injured passengers and others. We are required by the U.S. Department of Transportation (DOT) to carry liability insurance, and although we currently maintain liability insurance in amounts consistent with the industry, we cannot be assured that our insurance coverage will adequately cover us from all claims and we may be forced to bear substantial losses incurred with an accident. In addition, any aircraft accident or incident could cause a public perception that we are less safe or reliable than other airlines, which would harm our business.

#### AIRLINE INDUSTRY, REGULATION AND RELATED COSTS RISKS

The airline industry has substantial operating leverage and is affected by many conditions that are beyond its control, which could harm our financial condition and results of operations.

Due to the substantial fixed costs associated with operating an airline, there is a disproportionate relationship between the cost of operating each flight and the number of passengers carried. However, the revenue generated from a particular flight is directly related to the number of passengers carried and the respective average fares applied. Accordingly, a decrease in the number of passengers carried would cause a corresponding decrease in revenue (if not offset by higher fares), and it may result in a disproportionately greater decrease in profits. Therefore, any general reduction in airline passenger traffic as a result of any of the following or other factors, which are largely outside of our control, could harm our business, financial condition, and results of operations:

- · decline in general economic conditions;
- continued threat of terrorist attacks and conflicts overseas;
- actual or threatened war and political instability;
- increased security measures or breaches in security;
- · adverse weather and natural disasters;
- changes in consumer preferences, perceptions, or spending patterns;
- increased costs related to security and safety measures;
- increased fares as a result of increases in fuel costs;
- · outbreaks of contagious diseases or fear of contagion; and
- · congestion at airports and actual or potential disruptions in the air traffic control system.

Our results of operations may be volatile due to the conditions identified above. We cannot ensure that our financial resources will be sufficient to absorb the effects of any of these unexpected factors should they occur.

### Our financial results and operations may be negatively affected by the State of Hawai'i's airport modernization plan.

The State of Hawai'i has begun to implement a modernization plan encompassing the airports we serve within the State. Our landing fees and airport rent rates have increased to fund the modernization program. Additionally, we expect the costs for our Neighbor Island operations to increase more than the costs related to our North America and International operations due to phased adjustments of the airports' funding mechanism. Therefore, costs related to the modernization program will have a greater impact on our operations as compared to our competitors, who do not have significant Neighbor Island operations. We can offer no assurance that we will be successful in offsetting these cost increases through other cost reductions or increases in our revenue and, therefore, can offer no assurance that our future financial results will not be negatively affected by them.

### Our operations may be disrupted if we are unable to obtain and maintain adequate facilities and infrastructure at airports within the State of Hawai'i.

We must be able to maintain and/or obtain adequate gates, maintenance capacity, office space, operations areas, and ticketing facilities at the airports within the State of Hawai'i to be able to operate our existing and proposed flight schedules. Failure to maintain such facilities and infrastructure may adversely impact our operations and financial performance.

#### Our business is subject to substantial seasonal and cyclical volatility.

Our results of operations reflect the impact of seasonal volatility primarily due to passenger leisure and holiday travel patterns. As Hawai'i is a popular vacation destination, demand from North America, our largest source of visitors, is typically stronger during June, July, August and December and considerably weaker at other times of the year. Because of fluctuations in our results from seasonality, operating results for a historical period are not necessarily indicative of operating results for a future period and operating results for an interim period are not necessarily indicative of operating results for an entire year.

### Terrorist attacks or international hostilities, or the fear of terrorist attacks or hostilities, even if not made directly on the airline industry, could negatively affect us and the airline industry.

Terrorist attacks, even if not made directly on the airline industry, or the fear of such attacks, hostilities or act of war, could adversely affect the airline industry, including us, and could result in a significant decrease in demand for air travel, increased security costs, increased insurance costs covering war-related risks, and increased flight operational loss due to cancellations and delays. Any future terrorist attacks or the implementation of additional security-related fees could have a material adverse effect on our business, financial condition and results of operations, and on the airline industry in general.

### The airline industry is subject to extensive government regulation, new regulations, and taxes which could have an adverse effect on our financial condition and results of operations.

Airlines are subject to extensive regulatory requirements that result in significant costs. New, and modifications to existing, laws, regulations, taxes and airport rates, and charges imposed by domestic and foreign governments have been proposed from time to time that could significantly increase the cost of airline operations, restrict operations or reduce revenue. The FAA from time to time issues directives and other regulations relating to the maintenance and operation of aircraft that require significant expenditures. Some FAA requirements cover, among other things, retirement of older aircraft, security measures, collision avoidance systems, airborne windshear avoidance systems, noise abatement and other environmental concerns, commuter aircraft safety and increased inspections, and maintenance procedures to be conducted on older aircraft. A failure to be in compliance, or a modification, suspension or revocation of any of our DOT/FAA authorizations or certificates, would have a material adverse impact on our operations.

We cannot predict the impact that laws or regulations may have on our operations, nor can we ensure that laws or regulations enacted in the future will not adversely affect our business. Further, we cannot guarantee that we will be able to obtain or maintain necessary governmental approvals. Once obtained, operating permits are subject to modification and revocation by the issuing agencies. Compliance with these and any future regulatory requirements could require us to incur significant capital and operating expenditures.

In addition to extensive government regulations, the airline industry is dependent on certain services provided by government agencies (DOT, FAA, CBP, TSA, etc.). Furthermore, because of significantly higher security and other costs incurred by airports since September 11, 2001, many airports have significantly increased their rates and charges to airlines, including us, and may do so again in the future.

### Federal budget constraints or federally imposed furloughs due to budget negotiation deadlocks may adversely affect our industry, business, results of operations and financial position.

Many of our airline operations are regulated by governmental agencies, including the FAA, the DOT, the CBP, the TSA, and others. If the federal government operations were to experience issues in

reaching budgetary consensus in the future resulting in mandatory furloughs and/or other budget constraints, our business and results of operations could be materially negatively impacted.

The airline industry is required to comply with various environmental laws and regulations, which could inhibit our ability to operate and could also have an adverse effect on our results of operations.

Many aspects of airlines' operations are subject to increasingly stringent federal, state, local, and foreign laws protecting the environment. U.S. federal laws that have a particular impact on us include the Airport Noise and Capacity Act of 1990, the Clean Air Act, the Resource Conservation and Recovery Act, the Clean Water Act, the Safe Drinking Water Act, the Comprehensive Environmental Response Act and the Compensation and Liability Act. Compliance with these and other environmental laws and regulations can require significant expenditures, and violations can lead to significant fines and penalties. Governments globally are increasingly focusing on the environmental impact caused by the consumption of fossil fuels and as a result have proposed or enacted legislation which may increase the cost of providing airline service or restrict its provision. We expect the focus on environmental matters to increase.

Concern about climate change and greenhouse gases may result in additional regulation of aircraft emissions in the U.S. and abroad. In addition, other legislative or regulatory action to regulate greenhouse gas emissions is possible. At this time, we cannot predict whether any such legislation or regulation would apportion costs between one or more jurisdictions in which we operate flights. We are monitoring and evaluating the potential impact of such legislative and regulatory developments.

In addition to direct costs, such regulation may have a greater effect on the airline industry through increases in fuel costs. The impact to us and our industry from such actions is likely to be adverse and could be significant, particularly if regulators were to conclude that emissions from commercial aircraft cause significant harm to the atmosphere or have a greater impact on climate change than other industries.

Our operations may be adversely affected by our expansion into non-U.S. jurisdictions and the related laws and regulations to which we are subject.

The expansion of our operations into non-U.S. jurisdictions has expanded the scope of the laws and regulations to which we are subject, both domestically and internationally. Compliance with the laws and regulations of foreign jurisdictions and the restrictions on operations that these laws, regulations or other government actions may impose could significantly increase the cost of airline operations or reduce revenue. For example, a number of our destinations in Asia have been revising their privacy and consumer laws and regulations. Failure to comply with these evolving laws or regulations could result in significant penalties, criminal charges, costs to defend in a foreign jurisdiction, restrictions on operations and reputational damage. In addition, we operate flights on international routes regulated by treaties and related agreements between the U.S. and foreign governments, which are subject to change as they may be amended from time to time. Modifications of these arrangements could result in an inability to obtain or retain take-off or landing slots for our routes, route authorization and necessary facilities. Any limitations, additions or modifications to government treaties, agreements, regulations, laws or policies related to our international routes could have a material adverse impact on our financial position and results of operations.

We may be party to litigation or regulatory action in the normal course of business or otherwise, which could have an adverse effect on our operations and financial results.

From time to time, we are a party to or otherwise involved in legal or regulatory proceedings, claims, government inspections, investigations or other legal matters, both domestically and in foreign jurisdictions. Resolving or defending legal matters can take months or years. The duration of such

matters can be unpredictable with many variables that we do not control including adverse party or government responses. Litigation and regulatory proceedings are subject to significant uncertainty and may be expensive, time-consuming and disruptive to our operations. In addition, an adverse resolution of a lawsuit, regulatory matter, investigation or other proceeding could have a material adverse effect on our financial condition and results of operations. We may be required to change or restrict our operations or be subject to injunctive relief, significant compensatory damages, punitive damages, penalties, fines or disgorgement of profits, none of which may be covered by insurance. We may have to pay out settlements that also may not be covered by insurance. There can be no assurance that any of these payments or actions will not be material. In addition, publicity of ongoing legal and regulatory matters may adversely affect our reputation.

Our insurance costs are susceptible to significant increases, and further increases in insurance costs or reductions in coverage could have an adverse effect on our financial results.

We carry types and amounts of insurance customary in the airline industry, including coverage for general liability, passenger liability, property damage, aircraft loss or damage, baggage and cargo liability, and workers' compensation. We are required by the DOT to carry liability insurance on each of our aircraft. We currently maintain commercial airline insurance with a major group of independent insurers that regularly participate in world aviation insurance markets, including public liability insurance and coverage for losses resulting from the physical destruction or damage to our aircraft. However, there can be no assurance that the amount of such coverage will not change or that we will not bear substantial losses from accidents or damage to, or loss of, aircraft or other property due to other factors such as natural disasters. We could incur substantial claims resulting from an accident or damage to, or loss of, aircraft or other property due to other factors such as natural disasters in excess of related insurance coverage that could have a material adverse effect on our results of operations and financial condition.

#### Extended interruptions or disruptions in service could have a material adverse impact on our operations.

Our financial results may be adversely affected by factors outside our control, including, but not limited to, flight cancellations, significant delays in operations, and facility disruptions. Our principal base of operations is in Hawai'i and a significant interruption or disruption in service could have a serious impact on our business and results of operations. Natural disasters, such as hurricanes, earthquakes and tsunamis, may impact the demand for transportation in the markets in which we operate. In 2018, we faced the impacts of two hurricanes within the vicinity of the State of Hawai'i as well as increased volcanic activity on the Big Island of Hawai'i. There may be a lingering impact to demand on Hawai'i tourism and aviation transportation following weather-related events.

#### FLEET AND FLEET-RELATED RISKS

We are dependent on a limited number of suppliers for aircraft, aircraft engines and parts.

We are dependent on a limited number of suppliers (e.g. Airbus, Boeing, Rolls Royce, Pratt & Whitney) for aircraft, aircraft engines, and aircraft-related items. As a result, we are vulnerable to any problems associated with the supply of those aircraft and parts and/or operational disruptions, which could result in increased parts and maintenance costs in future years.

Our agreements to purchase Airbus A321neo aircraft and Boeing 787-9 aircraft represent significant future financial commitments and operating costs.

As of December 31, 2018, we had the following firm order commitments and purchase rights for additional aircraft:

Aircraft Type	Orders	Rights	<b>Expected Delivery Dates</b>		
A321neo aircraft	7	3	Between 2019 and 2020		
B787-9 aircraft	10	10	Between 2021 and 2025		

We have made substantial pre-delivery payments for Airbus and Boeing aircraft under existing purchase agreements and are required to continue these pre-delivery payments as well as make payments for the balance of the purchase price through delivery of each aircraft. These commitments substantially increase our future capital spending requirements and may require us to increase our level of debt in future years. In 2019, we have significant obligations in order to fund our current aircraft orders and we are continuing to evaluate our options to finance these orders via our operating cash flows and debt financing. There can be no assurance that we will be able to obtain such financing on favorable terms, or at all.

### Delays in scheduled aircraft deliveries or other loss of fleet capacity may adversely impact our operations and financial results.

The success of our business depends on, among other things, the ability to effectively operate a certain number and type of aircraft. As noted above, we have contractual commitments to purchase and integrate additional Airbus aircraft or Boeing aircraft into our fleet. If for any reason we are unable to secure deliveries of the Airbus aircraft or Boeing aircraft on the contractually scheduled delivery dates and successfully introduce these aircraft into our fleet, then our business, operations, and financial performance could be negatively impacted. Delays in scheduled aircraft deliveries or our failure to integrate newly purchased aircraft into our fleet as planned may require us to utilize our existing fleet longer than expected. Such extensions may require us to operate existing aircraft beyond the point at which it is economically optimal to retire them, resulting in increased maintenance costs.

### We may never realize the full value of our long-lived assets, resulting in impairment and other related charges that may negatively impact our financial position and results of operations.

Economic and intrinsic triggers, which include extreme fuel price volatility, an uncertain economic and credit environment, unfavorable trends in historical or forecasted results of operations and cash flows, as well as other uncertainties, may cause us to record material impairments of our long-lived assets. We could be subject to impairment charges in the future that could have an adverse effect on our financial position and results of operations in future periods.

#### **COMMON STOCK RISKS**

#### Our share price is subject to fluctuations and stockholders could have difficulty trading shares.

The market price of our stock is influenced by many factors, many of which are outside of our control, and include the following:

- operating results and financial condition;
- changes in the competitive environment in which we operate;
- fuel price volatility including the availability of fuel;
- announcements concerning our competitors including bankruptcy filings, mergers, restructurings or acquisitions by other airlines;
- increases or changes in government regulation;
- general and industry specific market conditions;
- · changes in financial estimates or recommendations by securities analysts; and
- sales of our common stock or other actions by investors with significant shareholdings.

In recent years the stock market has experienced volatile price and volume fluctuations that often have been unrelated to the operating performance of individual companies. These market fluctuations, as well as general economic conditions, may affect the price of our common stock.

In the past, securities class action litigation has often been instituted against a company following periods of volatility in its stock price. This type of litigation, if filed against us, could result in substantial costs and divert our management's attention and resources. In addition, the future sale of a substantial number of shares of common stock by us or by our existing stockholders may have an adverse impact on the market price of our common stock. There can be no assurance that the trading price of our common stock will remain at or near its current level.

Certain provisions of our certificate of incorporation and bylaws may delay or prevent a change of control, which could materially adversely affect the price of our common stock.

Our certificate of incorporation and bylaws contain provisions that may make it difficult to remove our Board of Directors and management, and may discourage or delay a change of control, which could materially and adversely affect the price of our common stock. These provisions include, among others:

- the ability of our Board of Directors to issue, without further action by the stockholders, series of undesignated preferred stock, or rights to acquire preferred stock, that could dilute the interest of, or impair the voting power of, holders of our common stock or could also be used as a method of discouraging, delaying or preventing a change of control;
- advance notice procedures for stockholder proposals to be considered at stockholders' meetings and for nominations of candidates for election to our Board of Directors;
- the ability of our Board of Directors to fill vacancies on the board;
- a prohibition against stockholders taking action by written consent;
- · a prohibition against stockholders calling special meetings of stockholders; and
- super-majority voting requirements to modify or amend specified provisions of our certificate of incorporation.

Our certificate of incorporation includes a provision limiting voting and ownership by non-U.S. citizens and our bylaws include a provision specifying an exclusive forum for stockholder disputes.

To comply with restrictions imposed by federal law on foreign ownership of U.S. airlines, our certificate of incorporation restricts voting of shares of our common stock by non-U.S. citizens. Our certificate of incorporation provides that the failure of non-U.S. citizens to register their shares on a separate stock record, which we refer to as the "foreign stock record," would result in a suspension of their voting rights in the event that the aggregate foreign ownership of the outstanding common stock exceeds the foreign ownership restrictions imposed by federal law.

Our certificate of incorporation further provides that no shares of our common stock will be registered on the foreign stock record if the amount so registered would exceed the foreign ownership restrictions imposed by federal law. If it is determined that the amount registered in the foreign stock record exceeds the foreign ownership restrictions imposed by federal law, shares will be removed from the foreign stock record in reverse chronological order based on the date of registration therein, until the number of shares registered therein does not exceed the foreign ownership restrictions imposed by federal law. As of December 31, 2018, we believe we were in compliance with the foreign ownership

Our bylaws provide that, unless we consent in writing to an alternative forum, the Court of Chancery of the State of Delaware or, if such court lacks jurisdiction, any other state or federal court located in the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of us; (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our current or former directors, officers or other employees to us or our stockholders; (iii) any action asserting a claim against us or any of our directors, officers or other employees arising pursuant to any provision of the Delaware General Corporation Law or our certificate of incorporation or bylaws (as each may be amended or restated from time to time); or (iv) any action asserting a claim against us or any of our directors, officers or other employees governed by the internal affairs doctrine. Accordingly, stockholders may be limited in the forum in which they are able to pursue legal actions against us.

We cannot guarantee that we will repurchase our common stock pursuant to our share repurchase program or continue to pay dividends on our common stock.

Our intent to continue to repurchase our shares pursuant to our stock repurchase program and to continue to pay quarterly dividends is subject to capital availability, market and economic conditions, applicable legal requirements, and other relevant factors. The stock repurchase program may be limited, suspended, or discontinued at any time without prior notice.

In 2018, we initiated the quarterly issuance of dividends to our stockholders of record. We cannot provide any assurance that we will continue to declare dividends for any fixed period, and the payment of dividends may be suspended or adjusted at any time at our discretion. We will evaluate, on a quarterly basis, the amount and timing of future dividends based on our operating results, financial condition, capital requirements, and general business conditions.

#### LIQUIDITY RISKS

See Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, for further information regarding our liquidity.

#### Our financial liquidity could be adversely affected by credit market conditions.

Our business requires access to capital markets to finance equipment purchases, including aircraft, and to provide liquidity in seasonal or cyclical periods of weaker revenue generation. In particular, we will face specific funding requirements with respect to our obligation under purchase agreements with Airbus and Boeing to acquire new aircraft. We may finance these upcoming aircraft deliveries; however, the unpredictability of global credit market conditions may adversely affect the availability of financing or may result in unfavorable terms and conditions. We can offer no assurance that the financing we need will be available when required or that the economic terms on which it is available will not adversely affect our financial condition. If we cannot obtain financing or we cannot obtain financing on commercially reasonable terms, our business and financial condition may be adversely affected.

Our debt could adversely affect our liquidity and financial condition, and include covenants that impose restrictions on our financial and business operations.

As of December 31, 2018, we had \$468 million in outstanding debt. Our debt and related covenants could:

- require us to dedicate a substantial portion of our cash flow from operations to payments on our debt, thereby reducing the availability of our cash flow for other operational purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- limit, along with the financial and other restrictive covenants in the agreements governing our debt, our ability to borrow additional funds;

- place us at a competitive disadvantage compared to other less leveraged competitors and competitors with debt agreements on more favorable terms than us; and
- adversely affect our ability to secure additional financing in the future on acceptable terms or at all, which would impact our ability to fund our working capital, capital expenditures, acquisitions or other general purpose needs.

These agreements require us to meet certain covenants. If we breach any of these covenants we could be in a default under these facilities, which could cause our outstanding obligations under these facilities to accelerate and become due and payable immediately, and could also cause us to default under our other debt or lease obligations and lead to an acceleration of the obligations related to such other debt or lease obligations. The existence of such a default could also preclude us from borrowing funds under our credit facilities.

Our ability to comply with the provisions of financing agreements can be affected by events beyond our control and a default under any such financing agreements if not cured or waived, could have a material adverse effect on us. In the event our debt is accelerated, we may not have sufficient liquidity to repay these obligations or to refinance our debt obligations, resulting in a material adverse effect on our financial condition.

### We are required to maintain reserves under our credit card processing agreements which could adversely affect our financial and business operations.

Under our bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash of our consolidated balance sheets, totaled \$1.0 million as of December 31, 2017. As of December 31, 2018, there were no holdbacks held with our credit card processors.

In the event of a material adverse change in our business, the holdback could incrementally increase to an amount up to 100% of the applicable credit card activity for all unflown flights, which would also cause an increase in the level of restricted cash. If we are unable to obtain a waiver, or otherwise mitigate the increase in restricted cash, it could adversely affect our liquidity and also cause a covenant violation under other debt or lease obligations and have a material adverse effect on our financial condition.

#### ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

#### ITEM 2. PROPERTIES.

#### Aircraft

The table below summarizes our total fleet as of December 31, 2017 and 2018, and anticipated fleet as of December 31, 2019 (based on existing agreements):

	Decemb	oer 31, 20	017	December 31, 2018		December 31, 2019			Seating Capacity	Simple Average Age	
Aircraft Type	Leased(6)	Owned	Total	Leased(6)	Owned	Total	Leased(6)	Owned	Total		(In Years)
A330-200(1)	11	13	24	12	12	24	12	12	24	278	5.5
A321-200(2)	_	2	2	2	9	11	2	15	17	189	.5
767-300(3)	7	1	8	3	1	4	_	_	_	252 - 264	23.3
717-200	5	15	20	5	15	20	5	15	20	128	16.7
ATR 42-500(4).	_	3	3	_	4	4	_	4	4	48	15.7
ATR 72-200(5).	_	3	3		3	3		3	3		25.4
Total	<u>23</u>	37	<u>60</u>	<u>22</u>	44	66	<u>19</u>	49	<u>68</u>		

<sup>(1)</sup> In 2018, we entered into a sale leaseback transaction with an independent third party for one A330-200 aircraft under an operating lease for a term of 12 years.

- (3) The decrease in leased Boeing 767-300 from 2017 to 2018 is due to the retirement of four aircraft. In the first quarter of 2019, we retired our remaining four aircraft, thereby completing our exit from the Boeing 767-300 fleet.
- (4) The ATR 42-500 turboprop aircraft are owned by Airline Contract Maintenance & Equipment, Inc., a wholly-owned subsidiary of the Company. In 2018, we took delivery of one ATR 42-500 turboprop aircraft.
- (5) The ATR 72-200 turboprop aircraft are used for our cargo operations.
- (6) Leased aircraft include both aircraft under capital and operating leases. See Note 9 to the consolidated financial statements for further discussion regarding our aircraft leases.

At December 31, 2018, we had firm aircraft orders as detailed below:

Delivery Year	A321neo Aircraft(1)	B787-9 Aircraft(2)	Total
2019	6	_	6
2020	1	_	1
2021	_	2	2
2022		3	3
2023		1	1
2024		3	3
2025		1	1
	7	10	<u>17</u>

<sup>(1)</sup> In 2013, we entered into an agreement for the purchase of 16 new Airbus A321neo aircraft with purchase rights for an additional nine aircraft with scheduled for deliveries from 2017 to 2020. In 2018, we took delivery of seven firm ordered aircraft, bringing our total delivered aircraft to nine. We have seven additional A321neo deliveries scheduled in

<sup>(2)</sup> In 2018, we took delivery of nine Airbus A321-200 aircraft. In 2019, we expect to take delivery of an additional six Airbus A321-200 aircraft.

2019 and 2020 as reflected above, bringing the total purchased A321neo aircraft to 16. The Airbus A321neo narrow-body aircraft will be used to complement Hawaiian's existing fleet of wide-body aircraft for travel to and from the West Coast on our North America routes.

(2) In February 2018, we exercised our right to terminate our aircraft purchase agreement with Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six A330-800neo aircraft. Refer to Note 11 to the consolidated financial statements for discussion of the contract termination charge. In July 2018, we entered into a purchase agreement for the purchase of 10 Boeing 787-9 "Dreamliner" aircraft with purchase rights for an additional 10 aircraft with scheduled deliveries from 2021 to 2025. These fuel efficient, long-range aircraft will complement our existing fleet of wide-body for long-haul Asia/Pacific and North America routes.

See Note 9 to the consolidated financial statements for additional information regarding our aircraft lease agreements.

#### **Ground Facilities**

Our principal terminal facilities, cargo facilities and hangar and maintenance facilities are located at the Daniel K. Inouye International Airport (HNL). The majority of the facilities at HNL are leased on a month-to-month basis. We are also charged for the use of terminal facilities at other Neighbor Island airports owned by the State of Hawai'i. Some terminal facilities, including gates and holding rooms, are considered by the State of Hawai'i to be common areas and thus are not exclusively controlled by us. We also utilize other State of Hawai'i facilities, including station managers' offices, Premier Club lounges, and operations support space.

The table below sets forth the airport locations we utilize pursuant to various agreements as of December 31, 2018:

Name of Airport	Location		
Phoenix Sky Harbor International Airport	Phoenix	Arizona	
Long Beach Airport	Long Beach	California	
Los Angeles International Airport	Los Angeles	California	
Oakland International Airport	Oakland	California	
Sacramento International Airport	Sacramento	California	
San Diego International Airport	San Diego	California	
San Francisco International Airport	San Francisco	California	
Norman Y. Mineta San Jose International Airport	San Jose	California	
Hilo International Airport	Hilo	Hawai'i	
Daniel K. Inouye International Airport	Honolulu	Hawai'i	
Kahului Airport	Kahului	Hawai'i	
Kapalua Airport	Lahaina	Hawai'i	
Ellison Onizuka Kona International Airport	Kailua-Kona	Hawai'i	
Lana'i Airport	Lanaʻi	Hawai'i	
Lihu'e Airport	Lihu'e	Hawai'i	
Moloka'i Airport	Moloka'i	Hawai'i	
McCarran International Airport	Las Vegas	Nevada	
John F. Kennedy International Airport	New York	New York	
Portland International Airport	Portland	Oregon	
Seattle-Tacoma International Airport	Seattle	Washington	
Pago Pago International Airport	Pago Pago	American Samoa	
Brisbane International Airport	Brisbane	Australia	
Sydney International Airport	Sydney	Australia	
Haneda International Airport	Tokyo	Japan	
Kansai International Airport	Osaka	Japan	
Narita International Airport	Tokyo	Japan	
New Chitose International Airport	Sapporo	Japan	
Auckland Airport	Auckland	New Zealand	
Incheon International Airport	Seoul	South Korea	
Faa'a International Airport	Papeete	Tahiti	

Our corporate headquarters are located in leased premises adjacent to the Daniel K. Inouye International Airport.

#### ITEM 3. LEGAL PROCEEDINGS.

We are subject to legal proceedings arising in the normal course of our operations. We do not anticipate that the disposition of any currently pending proceeding will have a material effect on our operations, business or financial condition.

#### ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

#### **PART II**

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock is traded on the NASDAQ Global Select Market under the symbol "HA."

#### **Holders**

There were 749 stockholders of record of our common stock as of February 8, 2019, which does not reflect those shares held beneficially or those shares held in "street" name.

#### Dividends and Other Restrictions

We paid dividends of \$24.2 million to shareholders of record during 2018 and \$6.3 million during 2017. In February 2019, our Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on February 22, 2019 to stockholders of record as of February 8, 2019.

Our dividend payments may change from time to time. We cannot provide assurance that we will continue to declare dividends for any fixed period and payment of dividends may be suspended at any time at our discretion.

United States law prohibits non-U.S. citizens from owning more than 25% of the voting interest of a U.S. air carrier or controlling a U.S. air carrier. Our certificate of incorporation prohibits the ownership or control of more than 25% (to be increased or decreased from time to time, as permitted under the laws of the U.S.) of our issued and outstanding voting capital stock by persons who are not "citizens of the U.S." As of December 31, 2018, we believe we are in compliance with the law as it relates to voting stock held by non-U.S. citizens.

#### Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table displays information with respect to our repurchases of shares of our common stock during the three months ended December 31, 2018:

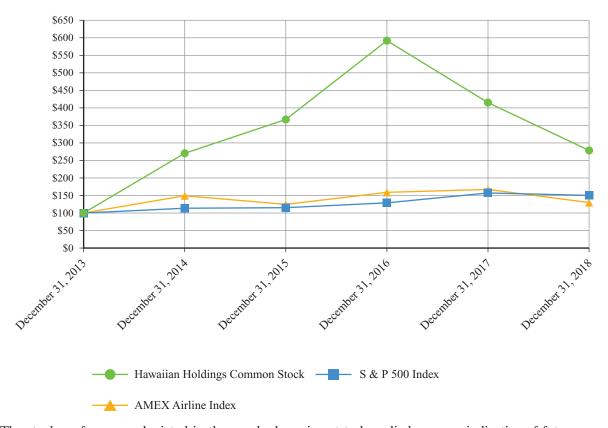

Period	Total number of shares purchased(i)	Average price paid per share(ii)	Total number of shares purchased as part of publicly announced plans or programs(i)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions)(i)
October 1, 2018 - October 31, 2018 November 1, 2018 - November 30,	1,083,195	\$34.68	1,083,195	
2018	179,738	35.26	179,738	
2018	158,595	29.65	158,595	
Total	1,421,528		1,421,528	<u>\$97.5</u>

<sup>(</sup>i) In November 2017, our Board of Directors approved the repurchase of up to \$100.0 million of our outstanding common stock over a two-year period through December 2019 via the open market, established plans or privately negotiated transactions in accordance with all applicable securities laws, rules and regulations, which stock repurchase program was completed in December 2018. In November 2018, our Board of Directors approved the repurchase of up to an additional \$100 million of our outstanding common stock through December 2020. The new stock repurchase program is subject to modification or termination at any time.

<sup>(</sup>ii) Weighted average price paid per share is calculated on a settlement basis and excludes commission.

#### Stockholder Return Performance Graph

The following graph compares cumulative total stockholder return on our common stock, the S&P 500 Index and the AMEX Airline Index from December 31, 2013 to December 31, 2018. The comparison assumes \$100 was invested on December 31, 2013 in our common stock and each of the foregoing indices and assumes reinvestment of dividends before consideration of income taxes.

The stock performance depicted in the graph above is not to be relied upon as indicative of future performance. The stock performance graph shall not be deemed to be incorporated by reference into any of our filings under the Securities Act or the Exchange Act, except to the extent that we specifically incorporate the same by reference, nor shall it be deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Exchange Act.

#### ITEM 6. SELECTED FINANCIAL DATA.

The Selected Financial Data should be read in conjunction with our accompanying audited consolidated financial statements and the notes related thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" below.

#### Hawaiian Holdings, Inc. Selected Financial Data

	Year ended December 31,				
	2018	2017	2016	2015	2014
		(in thousan	ds, except per sl	hare data)	
Summary of Operations:(a)					
Operating revenue	\$2,837,411	\$2,675,145	\$2,432,413	\$2,317,467	\$2,314,879
Operating expenses	2,523,043	2,211,107	2,034,926	1,868,837	2,060,922
Operating income	314,368	464,038	397,487	448,630	253,957
Net Income	233,200	330,610	224,120	182,646	68,926
Net Income Per Common Stock					
Share:

Cash dividends declared per common					
share	0.48	0.12	0.00	0.00	0.00
<b>Balance Sheet Items as of</b>					
December 31:					
Total assets	\$3,196,646	\$2,873,821	\$2,720,346	\$2,489,922	\$2,554,112
Long-term debt, less discount, and					
capital lease obligations,					
excluding current maturities(b) .	608,684	511,201	497,908	677,915	870,946
	608,684	511,201	497,908	677,915	870,946

- (a) We adopted Accounting Standards Codification (ASC) 606, *Revenue from Contracts with Customers* (ASC 606), and restated the consolidated financial results as of and for the years ended December 31, 2017 and 2016. Results from periods prior to 2016 have not been restated for the adoption of this standard. See Note 1 to the consolidated financial statements for additional information.
- (b) In 2018, we entered into two Japanese Yen denominated debt agreements for a total value of \$86.5 million to finance a portion of the purchase price of two Airbus A321neo aircraft. Additionally, we took delivery of two A321neo aircraft accounted for as a capital lease. In 2016, we extinguished \$140.5 million of existing debt under three secured financing agreements, which were originally scheduled to mature in 2022 and 2023. In 2015, we extinguished \$123.9 million of existing debt under four secured financing agreements, which were originally scheduled to mature in 2018, 2023, and 2024. We also repurchased \$70.8 million in principal of our convertible notes. In 2014, we received proceeds of \$368.4 million in connection with the EETC financing for the purchase of five Airbus A330-200 aircraft. See further discussion at Note 8 to the consolidated financial statements.
- (c) We recognized a one-time benefit of \$83.0 million, or \$1.55 per common stock share, during the year ended December 31, 2017 as a result of the Tax Reform Act enacted in December 2017. During the year ended December 31, 2018, we completed our accounting for the effects of the Tax Act and recorded an additional tax benefit of \$9.3 million.

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

#### **Overview**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand the Company and its operations. This discussion and analysis of our financial condition and results of operations contains forward-looking statements that involve risks and uncertainties. We have based these forward-looking statements on our current expectations and projections of future events. However, our actual results could differ materially from those discussed herein as a result of the risks that we face, including but not limited to those risks stated in the "Risk Factors" section of this report. See "Cautionary Note Regarding Forward-Looking Statements" above. In addition, the following discussion should be read in conjunction with the audited consolidated financial statements and the related notes thereto included elsewhere in this report.

#### Year in Review

#### 2018 Financial Highlights

- Operating income of \$314 million compared to \$464 million in the prior-year period.
- Pre-tax income of \$301 million compared to \$391 million in the prior-year period.
- GAAP net income of \$233 million or \$4.62 per diluted share compared to \$331 million or \$6.19 per diluted share in the prior year period.
- Adjusted net income of \$275 million or \$5.44 per diluted share compared to \$289 million or \$5.41 per share in the prior year period.
- Unrestricted cash and cash equivalents and short-term investments of \$501 million compared to \$460 million in the prior year period.

See "Non-GAAP Financial Measures" below for our reconciliation of non-GAAP measures.

#### Outlook

Looking ahead, capacity increases in North America and parts of our International network are expected to increase in the first half of 2019. We expect our capacity to grow between 1.5% to 3.0% in the first quarter of 2019 as compared to the first quarter of 2018. For the first quarter of 2019, we expect the aforementioned increases in capacity will result in operating revenue per available seat mile to decrease between 3.0% to 6.0% as compared to the first quarter of 2018. We also expect that our operating costs per available seat mile will decrease by 3.8% to 7.1% during the first quarter of 2019, while our operating costs per available seat mile excluding fuel will increase by 1.0% to 4.0%.

For 2019, we expect the corporate federal tax rate will result in an all-in book tax rate for us of 25% to 27%.

#### Selected Consolidated Statistical Data

Below are the operating statistics we use to measure our operating performance.

	Year ended December 31,			
	2018	2017(a)	2016(a)	
	(in thousands,	except as otherwis	e indicated)	
Scheduled Operations(b):				
Revenue passengers flown	11,830	11,498	11,044	
Revenue passenger miles (RPM)	17,198,985	16,307,344	15,484,369	
Available seat miles (ASM)	20,158,139	18,991,566	18,371,544	
Passenger revenue per RPM (Yield)	15.13¢	15.25¢	14.67¢	
Passenger load factor (RPM/ASM)	85.3%	85.9%	84.3%	
Passenger revenue per ASM (PRASM)	12.91¢	13.09¢	12.37¢	
Total Operations(b):				
Revenue passengers flown	11,840	11,505	11,051	
RPM	17,206,703	16,316,739	15,492,509	
ASM	20,171,911	19,006,682	18,384,637	
Operating revenue per ASM (RASM)	14.07¢	14.07¢	13.23¢	
Operating cost per ASM (CASM)	12.51¢	11.63¢	11.07¢	
CASM excluding aircraft fuel, loss on sale of aircraft,				
contract terminations expense, and special items(c)	9.36¢	9.19¢	8.60¢	
Aircraft fuel expense per ASM(d)	2.97¢	2.32¢	1.87¢	
Revenue block hours operated	208,809	189,881	179,254	
Gallons of jet fuel consumed	273,783	259,915	244,118	
Average cost per gallon of jet fuel (actual)(d)	\$ 2.19	\$ 1.69	\$ 1.41	

<sup>(</sup>a) Amounts adjusted due to the adoption of ASC 606. See Note 1 to consolidated financial statements for additional information.

#### Operating Revenue

Our revenue is derived primarily from transporting passengers on our aircraft. We record passenger revenue when the transportation is provided or upon scheduled flight for tickets expected to expire unused. We measure capacity in terms of available seat miles, which represent the number of seats available for passengers multiplied by the number of miles the seats are flown. Yield, or the average amount one passenger pays to fly one mile, is calculated by dividing passenger revenue by RPMs. We strive to increase passenger revenue primarily by increasing our yield per flight or by filling a higher proportion of available seats, which produces higher operating revenue per available seat mile. Other revenue primarily consists of cargo revenue, incidental services revenue, marketing component related to the sale of frequent flyer miles, contract services and charter services revenue.

Operating revenue was \$2.84 billion, \$2.68 billion and \$2.43 billion for the years ended December 31, 2018, 2017 and 2016, respectively. The increase in operating revenue in 2018 from 2017 was driven primarily by an increase in passenger revenue and is discussed below:

<sup>(</sup>b) Includes the operations of our contract carrier under a capacity purchase agreement. Total Operations includes both scheduled and chartered operations.

<sup>(</sup>c) Represents adjusted unit costs, a non-GAAP measure. We believe this is a useful measure because it better reflects our controllable costs. See "Non-GAAP Financial Measures" below for our reconciliation of non-GAAP measures.

<sup>(</sup>d) Includes applicable taxes and fees.

#### 2018 vs. 2017

#### Passenger Revenue

Passenger revenue was \$2.60 billion and \$2.49 billion for the years ended December 31, 2018 and 2017, respectively. Details of these changes are described in the table below:

Year Ended	December 31,	2018 as	compared	to	Year	Ended
	Decen	nber 31.	2017			

	Becember 21, 2017				
	Change in scheduled passenger revenue	Change in Yield	Change in RPM	Change in ASM	
	(in millions)				
Domestic	\$ 58.9	(2.8)%	6.1%	8.4%	
International	57.0	5.1	4.1	1.9	
Total scheduled	\$115.9	(0.8)%	5.5%	6.1%	

Domestic revenue increased by \$58.9 million driven by a 2.7% increase in passengers flown on our domestic routes, partially offset by a 1.2% decline in average fares. Unit revenue declines primarily resulted from capacity growth in the region, specifically between Hawai'i and North America, combined with a reduction in travel attributed to weather-related events impacting the State of Hawai'i.

International revenue increased by \$57.0 million for the year ended December 31, 2018 as compared to the prior year period driven by a combination of increased passenger counts and average fares, which outpaced capacity growth. In 2017, we completed the upgrade of our first class cabin and extra comfort seating products on our A330 aircraft, which are driving improvements in profitability and unit revenue growth.

During the year we expanded our operations and now have direct routes between Maui, Hawaiʻi and Portland, Oregon (January 2018), Kona, Hawaiʻi and Los Angeles, California (March 2018), Lihue, Hawaiʻi and Los Angeles, California (May 2018), Honolulu, Hawaiʻi and Long Beach, California (May 2018), Maui, Hawaiʻi and San Diego, California (June 2018), and Lihue, Hawaiʻi and Oakland, California (July 2018—expansion to daily service). In October 2018, we suspended our thrice-weekly nonstop service between Honolulu, Hawaiʻi and Beijing, China. In September 2018, we announced our new direct route between Honolulu, Hawaiʻi and Boston, Massachusetts, which will commence in April 2019. During the first quarter of 2019, we will have retired our last Boeing 767-300 aircraft, completing the transition to our A321 aircraft, allowing for optimization of our products and better capacity management.

#### Other Operating Revenue

Other operating revenue increased by \$46.3 million, or 24.6%, in 2018, as compared to 2017, primarily due to an increase in loyalty program revenue of \$31.8 million related to brand usage associated with our co-brand credit card partnership with Barclays, which was amended in the first quarter of 2018. Refer to Note 1 in the consolidated financial statements for additional information. Cargo revenue was up \$9.0 million as a result of increased freight volumes and the introduction of our inter-island cargo freighter operation in the fourth quarter of 2018.

#### Operating Expenses

During the year ended December 31, 2018, total operating expense increased \$311.9 million or 14.1% to \$2.5 billion as compared to the same period in 2017. The largest components of our operating

expenses are wages and benefits provided to our employees and aircraft fuel (including taxes and delivery). Increases (decreases) in operating expenses are detailed below.

	Changes for the year ended December 31, 2018 as compared to year ended December 31, 2017		
	\$	%	
	(in thousands)		
Operating expense:			
Aircraft fuel, including taxes and delivery	\$159,161	36.1%	
Wages and benefits	51,722	8.2	
Aircraft rent	(11,803)	(8.6)	
Maintenance materials and repairs	20,206	9.2	
Aircraft and passenger servicing	12,943	8.9	
Commissions and other selling	2,565	2.0	
Depreciation and amortization	26,589	23.5	
Other rentals and landing fees	10,140	8.7	
Purchased services	20,864	18.8	
Contract terminations expense	35,322	NM	
Special items	(23,450)	NM	
Other	7,677	5.3	
Total	\$311,936	14.1%	

#### Aircraft fuel

The price and availability of aircraft fuel is volatile due to global economic and geopolitical factors that we can neither control nor accurately predict. The increases in aircraft fuel expense are illustrated in the following table:

Voor Ended

	December 31,		
	2018	2017	% Change
	(in thousa per-gallon		
Aircraft fuel expense, including taxes and delivery	\$599,544	\$440,383	36.1%
Fuel gallons consumed	273,783	259,915	5.3%
Average fuel price per gallon, including taxes and delivery	\$ 2.19	\$ 1.69	29.6%

The increase in fuel expense from 2017 to 2018 is due to an increase in average fuel price per gallon and increased fuel consumption driven by capacity growth.

We believe *economic fuel expense* is the best measure of the effect of fuel prices on our business as it most closely approximates the net cash outflow associated with the purchase of fuel for our operations and is consistent with how management manages our business and assesses our operating performance. We define *economic fuel expense* as GAAP fuel expense plus (gains)/losses realized through actual cash (receipts)/payments received from or paid to hedge counterparties for fuel hedge derivative contracts settled in the period inclusive of costs related to hedging premiums.

#### Economic fuel expense is calculated as follows:

	Year Ended December 31,			
	2018	2017	% Change	
	(in thousar per-gallon			
Aircraft fuel expense, including taxes and delivery	\$599,544	\$440,383	36.1%	
Realized losses (gains) on settlement of fuel derivative contracts	(25,563)	534	<u>(4,887.1</u> )%	
Economic fuel expense	\$573,981	\$440,917	30.2%	
Fuel gallons consumed	273,783	259,915	5.3%	
Economic fuel costs per gallon	\$ 2.10	\$ 1.70	23.5%	

See Item 7A, Quantitative and Qualitative Disclosures about Market Risk, for additional discussion of our jet fuel costs and related derivative program.

#### Wages and benefits

Wages and benefits expense increased by \$51.7 million, or 8.2%, in 2018, as compared to 2017, primarily driven by increased overall headcount (up 8.8% in 2018). The higher wages and benefits expenses also reflected an increase in cost incurred for training to prepare for the induction of our A321neo fleet which entered service during 2018.

#### Maintenance materials and repairs

Maintenance materials and repairs increased \$20.2 million, or 9.2%, in 2018, as compared to 2017. On a per ASM basis, maintenance, materials, and repairs expense increased 2.9% as compared to the prior year, primarily due to an increase in the number of airframe and engine maintenance events, higher cost of materials for aging aircraft, and an increase in rates on our power by hour contract.

#### Aircraft and passenger servicing

Aircraft and passenger servicing expenses increased \$12.9 million, or 8.9%, in 2018, as compared to 2017, resulting from higher food and beverage expenses attributed to increased passenger counts (up 2.9% in 2018) and an increase in ground handling services reflective of increased operations in domestic and international markets.

#### Depreciation and amortization

Depreciation and amortization increased \$26.6 million, or 23.5%, in 2018, as compared to 2017 primarily due to additions of new aircraft, aircraft improvements and increases in information technology infrastructure and development projects.

#### Purchased services

Purchased services expense increased by \$20.9 million, or 18.8%, in 2018, as compared to 2017. The increase was primarily attributed to an increase in third party expenses including, outsourced web and IT fees and services associated with our increased cargo operations.

#### Contract terminations expense

During the year ended December 31, 2018, we terminated two contracts which incurred a total of \$35.3 million in expense. The transactions are described below:

In January 2018, we entered into a transaction with a lessor to early terminate three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the lease and purchase the aircraft, we agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a contract termination fee. The expensed amount represents the total purchase price amount over fair value of the aircraft purchased as of the date of the transaction.

In February 2018, we exercised our right to terminate the aircraft purchase agreement with Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. To terminate the purchase agreement, we were obligated to repay Airbus for concessions received relating to a prior firm order, training credits, as well as forfeit the pre-delivery progress payments made towards the flight equipment. We recorded a contract terminations expense to reflect the termination penalty within our consolidated statements of operations.

#### Nonoperating expense, net

Net nonoperating expense decreased by \$60.0 million in 2018, as compared to 2017, primarily as a result of a \$35.2 million loss on plan termination and a \$10.4 million partial settlement and curtailment loss, which were recorded in Other nonoperating special items in 2017. Additionally, Other components of net periodic benefit costs decreased by approximately \$15.9 million during the year ended December 31, 2018, as compared to the same period in 2017, primarily as a result of strategic initiatives and favorable market trends.

#### Income taxes

Our effective tax rate was 22.6% for 2018, compared with 15.4% for 2017. In December 2017, Congress enacted the Tax Cuts and Jobs Act (Tax Act), which resulted in a reduction of the federal corporate tax rate from 35% to 21% and the re-measurement of our deferred tax assets and liabilities as of December 31, 2017. We recorded a tax benefit of \$83.0 million during 2017 to record the impact of the Tax Act. During the year ended December 31, 2018, we completed our accounting for the effects of the Tax Act and recorded an additional tax benefit of \$9.3 million, the majority of which related to pension contributions made in 2018 for the 2017 plan year deductible at the higher 2017 tax rate. Refer to Note 10 in the consolidated financial statements for additional discussion.

#### 2017 vs. 2016

#### Passenger Revenue

Passenger revenue was \$2.49 billion and \$2.27 billion for the years ended December 31, 2017 and 2016, respectively. Details of these changes are described in the table below:

	Change in scheduled passenger revenue	Change in Yield	Change in RPM	Change in ASM
	(in millions)			
Domestic	\$ 86.1	5.3%	(0.5)%	(2.3)%
International	129.0	6.3	19.2	15.6
Total scheduled	<u>\$215.1</u>	4.0%	5.3%	3.4%

Domestic revenue increased \$86.1 million on yield improvement of 5.3%. North America routes drove the yield improvement as a result of strong demand and the relatively steady industry capacity environment in 2017, which resulted in higher unit prices.

International revenue increased \$129.0 million in 2017, as compared to 2016. A 19.2% increase in RPM along with yield improvement of 6.3% drove the strong revenue performance. The increase in RPM flown is attributed to the expansion of Hawai'i to Japan service in 2016, which was fully realized in 2017 and includes; the expansion of service between Honolulu and Tokyo/Narita (July 2016 start), Kona and Tokyo/Haneda (December 2016 start), and expansion of existing Honolulu and Tokyo/Haneda, Japan service (December 2016 start).

#### Other Operating Revenue

Other operating revenue increased by \$27.6 million, or 17.2%, in 2017, as compared to 2016, due to an increase in cargo revenue of \$19.7 million, or 26.7%, attributable to increased freight volumes. The increase was also due to a \$2.7 million increase in contract services revenue (e.g. ground handling). Other components within our Other operating revenue line include, but are not limited to, loyalty brand and marketing revenue, and other miscellaneous items.

#### Operating Expenses

During the year ended December 31, 2017, total operating expense increased \$176.2 million or 8.7% to \$2.2 billion as compared to the same period in 2016. The largest components of our operating expenses

are wages and benefits provided to our employees and aircraft fuel (including taxes and delivery). Increases (decreases) in operating expenses are detailed below.

	Changes for the year ended December 31, 2017 as compared to year ended December 31, 2016	
	\$	%
	(in thousands)	
Operating expense:		
Aircraft fuel, including taxes and delivery	\$ 96,061	27.9%
Wages and benefits	97,733	18.3
Aircraft rent	13,199	10.6
Maintenance materials and repairs	(9,491)	(4.1)
Aircraft and passenger servicing	14,954	11.5
Commissions and other selling	3,963	3.2
Depreciation and amortization	5,149	4.8
Other rentals and landing fees	8,676	8.0
Purchased services	14,588	15.2
Special items	(85,692)	(78.5)
Other	17,041	13.4
Total	\$176,181	8.7%

The price and availability of aircraft fuel is volatile due to global economic and geopolitical factors that we can neither control nor accurately predict. The increases in aircraft fuel expense are illustrated in the following table:

	Year Ended December 31,		
	2017 2016		% Change
	(in thousa per-gallo		
Aircraft fuel expense, including taxes and delivery	\$440,383	\$344,322	27.9%
Fuel gallons consumed	259,915	244,118	6.5%
Average fuel price per gallon, including taxes and delivery	\$ 1.69	\$ 1.41	19.9%

The increase in fuel expense from 2016 to 2017 is due to an increase in average fuel price per gallon and increased fuel consumption due to added capacity.

Economic fuel expense is calculated as follows:

	Year Ended December 31,			
	2017 2016		% Change	
	(in thousa per-gallon			
Aircraft fuel expense, including taxes and delivery	\$440,383	\$344,322	27.9%	
Realized losses (gains) on settlement of fuel derivative contracts	534	27,572	<u>(98.1)</u> %	
Economic fuel expense	\$440,917	\$371,894	18.6%	
Fuel gallons consumed	259,915	244,118	6.5%	
Economic fuel costs per gallon	\$ 1.70	\$ 1.52	11.8%	

#### Wages and benefits

Wages and benefits expense increased by \$97.7 million, or 18.3%, in 2017, as compared to 2016, of which approximately \$43.4 million was due to the Air Line Pilots Association (ALPA) contract amendment effective April 1, 2017. In addition, employee benefits expenses (including health insurance) increased by \$18.4 million for the year. The higher wages and benefits expenses also reflected an increase in the number of flight crew and training to prepare for the induction of our A321neo fleet, in addition to an overall increase in employee headcount by approximately 7.4% as compared to December 31, 2016, which includes flight attendants, machinists, and non-contract employees.

#### Aircraft rent

Aircraft rent increased by \$13.2 million, or 10.6%, in 2017, as compared to 2016, due to a sale leaseback transaction for three Boeing 767-300 aircraft in April 2017 and the addition of two leased Boeing 717-200 aircraft in November 2016.

#### Aircraft and passenger servicing

Aircraft and passenger servicing expenses increased \$15.0 million, or 11.5%, in 2017, as compared to 2016, resulting directly from higher passenger counts, specifically a 21.5% increase in international passengers flown which generally have a higher associated food and handling cost per passenger. This increase resulted in an overall increase of \$5.4 million in food and beverage costs and \$5.6 million in ground handling costs.

#### Purchased services

Purchased services expense increased by \$14.6 million, or 15.2%, in 2017, as compared to 2016, due to an increase of \$8.6 million in various third party expenses including: outsourced web and IT fees and outsourced labor resources associated with the maintenance hangar project.

#### Special items

Special items expense decreased by \$85.7 million, or 78.5%, in 2017, as compared to 2016. See Note 11 to the consolidated financial statements for further discussion surrounding both 2017 and 2016 Special items.

#### Other expenses

Other expenses increased by \$17.0 million, or 13.4%, in 2017, as compared to 2016, due to an increase of \$3.8 million in hotel and personnel related expenses for our crew members (e.g. meals and entertainment), as well as a \$4.1 million increase in other supplies expenses. Other components of our Other expense line item include, but are not limited to, communication costs, professional and technical fees, insurance costs, legal fees, and other miscellaneous expenses.

#### Nonoperating expense, net

Net nonoperating expense increased by \$36.9 million in 2017, as compared to 2016, due to a \$35.2 million loss on plan termination and a \$10.4 million partial settlement and curtailment loss, which were recorded in Other nonoperating special items in 2017. These expenses were partially offset by an \$11.7 million fluctuation in fuel hedge gains during the same period.

In 2016, the Hawaiian Airlines, Inc. Pension Plan for Salaried Employees (the Salaried Plan) was consolidated into the Hawaiian Airlines, Inc. Pension Plan for Employees Represented by the International Association of Machinists (IAM), which established the Hawaiian Airlines, Inc.

Salaried & IAM Merged Pension Plan (the Merged Plan). At that time, the net liabilities of the Salaried Plan were transferred to the Merged Plan. In August 2017, we completed the termination of the Merged Plan by transferring the assets and liabilities to a third-party insurance company. The Merged Plan was fully funded and we recognized a one-time Other nonoperating special item expense of \$35.2 million as an Other nonoperating special item in our Consolidated Statement of Operations.

In 2017, we recognized a one-time Other nonoperating special item expense of \$10.4 million related to the settlement of a portion of our pilots' other post-retirement medical plan liability, pursuant to which the parties agreed to eliminate the post-65 post-retirement medical benefit for all active pilots and to replace the benefit with a health retirement account (HRA) managed by ALPA. This transaction represented a curtailment and partial settlement of the pilots' other post-retirement benefit plan. In August 2017, we made a one-time cash payment of approximately \$101.9 million to fund the HRA and settle the post-65 post-retirement medical plan obligation. The cash contributed was distributed to the trust funding the individual health retirement notional accounts of the participants.

#### Income Tax Expense

Our effective tax rate was 15.4% percent for 2017, compared with 38.0% for 2016. The decrease in rate was driven by a \$83.0 million reduction in provision for income taxes related to the Tax Act enacted in December 31, 2017, which resulted in re-measurement of our deferred tax assets and liabilities at the new federal corporate tax rate of 21.0%.

#### Liquidity and Capital Resources

Our primary sources of liquidity are:

- Our existing cash and cash equivalents and short-term investments of \$500.8 million, and our expected cash from operations;
- Our 21 unencumbered aircraft in our aircraft fleet as of December 31, 2018, that could be financed, if necessary; and
- Our \$235.0 million revolving credit facility with no outstanding borrowing. Information about this facility can be found in Note 8 to the consolidated financial statements.

At December 31, 2018, we had \$709.8 million of debt and capital lease obligations, including \$101.1 million classified as a current liability in the Consolidated Balance Sheets. As of December 31, 2018, our current liabilities exceeded our current assets by approximately \$301.0 million. However, approximately \$603.7 million of our current liabilities are related to our advanced ticket sales and frequent flyer deferred revenue, both of which largely represent revenue to be recognized for travel within the next 12 months and not actual cash outlays. The deficit in working capital does not have an adverse impact to our cash flows, liquidity, or operations.

#### Cash Flows

Net cash provided by operating activities was \$508.5 million, \$331.1 million, and \$437.0 million in 2018, 2017, and 2016, respectively. Operating cash flows are primarily derived from providing air transportation to customers. The vast majority of tickets are purchased in advance of when travel is provided, and in some cases, several months before the anticipated travel date. Operating cash outflows are related to the recurring expenses of the airline operations. The operating cash flows for 2018, 2017, and 2016 were impacted primarily by our results of operations, adjusted for non-cash items as well as changes in the Air traffic liability, Accounts receivables and Other asset and liabilities, net. Net cash provided by operating activities is primarily used to finance capital expenditures, including pre-delivery payments for future aircraft deliveries, repayment of debt and capital lease obligations, fund stock repurchases, pay dividends, and provide working capital.

Cash used in investing activities was \$316.5 million, \$294.7 million, and \$154.1 million for 2018, 2017, and 2016, respectively. Investing activities in 2018, 2017, and 2016 included Capital expenditures, primarily related to aircraft and other equipment, and the purchases and sales of short-term investments. During 2018, Capital expenditures were \$486.8 million, the majority of which were payments for new A321 aircraft delivered to us. This compared with \$341.5 million and \$178.8 million in Capital expenditures during 2017 and 2016, respectively. We currently estimate our 2019 capital expenditures will range between approximately \$380 million to \$430 million. During 2018, our purchases and sales of short-term investments resulted in net cash inflow of \$36.6 million. During 2017 and 2016, purchases and sales of short-term investments resulted in net cash outflows of \$12.9 million and \$7.1 million, respectively. During 2018, we received proceeds of \$46.7 million as a result of the sale of three Boeing 767-300 aircraft and \$87.0 million as a result of the completion of the sale and subsequent leaseback of an A330-200 aircraft accounted for as an operating lease.

Net cash used in financing activities was \$115.4 million, \$175.5 million, and \$238.5 million for 2018 and 2017, and 2016, respectively. During 2018, we repaid \$68.2 million in debt and capital lease obligations, compared with \$61.5 million and \$214.0 million during 2017 and 2016, respectively. During 2018, we entered into two Japanese Yen denominated notes, totaling \$86.5 million, collateralized by the aircraft financed. See Note 8 to the consolidated financial statements for further information. We repurchased \$102.5 million of our outstanding common stock through authorized share repurchases during 2018, compared with repurchases of \$100.0 million and \$13.8 million in 2017 and 2016, respectively. We also paid \$24.2 million in dividends to Shareholders during 2018, compared with \$6.3 million in 2017. Although we currently intend to continue paying dividends on a quarterly basis for the foreseeable future, our Board of Directors may change the timing, amount, and payment of dividends on the basis of the results of operations, financial condition, cash requirements, future prospects, and other factors deemed relevant by our Board of Directors.

#### Credit Card Holdbacks

Under our bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, are reported as restricted cash in our Consolidated Balance Sheets. As of December 31, 2018, there were no holdbacks held with our credit card processors.

In the event of a material adverse change in our business, the holdback could increase to an amount up to 100% of the applicable credit card activity for all unflown tickets, which would also result in an increase in the required level of restricted cash. If we are unable to obtain a waiver of, or otherwise mitigate the increase in the restriction of cash, it could have a material adverse impact on our operations.

#### Pension and Other Postretirement Benefit Plan Funding

As of December 31, 2018, the excess of the projected benefit obligations over the fair value of plan assets was approximately \$186.3 million. We voluntarily contributed \$50.0 million, \$30.2 million, and \$57.8 million to our defined benefit pension plans (excluding one-time settlement payments) and disability plan during 2018, 2017, and 2016, respectively. Future funding requirements for our defined benefit and other postretirement plans are dependent upon many factors such as interest rates, funded status, applicable regulatory requirements, and the level and timing of asset returns. We have made significant contributions (above the minimum required) to our defined benefit pension and disability plans in the past few years. In 2019, our minimum required contribution has been estimated to be approximately \$7.8 million.

#### Stock Repurchase Program and Dividends

During the year ended December 31, 2018, we used \$102.5 million to repurchase 2.8 million shares of our common stock, completing our November 2017 repurchase authorization. In November 2018, our Board of Directors approved a new stock repurchase program pursuant to which we may repurchase up to \$100 million of our outstanding common stock over a two-year period through December 2020. The stock repurchase program is subject to further modification or termination at any time.

The following table displays information with respect to our stock repurchase programs as of December 31, 2018:

(in thousands, except repurchase price)	Share Repurchase Authorization (in '000s)	Weighted Average Repurchase Price	Planned Completion Date	Authorization Remaining
April 2015 Program	\$100,000	\$25.75	April 2017	Completed April 2017
April 2017 Program	100,000	39.85	May 2019	Completed December 2017
November 2017 Program	100,000	36.71	December 2019	Completed December 2018
November 2018 Program	100,000	27.11	December 2020	\$97,500

During 2018, we declared and paid cash dividends of \$24.2 million. In February 2019, our Board of Directors declared a \$0.12 per share payable on February 22, 2019 to stockholders of record as of February 8, 2019.

#### **Off-Balance Sheet Arrangements**

An off-balance sheet arrangement is any transaction, agreement or other contractual arrangement involving an unconsolidated entity under which a company has (i) made guarantees, (ii) retained a contingent interest in transferred assets, (iii) an obligation under derivative instruments classified as equity or (iv) any obligation arising out of a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the company, or that engages in leasing, hedging or research and development arrangements with the company. We have no arrangements of the types described in the first three categories that we believe may have a current or future material effect on our financial condition, liquidity or results of operations. We do have obligations arising out of variable interests in unconsolidated entities related to certain aircraft leases. To the extent our leases and related guarantees are with a separate legal entity other than a governmental entity, we are not the primary beneficiary because the lease terms are consistent with market terms at the inception of the lease, and the lease does not include a residual value guarantee, fixed price purchase option, or similar feature.

#### **Contractual Obligations**

Our estimated contractual obligations as of December 31, 2018 are summarized in the following table:

Contractual Obligations	Total	Less than 1 Year	1 - 3 Years	3 - 5 Years	More than 5 Years
			(in thousands	s)	
Debt and capital lease obligations,					
including principal and interest(1)	\$ 882,998	\$130,744	\$172,412	\$ 168,115	\$ 411,727
Operating leases—aircraft and related					
equipment(2)	558,584	106,448	164,732	128,133	159,271
Operating leases—non-aircraft	118,888	5,730	11,554	11,905	89,699
Purchase commitments—capital(3)	1,941,180	330,089	465,454	667,849	477,788
Other commitments(4)	487,155	74,621	135,833	111,856	164,845
Projected employee benefit					
contributions(5)	44,355	3,755	10,800	17,800	12,000
Total contractual obligations	\$4,033,160	\$651,387	\$960,785	\$1,105,658	\$1,315,330

<sup>(1)</sup> Amounts reflect capital lease obligations for one Airbus A330-200 aircraft, two Airbus A321-200 aircraft, two Boeing 717-200 aircraft, one Airbus A330 flight simulator, aircraft and IT related equipment, and the building component of the cargo and maintenance hangar (within the capital commitments section).

- (2) Amounts reflect leases for eleven Airbus A330-200 aircraft, three Boeing 767-300 aircraft which end during the first quarter of 2019, and three Boeing 717-200 aircraft as of December 31, 2018.
- (3) Amounts include our firm commitments for aircraft and aircraft related equipment. See Note 14 to the consolidated financial statements for a discussion of our purchase commitments.
- (4) Amounts include commitments for services provided by third-parties for aircraft maintenance for our fleet, capacity purchases, IT, and reservations. Total contractual obligations do not include long-term contracts where the commitment is variable in nature (with no minimum guarantee), such as aircraft maintenance deposits due under operating leases and fees due under certain other agreements such as aircraft maintenance power-by-the-hour, computer reservation systems and credit card processing agreements, or when the agreements contain short-term cancellation provisions.
- (5) Amounts include our estimated contributions to our pension plans (based on actuarially determined estimates) and our pilots' disability plan. Amounts are subject to change based on numerous factors, including interest rate levels, the amount and timing of asset returns and the impact of future legislation. We are currently unable to estimate the projected contributions beyond 2025. See "Critical Accounting Policies" below for a discussion of our current year assumption regarding our employee benefit plans.

#### Capital Commitments

As of December 31, 2018, we had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

Aircraft Type	Firm Orders	Purchase Rights	<b>Expected Delivery Dates</b>
A321neo aircraft	7	3	Between 2019 and 2020
B787-9 aircraft	10	10	Between 2021 and 2025
Pratt & Whitney spare engines:			
A321neo spare engines	1	2	In 2019
General Electric GEnx spare engines:			
B787-9 spare engines	2	2	Between 2021 and 2025

Committed expenditures for these aircraft, engines, and related flight equipment are approximately \$330 million in 2019, \$162 million in 2020, \$303 million in 2021, \$431 million in 2022, \$237 million in 2023, and \$478 million thereafter.

In order to complete the purchase of these aircraft and fund related costs, we may need to secure acceptable financing. We have backstop financing available from aircraft and engine manufacturers, subject to certain customary conditions. Financing may be necessary to satisfy our capital commitments for firm order aircraft and other related capital expenditures. We can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to us on acceptable terms when necessary or at all.

#### **Non-GAAP Financial Measures**

We believe the disclosure of non-GAAP financial measures is useful information to readers of our financial statements because:

- We believe it is the basis by which we are evaluated by industry analysts and investors;
- These measures are often used in management and board of directors' decision making analysis;
- It improves a reader's ability to compare our results to those of other airlines; and
- It is consistent with how we present information in our quarterly earnings press releases.

See table below for reconciliation between GAAP consolidated net income to adjusted consolidated net income, including per share amounts (in thousands unless otherwise indicated). The adjustments are described below:

- As a result of the Tax Act, we recognized a one-time benefit of \$83.0 million in the fourth quarter of 2017 from the estimated impact of the revaluation of deferred tax assets and liabilities. This tax benefit is being excluded from our results as a Special item. We excluded the Tax Act effect (on the financial statements) in order to allow investors to better analyze our core results and allow the information to be presented on a comparative basis to the prior year.
- Changes in fair value of derivative contracts, net of tax, are based on market prices for open contracts as of the end of the reporting period. This adjustment includes the unrealized gains and losses on fuel and interest rate derivatives (not designated as hedges) that will settle in future periods and the reversal of prior period unrealized amounts. Excluding the impact of these derivative adjustments allows investors to analyze our core operational performance and compare our results to other airlines in the periods presented below.
- Unrealized loss (gain) on foreign debt is based on fluctuations in foreign exchanges rates related to foreign-denominated debt agreements we executed in 2018. We believe that excluding the

- impact of these amounts helps investors analyze our operational performance and compare our results to other airlines in the periods presented below.
- Loss on extinguishment of debt, net of tax, is excluded to allow investors to analyze our core operational performance and compare our results to other airlines in the periods presented below.
- Loss (gain) on sale of aircraft is the result of adjustments to the final purchase price for three of our Boeing 767-300 aircraft included in a forward sale agreement we entered into in January 2018 and described below. During the twelve months ended December 31, 2018, we recorded a loss of \$0.3 million.

#### 2016 Special Items

- An impairment analysis and ultimate charge was triggered by the decision in the fourth quarter of 2016 to exit our Boeing 767-300 fleet in 2018. We estimated the fair value of the owned Boeing 767-300 fleet assets using third party pricing information and quotes from potential buyers, which resulted in a \$49.4 million impairment charge.
- In 2016, we accrued \$34.0 million associated with the tentative agreement with ALPA related to past service (prior to January 1, 2017) and also elected to pay a \$4.8 million profit sharing bonus payment to other labor groups related to prior period service.
- In connection with the decision to exit the Boeing 767-300 fleet, we negotiated a termination of our Boeing 767-300 maintenance agreement and recorded a \$21.0 million charge related to the amount paid to terminate the contract.

#### 2017 Special Items

- In August 2017, we terminated the Hawaiian Airlines, Inc. Salaried & IAM Merged Pension Plan (the Merged Plan) and settled a portion of our pilots' other post-retirement medical plan liability. In connection with the reduction of these liabilities we recorded one-time Other nonoperating special charges of \$35.2 million related to the Merged Plan termination and \$10.4 million related to the other post-retirement (OPEB) medical plan partial settlement.
- In April 2017, we executed a sale leaseback transaction with an independent third party for three Boeing 767-300 aircraft. The lease terms for the three aircraft commenced in April 2017 and end between November 2018 and January 2019. During the twelve months ended December 31, 2017, we recorded a loss on sale of aircraft of \$4.8 million.
- In February 2017, we reached a tentative agreement with ALPA, covering our pilots. In March 2017, we received notice from ALPA that the agreement was ratified by ALPA's members. The agreement became effective April 1, 2017 and has a term of 63 months. The agreement includes, among other various benefits, a pay adjustment and ratification bonus computed based on previous service. During the twelve months ended December 31, 2017, we expensed \$18.7 million primarily related to a one-time payment to reduce our future 401K employer contribution for certain pilot groups, which is not recoverable once paid.

#### 2018 Contract Terminations Expense

- During the twelve months ended December 31, 2018, we terminated two contracts which incurred a total of \$35.3 million in contract terminations expense. The transactions are described below:
  - In February 2018, we exercised our right to terminate our aircraft purchase agreement with Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. To terminate the purchase agreement, we were obligated to

repay Airbus for concessions received relating to a prior firm order, training credits, as well as forfeit the pre-delivery progress payments made towards the flight equipment. We recorded a contract terminations expense to reflect the termination penalty in our consolidated statements of operations.

• In January 2018, we entered into a transaction with our lessor to early terminate and purchase three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the lease and purchase the aircraft, we agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a contract termination fee. The expensed amount represents the total purchase price amount over fair value of the aircraft purchased as of the date of the transaction.

We believe that excluding such special items helps investors analyze our operational performance and compare our results to other airlines in the periods presented below.

			Year Ended I	December 31,

Operating Costs per Available Seat Mile (CASM)

We have separately listed in the table below our fuel costs per ASM and non-GAAP unit costs, excluding fuel and special items. These amounts are included in CASM, but for internal purposes we

consistently use cost metrics that exclude fuel and special items (if applicable) to measure and monitor its costs.

CASM and CASM, excluding fuel, loss on sale of aircraft, contract terminations expense, and special items, are summarized in the table below:

	Year Ended December 31,			
	2018	2017	2016	
		ds, except for CAS		
GAAP operating expenses	\$ 2,523,043	\$ 2,211,107	\$ 2,034,926

#### **Critical Accounting Policies and Estimates**

The discussion and analysis of our financial condition and results of operations are based upon financial statements that have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amount of assets and liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Critical accounting policies and estimates are defined as those accounting policies and accounting estimates that are reflective of significant judgments and uncertainties, and that potentially result in materially different results under different assumptions and conditions. Our most critical accounting policies and estimates are described below. See the summary of significant accounting policies included in Note 1 to the consolidated financial statements for additional discussion of the application of these estimates and other accounting policies.

#### Revenue Recognition

We adopted the new revenue standard (ASC 606) as of January 1, 2018, utilizing the full retrospective option. The adoption of the standard has had a significant impact on our financial statements and our critical accounting policies. See Note 1 to the consolidated financial statements for additional information including quantification of the overall impact of adoption.

Passenger revenue. We record passenger ticket sales and tickets sold by other airlines for use on Hawaiian as passenger revenue when the transportation is provided or upon scheduled flight for tickets expected to expire unused. The value of unused passenger tickets is included in current liabilities as Air Traffic Liability. Non-refundable tickets generally expire 13 months from the date of flight. We record an estimate of breakage revenue on the scheduled flight date for tickets that will expire unused. These estimates are based on the evaluation of actual historical results and forecasted trends. Ticket change fees are recorded in air traffic liability and recognized when the related transportation is provided.

Frequent flyer revenue. HawaiianMiles, Hawaiian's frequent flyer travel award program, provides a variety of awards to program members based on accumulated mileage. ASC 606, Revenue from Contracts with Customers, and created Accounting Standards Codification (ASC 606) requires us to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles. Ticket consideration received is allocated between the performance obligations, primarily travel and miles earned by passengers. The allocated value of the miles is deferred until the free travel or other award is used by the passenger, at which time it is included in passenger revenue. The value of the ticket used in the determination of the estimated selling price is based on the historical value of equivalent flights to those provided for loyalty awards and the related miles redeemed to obtain that award adjusted for breakage or fulfillment. The equivalent ticket value (ETV) includes a fulfillment discount (breakage) to reflect the value of the award ticket over the number of miles that, based on historical experience, will be needed to obtain the award. On a quarterly basis, we calculate the ETV by analyzing the fares of similar tickets for the prior 12 months, considering cabin class and geographic region.

We also sell mileage credits to companies participating in our frequent flyer program. These contracts generally include multiple performance obligations, including the transportation that will ultimately be provided when the mileage credits are redeemed and marketing and brand related activities.

During the first quarter of 2018, we amended our partnership with Barclaycard US, Hawaiian's co-branded credit card partner. Management determined that the amendment should be accounted for as a termination of the existing contract and the creation of a new contract under ASC 606 and the relative selling price was determined for each performance obligation of the new agreement. The new agreement continues through 2024 and includes improved economics and enhanced product offerings for our Barclay's co-branded cardholders. The amended agreement did not change, and includes the following performance obligations; (i) transportation that will ultimately be provided when mileage credits are redeemed (transportation), (ii) the Hawaiian Airlines brand and access to its members lists (collectively, brand performance), (iii) marketing, and (iv) airline benefits to cardholders, including discounts and anniversary travel benefits, baggage waivers and inflight purchase credits. We determined the relative fair value of each performance obligation by estimating the selling prices of the deliverables by considering discounted cash flows using multiple inputs and assumptions, including: (1) the expected number of miles to be awarded and redeemed; (2) the estimated weighted average equivalent ticket value, adjusted by a fulfillment discount; (3) the estimated total annual cardholder spend; (4) an estimated royalty rate for the Hawaiian portfolio; and (5) the expected use of each of the airline benefits. The overall consideration received is allocated to the performance obligations based on their relative selling prices.

The transportation performance obligation is deferred and recognized as passenger revenue when the transportation is provided. The value to the financial institution is provided each time a new cardholder chooses the Hawaiian branded credit card and each time a cardholder chooses to use the co-branded credit card. Therefore, we recognize revenue for the brand performance obligation as members use their co-brand credit card and the resulting mileage credits are issued to them, which best correlates with our performance toward satisfying the obligation.

Accounting for frequent flyer revenue involves the use of various techniques to estimate revenue. To determine the total estimated transaction price, we forecast future credit card activity based on historical data. The relative selling price is determined using management's estimated standalone selling price of each performance obligation. The objective of using the estimated selling price based methodology is to determine the price at which we would transact a sale if the product or service were sold on a standalone basis. Accordingly, we determine our best estimate of selling price by considering multiple inputs and methods including, but not limited to, discounted cash flows, brand value, number of miles awarded and number of miles redeemed. We estimate the selling price of miles using an ETV adjusted for a fulfillment discount as described above.

Miles expire after 18 months of member account inactivity. We review our breakage estimates annually based upon the latest available information regarding redemption and expiration patterns (e.g., credit card and non-credit card holders). Our estimate of the expected expiration of miles requires significant management judgment. Current and future changes to expiration assumptions or to the expiration policy, or to program rules and program could affect the estimated value of a mile.

#### Pension and Other Postretirement and Postemployment Benefits

The calculation of pension and other postretirement and postemployment benefit expenses and its corresponding liabilities require the use of significant assumptions, including the assumed discount rate, the expected long-term rate of return on plan assets, expected mortality rates of the plan participants, and the expected health care cost trend rate. Changes in these assumptions will impact the expense and liability amounts, and future actual experience may differ from these assumptions.

The significant assumptions as of December 31, 2018 are as follows:

Pension:	
Discount rate to determine projected benefit obligation	4.35%
Expected return on plan assets	7.33% ^
Postretirement:	
Discount rate to determine projected benefit obligation	4.36%
Expected return on plan assets	N/A
Expected health care cost trend rate:	
Initial	6.75%
Ultimate	4.75%
Years to reach ultimate trend rate	4
Disability:	
Discount rate to determine projected benefit obligation	4.39%
Expected return on plan assets	4.90% ^

#### N/A Not Applicable

The expected long-term rate of return assumption is developed by evaluating input from the trustee managing the plans' assets, including the trustee's review of asset class return expectations by several

Expected return on plan assets used to determine the net periodic benefit expense for 2019 is 6.91% for the pension plans and 4.90% for the disability plan.

consultants and economists, as well as long-term inflation assumptions. Our expected long-term rate of return on plan assets is based on a target allocation of assets, which is based on our goal of earning the highest rate of return while maintaining risk at acceptable levels. The Retirement Plan for Pilots of Hawaiian Airlines, Inc. and the Pilot's Voluntary Employee Beneficiary Association Disability and Survivor's Benefit Plan strive to have assets sufficiently diversified so that adverse or unexpected results from any one security class will not have an unduly detrimental impact on the entire portfolio. We believe that our long-term asset allocation on average will approximate the targeted allocation. We periodically review our actual asset allocation and rebalance the pension plan's investments to our targeted allocation when considered appropriate. Pension expense increases as the expected rate of return on plan assets decreases. Lowering the expected long-term rate of return by 100 basis points will have the following effects on our estimated 2019 pension and disability benefit expense recorded in wages and benefits and nonoperating expense:

	Decrease
	(in millions)
Increase in estimated 2019 pension expense	\$3.0
Increase in estimated 2019 disability benefit expense	0.3

100 Rocic Point

We determine the appropriate discount rate for each of our plans based on current rates on high quality corporate bonds that would generate the cash flow necessary to pay plan benefits when due. The pension and other postretirement benefit liabilities and future expense both increase as the discount rate is reduced. Lowering the discount rate by 100 basis points would have the following effects:

	100 Basis Point Decrease
	(in millions)
Increase in pension obligation as of December 31, 2018	\$46.8
Increase in other postretirement benefit obligation as of	
December 31, 2018	15.0
Decrease in estimated 2019 pension expense (operating and	
nonoperating)	(0.3)
Increase in estimated 2019 other postretirement benefit expense	` '
(operating and nonoperating)	1.2

The health care cost trend rate is based upon an evaluation of our historical trends and experience taking into account current and expected market conditions. Changes in the assumed current health care cost trend rate by year by 100 basis points would have the following annual effects:

	100 Basis Point Increase
	(in millions)
Increase in other postretirement benefit obligation as of	
December 31, 2018	\$8.0
Increase in estimated 2019 other postretirement benefit expense	
(operating and nonoperating)	1.0

	100 Basis Point Decrease
	(in millions)
Decrease in other postretirement benefit obligation as of	
December 31, 2018	\$(6.9)
Increase in estimated 2019 other postretirement benefit expense	
(operating and nonoperating)	1.2

In 2017, we recognized a one-time Other nonoperating special item expense of \$10.4 million related to the settlement of a portion of our pilots' other post-retirement medical plan liability, pursuant to which the parties agreed to eliminate the post-65 post-retirement medical benefit for all active pilots and to replace the benefit with a health retirement account (HRA) managed by ALPA. We evaluated the accounting for the transaction in accordance with ASC 715-60 Compensation-Retirement Benefits—Defined Benefit Plans-Other Postretirement, and determined that it represented a curtailment and partial settlement of the pilots' other post-retirement benefit plan.

#### Long-Lived Assets

Long-lived assets used in operations, consisting principally of property and equipment. Depreciable life is determined through economic analysis, such as reviewing existing fleet plans, obtaining appraisals and comparing estimated lives to other airlines that operate similar fleets. Residual values are estimated based on historical experience and are based on when the aircraft are acquired and typically reflect asset values that have not reached the end of their physical life.

When testing for impairment management considers market trends, the expected useful lives of the assets, changes in economic conditions, recent transactions involving sales of similar assets and, if necessary, estimates of future undiscounted cash flows. To determine whether impairment exists for aircraft used in operations, assets are grouped at the fleet-type level (the lowest level for which there are identifiable cash flows) and future cash flows are estimated based on projections of capacity, passenger mile yield, fuel costs, labor costs and other relevant factors. If, at any time, management determines the net carrying value of an asset is not recoverable, the amount is reduced to its fair value during the period in which such determination is made. Any changes in the estimated useful lives of these assets will be accounted for prospectively.

The impairment analysis and ultimate charge in 2016 was triggered by the decision in the fourth quarter of 2016 to exit the Boeing 767-300 fleet in 2018. The early exit of the Boeing 767-300 fleet was made possible by our decision to acquire one Airbus A330 (delivered in 2017), lease two additional Airbus A321s (to be delivered in 2018 in addition to our existing aircraft orders), and our ability to early terminate our long-term power-by-the-hour maintenance contract for the Boeing 767-300 fleet. This fleet change allows us to streamline our fleet, simplify our operations, and reduce our cost structure in the future. In order to assess whether there was an impairment of the Boeing 767-300 asset group, we compared the projected undiscounted cash flows of the fleet to the book value of the assets and determined the book value was in excess of the undiscounted cash flows. We estimated the fair value of our owned Boeing 767-300 fleet assets using third party pricing information and quotes from potential buyers of our owned aircraft, which resulted in a \$49.4 million impairment charge. Our determination of fair value considered attributes specific to our Boeing 767-300 fleet and aircraft condition (e.g. age, maintenance requirements, cycles, etc.). The Boeing 767-300 asset group consisted of both owned and leased (at the time of the assessment) aircraft.

#### Income Taxes

The Tax Act, enacted in December 2017, significantly changed existing U.S. tax law and reduces the U.S. federal corporate tax from 35% to 21%. We recognized a one-time benefit of \$83.0 million during the year ended December 31, 2017 from the impact of the revaluation of deferred tax assets and liabilities. During the year ended December 31, 2018, we completed our accounting for the effects of the Tax Act and recorded an additional tax benefit of \$9.3 million, primarily related to deductions for additional pension contributions made in 2018 for the 2017 Plan year.

#### ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are subject to certain market risks, including commodity price risk (i.e. jet fuel prices) and foreign currency risk. We have market-sensitive instruments in the form of financial derivatives used to offset Hawaiian's exposure to jet fuel price increases, and financial hedge instruments used to hedge Hawaiian's exposure to foreign currency exchange risk. The adverse effects of potential changes in these market risks are discussed below.

The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity nor do they consider additional actions we might undertake to mitigate our exposure to such changes. Actual results may differ.

#### Aircraft Fuel

Aircraft fuel costs constitute a significant portion of our operating expense. Fuel costs represented 24% of our operating expenses for the year ended December 31, 2018. Approximately 71% of our fuel is based on Singapore jet fuel prices, 26% is based on U.S. West Coast jet fuel prices, and 3% on other jet fuel prices. We periodically enter into derivative financial instruments to manage our exposure to changes in the price of jet fuel. As of December 31, 2018, we hedged approximately 34% of our projected fuel requirements for 2019. As of December 31, 2018, the fair value of these fuel derivative agreements reflected a net asset of \$1.6 million that is recorded as prepaid assets in the Consolidated Balance Sheets. Based on gallons expected to be consumed in 2019, for every one cent increase in the cost of a gallon of jet fuel, our annual fuel expense would increase by approximately \$2.7 million.

We expect to continue our program of offsetting some of our exposure to future changes in the price of jet fuel with a combination of fixed forward pricing contracts, swaps, puts and other option-based structures.

We continue to believe that our fuel derivative program is an important part of our strategy to reduce our exposure to volatile fuel prices. We expect to continue to enter into these types of contracts prospectively, although significant changes in market conditions could affect our decisions. For more discussion, see Note 6 to our consolidated financial statements.

#### Interest Rates

We have exposure to market risk associated with changes in interest rates related to our pre-tax earnings and cash flows associated with our interest-bearing cash equivalent accounts and short-term investments. Based on the balances of our cash and cash equivalents, and short-term investments as of December 31, 2018, a change in interest rates is unlikely to have a material impact on our results of operations.

Our variable-rate debt agreements include the Revolving Credit Facility and secured loan agreements, the terms of which are discussed in Note 8 to our consolidated financial statements. At December 31, 2018, we had \$720.3 million of fixed-rate debt including capital lease obligations, facility agreements for aircraft purchases, and the outstanding notes related to the aircraft purchase financing. As of December 31, 2018, we have no variable-rate debt. An increase of 100 basis points in average annual interest rates would have decreased the estimated fair value of our fixed-rate long-term debt by \$6.9 million at December 31, 2018.

#### Foreign Currency

We have exposure to market risk associated with changes in foreign currency exchange rates because we generate sales, incur expenses, and have debt denominated and paid in foreign currencies, predominantly in Japanese Yen and to a lesser extent, the Australian Dollar.

To mitigate the exchange rate risk, we transact our international sales and expenditures in the same foreign currency, to the extent practical. Additionally, our Yen denominated debt serves as a natural hedge against the volatility of exchange rates against cash inflows. We also have an established foreign currency derivative program, where we periodically enter into foreign currency forward contracts. At December 31, 2018, the fair value of our foreign currency forwards reflected a net asset of \$3.2 million (\$2.9 million and \$0.3 million recorded in Prepaid expenses and other (short-term) and Long-term prepayments and other (long-term), respectively) in the consolidated balance sheet.

Based on forecasted transactions in foreign currency, a 10% depreciation in the U.S. dollar, relative to the Japanese Yen and Australian Dollar, would result in a decrease in annual net income, net of the impact of foreign currency hedges, of approximately \$21.9 million.

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Hawaiian Holdings, Inc.

#### **Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of Hawaiian Holdings, Inc. (the Company) as of December 31, 2018 and 2017, and the related consolidated statements of operations, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedules listed in the Index at Item 15(a) (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2018 and 2017, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the PCAOB, the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 13, 2019 expressed an unqualified opinion thereon.

#### Adoption of ASU No. 2014-09

As discussed in Note 1 to the consolidated financial statements, the Company retrospectively changed its method of accounting for recognizing revenue as a result of the adoption of Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606), and the amendments in ASUs 2015-14, 2016-08, 2016-10 and 2016-12 effective January 1, 2016.

#### **Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

#### /s/ ERNST & YOUNG LLP

We have served as the Company's auditor since 1999. Honolulu, Hawai'i February 13, 2019

### Hawaiian Holdings, Inc. Notes to Consolidated Financial Statements

#### 1. Summary of Significant Accounting Policies

#### Basis of Presentation

Hawaiian Holdings, Inc. (the Company, Holdings, we, us and our) and its direct wholly-owned subsidiary, Hawaiian Airlines, Inc. (Hawaiian), are incorporated in the State of Delaware. The Company's primary asset is its sole ownership of all issued and outstanding shares of common stock of Hawaiian.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, including its principal subsidiary, Hawaiian, through which the Company conducts substantially all of its operations. All significant inter-company balances and transactions have been eliminated upon consolidation.

The Company reclassified certain prior period amounts to conform to the current period presentation. Unless otherwise noted, all amounts disclosed are stated before consideration of income taxes.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ materially from those estimates.

#### Cash Equivalents

Cash equivalents consist of short-term, highly liquid investments with an original maturity of three months or less at the date of purchase.

#### Restricted Cash

Restricted cash consists of cash held as collateral by institutions that process our credit card transactions for advanced ticket sales.

#### Short Term Investments

Investments with original maturities of greater than three months and remaining maturities of less than one year are classified as short-term investments. Investments with maturities beyond one year may be classified as short-term based on their highly liquid nature and because such marketable securities represent the investment of cash that is available for current operations. All short-term investments, which consists of debt securities, are classified as available-for-sale, and realized gains and losses are recorded using the specific identification method. Changes in market value, excluding other-than-temporary impairments, are reflected in accumulated other comprehensive income (loss).

#### Spare Parts and Supplies

Spare parts and supplies are valued at average cost, and primarily consist of expendable parts for flight equipment and other supplies. An allowance for obsolescence of expendable parts is provided over the estimated useful lives of the related aircraft and engines for spare parts expected to be on hand at the date the aircraft are retired from service. These allowances are based on management's estimates and are subject to change.

#### Hawaiian Holdings, Inc.

#### Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

#### Property, Equipment and Depreciation

Property and equipment are stated at cost and depreciated on a straight-line basis to their estimated residual values over the asset's estimated useful life. Depreciation begins when the asset is placed into service. Aircraft and related parts begin depreciating on the aircraft's first revenue flight.

Estimated useful lives and residual values of property and equipment are as follows:

Airbus A321neo aircraft and engines	25 years, 10% residual value 25 years, 10% residual value 10 years, 15% residual value Shorter of lease term or useful life Average lease term or useful life for related aircraft, 10% - 15% residual value
Facility leasehold improvements	Shorter of lease term or useful life Shorter of lease term, including assumed lease renewals when renewal is economically compelled at key airports, or useful life 3 - 7 years, no residual value 3 - 7 years, no residual value

<sup>(1)</sup> The Company will retire its Boeing 767-300 aircraft and flight equipment in the first quarter of 2019.

Additions and modifications that significantly enhance the operating performance and/or extend the useful lives of property and equipment are capitalized and depreciated over the lesser of the remaining useful life of the asset or the remaining lease term, as applicable. Expenditures that do not improve or extend asset lives are charged to expense as incurred. Pre-delivery deposits are capitalized when paid.

Aircraft under capital leases are recorded at an amount equal to the present value of minimum lease payments utilizing the Company's incremental borrowing rate at lease inception and amortized on a straight-line basis over the lesser of the remaining useful life of the aircraft or the lease term. The amortization is recorded in depreciation and amortization expense on the Consolidated Statement of Operations. Accumulated amortization of aircraft and other capital leases was \$90.5 million and \$70.9 million as of December 31, 2018 and 2017, respectively.

The Company capitalizes certain costs related to the acquisition and development of computer software and amortizes these costs using the straight-line method over the estimated useful life of the software. The net book value of computer software, which is included in Other property and equipment on the consolidated balance sheets, was \$27.9 million and \$34.6 million at December 31, 2018 and 2017, respectively. The value of construction in progress, primarily consisting of aircraft in 2018 and aircraft facilities in 2017, which is included in property and equipment on the consolidated balance sheets, was \$47.3 million and \$135.3 million as of December 31, 2018 and 2017, respectively. Amortization expense related to computer software was \$14.6 million, \$12.3 million and \$9.7 million for the years ended December 31, 2018, 2017, and 2016 respectively.

## Hawaiian Holdings, Inc. Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

#### Aircraft Maintenance and Repair Costs

Maintenance and repair costs for owned and leased flight equipment, including the overhaul of aircraft components, are charged to operating expenses as incurred. Engine overhaul costs covered by power-by-the-hour arrangements are paid and expensed as incurred or expensed on a straight-line basis and are based on the amount of hours flown per contract. Under the terms of these power-by-the-hour agreements, the Company pays a set dollar amount per engine hour flown on a monthly basis and the third-party vendor assumes the obligation to repair the engines at no additional cost, subject to certain specified exclusions. As of December 31, 2018 and 2017, the Company had approximately \$95.0 million and \$109.3 million, respectively in prepayments to one of its power-by-the-hour vendors, which is recoverable over the next four years.

Additionally, although the Company's aircraft lease agreements specifically provide that it is responsible for maintenance of the leased aircraft, the Company pays maintenance reserves to the aircraft lessors that are applied toward the cost of future maintenance events. These reserves are calculated based on a performance measure, such as flight hours, and are available for reimbursement to the Company upon the completion of the maintenance of the leased aircraft. However, reimbursements are limited to the available reserves associated with the specific maintenance activity for which the Company requests reimbursement.

Under certain aircraft lease agreements, the lessor is entitled to retain excess amounts on deposit at the expiration of the lease, if any; whereas at the expiration of certain other existing aircraft lease agreements any such excess amounts are returned to the Company, provided that it has fulfilled all of its obligations under the lease agreements. The maintenance reserves paid under the lease agreements do not transfer either the obligation to maintain the aircraft or the cost risk associated with the maintenance activities to the aircraft lessor. In addition, the Company maintains the right to select any third-party maintenance provider.

Maintenance reserve payments that are expected to be recovered from lessors are recorded as deposits in the Consolidated Balance Sheets as an asset until it is less than probable that any portion of the deposit is recoverable. In addition, payments of maintenance reserves that are not substantially and contractually related to the maintenance of the leased assets are expensed as incurred. Any costs that are substantially and contractually unrelated to the maintenance of the leased asset are considered to be unrecoverable. In order to properly account for the costs that are related to the maintenance of the leased asset, the Company bifurcates its maintenance reserves into two groups and expenses the proportionate share that is expected to be unrecoverable.

#### Goodwill and Indefinite-lived Intangible Assets

Goodwill and intangible assets with indefinite lives are not amortized. We apply a fair value-based impairment test to the carrying value of goodwill and indefinite-lived intangible assets on an annual basis and, if certain events or circumstances indicate that an impairment loss may have been incurred, on an interim basis. We assess the value of our goodwill and indefinite-lived assets under either a qualitative or quantitative approach.

Goodwill. When the Company evaluates goodwill for impairment using a quantitative approach, it estimates the fair value of the reporting unit by considering the market capitalization. If the reporting unit's fair value exceeds its carrying value, no further testing is required. If, however, the reporting

#### Hawaiian Holdings, Inc.

#### Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

unit's carrying value exceeds its fair value, the Company then determines the amount of the impairment charge, if any. The Company recognizes an impairment charge if the carrying value of the reporting unit's goodwill exceeds its estimated fair value.

Intangible Assets. The Company assesses its indefinite-lived assets under a qualitative approach. The Company analyzes market factors to determine if events and circumstances have affected the fair value of the indefinite-lived intangible assets. If the Company determines that it is more likely than not that the asset value may be impaired, it then uses the quantitative approach to assess the asset's fair value and the amount of the impairment. The Company performs the quantitative impairment test for indefinite-lived intangible assets by comparing the asset's fair value to its carrying value.

#### Impairment of Long-Lived Assets and Finite-lived Intangible Assets

Long-lived assets used in operations, consisting principally of property and equipment and finite-lived intangible assets, are tested for impairment when events or changes in circumstances indicate, in management's judgment, that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than their carrying amount. When testing for impairment management considers market trends, the expected useful lives of the assets, changes in economic conditions, recent transactions involving sales of similar assets and, if necessary, estimates of future undiscounted cash flows. To determine whether impairment exists for aircraft used in operations, assets are grouped at the fleet-type level (the lowest level for which there are identifiable cash flows) and future cash flows are estimated based on projections of capacity, passenger mile yield, fuel costs, labor costs and other relevant factors. If, at any time, management determines the net carrying value of an asset is not recoverable, the amount is reduced to its fair value during the period in which such determination is made. Any changes in the estimated useful lives of these assets will be accounted for prospectively. In 2016, a \$49.4 million impairment charge was recorded as the Company determined that the Boeing 767-300 fleet and related assets were impaired. See Note 11 for further details.

#### **Operating Leases**

The Company leases aircraft, engines, airport terminal facilities, office space, and other equipment under operating leases. Some of these lease agreements include escalation clauses and renewal options. For scheduled rent escalation clauses during the lease terms or for rental payments commencing at a date other than the date of initial occupancy, the Company records minimum rental expenses on a straight-line basis over the terms of the leases in the Consolidated Statements of Operations. Rental expense for operating leases totaled \$201.1 million, \$208.0 million, and \$193.0 million for the years ended December 31, 2018, 2017 and 2016, respectively.

#### Leased Aircraft Return Costs

Costs associated with the return of leased aircraft are accrued when it is probable that a payment will be made and that amount is reasonably estimable, usually no sooner than after the last scheduled maintenance event prior to lease return. Any accrual is based on the time remaining on the lease, planned aircraft usage, and the provisions included in the lease agreement, although the actual amount due to any lessor upon return will not be known with certainty until lease termination.

# **Notes to Consolidated Financial Statements (Continued)**

#### 1. Summary of Significant Accounting Policies (Continued)

As leased aircraft are returned, any payments are charged against the established accrual. The accrual is part of current and long-term liabilities and was not material as of December 31, 2018 and 2017. The expense is included in Aircraft rent in the consolidated statements of operations.

#### Revenue Recognition

Passenger revenue. The majority of the Company's revenue is derived from transporting passengers on our aircraft. The Company accounts for revenue in accordance with ASC 606, which was adopted on January 1, 2018, using the full retrospective method. See Recently Adopted Accounting Pronouncements section below for further discussion of adoption, including the impact on our previously issued financial statements.

The Company's primary operations are that of its wholly-owned subsidiary, Hawaiian. Principally all operations of Hawaiian either originate and/or end in the State of Hawai'i. The management of such operations is based on a system-wide approach due to the interdependence of Hawaiian's route structure in its various markets. As Hawaiian offers only one significant line of business (i.e., air transportation), management has concluded that it has only one segment. The Company's operating revenues by geographic region (as defined by the Department of Transportation, DOT) are summarized below:

	Year Ended December 31,			
	2018 2017		2016	
		(in thousands)		
Domestic	\$2,071,861	\$1,976,971	\$1,874,039	
Pacific	765,550	698,174	558,374	
Total operating revenue	\$2,837,411	\$2,675,145	\$2,432,413	

Hawaiian attributes operating revenue by geographic region based on the destination of each flight segment. Hawaiian's tangible assets consist primarily of flight equipment, which are mobile across geographic markets, and, therefore, have not been allocated to specific geographic regions.

Passenger & Other revenue—Generally, the Company's contracts with customers have two principal performance obligations, which are the promise to provide transportation to the passenger and the frequent flyer miles earned on the flight. In addition, the Company often charges additional fees for items such as baggage and in-flight entertainment. Such items are not capable of being distinct from the transportation provided because the customer can only benefit from the services during the flight. The transportation performance obligation, including the redemption of HawaiianMiles awards for flights, is satisfied, and revenue is recognized, as transportation is provided. In some instances, tickets sold by the Company can include a flight segment on another carrier which is referred to as an interline segment. In this situation, the Company acts as an agent for the other carrier and revenue is recognized net of cost in other revenue. Tickets sold by other airlines where the Company provides the transportation are recognized as passenger revenue at the estimated value to be billed to the other airline when travel is provided. Differences between amounts billed and the actual amounts may be rejected and rebilled or written off if the amount recorded was different from the original estimate.

# Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

Other operating revenue consists of cargo revenue, ground handling fees, commissions, and fees earned under certain joint marketing agreements with other companies. These amounts are recognized when the service is provided.

	Year Ended December 31,			
	2018	2017	2016	
		(in thousands)		
Passenger Revenue by Type				
Passenger revenue, excluding frequent flyer	\$2,454,811	\$2,351,062	\$2,146,258	
Frequent flyer revenue, transportation component	147,982	135,765	125,429	
Passenger Revenue	\$2,602,793	\$2,486,827	\$2,271,687	
Other revenue (e.g. cargo and other miscellaneous)	\$ 163,140	\$ 142,172	\$ 115,379	
Frequent flyer revenue, marketing and brand component	71,478	46,146	45,347	
Other Revenue	\$ 234,618	\$ 188,318	\$ 160,726	

For the twelve months ended December 31, 2018, 2017, and 2016, the Company's total revenue was \$2.8 billion, \$2.7 billion, and \$2.4 billion, respectively. As of December 31, 2018 and 2017, the Company's Air traffic liability balance as it relates to passenger tickets (excluding frequent flyer) was \$427.8 million and \$421.6 million, respectively, which represents future revenue that is expected to be realized over the next 12 months. During the twelve months ended December 31, 2018, 2017, and 2016, the amount of revenue recognized that was included in Air traffic liability as of the beginning of the respective period was \$421.0 million, \$363.9 million, and \$328.7 million, respectively.

Passenger revenue associated with unused tickets, which represent unexercised passenger rights, is recognized in proportion to the pattern of rights exercised by related passengers (e.g. scheduled departure dates). To calculate the portion to be recognized as revenue in the period, the Company utilizes historical information and applies the trend rate to the current air traffic liability balances for that specific period.

Certain governmental taxes are imposed on the Company's ticket sales through a fee included in ticket prices. The Company collects these fees and remits them to the appropriate government agency. Management has elected (via a practical expedient election) to exclude from the measurement of the transaction price all taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected from a customer, e.g., sales, use, value added, and certain excise taxes. These fees have been presented on a net basis in the accompanying Consolidated Statements of Operations and recorded as a liability until remitted.

Frequent Flyer Revenue. Hawaiian's frequent flyer travel award program provides a variety of awards to program members based on accumulated mileage. ASC 606 requires the Company to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles. Ticket consideration received is allocated between the performance obligations, primarily travel and miles earned by passengers. The allocated value of the miles is deferred until the free travel or other award is used by the passenger, at which time it is included in passenger revenue. The value of the ticket used in the determination of the estimated selling price is based on the historical value of equivalent flights to those provided for loyalty awards and the related miles redeemed to obtain that award adjusted for

# Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

breakage or fulfillment. The equivalent ticket value (ETV) includes a fulfillment discount (breakage) to reflect the value of the award ticket over the number of miles that, based on historical experience, will be needed to obtain the award. On a quarterly basis, the Company calculates the ETV by analyzing the fares of similar tickets for the prior 12 months, considering cabin class and geographic region.

The Company also sells mileage credits to companies participating in our frequent flyer program These contracts generally include multiple performance obligations, including the transportation that will ultimately be provided when the mileage credits are redeemed and marketing and brand related activities. The marketing and brand performance obligations are effectively provided each time a *HawaiianMiles* member uses the co-branded credit card and monthly access to customer lists and marketing is provided, which corresponds to the timing of when the Company issues or is obligated to issue the mileage credits to the *HawaiianMiles* member. Therefore, the Company recognizes revenue for the marketing and brand performance obligations when *HawaiianMiles* members use their co-brand credit card and the resulting mileage credits are issued to them, which best correlates with the Company's performance in satisfying the obligation.

During the first quarter of 2018, the Company amended its partnership with Barclaycard US, Hawaiian's co-branded credit card partner. Management determined that the amendment should be accounted for as a termination of the existing contract and the creation of a new contract under ASC 606 and the relative selling price was determined for each performance obligation of the new agreement. The new agreement continues through 2024 and includes improved economics and enhanced product offerings for our Barclay's co-branded cardholders. The amended agreement did not change, and includes the following performance obligations; (i) transportation that will ultimately be provided when mileage credits are redeemed (transportation), (ii) the Hawaiian Airlines brand and access to its members lists (collectively, brand performance), (iii) marketing, and (iv) airline benefits to cardholders, including discounts and anniversary travel benefits, baggage waivers and inflight purchase credits. The Company determined the relative fair value of each performance obligation by estimating the selling prices of the deliverables by considering discounted cash flows using multiple inputs and assumptions, including: (1) the expected number of miles to be awarded and redeemed; (2) the estimated weighted average equivalent ticket value, adjusted by a fulfillment discount; (3) the estimated total annual cardholder spend; (4) an estimated royalty rate for the Hawaiian portfolio; and (5) the expected use of each of the airline benefits. The overall consideration received is allocated to the performance obligations based on their relative selling prices.

The transportation performance obligation is deferred and recognized as passenger revenue when the transportation is expected to be provided.

Accounting for mileage sales to co-branded partners involves the use of various techniques to estimate revenue. To determine the total estimated transaction price, the Company forecasts future credit card activity using historical information. The relative selling price is determined using management's standalone estimated selling price of each performance obligation. The objective of using the estimated selling price based methodology is to determine the price at which the Company would transact a sale if the product or service were sold on a stand-alone basis. Accordingly, the Company determines the best estimate of selling price by considering multiple inputs and methods including, but not limited to, discounted cash flows, brand value, published selling prices, number of miles awarded and number of miles redeemed. The Company estimates the selling price of miles using an ETV adjusted for a fulfillment discount as described above.

# **Notes to Consolidated Financial Statements (Continued)**

#### 1. Summary of Significant Accounting Policies (Continued)

The Company's frequent flyer liability is recorded in Air traffic liability (short-term) and Noncurrent frequent flyer deferred revenue in the Company's consolidated balance sheet based on estimated and expected redemption patterns using historical data and analysis. As of December 31, 2018 and 2017, the balances were as follows:

	As of December 31,		
	2018	2017	
	(in thousands)		
Air traffic liability (current portion of frequent flyer deferred			
revenue)	\$168,570	\$161,757	
Noncurrent frequent flyer deferred revenue	163,619	149,764	
Total frequent flyer liability	\$332,189	\$311,521	

Miles expire after 18 months of member account inactivity. The Company reviews its breakage estimates annually based upon the latest available information regarding redemption and expiration patterns (e.g., credit card and non-credit card holders). The Company's estimate of the expected expiration of miles requires significant management judgment. Current and future changes to expiration assumptions or to the expiration policy, or to program rules and program could affect the estimated value of a mile.

#### Accounts Receivable

Accounts receivable primarily consist of amounts due from credit card companies, non-airline partners, and cargo transportation customers. The Company provides an allowance for uncollectible accounts equal to the estimated losses expected to be incurred based on historical chargebacks, write-offs, bankruptcies and other specific analyses. Bad debt expense was not material in any period presented.

#### Costs to obtain or fulfill a contract

In order for the Company to provide transportation to its customers, the Company incurs fulfillment costs (booking fees, credit card fees, and commission/selling costs), which are deferred until the period in which the flight occurs. As of December 31, 2018 and 2017, the Company's asset balance associated with these costs were \$16.3 million and \$16.7 million, respectively. During the twelve months ended December 31, 2018, 2017, and 2016, expenses related to these costs totaled to \$96.0 million, \$95.5 million, and \$94.3 million, respectively. To determine the amount to capitalize and expense at the end of each period, the Company uses historical sales data and estimates the amount associated with unflown tickets.

### Pension and Postretirement and Postemployment Benefits

The Company accounts for its defined benefit pension and other postretirement and postemployment plans in accordance with ASC 715, Compensation—Retirement Benefits (ASC 715), which requires companies to measure their plans' assets and obligations to determine the funded status at fiscal year-end, reflect the funded status in the statement of financial position as an asset or liability, and recognize changes in the funded status of the plans in comprehensive income during the year in which the changes occur. Pension and other postretirement and postemployment benefit expenses are recognized on an accrual basis over each employee's service periods. Pension expense is generally independent of funding decisions or requirements.

# Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

The Company uses the corridor approach in the valuation of its defined benefit pension and other postretirement and postemployment plans. The corridor approach defers all actuarial gains and losses resulting from variances between actual results and actuarial assumptions. These unrecognized actuarial gains and losses are amortized when the net gains and losses exceed 10% of the greater of the market-related value of plan assets or the projected benefit obligation at the beginning of the year. The amount in excess of the corridor is amortized over the expected average remaining service period of active plan participants for the open plans and is amortized over the expected average remaining lifetime of inactive participants for plans whose population is "all or almost all" inactive.

## Advertising Costs

Advertising costs are expensed when incurred. Advertising expense was \$19.3 million, \$16.6 million and \$18.3 million for the years ended December 31, 2018, 2017, and 2016, respectively.

# Capitalized Interest

Interest is capitalized upon the payment of predelivery deposits for aircraft and engines, and is depreciated over the estimated useful life of the asset from service inception date.

#### Share-Based Compensation

The Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. The fair value of the awards are estimated using the following: (1) option-pricing models for grants of stock options or (2) fair value at the measurement date (usually the grant date) for awards of stock subject to service and / or performance-based vesting. The resulting cost is recognized as compensation expense over the period of time during which an employee is required to provide services to the Company (the service period) in exchange for the award, the service period generally being the vesting period of the award. The Company's policy is to recognize forfeitures as they occur.

# Financial Derivative Instruments

The Company uses derivatives to manage risks associated with certain assets and liabilities arising from the potential adverse impact of fluctuations in global aircraft fuel prices, interest rates and foreign currency exchange rates.

#### Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

The following table summarizes the accounting treatment of the Company's derivative contracts:

		Classification of Realized		on of Unrealized s (Losses)
Derivative Type	Accounting Designation	Gains and Losses	<b>Effective Portion</b>	Ineffective Portion
Interest rate contracts.	Designated as cash flow hedges	Interest expense and amortization of debt discounts and issuance costs	AOCI	Nonoperating income (expense)
Foreign currency				
exchange contracts	Designated as cash flow hedges	Passenger revenue	AOCI	Nonoperating income (expense)
Fuel hedge contracts	Not designated as hedges	Gains (losses) on fuel derivatives	in nonope	r value is recorded erating income spense)
Foreign currency				
exchange contracts	Not designated as hedges	Nonoperating income (expense), Other	in nonope	r value is recorded erating income expense)

If the Company terminates a derivative designated for hedge accounting under ASC 815, prior to its contractual settlement date, then the cumulative gain or loss recognized in AOCI at the termination date remains in AOCI until the forecasted transaction occurs. In a situation where it becomes probable that a hedged forecasted transaction will not occur, any gains and/or losses that have been recorded to AOCI would be required to be immediately reclassified into earnings. All cash flows associated with purchasing and settling derivatives are classified as operating cash flows in the Consolidated Statements of Cash Flows.

#### Recently Adopted Accounting Pronouncements

In February 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-02, *Income Statement—Reporting Comprehensive Income (Topic 220) Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.* The standard focuses on a targeted improvement to reclassify stranded tax effects resulting from the Tax Cuts and Jobs Act (the Tax Act) enacted on December 22, 2017 from accumulated other comprehensive income to retained earnings. The Company elected to early adopt the standard in the year ended December 31, 2018 and reclassified tax benefit of \$12.5 million from accumulated other comprehensive income to accumulated income in the Consolidated Balance Sheets.

In May 2014, the Financial Accounting Standards Board (FASB) issued ASC 606, requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASC 606 replaced most existing revenue recognition guidance in GAAP and is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017.

# 1. Summary of Significant Accounting Policies (Continued)

The Company adopted the standard as of January 1, 2018, utilizing the full retrospective transition method, which required the Company to restate prior reporting periods presented.

The most significant impact of the standard relates to the accounting for the Company's frequent flyer travel award program. This change, as well as other less significant changes, are described below:

- Frequent flyer—The standard requires the Company to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles, effectively eliminating the incremental cost accounting previously applied. The allocated value of miles earned through flights and sold to partners is recognized at the time the free travel or other award is redeemed by the passenger. Previously, the transportation element associated with sold miles was deferred and recognized as passenger revenue over the period when the transportation was expected to be provided (23 months).
- Passenger revenue—Prior to the adoption of ASC 606, the Company recorded revenue for unused tickets when the tickets expired. Ticket change fees were previously recognized at the time the fees were assessed. Further, the Company reclassified revenue items such as checked baggage, charter, ticket change and cancellation fees, in flight revenue, and other incidental sales to passenger revenue (from other operating revenue), as these items do not represent distinct performance obligations separate from the transportation provided to the passenger.
- Selling Costs—Prior to ASC 606, the Company recognized the costs associated with credit card and booking fees as they were incurred.

Adoption of the revenue recognition standard impacted our previously reported results as follows:

	Year Ended December 31, 2016				
	As Previously Reported	Adjustments	As Restated

#### Recently Issued Accounting Pronouncements

In August 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging*, which better aligns a company's risk management activities and financial reporting for hedging relationships and is intended to simplify the hedge accounting requirements. ASU 2017-12 is effective for annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the components and options within ASU 2017-12. The adoption of this standard is not expected to have an impact on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases* (codified within ASC 842, *Leases*). ASC 842 requires a lessee to recognize a right-of-use asset and a lease liability in the statement of financial

# Notes to Consolidated Financial Statements (Continued)

#### 1. Summary of Significant Accounting Policies (Continued)

position for all leases (with the exception of short-term leases) at the lease commencement date and recognize expenses similar to the current ASC 840, *Leases*. ASC 842 is effective for fiscal years, and interim periods beginning after December 15, 2018, and early adoption is permitted. The Company currently plans to utilize the optional transition method for adoption of ASC 842, which allows entities to continue to apply the legacy guidance in Topic 840, including its disclosure requirements, in the comparative periods presented in the year of adoption. The Company plans to adopt ASU 2016-02 on January 1, 2019, as required.

Under ASU 2016-02, the lease liability will be measured at the present value of remaining lease payments and the right-of-use (ROU) asset will be derived from the calculation of the lease liability, adjusted for any historically recorded amounts under Topic 840 for rent leveling and certain other adjustments (ROU Asset). Lease payments, which are comparable to the minimum lease payments included in the Company's existing lease commitments disclosure, include fixed and in-substance fixed payments, variable payments based on an index or rate, reasonably certain purchase options, termination penalties and probable amounts the lessee will owe under a residual value guarantee. Lease payments exclude variable payments other than those based on an index or rate or any amount allocated to non-lease components (unless the practical expedient is elected on an asset class level to combine components). Variable lease payments will continue to be expensed as incurred.

The Company completed its preliminary evaluation of implementing ASU 2016-02 and believes that the most significant impact on its financial statements will be the consolidated balance sheet impact of recording the ROU Asset and Operating Lease Liability for existing aircraft and engine leases, its Maintenance Hangar lease with the State of Hawaii, and certain real estate leases. As of December 31, 2018, the Company had 17 aircraft and 5 engines under operating lease in its fleet. The net present value of future lease payments for the aforementioned leases range between \$550 million and \$650 million. The Company also has operating leases related to terminal operations and office space, which are not included in the range provided, because the majority of these leases have variable payments and are not expected to be included in the Operating Lease Liability at adoption. Management does not believe that the impact of adopting ASC 842 will be significant to the consolidated statement of operations and consolidated statements of cash flows.

ASC 842 also eliminates the current build-to-suit lease accounting guidance and is expected to result in derecognition of build-to-suit assets and liabilities that remained on the balance sheet after the end of the construction period and then the application of lease accounting to the agreement. See Note 9 for additional discussion on the Company's build-to-suit project. Management concluded that the lease will be accounted for as an operating lease under ASC 842, which will result in operating lease expense being recognized equally over the lease term, which is a change from the current treatment as a financing, similar to capital lease treatment. The present value of the Operating Lease Liability, including the amount previously recognized as a financing liability of \$73.0 million, is included in the range discussed above.

# 2. Accumulated Other Comprehensive Loss

Reclassifications out of accumulated other comprehensive loss by component is as follows:

Ending balance	\$ 1,249	\$ (75,953)	<u>\$(560)</u>	\$ (75,264)

# 3. Earnings Per Share

Basic earnings per share, which excludes dilution, is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the period.

Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Antidilutive common

# Notes to Consolidated Financial Statements (Continued)

# 3. Earnings Per Share (Continued)

stock equivalents excluded from the diluted earnings per share calculation are not material. The following table shows our computation of basic and diluted earnings per share:

	Year Ended December 31,			,	
	2018		2017	2	2016
	(in thousands, except for per sh data)			share	
Numerator:

Diluted	\$ 4.62	\$	6.19	\$	4.15

# 4. Short-Term Investments

Debt securities that are not classified as cash equivalents are classified as available-for-sale investments and are stated at fair value. Realized gains and losses on sales of investments are reflected in nonoperating income (expense).

The following is a summary of short-term investments held as of December 31, 2018 and 2017:

December 31, 2018	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
		(in thous	ands)	
Corporate debt	\$142,748	\$49	\$(695)	\$142,102
U.S. government and agency debt	37,163	3	(59)	37,107
Municipal bonds	9,903	_	(32)	9,871

# **Notes to Consolidated Financial Statements (Continued)**

#### 4. Short-Term Investments (Continued)

Contractual maturities of short-term investments as of December 31, 2018 are shown below.

Under 1 Year	1 to 5 Years	Total
(	in thousands)	
\$ 69,957	\$72,145	\$142,102
28,164	8,943	37,107
8,288	1,583	9,871
35,990	7,171	43,161
\$142,399	\$89,842	\$232,241
	\$ 69,957 28,164 8,288 35,990	28,164 8,943 8,288 1,583 35,990 7,171

The Company classifies investments as current assets as these securities are available for use in its current operations.

#### 5. Fair Value Measurements

ASC 820 defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1—Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2—Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term for the assets or liabilities; and

Level 3—Unobservable inputs in which there is little or no market data and that are significant to the fair value of the assets or liabilities.

The following tables present information about the Company's financial assets and liabilities measured at fair value on a recurring basis:

	Fair Value Measurements as of December 31, 2018					
	Total	Level 1	Level 2	Level 3		
		(in thou	sands)			
Cash equivalents	\$121,154	\$42,175	\$ 78,979	\$

Total assets measured at fair value	\$357,515	\$28,807	\$328,708	\$ <u> </u>		

Cash equivalents. The Company's Level 1 cash equivalents consist of money market securities. The carrying amounts approximate fair value because of the short-term maturity of these assets and Level 2 cash equivalents consist of U.S. agency bonds, mutual funds, and commercial paper. These instruments are valued using quoted prices for similar assets in active markets.

Restricted cash. The Company's restricted cash consist of money market securities.

\$---

Short-term investments. Short-term investments include corporate debt, U.S. government and agency debt, municipal bonds, and other fixed income securities. These instruments are valued using quoted prices for similar assets in active markets or other observable inputs.

*Fuel derivative contracts.* The Company's fuel derivative contracts consist of crude oil call options, which are not traded on a public exchange. The fair value of these instruments are determined based on inputs available or derived from public markets including contractual terms, market prices, yield curves, fuel price curves and measures of volatility, among others.

Foreign currency derivatives. The Company's foreign currency derivatives consist of Japanese Yen and Australian Dollar forward contracts and are valued based primarily on data readily observable in public markets.

The table below presents the Company's debt (excluding obligations under capital leases and financing obligations) measured at fair value:

Fair Value of Debt									
December 31, 2018 December 31, 2017									
Carrying		Fair	Value		Carrying	Fair Value			
Amount	Total	Level 1	Level 2	Level 3	Amount	Total	Level 1	Level 2	Level 3

\$444,099

\$444,099

\$461,805

# **Notes to Consolidated Financial Statements (Continued)**

#### 5. Fair Value Measurements (Continued)

The fair value estimates of the Company's debt were based on the discounted amount of future cash flows using the Company's current incremental rate of borrowing for similar obligations.

The carrying amounts of cash, other receivables, and accounts payable approximate fair value due to the short-term nature of these financial instruments.

#### 6. Financial Derivative Instruments

The Company uses derivatives to manage risks associated with certain assets and liabilities arising from the potential adverse impact of fluctuations in global fuel prices, interest rates and foreign currencies.

# Fuel Risk Management

The Company's operations are inherently dependent upon the price and availability of aircraft fuel. To manage economic risks associated with fluctuations in aircraft fuel prices, the Company periodically enters into derivative financial instruments. The Company uses a combination of derivative contracts to hedge its aircraft fuel expense. As of December 31, 2018, the Company's portfolio comprised of crude oil call options, which were not designated as hedges under ASC Topic 815, *Derivatives and Hedging* (ASC 815), for hedge accounting treatment. As a result, any changes in fair value of these derivative instruments are adjusted through other nonoperating income (expense) in the period of change.

The following table reflects the amount of realized and unrealized gains and losses recorded as nonoperating income (expense) in the Consolidated Statements of Operations.

	Year Ended December 31,			
	2018	2017	2016	
	(i	in thousands	)	
Gains (losses) realized at settlement	\$ 25,563	\$ (534)	\$(27,572)	
Prior period unrealized amounts	(11,792)	(7,946)	39,731	
Unrealized gains (losses) that will settle in future				
periods	(8,181)	11,792	7,947	
Gains on fuel derivatives recorded as Nonoperating				
income (expense)	\$ 5,590	\$ 3,312	\$ 20,106	

#### Foreign Currency Exchange Rate Risk Management

The Company is subject to foreign currency exchange rate risk due to revenues and expenses denominated in foreign currencies, with the primary exposures being the Japanese Yen and Australian Dollar. To manage exchange rate risk, the Company executes its international revenue and expense transactions in the same foreign currency to the extent practicable. The Company enters into foreign currency forward contracts to further manage the effects of fluctuating exchange rates. The effective portion of the gain or loss is reported as a component of AOCI and reclassified into earnings in the same period in which the related sales are recognized as passenger revenue. The effective portion of the foreign currency forward contracts represents the change in fair value of the hedge that offsets the change in the fair value of the hedge does not perfectly offset the change in the fair value of the hedge ditem, the ineffective portion of the hedge is immediately recognized as nonoperating income (expense).

# Notes to Consolidated Financial Statements (Continued)

#### **6. Financial Derivative Instruments (Continued)**

The Company believes that its foreign currency forward contracts will continue to be effective in offsetting changes in cash flow attributable to the hedged risk. The Company expects to reclassify a net gain of approximately \$3.9 million into earnings over the next 12 months from AOCI based on the values at December 31, 2018.

The following tables present the gross fair value of asset and liability derivatives that are designated as hedging instruments under ASC 815 and derivatives that are not designated as hedging instruments under ASC 815, as well as the net derivative positions and location of the asset and liability balances within the Consolidated Balance Sheets.

# Derivative positions as of December 31, 2018

Interest rate derivatives			923			944	_	_	_

#### Risk and Collateral

The financial derivative instruments expose the Company to possible credit loss in the event the counterparties to the agreements fail to meet their obligations. To manage such credit risks, the Company (1) selects its counterparties based on past experience and credit ratings, (2) limits its exposure to any single counterparty, and (3) periodically monitors the market position and credit rating of each counterparty. Credit risk is deemed to have a minimal impact on the fair value of the derivative instruments as cash collateral would be provided to or by the counterparties based on the current market exposure of the derivative.

The Company's agreements with its counterparties also require the posting of cash collateral in the event the aggregate value of the Company's positions exceeds certain exposure thresholds. The aggregate fair value of the Company's derivative instruments that contain credit-risk related contingent features that are in a net asset position was \$4.8 million and a net asset position of \$23.2 million as of December 31, 2018 and December 31, 2017, respectively.

ASC 815 requires a reporting entity to elect a policy of whether to offset rights to reclaim cash collateral or obligations to return cash collateral against derivative assets and liabilities executed with the same counterparty under a master netting agreement, or present such amounts on a gross basis. The Company's accounting policy is to present its derivative assets and liabilities on a net basis, including any collateral posted with the counterparty. The Company had no collateral posted with its counterparties as of December 31, 2018 and December 31, 2017.

The Company is also subject to market risk in the event these financial instruments become less valuable in the market. However, changes in the fair value of the derivative instruments will generally offset the change in the fair value of the hedged item, limiting the Company's overall exposure.

# **Notes to Consolidated Financial Statements (Continued)**

# 7. Intangible Assets

The following tables summarize the gross carrying values of intangible assets less accumulated amortization, and the useful lives assigned to each asset.

	As	of December 31, 2		
	Gross carrying value	Accumulated amortization	Net book value	Approximate useful life (years)
		(in thousands)		
Favorable aircraft maintenance contracts	\$ 8,740	\$(8,284)	\$ 456	14(*)
Trade name	13,500	_	13,500	Indefinite
Other	1,388	(1,195)	193	3
Total intangible assets	\$23,628	\$(9,479)	\$14,149	
	As o	of December 31, 2	2017	
	Gross carrying value	Accumulated amortization	Net book value	Approximate useful life (years)
		(in thousands)		
Favorable aircraft maintenance contracts	\$ 8,740	\$(7,708)	\$ 1,032	14(*)
Trade name	13,500	. <del>-</del>	13,500	Indefinite
Other	1,388	(733)	655	3
Total intangible assets				

<sup>(\*)</sup> Weighted average is based on the gross carrying values and estimated useful lives as of June 2, 2005 (the date Hawaiian emerged from bankruptcy).

Amortization expense related to the above intangible assets was \$1.0 million, \$1.2 million, and \$2.3 million for the years ended December 31, 2018, 2017, and 2016, respectively. Amortization of the favorable aircraft maintenance contracts are included in maintenance materials and repairs in the accompanying Consolidated Statements of Operations. As of December 31, 2018, the estimated future amortization expense for intangible assets was \$0.6 million, which will be recognized in 2019.

# Notes to Consolidated Financial Statements (Continued)

#### 8. Debt

Long-term debt (including capital and financing lease obligations) net of unamortized discounts is outlined as follows:

	2018	2017
	(in thou	sands)
Class A EETC, fixed interest rate of 3.9%, semiannual principal and interest payments, remaining balance due at maturity in January 2026(1)	\$ 245,845	\$263,864
payments, remaining balance of due at maturity in January 2022(1)	88,608	94,580
Boeing 717-200 Aircraft Facility Agreements, fixed interest rate of 8%, monthly principal and interest payments, remaining balance due at maturity in June	50.256	74.620
2019(2)	50,376	74,629
Japanese Yen denominated financing, fixed interest rate of 1.05%, quarterly principal and interest payments, remaining balance due at maturity in May	42 116	
Japanese Yen denominated financing, fixed interest rate of 1.01%, semiannual	42,116	_
principal and interest payments, remaining balance due at maturity in June		
2030	40,815	_
Capital & Financing lease obligations (see Note 9)	252,517	149,039
Total debt, capital, and financing lease obligations	\$ 720,277	\$582,112
Less: Unamortized debt discount and debt issuance costs	(10,496)	(11,441)
Current maturities	(10,490) $(101,097)$	(59,470)
Long-Term Debt, less discount, Capital, and Financing Lease Obligations	\$ 608,684	\$511,201

<sup>(1)</sup> The equipment notes underlying these EETCs are the direct obligations of Hawaiian.

### Enhanced Equipment Trust Certificates (EETC)

In 2013, Hawaiian consummated an EETC financing, whereby it created two pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates were used to purchase equipment notes issued by the Company to fund a portion of the purchase price for six Airbus aircraft, all of which were delivered in 2013 and 2014. The equipment notes are secured by a lien on the aircraft, and the payment obligations of Hawaiian under the equipment notes will be fully and unconditionally guaranteed by the Company. The Company issued the equipment notes to the trusts as aircraft were delivered to Hawaiian. Hawaiian received all proceeds from the pass-through trusts by 2014 and recorded the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates.

The Company evaluated whether the pass-through trusts formed are variable interest entities ("VIEs") required to be consolidated by the Company under applicable accounting guidance, and determined that the pass-through trusts are VIEs. The Company determined that it does not have a variable interest in the pass-through trusts. Neither the Company nor Hawaiian invested in or obtained a financial interest in the pass-through trusts. Rather, Hawaiian has an obligation to make interest and

<sup>(2)</sup> Aircraft Facility Agreements are secured by aircraft.

# Notes to Consolidated Financial Statements (Continued)

#### 8. Debt (Continued)

principal payments on it equipment notes held by the pass-through trusts, which are fully and unconditionally guaranteed by the Company. Neither the Company nor Hawaiian intends to have any voting or non-voting equity interest in the pass-through trusts or to absorb variability from the pass-through trusts. Based on this analysis, the Company determined that it is not required to consolidate the pass-through trusts.

# Foreign Denominated Financing

In 2018, the Company entered into two Japanese Yen denominated financings with a total value of approximately \$86.5 million (\fomage 9.6 billion), collateralized by the aircraft financed. Each financing is for a term of 12 years with quarterly or semiannual principal and interest payments, respectively, at fixed installment coupon rates of 1.01% and 1.05%, respectively. The fluctuation in foreign exchange rates at each balance sheet date is reflected within the nonoperating income (expense) line item in the Consolidated Statements of Operations. During 2018, the Company recorded foreign currency unrealized losses of \$0.4 million.

#### Debt Extinguishment

In 2018 and 2017, the Company had no debt extinguishment activity. In 2016, Hawaiian extinguished \$140.5 million of its existing debt under secured financing agreements, which were originally scheduled to mature in 2022 and 2023. This debt extinguishment resulted in a loss of \$10.0 million, which is reflected in nonoperating income (expense) in the Consolidated Statement of Operations.

### Revolving Credit Facility

In December 2018, Hawaiian amended and restated the existing credit agreement with Citigroup Global Markets Inc., increasing the secured revolving credit and letter (Revolving Credit Facility) from \$225 million to \$235 million. This Revolving Credit Facility will mature in December 2022 and has a 12-month renewal option. This was accounted for as a modification of the existing agreement and approximately \$0.6 million in unamortized costs will be amortized over the amended term along with additional issuance costs for the renewal of \$2.0 million. Hawaiian may, from time to time, grant liens on certain eligible account receivables, aircraft, spare engines, ground support equipment and route authorities, as well as cash and certain cash equivalents, in order to secure its outstanding obligations under the Revolving Credit Facility. Indebtedness under the Revolving Credit Facility will bear interest, at a per annum rate based on, at Hawaiian's option: (1) a variable rate equal to the London interbank offer rate plus a margin of 2.0%; or (2) Alternate base rate (as defined in the Revolving Credit Facility) plus a margin of 1.0%. Hawaiian is also subject to compliance and liquidity covenants under the Revolving Credit Facility. As of December 31, 2018, the Company had no outstanding borrowing under the Revolving Credit Facility.

#### Notes to Consolidated Financial Statements (Continued)

# 8. Debt (Continued)

# Schedule of Maturities of Long-Term Debt

As of December 31, 2018, the scheduled maturities of long-term debt are as follows (in thousands):

2019	\$ 81,075
2020	29,597
2021	56,557
2022	63,665
2023	28,466
Thereafter	
	\$467,760

#### 9. Leases

As of December 31, 2018, the Company had lease contracts for 22 of its 66 aircraft. Of the 22 lease contracts, 5 aircraft lease contracts were accounted for as capital leases, with the remaining 17 lease contracts accounted for as operating leases. These aircraft leases have remaining lease terms ranging from approximately less than 1 year to 10 years.

As of December 31, 2018, the scheduled future minimum rental payments under capital leases and operating leases with non-cancellable basic terms of more than one year are as follows:

	Capital & Financing Leases		Operatin	g Leases	
	Aircraft	Other	Aircraft	Other	
		(in thou	ısands)		
2019	\$ 24,850	\$ 7,909	\$106,448	\$ 5,730	
2020	24,850	5,908	90,417	5,709	
2021	24,850	4,630	74,315	5,846	
2022	24,705	4,870	68,208	5,930	
2023	21,370	8,207	59,925	5,975	
Thereafter	75,891	111,651	159,271	89,699	
	196,516	143,175	\$558,584	\$118,889	
Less amounts representing interest	(35,502)	(51,672)			
Present value of minimum capital & financing lease payments	\$161,014	\$ 91,503			

# Notes to Consolidated Financial Statements (Continued)

#### 9. Leases (Continued)

#### Maintenance Hangar

In November 2016, the Company entered into a lease agreement with the Department of Transportation of the State of Hawai'i to lease a cargo and maintenance hangar at the Daniel K. Inouye International Airport with a lease term of 35 years. As the hangar was not fully constructed, the Company took responsibility of the construction and was responsible for the remainder of the construction costs of \$33.3 million. In accordance with the applicable accounting guidance, specifically as it relates to the Company's involvement in the construction of the hangar, the Company was considered the owner of the asset under construction and has recognized an additional \$73.0 million asset, with a corresponding lease liability, for the amount previously spent by the lessor.

The Company placed the hangar into service in late 2017. The \$73.0 million liability is relieved as the Company makes rental payments under the agreement and the \$106.3 million asset (the original \$73.0 million plus an additional \$33.3 million of asset additions), is depreciated over the lease term.

#### 10. Income Taxes

On December 22, 2017, the Tax Act was enacted into law, which significantly changed existing U.S. tax law and reduced the U.S. federal corporate tax from 35% to 21%. The Company recognized a one-time benefit of \$83.0 million during the year ended December 31, 2017 from the impact of the revaluation of deferred tax assets and liabilities. During the year ended December 31, 2018, the Company completed its accounting for the effects of the Tax Act and recorded an additional tax benefit of \$9.3 million primarily related to deductions for additional pension contributions made in 2018 for the 2017 Plan year.

The significant components of income tax expense are as follows:

	Years Ended December 31,			
	2018	2017	2016	
		(in thousands	s)	
Current				
Federal	\$23,438	\$49,835	\$ 94,459	
State	9,087	11,471	13,201	
	\$32,525	\$61,306	\$107,660	
Deferred				
Federal	\$29,782	\$(7,017)	\$ 25,948	
State	5,651	5,922	3,491	
	\$35,433	\$(1,095)	\$ 29,439	
Income tax expense	\$67,958	\$60,211	<u>\$137,099</u>	

# **Notes to Consolidated Financial Statements (Continued)**

# 10. Income Taxes (Continued)

The income tax expense differed from amounts computed at the statutory federal income tax rate as follows:

	Years Ended December 31,			
	2018	2017	2016	
		(in thousands	)	
Income tax expense computed at the statutory				
federal rate	\$63,243	\$136,788	\$126,427	
Increase (decrease) resulting from:				
State income taxes, net of federal tax effect	11,643	11,095	10,714	
Nondeductible meals	797	1,146	1,100	
Tax Cuts and Jobs Act impact	(9,333)	(82,978)		
Excess tax benefits from stock issuance	(188)	(5,288)		
Other	1,796	(552)	(1,142)	
Income tax expense	\$67,958	\$ 60,211	\$137,099	

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income (including the reversal of deferred tax liabilities) during the periods in which those deferred tax assets will become deductible. The Company's management assesses the realizability of its deferred tax assets, and records a valuation allowance when it is more likely than not that a portion, or all, of the deferred tax assets will not be realized.

The components of the Company's deferred tax assets and liabilities were as follows:

	Decem	ber 31,
	2018	2017
	(in thou	ısands)
Deferred tax assets:		
Accumulated pension and other postretirement benefits		,
Leases	3,515	4,490
Air traffic liability and frequent flyer liability	70,206	53,102
Partnership deferred revenue	9,697	2,455
State net operating loss carryforwards	2,547	2,547
Accrued compensation	15,843	7,627
Other accrued assets	11,758	11,661
Fuel derivative contracts	2,390	2,156
Other assets	14,031	10,187
Total gross deferred tax assets	175,650	149,009
Less: Valuation allowance	(2,547)	(2,547)
Net deferred tax assets	\$ 173,103	\$ 146,462
Deferred tax liabilities:		
Intangible assets	\$ (3,297)	\$ (3,432)
Property and equipment, principally accelerated depreciation	(324,614)	(265,293)
Other liabilities	(12,962)	(11,878)
Total deferred tax liabilities	(340,873)	(280,603)
Net deferred tax liability	\$(167,770)	\$(134,141)

# **Notes to Consolidated Financial Statements (Continued)**

#### 10. Income Taxes (Continued)

As of December 31, 2018 and 2017, the Company had available for state income tax purposes net operating loss carryforwards of \$73.3 million, respectively. The tax benefit of the net operating loss carryforwards as of December 31, 2018 was \$2.5 million, all of which has a valuation allowance.

In accordance with ASC 740, the Company reviews its uncertain tax positions on an ongoing basis. The Company may be required to adjust its liability as these matters are finalized, which could increase or decrease its income tax expense and effective income tax rates or result in an adjustment to the valuation allowance. The Company does not expect that the unrecognized tax benefit related to uncertain tax positions will significantly change within the next 12 months.

The table below reconciles beginning and ending amounts of unrecognized tax benefits related to uncertain tax positions:

	2018	2017	2016
	(i	(s)	
Balance at January 1	\$4,081	\$3,329	\$ —
Increases related to prior year tax positions	336	253	2,830
Increases related to current year tax positions	669	499	499
Balance at December 31	\$5,086	\$4,081	\$3,329

The Company's policy is to include interest and penalties related to unrecognized tax benefits within the provision for income taxes. No interest or penalties related to these positions were accrued as of December 31, 2018.

The Company files its tax returns as prescribed by the tax laws of the jurisdictions in which it operates. The Company's federal and state income tax returns for tax years 2015 and beyond remain subject to examination by the Internal Revenue Service.

#### Notes to Consolidated Financial Statements (Continued)

# 11. Contract Terminations Expense and Special Items

Contract terminations expense and special items in the statements of consolidated operations consisted of the following:

	Year Ended December 31,		
	2018	2017	2016
		(in thousand	s)
Operating			
Contract terminations expense(1)	\$35,322	\$ —	\$ —
Operating special items:			
Loss on sale of aircraft(3)		4,771	
Collective bargaining agreement(4)(6)	_	18,679	38,781
Impairment charge in connection with its owned Boeing 767-300 fleet			
and related assets(5)	_		49,361
Termination of Boeing 767-300 engine maintenance contract(7)			21,000
Total Contract terminations expense and Operating special items	\$35,322	\$23,450	\$109,142
Nonoperating			
Other nonoperating special items:			
Partial settlement and curtailment loss(2)	\$ —	\$10,384	\$ —
Loss on plan termination(2)		35,201	
Total Other nonoperating special items	<u>\$</u>	\$45,585	\$

Contract terminations expense

(1) During the twelve months ended December 31, 2018, the Company terminated two contracts which incurred a total of \$35.3 million in contract terminations expense. The transactions are described below:

In February 2018, the Company exercised its right to terminate the aircraft purchase agreement between the Company and Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. To terminate the purchase agreement, the Company was obligated to repay Airbus for concessions received relating to a prior firm order, training credits, as well as forfeit the pre-delivery progress payments made towards the flight equipment. The Company recorded a contract terminations expense to reflect a portion of the termination penalty within the Consolidated Statements of Operations.

In January 2018, the Company entered into a transaction with its lessor to early terminate and purchase three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the lease and purchase the aircraft, the Company agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a contract termination fee. The expensed amount represents the total purchase price amount over fair value of the aircraft purchased as of the date of the transaction.

# Notes to Consolidated Financial Statements (Continued)

#### 11. Contract Terminations Expense and Special Items (Continued)

Special items

- (2) In August 2017, the Company terminated the Hawaiian Airlines, Inc. Salaried & IAM Merged Pension Plan (the Merged Plan) and settled a portion of its pilots' other post-retirement medical plan liability. In connection with the reduction of these liabilities, the Company recorded one-time Other nonoperating special charges of \$35.2 million related to the Merged Plan termination and \$10.4 million related to the other post-retirement (OPEB) medical plan partial settlement.
- (3) In April 2017, the Company executed a sale leaseback transaction with an independent third party for three Boeing 767-300 aircraft. The lease terms for the three aircraft commenced in April 2017 and end between November 2018 through January 2019. During the twelve months ended December 31, 2017, the Company recorded a loss on sale of aircraft of \$4.8 million.
- (4) In February 2017, the Company reached a tentative agreement with ALPA, covering the Company's pilots. In March 2017, the Company received notice from ALPA that the agreement was ratified by ALPA's members. The agreement became effective April 1, 2017 and has a term of 63 months. The agreement includes, among other various benefits, a pay adjustment and ratification bonus computed based on previous service. During the twelve months ended December 31, 2017, the Company expensed \$18.7 million principally related to a one-time payment to reduce the Company's future 401K employer contribution for certain pilot groups, which is not recoverable once paid.
- (5) The impairment analysis and ultimate charge was triggered by the decision in the fourth quarter of 2016 to exit the Boeing 767-300 fleet in 2018. The early exit of the Boeing 767-300 fleet was made possible by the Company's decision to acquire one Airbus A330-200 (delivered in 2017), lease two additional Airbus A321neo's (delivered in 2018 and in addition to the Company's existing aircraft orders), and the Company's ability to early terminate its long-term power-by-the-hour maintenance contract for the Boeing 767-300 fleet. This fleet change allows the Company to streamline the fleet, simplify operations, and potentially reduce costs in the future. In order to assess whether there was an impairment of the Boeing 767-300 asset group, the Company compared the projected undiscounted cash flows of the fleet to the book value of the assets and determined the book value was in excess of the undiscounted cash flows. The Company estimated the fair value of the owned Boeing 767-300 fleet assets using third party pricing information and quotes from potential buyers, which resulted in a \$49.4 million impairment charge (\$0.92 per diluted share). The Company's determination of fair value considered attributes specific to the owned Boeing 767-300 fleet and aircraft condition (e.g. age, maintenance requirements, cycles, etc.).
- (6) In 2016, the Company accrued \$34.0 million associated with the tentative agreement with ALPA related to past service (prior to January 1, 2017) and also elected to pay a \$4.8 million profit sharing bonus payment to other labor groups related to prior period service.
- (7) In connection with the decision to exit the Boeing 767-300 fleet, the Company negotiated a termination of its Boeing 767-300 maintenance agreement and recorded a \$21.0 million charge related to the amount paid to terminate the contract.

# Notes to Consolidated Financial Statements (Continued)

#### 12. Employee Benefit Plans

### Defined Benefit Plans

Hawaiian sponsors a defined benefit pension plan covering the Air Line Pilots Association (ALPA) and prior to August 2017, sponsored the defined benefit pension plans for the International Association of Machinists and Aerospace Workers (AFL-CIO) (IAM) and other personnel (salaried, Transport Workers Union, Network Engineering Group). The plans for the IAM and other employees were frozen in September 1993. Effective January 1, 2008, benefit accruals for pilots under age 50 as of July 1, 2005 were frozen (with the exception of certain pilots who were both age 50 and older and participants of the plan on July 1, 2005) and Hawaiian began making contributions to an alternate defined contribution retirement program for its pilots. All of the pilots' accrued benefits under their defined benefit plan at the date of the freeze were preserved. In addition, Hawaiian sponsors four unfunded defined benefit postretirement medical and life insurance plans and a separate plan to administer the pilots' disability benefits.

In 2016, the Hawaiian Airlines, Inc. Pension Plan for Salaried Employees (Salaried Plan) was consolidated into the Hawaiian Airlines, Inc. Pension Plan for Employees Represented by the International Association of Machinists (IAM), which established the Hawaiian Airlines, Inc. Salaried & IAM Merged Pension Plan (the Merged Plan). At that time, the net liabilities of the Salaried Plan were transferred to the Merged Plan. In August 2017, the Company completed the termination of the plan by transferring the assets and liabilities to a third-party insurance company. In 2017, the Company contributed a total of \$18.5 million in cash to fully fund the plan and recognized a one-time financial loss of \$35.2 million as an Other nonoperating special item on the Company's Consolidated Statement of Operations. The Company no longer has any expected contributions to the Merged Plan due to the final settlement.

In March 2017, the Company announced the ratification of a 63-month contract amendment with its pilots as represented by the Air Line Pilots Association (ALPA). In connection with the ratification of the agreement, the parties agreed to eliminate the post-65 post-retirement medical benefit for all active pilots, and replace the benefit with a heath retirement account (HRA) managed by ALPA, which represented a curtailment and partial settlement of the pilots' other post-retirement benefit plan. In August 2017, the Company made a one-time cash payment of \$101.9 million to fund the HRA and settle the post-65 post-retirement medical plan obligation (for active pilots as of April 1, 2017). The cash contributed was distributed to the trust funding the individual health retirement notional accounts of the participants. In connection with the settlement of the liability, the discount rate was updated to 3.86%. The Company recognized a one-time settlement loss of \$10.4 million. The obligation recorded for the unsettled portion of this plan was \$73.4 million as of the partial settlement date.

# **Notes to Consolidated Financial Statements (Continued)**

# 12. Employee Benefit Plans (Continued)

The following tables summarize changes to projected benefit obligations, plan assets, funded status and applicable amounts included in the Consolidated Balance Sheets:

	2018		2017

# 12. Employee Benefit Plans (Continued)

The weighted average actuarial assumptions used to determine the net periodic benefit expense and the projected benefit obligation were as follows:

	Pension		Postretirement		Disabil	ity
	2018	2017	2018	2017	2018	2017
Discount rate to determine net periodic benefit expense	3.70%	4.19%	3.71%	4.29%	3.72%	4.24%
Discount rate to determine						
projected benefit obligation	4.35%	3.70%	4.36%	3.71%	4.39%	3.72%
Expected return on plan assets .	7.33%**	6.34%	N/A	N/A	4.90%**	4.60%
Rate of compensation increase.	Various*	Various*	N/A	N/A	Various*	Various*
Health care trend rate to determine net periodic						
benefit expense	N/A	N/A	7.25%	7.75%	N/A	N/A
Ultimate trend rate Years to reach ultimate trend	N/A	N/A	4.75%	7.25%	N/A	N/A
rate	N/A	N/A	5	6	N/A	N/A
Health care trend rate to determine projected benefit						
obligation	N/A	N/A	6.75%	7.25%	N/A	N/A
Ultimate trend rate Years to reach ultimate trend	N/A	N/A	4.75%	4.75%	N/A	N/A
rate	N/A	N/A	4	5	N/A	N/A

<sup>\*</sup> Differs for each pilot based on current fleet and seat position on the aircraft and seniority service. Negotiated salary increases and expected changes in fleet and seat positions on the aircraft are included in the assumed rate of compensation increase, which ranged from 2.0% to 7.3% in both 2018 and 2017).

A change in the assumed health care cost trend rates would have the following effects:

	100 Basis Point Increase	100 Basis Point Decrease	
	(in tho	usands)	
Effect on postretirement benefit obligation at December 31,			
2018	\$8,048	\$(6,916)	
Effect on total service and interest cost for the year ended		, ,	
December 31, 2018	892	(744)	

<sup>\*\*</sup> Expected return on plan assets used to determine the net periodic benefit expense for 2019 is 6.91% for Pension and 4.90% for Disability.

#### **Notes to Consolidated Financial Statements (Continued)**

# 12. Employee Benefit Plans (Continued)

Estimated amounts that will be amortized from accumulated other comprehensive income into net periodic benefit cost in 2019 are as follows:

	Pension	Other
	(in thou	sands)
Actuarial (gain) loss	\$4,031	\$(707)
Amortization of prior service cost		225
To be recognized in net periodic benefit cost from accumulated		
other comprehensive (gain) loss	\$4,031	\$(482)

#### Plan Assets

The Company develops the expected long-term rate of return assumption based on historical experience and by evaluating input from the trustee managing the plan's assets, including the trustee's review of asset class return expectations by several consultants and economists, as well as long-term inflation assumptions. The Company's expected long-term rate of return on plan assets is based on a target allocation of assets, which is based on the goal of earning the highest rate of return while maintaining risk at acceptable levels. The Retirement Plan for Pilots of Hawaiian Airlines, Inc. and the Pilot's Voluntary Employee Beneficiary Association Disability and Survivor's Benefit Plan (VEBA) strive to have assets sufficiently diversified so that adverse or unexpected results from any one security class will not have an unduly detrimental impact on the entire portfolio. Prior to termination, the Merged Plan targeted to have its assets align with the potential liability as of the expected settlement date. The actual allocation of the Company's pension and disability plan assets and the target allocation of assets by category at December 31, 2018 are as follows:

	for Pilots pension and VEBA Plans	
	2018	Target
Equity securities	57%	60%
Fixed income securities	39%	35%
Real estate investment trusts	4%	5%
	100%	100%

# Notes to Consolidated Financial Statements (Continued)

# 12. Employee Benefit Plans (Continued)

The table below presents the fair value of the Company's pension plan and other postretirement plan investments (excluding cash and receivables):

	Fair Value Measurements as of December 31,	
	2018	2017
	(in tho	usands)
Pension Plan Assets:		
Equity index funds	\$175,583	\$177,252
Fixed income funds	110,650	100,504
Real estate investment fund	14,718	14,587
Insurance company pooled separate account	7,076	4,044
Total	\$308,027	<u>\$296,387</u>
Postretirement Assets:		
Common collective trust fund	\$ 26,217	\$ 25,973

The fair value of the investments in the table above have been estimated using the net asset value per share, and in accordance with subtopic ASC 820-10, *Fair Value Measurement and Disclosures*, are not required to be presented in the fair value hierarchy.

*Equity index funds.* The investment objective of these funds are to obtain a reasonable rate of return while investing principally or entirely in foreign or domestic equity securities. There are currently no redemption restrictions on these investments.

*Fixed income funds.* The investment objective of these funds are to obtain a reasonable rate of return while principally investing in foreign and domestic bonds, mortgage-backed securities, and asset-backed securities. There are currently no redemption restrictions on these investments.

*Real estate investment fund.* The investment objective of this fund is to obtain a reasonable rate of return while principally investing in real estate investment trusts. There are currently no redemption restrictions on these investments.

*Insurance Company Pooled Separate Account.* The investment objective of the Insurance Company Pooled Separate Account is to invest in short-term cash equivalent securities to provide a high current income consistent with the preservation of principal and liquidity.

Common collective trust (CCT). The postretirement plan's CCT investment consists of a balanced profile fund and a conservative profile fund. These funds primarily invest in mutual funds and exchange-traded funds. The balanced profile fund is designed for participating trusts that seek substantial capital growth, place modest emphasis on short-term stability, have long-term investment objectives, and accept short-term volatility in the value of the fund's portfolio. The conservative profile fund is designed for participating trusts that place modest emphasis on capital growth, place moderate emphasis on short-term stability, have intermediate-to-long-term investment objectives, and accept moderate short-term volatility in the value of the fund's portfolio. There are currently no redemption restrictions on these investments.

# Notes to Consolidated Financial Statements (Continued)

#### 12. Employee Benefit Plans (Continued)

Based on current legislation and current assumptions, the contribution that the Company expects to have a minimum contribution requirement of nil for 2019. The Company projects that Hawaiian's pension plans and other postretirement benefit plans will make the following benefit payments, which reflect expected future service, during the years ending December 31:

		Other I	Benefits
	Pension Benefits	Gross	Expected Federal Subsidy
	(i	${\text{thousands}}$	
2019	\$ 23,343	\$ 5,254	\$ (47)
2020	24,471	6,040	(51)
2021	25,252	6,848	(54)
2022	25,730	7,425	(56)
2023	26,189	8,051	(58)
2024 - 2028	132,395	47,804	(304)
	\$257,380	\$81,422	\$(570)

#### **Defined Contribution Plans**

The Company also sponsors separate defined contribution plans for its pilots, flight attendants and ground, and salaried personnel. Contributions to the Company's defined contribution plans were \$42.0 million, \$39.1 million and \$31.6 million for the years ended December 31, 2018, 2017 and 2016, respectively.

# 13. Capital Stock and Share-based Compensation

#### Common Stock

The Company has one class of common stock issued and outstanding. Each share of common stock is entitled to one vote per share.

### Special Preferred Stock

The IAM, AFA, and ALPA each hold one share of Special Preferred Stock, which entitles each union to nominate one director to the Company's Board of Directors. In addition, each series of the Special Preferred Stock, unless otherwise specified: (i) ranks senior to the Company's common stock and ranks pari passu with each other series of Special Preferred Stock with respect to liquidation, dissolution and winding up of the Company and will be entitled to receive \$0.01 per share before any payments are made, or assets distributed to holders of any stock ranking junior to the Special Preferred Stock; (ii) has no dividend rights unless a dividend is declared and paid on the Company's common stock, in which case the Special Preferred Stock would be entitled to receive a dividend in an amount per share equal to two times the dividend per share paid on the common stock; (iii) is entitled to one vote per share of such series and votes with the common stock as a single class on all matters submitted to holders of the Company's common stock; and (iv) automatically converts into the Company's common stock on a 1:1 basis, at such time as such shares are transferred or such holders are no longer entitled

# Notes to Consolidated Financial Statements (Continued)

#### 13. Capital Stock and Share-based Compensation (Continued)

to nominate a representative to the Company's Board of Directors pursuant to their respective collective bargaining agreements.

#### Dividends

The Company paid dividends of \$24.2 million and \$6.3 million during the years ended December 31, 2018 and 2017, respectively, and no dividends were paid by the Company during year ended December 31, 2016. In February 2019, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on February 22, 2019, to stockholders of record as of February 8, 2019. The Company's dividend payments may change from time to time. The Company cannot provide assurance that it will continue to declare dividends for any fixed period and payment of dividends may be suspended at any time at its discretion.

# Stock Repurchase Program

In November 2017, the Company's Board of Directors approved the repurchase of up to \$100 million of its outstanding common stock over a two-year period through December 2019 via the open market, established plans or privately negotiated transactions in accordance with all applicable securities laws, rules and regulations, which was completed in December 2018. In November 2018, the Company's Board of Directors approved a new stock repurchase program pursuant to which the Company may repurchase up to an additional \$100 million of its outstanding common stock over a two-year period through December 2020. The stock repurchase program is subject to modification or termination at any time.

In 2018, the Company spent \$102.5 million to repurchase approximately 2.8 million shares of the Company's common stock in open market transactions, completing its November 2017 repurchase authorization. In 2017, the Company spent \$100.0 million to repurchase approximately 2.5 million shares of the Company's common stock in open market transactions. As of December 31, 2018, the Company has \$97.5 million remaining to spend under its stock repurchase program. See Part II, Item 5, "Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities" of this report for additional information on the stock repurchase program.

#### Share-Based Compensation

Total share-based compensation expense recognized by the Company under ASC 718 was \$5.3 million, \$7.3 million and \$8.4 million for the years ended December 31, 2018, 2017 and 2016, respectively. As of December 31, 2018, \$5.4 million of share-based compensation expense related to unvested stock options and other stock awards (inclusive of \$0.4 million for stock awards granted to non-employee directors) attributable to future performance and has not yet been recognized. The related expense will be recognized over a weighted average period of approximately 1.3 years.

# Performance-Based Stock Awards

During 2018, the Company granted performance-based stock awards covering 83,293 shares of common stock (the Target Award) with a maximum payout of 166,586 shares of common stock (the Maximum Award) to employees pursuant to the Company's 2015 Stock Incentive Plan. These awards vest over a three year period. The Company valued the performance-based stock awards using grant date fair values equal to the Company's share price on the measurement date.

# 13. Capital Stock and Share-based Compensation (Continued)

The following table summarizes information about performance-based stock awards:

	Number of units	Weighted average grant date fair value
Non-vested at January 1, 2016	678,742	\$10.53
Granted	117,849	33.94
Vested	(349,403)	7.32
Forfeited	(24,891)	13.45
Non-vested at December 31, 2016	422,297	\$14.00
Granted	355,897	43.51
Vested	(358,619)	12.71
Forfeited	(37,619)	27.60
Non-vested at December 31, 2017	381,956	\$28.03
Granted	160,348	39.09
Vested	(211,053)	26.28
Forfeited	(69,399)	39.42
Non-vested at December 31, 2018	261,852	\$33.01

In 2018, there were 77,055 additional shares from a prior year grant that the performance metric was achieved and vested, thus included in the 2018 amounts. The fair value of performance-based stock awards vested in the years ended December 31, 2018, 2017 and 2016 was \$8.2 million, \$17.9 million and \$11.3 million, respectively. Fair value of the awards are based on the stock price on date of vest.

#### Service-Based Stock Awards

During 2018, the Company awarded 128,617 service-based stock awards to employees and non-employee directors, pursuant to the Company's 2015 Stock Incentive Plan. These stock awards vest over one, two, or three year periods and have a grant date fair value equal to the Company's share price on the measurement date.

The following table summarizes information about outstanding service-based stock awards:

	Number of units	Weighted average grant date fair value
Non-vested at January 1, 2016	270,721	\$15.02
Granted	110,276	37.08
Vested	(169,218)	16.32
Forfeited	(16,330)	20.46
Non-vested at December 31, 2016	195,449	\$24.29
Granted	22,898	49.95
Vested	(110,575)	23.80
Forfeited	(16,394)	26.71
Non-vested at December 31, 2017	91,378	\$28.12
Granted	128,617	38.71
Vested	(68,803)	38.98
Forfeited	(8,241)	38.03
Non-vested at December 31, 2018	142,951	\$38.77

# **Notes to Consolidated Financial Statements (Continued)**

#### 13. Capital Stock and Share-based Compensation (Continued)

The fair value of service-based stock awards vested in 2018, 2017, and 2016 was \$2.7 million, \$5.6 million and \$6.1 million, respectively. Fair value of the awards are based on the stock price on date of vest.

# 14. Commitments and Contingent Liabilities

#### **Commitments**

The Company has commitments with a third-party to provide aircraft maintenance services which include fixed payments as well as variable payments based on flight hours for the Company's Airbus fleet through 2027. The Company also has commitments with third-party service providers for reservations, IT, and accounting services through 2024. Committed capital and other expenditures include escalation and variable amounts based on estimated forecasts.

The gross committed expenditures for upcoming aircraft deliveries and other commitments for the next five years and thereafter are detailed below:

	Aircraft and aircraft related		Other	Total Committed Expenditures	
			(in thousand	s)	
2019	\$	330,089	\$ 74,621	\$	404,710
2020		162,270	69,729		231,999
2021		303,184	66,104		369,288
2022		431,210	58,499		489,709
2023		236,639	53,357		289,996
Thereafter		477,788	164,846		642,634
	\$1	,941,180	\$487,156	\$2	2,428,336

As of December 31, 2018, the Company had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

Aircraft Type	Firm Orders	Purchase Rights	<b>Expected Delivery Dates</b>
A321neo aircraft	7	3	Between 2019 and 2020
B787-9 aircraft	10	10	Between 2021 and 2025
Pratt & Whitney spare engines:			
A321neo spare engines	1	2	In 2019
General Electric GEnx spare engines:			
B787-9 spare engines	2	2	Between 2021 and 2025

In February 2018, the Company exercised its right to terminate its aircraft purchase agreement between the Company and Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. Refer to Note 11 below for discussion on the contract termination charge.

In July 2018, the Company entered into a purchase agreement for the purchase of ten Boeing 787-9 "Dreamliner" aircraft with purchase rights for an additional 10 aircraft with scheduled delivery from

#### Hawaiian Holdings, Inc.

#### Notes to Consolidated Financial Statements (Continued)

#### 14. Commitments and Contingent Liabilities (Continued)

2021 to 2025. In October 2018, the Company entered into a definitive agreement for the selection of GEnx engines to power its Boeing 787-9 fleet. The agreement provides for the purchase of 20 GEnx engines, the right to purchase an additional 20 GEnx engines and the purchase of up to four spare engines. In December 2018, the Company entered into an amendment to the purchase agreement with Boeing, which includes an option for the Company to accelerate delivery of B787-9 aircraft from 2024 and 2025 to 2023; however, the Company does not currently expect to execute the option to accelerate its planned delivery schedule. The committed expenditures under these agreements are reflected in the table above. The Company also intends to enter into additional related agreements in connection with the Boeing 787-9 purchases, including for the purchase of a flight simulator, spare parts and materials, and related services.

In order to complete the purchase of these aircraft and fund related costs, the Company may need to secure acceptable financing. The Company has backstop financing available from aircraft and engine manufacturers, subject to certain customary conditions. Financing may be necessary to satisfy our capital commitments for firm order aircraft and other related capital expenditures. The Company can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to us on acceptable terms when necessary or at all.

#### Litigation and Contingencies

The Company is subject to legal proceedings arising in the normal course of its operations. Management does not anticipate that the disposition of any currently pending proceeding will have a material effect on the Company's operations, business or financial condition.

#### General Guarantees and Indemnifications

In the normal course of business, the Company enters into numerous aircraft financing and real estate leasing arrangements that have various guarantees included in the contract. It is common in such lease transactions for the lessee to agree to indemnify the lessor and other related third-parties for tort liabilities that arise out of or relate to the lessee's use of the leased aircraft or occupancy of the leased premises. In some cases, this indemnity extends to related liabilities arising from the negligence of the indemnified parties, but usually excludes any liabilities caused by their gross negligence or willful misconduct. Additionally, the lessee typically indemnifies such parties for any environmental liability that arises out of or relates to its use of the real estate leased premises. The Company believes that it is insured (subject to deductibles) for most tort liabilities and related indemnities described above with respect to the aircraft and real estate that it leases. The Company cannot estimate the potential amount of future payments, if any, under the foregoing indemnities and agreements.

### Credit Card Holdback

Under the Company's bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash in the Company's Consolidated Balance Sheets, totaled \$1.0 million at December 31, 2017. As of December 31, 2018, there were no holdbacks held with the Company's credit card processors.

#### Hawaiian Holdings, Inc.

### Notes to Consolidated Financial Statements (Continued)

#### 14. Commitments and Contingent Liabilities (Continued)

In the event of a material adverse change in the business, the holdback could increase to an amount up to 100% of the applicable credit card air traffic liability, which would also cause an increase in the level of restricted cash.

#### Labor Negotiations

As of December 31, 2018, approximately 84% of employees were represented by unions. Additionally, the collective bargaining agreement for the Association of Flight Attendants (AFA), which represents 29% of employees became amendable on January 1, 2017, the Company is currently in negotiations with the AFA. The Company can provide no assurance that a successful or timely resolution of these labor negotiations will be achieved.

### 15. Supplemental Cash Flow Information

Supplemental disclosures of cash flow information and non-cash investing and financing activities were as follows:

	Year Ended December 31,		
	2018	2017	2016
	(i	$\frac{1}{1}$ thousands)	
Cash payments for interest (net of amounts capitalized)	\$ 24,343	\$23,134	\$29,751
Cash payments for income taxes	16,063	65,812	92,934
Investing and Financing Activities Not Affecting Cash:			
Property and equipment acquired through a capital or financing lease	119,530	72,996*	6,092
Maintenance hangar project (see Note 9)	_		72,996*

<sup>\*</sup> Amount was reclassified from an other liability as of December 31, 2016 to a financing (lease) liability when completed and placed into service as of December 31, 2017.

#### 16. Condensed Consolidating Financial Information

The following condensed consolidating financial information is presented in accordance with Regulation S-X paragraph 210.3-10 because, in connection with the issuance by two pass-through trusts formed by Hawaiian (which is also referred to in this Note 16 as Subsidiary Issuer / Guarantor) of pass-through certificates, as discussed in Note 8, the Company (which is also referred to in this Note 16 as Parent Issuer / Guarantor), is fully and unconditionally guaranteeing the payment obligations of Hawaiian, which is a 100% owned subsidiary of the Company, under equipment notes to be issued by Hawaiian to purchase new aircraft.

<sup>(</sup>a) Amounts adjusted for the adoption of Accounting Standards Codification (ASC) No. 606, *Revenue from Contracts with Customers*. See Note 1 to Consolidated Financial Statements for additional information.

The sum of the quarterly net income (loss) per common stock share amounts does not equal the annual amount reported since per share amounts are computed independently for each quarter and for the full year based on respective weighted-average common shares outstanding and other dilutive potential common shares.

The Company's quarterly financial results are subject to seasonal fluctuations. Historically its second and third quarter financial results, which reflect periods of higher travel demand, are better than its first and fourth quarter financial results.

# ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

<sup>\*</sup> During the fourth quarter of 2017, the Company recorded a \$4.6 million reduction in its OPEB settlement related to the third quarter of 2017 revising the settlement from \$15.0 million to \$10.4 million.

<sup>\*\*</sup> Amounts reflect the impact of the Tax Act enacted in 2017. See Note 10 for further discussion.

#### Hawaiian Holdings, Inc.

#### Notes to Consolidated Financial Statements (Continued)

#### ITEM 9A. CONTROLS AND PROCEDURES.

#### Management's Evaluation of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), performed an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of December 31, 2018, and provide reasonable assurance that the information required to be disclosed by the Company in reports it files under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

### Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Under the supervision and with the participation of our management, including our CEO and CFO, an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2018 was conducted. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework* (2013 framework). Based on their assessment, we concluded that, as of December 31, 2018, the Company's internal control over financial reporting was effective to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. We reviewed the results of management's assessment with the Audit Committee of our Board of Directors.

The effectiveness of our internal control over financial reporting as of December 31, 2018, has been audited by Ernst & Young LLP, the independent registered public accounting firm who also has audited our consolidated financial statements included in this Annual Report on Form 10-K. Ernst & Young's report on our internal control over financial reporting appears below.

#### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### Inherent Limitations on Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs.

### Hawaiian Holdings, Inc.

#### Notes to Consolidated Financial Statements (Continued)

Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

# Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of Hawaiian Holdings, Inc.

#### **Opinion on Internal Control over Financial Reporting**

We have audited Hawaiian Holdings Inc.'s internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Hawaiian Holdings Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of Hawaiian Holdings, Inc. as of December 31, 2018 and 2017, and the related consolidated statements of operations, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedules listed in the Index at Item 15(a)(collectively referred to as the "financial statements") of the Company and our report dated February 13, 2019 expressed an unqualified opinion thereon.

#### **Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying "Management's Annual Report on Internal Control Over Financial Reporting". Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

#### Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the

risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Celebrating 90 Years as Hawaii's Airline

Our first scheduled passenger service took flight in November of 1929, from Honolulu to Hilo.

Today, our service brings the Islands together and connects Hawai'i to 13 mainland cities and international destinations from Australia to Tokyo. Much has changed in these past nine decades, but our commitment to our home remains as strong as ever.
