

ANNUAL REPORT 2016

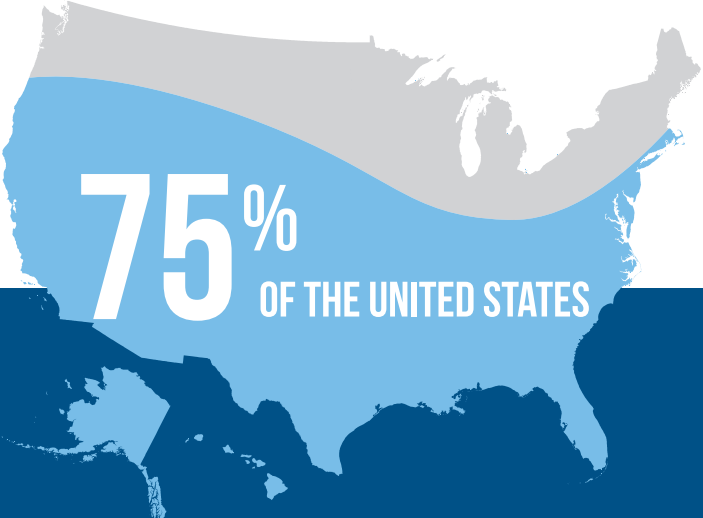

ABOUT CFC

Created and owned by America's electric cooperative network, the National Rural Utilities Cooperative Finance Corporation (CFC)—a nonprofit finance cooperative with approximately \$24 billion in assets—provides capital and industry-leading financial products to serve the needs of our member-owners—America's 900-plus, consumer-controlled electric cooperatives.

CFC operates under the seven cooperative principles and our core values of Service, Integrity and Excellence. By delivering unparalleled industry expertise, flexibility and responsiveness, we help our members maintain a sophisticated system of generation, transmission and distribution resources that spans 75 percent of the United States land mass. This infrastructure provides a safe, reliable and affordable flow of power to 42 million consumers each day and plays a critical role in boosting the nation's economy and rural quality of life.

CFC operates from its corporate headquarters in Dulles, Virginia.

MESSAGE FROM THE CEO & BOARD PRESIDENT

CFC wrapped up fiscal year 2016 (FY 2016) in a very healthy financial position. Total loans outstanding to our electric cooperative members at May 31, 2016, stood at \$23.2 billion, a gross increase of \$1.7 billion during FY 2016 as compared with our prior fiscal year-end at May 31, 2015. Five states accounted for more than half of the loan growth—Georgia, Missouri, North Carolina, North Dakota and Texas.

Our members' equity, which excludes derivative forward value losses, increased by \$131 million at May 31, 2016, from the prior fiscal year-end. This amount helped drive our adjusted debt-to-equity ratio below 6-to-1 at the close of FY 2016. We have diligently focused on building equity through earnings over the last few years to ensure we are in the best position possible to meet our members' needs.

Other highlights from the fiscal year include:

- CFC's adjusted times interest earned ratio for FY 2016 was 1.22, and our adjusted debt-to-equity ratio was 5.82-to-1.*
- Total loans outstanding to members at May 31, 2016, were \$23.2 billion, a gross increase of \$1.7 billion during the 12 months of the fiscal year.
- CFC remained committed to our mission to serve the electric cooperative network, and 99 percent of CFC's loans were to rural electric systems at the close of the fiscal year.

CFC also focuses on maintaining and improving our credit ratings, which remain robust because ratings agencies recognize that CFC's financial strength rests with the quality of our loan portfolio and the strength of our members. Almost 100 percent of our assets are tied to financially sound, cash flow-generating electric cooperatives. CFC is focused solely on meeting the needs of our members, not generating sales or earnings growth to meet shareholder requirements.

In July 2016, the board was pleased to approve a patronage capital allocation of \$84 million for FY 2016. CFC retired and distributed \$42 million in cash to members in September 2016. Members also received more than \$60 million on their adjusted equity holdings in CFC in FY 2016, consisting of subscription, loan and member certificates. Taken together, this represents more than \$100 million in cash back to members during the 12 months ended October 31, 2016.

There are strong ties between the success of electric cooperatives and the success of CFC. We're proud to say that everyone here at CFC works hard every day to help electric cooperatives be successful.

For more information on the adjustments that CFC makes to its financial results for the purposes of its own analysis and covenant compliance and for a reconciliation of the non-GAAP measures to the applicable GAAP measures, please refer to "Non-GAAP Financial Measures" in the Management's Discussion & Analysis (MD&A) section of the May 31, 2016, Form 10-K. CFC's 10-K is available at www.nrucfc.coop.

** Times interest earned ratio (TIER) based on GAAP results was less than 1.00 due to the \$52 million net loss reported for the year ended May 31, 2016. Debt-to-equity ratio based on GAAP results was 28.69 at May 31, 2016.*

2016 CFC Board of Directors

FROM ELECTRIC CO-OPS, FOR ELECTRIC CO-OPS

CFC is guided by a 23-member board of directors that represents 10 geographically defined districts and the electric cooperative network's national trade association. There is also one at-large director from a member company. Comprised exclusively of electric cooperative directors and executives, the board sets overall policy, establishes programs and develops strategies for CFC.

PATRONAGE CAPITAL RETIREMENT

As of May 31, 2016

CFC retired \$39 million in patronage capital in September 2015 (FY2016) and an additional \$42 million in patronage capital in September 2016 (FY2017).

As the only lender created and owned by America's electric cooperative network, CFC is committed to our members' financial success like no other. CFC's patronage capital retirements play a role in that commitment and represent a key tenet of the cooperative business model.

CFC is proud to have returned \$1.55 billion in patronage capital to our members since 1980. The retirement in September 2016 represents the 37th consecutive calendar year CFC has made a cash retirement of patronage capital.

MEMBER INVESTMENTS & EQUITY

As of May 31, 2016

Dollars in Millions

Members had more than \$5 billion in investments and equity in CFC at May 31, 2016.

FUNDING SOURCES

As of May 31, 2016

Dollars in Millions

During FY2016, CFC's debt capitalization stood at \$22.6 billion, compared with \$21.3 billion at the prior year-end.

ADJUSTED NET INCOME

For the fiscal year ended May 31, 2016

CFC reported adjusted net income of \$170 million for fiscal year 2016.*

CFC's FY 2016 year-end results include GAAP and non-GAAP adjusted financial measures. Please refer to CFC's annual report on Form 10-K for the fiscal year ended May 31, 2016, as filed with the SEC and as posted on the CFC website, for a discussion of why CFC believes the adjusted measures are useful information in analyzing its financial performance and the reconciliation to related GAAP measures.

**CFC reported a GAAP net loss of \$52 million for the fiscal year ended May 31, 2016.*

CREDIT RATINGS

As of May 31, 2016

CFC's long- and short-term debt securities are rated by three nationally recognized credit rating agencies registered with the U.S. Securities and Exchange Commission: Fitch Ratings, Moody's Investors Service and S&P Global.

FitchRatings
MOODY'S

S&P Global

CFC DEBT INSTRUMENT	FITCH RATINGS	MOODY'S INVESTORS SERVICE	S&P GLOBAL

Economic Development Support

MORE THAN

\$102 MILLION

CONTRIBUTED BY CFC TO DATE

REDL&G

CFC plays a critical role in preserving the USDA Rural Economic Development Loan and Grant Program (REDL&G). CFC supports REDL&G by paying fees—currently more than \$14 million annually, and \$102 million total to date—based on our balance of USDA Guaranteed Underwriter Program loans outstanding. These annual fees provide a predictable source of REDL&G funding, and directly underpin hundreds of millions of dollars in REDL&G loans and grants made by electric cooperatives.

Over the years, REDL&G loans and grants—backed by electric cooperatives—have assisted a wide range of rural economic development projects, including new medical clinics, libraries, school and fire station renovations, and local businesses expansion. To date, REDL&G has awarded more than \$800 million to roughly 1,600 projects, creating approximately 67,000 jobs across rural America. Nearly 500 electric cooperatives have participated in the program.

Since 1989, REDL&G has provided:

\$ 800 million

to 1,600 projects

creating or preserving 67,000 jobs

through the participation of 500 electric co-ops

CFC Leadership Team

CFC's senior leadership team and key staff have extensive experience in rural utility finance, operations and management. The chief executive officer and senior leadership team manage CFC's operations and carry out the board's directives.
