George C. Zoley
*Chairman of the Board,
Chief Executive Officer
and Founder*

Our company experienced a number of milestones in 2008. Our financial performance reached new highs driven by strong operational results from our three business units of U.S. Corrections, International Services, and GEO Care. During the year, we activated eight new or expanded projects totaling approximately 5,900 correctional and detention beds, which we expect will contribute approximately \$106 million in annual operating revenues.

Our U.S. correctional and detention facilities continued to enjoy high occupancy levels throughout the year. Our core correctional market segments in the United States at the federal and state levels continue to be driven by strong fundamentals and an increased demand for correctional and detention beds nationwide. At the state level, capacity constraints and growing inmate populations coupled with limited state resources give rise to the need for cost efficient correctional and detention solutions.

Our U.S. Corrections business unit provides correctional and detention management services through public-private partnerships with ten state clients, and we expect to build on these partnerships as we work with our existing and prospective state client to meet their ongoing bed space needs. At the federal level, the United States Congress has maintained its commitment to secure

the United States border through a number of initiatives including the Secure Border Initiative and the Secure Communities Initiative. These initiatives have resulted in increased funding for the Federal Bureau of Prisons, the U.S. Marshals Service, and U.S. Immigration and Customs Enforcement to focus on border enforcement and illegal immigration detention with an emphasis on criminal alien populations.

To support the growing demand for correctional and detention beds around the country, our U.S. Corrections business unit built on its public-private partnerships with our federal and state clients with the activation of several important projects including the 200-bed expansion of the 1,000-bed Central Arizona Correctional Facility; the 744-bed expansion of the 416-bed LaSalle Detention Facility to house immigration detainees for U.S. Immigration and Customs Enforcement; and the 500-bed expansion of the 1,000-bed East Mississippi Correctional Facility which houses a special-needs inmate population requiring mental health treatment.

During the year, we also activated five new facility projects including the 625-bed Northeast New Mexico Correctional Facility and four detention centers for the housing of U.S. Marshals Service detainees and other federal offenders: the 576-bed Robert A. Deyton Detention Facility in Lovejoy, Georgia; the 688-bed Maverick Detention Center in Eagle Pass, Texas; the 1,100-bed Joe Corley Detention Facility in Conroe, Texas; and the GEO-owned 1,500-bed Rio Grande Detention Center in Laredo, Texas.

“During the year, we activated eight new or expanded projects totaling approximately 5,900 correctional and detention beds, which we expect will contribute approximately \$106 million in annual operating revenues.”

Wayne H. Calabrese
*Vice Chairman of the Board,
President and Chief
Operating Officer*

In addition to these important activations, our U.S. Corrections business unit discontinued its contract for the management of the county-owned 1,883-bed George W. Hill Correctional Facility, thus exiting the non-core county jail market segment and refocusing its business development efforts on our core correctional market segments at the state and federal levels.

Our GEO Care business unit exited a non-core market segment with the discontinuation of its management contract at the 230-bed Fort Bayard Medical Center, a long-term care state nursing home, and our U.K. wholly-owned subsidiary, GEO U.K. Ltd., also exited a non-core market with the closure of its transportation unit, Recruitment Solutions International. With these measures, our GEO Care and International Services business units can now refocus their resources to pursue new business development opportunities in their core market segments.

GEO Care continues to actively market its services for the management of state civil and forensic psychiatric hospitals and for the provision of mental healthcare services at state correctional facilities throughout the country. Internationally, GEO U.K. received a contract award for the management of the 260-bed Harmondsworth Immigration Removal Centre, which is also scheduled to be expanded by another 360 beds in mid 2010. This important contract award marks our continued expansion in the U.K. private correctional market, where we once had a dominant business presence. In South Africa and Australia, we remain the largest private correctional operator and are poised to capitalize on new business development opportunities given our longstanding and successful public-private partnerships with our clients in those markets.

Our operating revenues, excluding construction activity, increased ten percent to \$957.1 million. Our adjusted EBITDA increased 20 percent to \$164.8 million; and our pro forma net earnings grew 35 percent to \$65.0 million. The robust growth in our operating revenues, adjusted EBITDA, and pro forma net earnings demonstrates the strength of our company and validates our diversified growth and investment strategy. During 2008, we invested \$131 million in long-term capital projects, which coupled with the \$155 million in capital investments we expect to make in 2009, will increase the book value of our long-term facility assets to more than \$1.0 billion. To support this significant capital expansion, we expanded our borrowing capacity under our revolving credit facility by \$90 million through the execution of an accordion feature in our senior secured credit facility.

We remain optimistic about our company's growth prospects and the fundamentals of our industry. Our core market segments continue to experience strong demand, and our organic project pipeline remains strong with ten projects currently under development totaling approximately 8,300 beds, which are scheduled to open between 2009 and 2010. We have exited the county jail market segment to refocus our efforts on organic growth opportunities in our core markets, and we have increased our borrowing capacity to support the capital expansion of company owned facilities. These efforts have positioned our company to take advantage of the growing demand in our industry and the growth opportunities that lie ahead.

Partnering with State and Federal Clients to Deliver Cost-Efficient Solutions

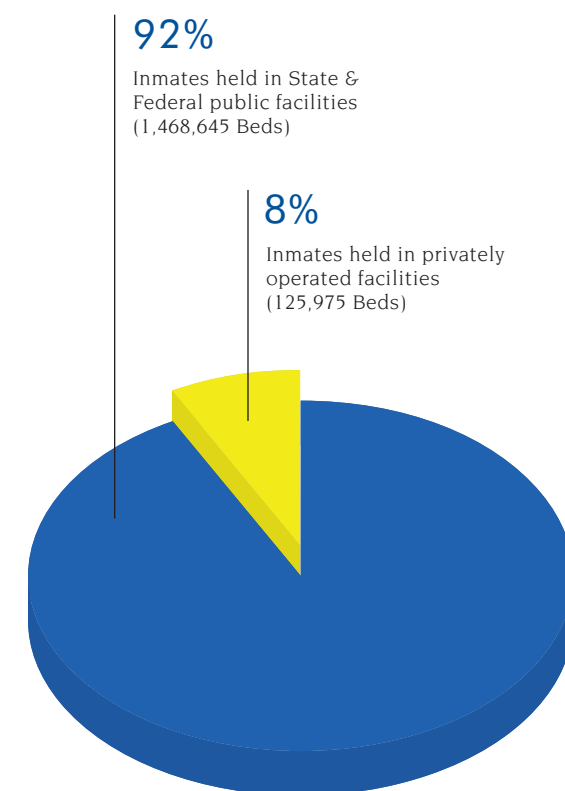

At year end 2007, the total incarcerated population in the United States reached 2.4 million, and state and federal inmate populations grew to 1.6 million individuals according to the U.S. Department of Justice. Since 2000, state and federal inmate populations have grown by more than 207,000 offenders, or 15 percent, and in report issued by the Pew Charitable Trusts, forecasters estimated that state and federal prison populations in the United States would grow by more than 192,000 inmates between 2007 and 2011.

In addition to growing inmate populations, state and federal correctional agencies continue to face capacity constraints. According to the U.S. Department of Justice, 19 states and the federal prison system operated above their highest rated capacity in 2007. In addition during 2007, another 19 states operated between 90 and 99 percent of their highest rated capacity.

At the federal level, the United States Congress has continued to fund initiatives related to security of the United States border. The Secure Border Initiative and the Secure Communities Initiative have resulted in increased funding for the Federal Bureau of Prisons, the U.S. Marshals Service, and U.S. Immigration and Customs Enforcement to carry out functions related to border enforcement and illegal immigration detention with an emphasis on criminal alien populations.

The demand for correctional and detention bed space nationwide has increased the need for cost-efficient solutions in the provision of correctional and detention services. The private correctional industry in the United States has grown by more than 44 percent since 2000 and now manages more than 125,000 state and federal correctional beds according to the U.S. Department of Justice.

The GEO Group has been partnering with government agencies around the country to help address their ongoing correctional and detention bed needs since the mid-1980s. The GEO Group's U.S. Corrections business unit provides correctional and detention management services for ten state clients as well as the Office of the Federal Detention Trustee and the three major federal correctional and detention agencies in the United States: the Federal Bureau of Prisons, the United States Marshals Service, and U.S. Immigration and Customs Enforcement.

Source: Bureau of Justice Statistics

The 1,500-bed Rio Grande Detention Center houses detainees on behalf of the U.S. Marshals Service. The GEO Group manages the company-owned center under a 20-year contract, inclusive of option periods, with the Office of the Federal Detention Trustee. The 1,500-bed detention center, which opened in October 2008, is located in Laredo, Texas.

▲ *In 2008, The GEO Group activated a 744-bed expansion to the 416-bed LaSalle Detention Facility in Jena, Louisiana. The company-owned facility houses immigration detainees on behalf of U.S. Immigration and Customs Enforcement and plays an important role in meeting the growing demand for federal detention bed space in the United States.*

During 2008, The GEO Group activated eight new or expanded projects in the United States through its U.S. Corrections business unit. These projects totaled approximately 5,900 beds and are expected to generate \$106 million in annualized operating revenues.

U.S. Corrections activated three expansion projects in 2008: a 200-bed expansion of the 1,000-bed Central Arizona Correctional Facility; a 744-bed expansion of the 416-bed LaSalle Detention Facility to house immigration detainees for U.S. Immigration and Customs Enforcement; and a 500-bed expansion of the 1,000-bed East Mississippi Correctional Facility which houses a special-needs inmate population requiring mental health treatment.

U.S. Corrections also opened five new facility projects in 2008 including the 625-bed Northeast New Mexico Correctional Facility under contract with the New Mexico Corrections Department as well as four detention centers for the housing of U.S. Marshals Service prisoners and other federal offenders including the 576-bed Robert A. Deyton Detention Facility in Lovejoy, Georgia; the 688-bed Maverick Detention Center in Eagle Pass, Texas; the 1,100-bed Joe Corley Detention Facility in Conroe, Texas; and the company-owned 1,500-bed Rio Grande Detention Center in Laredo, Texas.

With more than twenty years of experience and long-standing relationships with its clients, The GEO Group is well positioned to continue to build on its existing public-private partnerships in the United States.

GEO Set to Expand its Footprint in the U.K. Market

Through its wholly-owned subsidiary, GEO U.K. Ltd., The GEO Group reentered the U.K. private correctional market, where it once had a dominant business presence. In 2005, GEO U.K. opened its Head Office outside London and became an active player in the second largest private correctional market in the world with the assumption of management services at the 215-bed Campsfield House Immigration Removal Centre located in Kidlington, England.

▲
Campsfield House Immigration Removal Centre
Kidlington, England

In 2008, GEO U.K. took additional steps to expand its footprint in the U.K. private correctional market with a new contract award for the management of the 260-bed Harmondsworth Immigration Removal Centre, which will also be expanded by 360 beds by mid 2010. Additionally, GEO U.K. discontinued its transportation unit, Recruitment Solutions International, thus exiting a non-core and underperforming market segment. GEO U.K. Ltd. is well positioned to continue to pursue growth opportunities in its core market segments in the United Kingdom as well as other markets in continental Europe.

GEO Australia Delivers Quality Correctional Services

Through its wholly-owned subsidiary, GEO Australia Pty. Ltd., The GEO Group has established longstanding public-private partnerships with government agencies in the Australian states of Victoria, New South Wales, and Queensland. GEO Australia Pty. Ltd. provides management services at three correctional centers and one detention facility: the 790-bed Junee Correctional Centre under contract with the New South Wales Commission of Corrective Services; the 785-bed Fulham Correctional Centre under contract with the State of Victoria Ministry of Corrections; the 67-bed Melbourne Custody Centre under contract with the Victoria Chief Commissioner of Police; and the 890-bed Arthur Gorrie Correctional Centre under contract with the State of Queensland Department of Corrections.

GEO Australia has delivered high quality and cost-efficient management services throughout the continent of Australia for more than 16 years and is well positioned to grow its successful public-private partnerships in this important market.

Building on a Success Story in the Republic of South Africa

For almost a decade, The GEO Group's subsidiary, South African Custodial Management, has operated the largest private maximum security correctional center in the world. The 3,024-bed Kutama Sinthumule Correctional Centre, located in Louis Trichardt, South Africa has set higher standards of correctional management through the achievement of ISO 9001:2000 certification as well as several governmental and business quality awards.

The South African Department of Correctional Services has issued requests for proposals for four new 3,000-bed facilities to be built and managed using public-private partnerships. South African Custodial Management is poised to capitalize on this growing demand and to build on its success story at the Kutama Sinthumule Correctional Centre.

Delivering High Quality Mental Health Treatment & Management Services

One-fourth of all psychiatric treatment beds in the United States are provided by state and local mental health hospitals according to the U.S. Center for Mental Health Services. These taxpayer funded institutions deliver mental health treatment to civil and forensic patient populations. Through its wholly-owned subsidiary, GEO Care, Inc., The GEO Group has established itself as a leading provider of mental health treatment and management services for civil, forensic, and special-needs institutions in the United States.

▲
South Florida Evaluation & Treatment Center
Florida City, FL

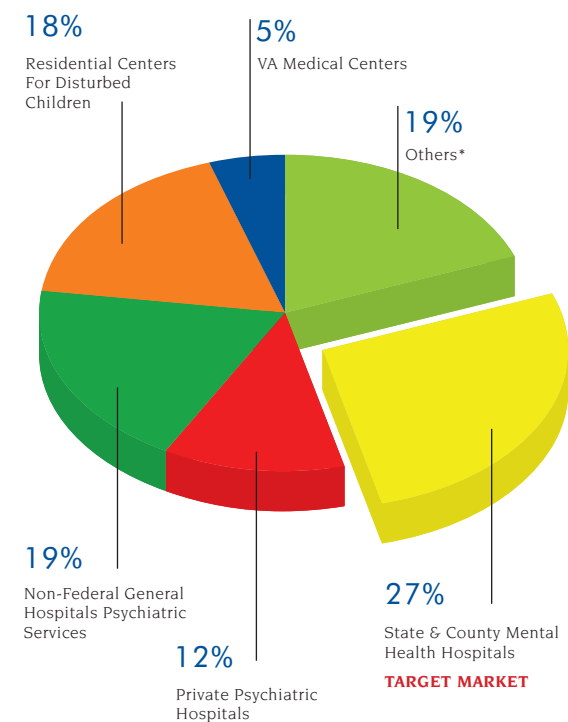

In partnership with the Florida Department of Children and Families, GEO Care has developed a groundbreaking model for the delivery of residential treatment and mental health management services in safe and secure facilities. In 1998, GEO Care assumed management of the 335-bed South Florida State Hospital located in Pembroke Pines, Florida, while developing a new state-of-the-art replacement facility which would open in 2000. During their ten-year joint venture, GEO Care and the Department of Children and Families have significantly increased the quality of resident care and the efficiency of treatment programs at South Florida State Hospital, while achieving meaningful cost-savings for Florida's taxpayers.

GEO Care has built on its successful experience at South Florida State Hospital with the assumption of management services at three other mental health and special needs institutions in the state of Florida: the 238-bed South Florida Evaluation and Treatment Center, a state forensic mental health hospital located in Miami, the 223-bed Treasure Coast Forensic Treatment Center in Indiantown, and the 680-bed Florida Civil Commitment Center, a secure civil commitment facility located in Arcadia that provides rehabilitative treatment for sexually violent predators. GEO Care also provides offender mental healthcare services at the Palm Beach County Jail Complex in Florida.

The GEO Group has consolidated its correctional healthcare functions under GEO Care which will improve productivity, quality assurance, and the implementation of best healthcare practices throughout its correctional, detention, and residential treatment facilities. This important consolidation will also maximize the utilization of The GEO Group's uniquely diversified resources and will better position GEO Care to compete for new business opportunities across the United States.

GEO Care Target Market

Over 220 state and county mental health hospitals with 57,000 beds: \$6 Billion Target Market.

Source: Center for Mental Health Services (2004).

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock trades on the New York Stock Exchange under the symbol "GEO." The following table shows the high and low prices for our common stock, as reported by the New York Stock Exchange, for each of the four quarters of fiscal years 2008 and 2007 and reflects the effect of the June 1, 2007 stock split. The prices shown have been rounded to the nearest \$1/100. The approximate number of shareholders of record as of February 13, 2009 is 119, which includes shares held in street name.

Quarter	2008		2007	
	High	Low	High	Low
First	\$ 28.71	\$ 22.01	\$ 25.00	\$ 18.73
Second	29.48	22.10	29.29	23.08
Third	26.96	18.00	32.21	26.55
Fourth	21.62	12.65	31.63	23.10

We did not pay any cash dividends on our common stock for fiscal years 2008 and 2007. We intend to retain our earnings to finance the growth and development of our business and do not anticipate paying cash dividends on our capital stock in the foreseeable future. Future dividends, if any, will depend, on our future earnings, our capital requirements, our financial condition and on such other factors as our Board of Directors may take into consideration. In addition to these factors, the indenture governing our \$150.0 million 8 1/4 % senior notes due in 2013, and our Senior Credit Facility also place material restrictions on our ability to pay dividends. See "Item 7. Management's Discussion and Analysis, Cash Flow and Liquidity" and "Item 8. Financial Statements — Note 11-Debt" for further description of these restrictions.

We did not buy back any of our common stock during 2008 or 2007. On May 1, 2007, our Board of Directors declared a two-for-one stock split of our common stock. The stock split took effect on June 1, 2007 with respect to stockholders of record on May 15, 2007. Following the stock split, our shares outstanding increased from 25.4 million to 50.8 million. All per share amounts have been retro-actively restated to reflect the 2-for-1 stock split.

Equity Compensation Plan Information

The following table sets forth information about our common stock that may be issued upon the exercise of options, warrants and rights under all of our equity compensation plans as of December 28, 2008, including our 1994 Second Stock Option Plan, our 1999 Stock Option Plan, our 2006 Stock Incentive Plan and our 1995 Non-Employee Director Stock Option Plan. Our shareholders have approved all of these plans.

Compensated mandays(3)		17,293,193			16,370,641			14,941,178			11,916,381	

(1) Our fiscal year ends on the Sunday closest to the calendar year end. The fiscal year ended January 2, 2005 contained 53 weeks. Discontinued Operations have been included with Selected Financial Data. Information related to Discontinued Operations is listed in “Item 8. Financial Statements — Note 3 Discontinued Operations.”

(2) Current assets and current liabilities include activities of discontinued operations

(3) Compensated resident days are calculated as follows: (a) for per diem rate facilities — the number of beds occupied by residents on a daily basis during the fiscal year; and (b) for fixed rate facilities — the design capacity of the facility multiplied by the number of days the facility was in operation during the fiscal year.

Assumes \$100 invested on December 31, 2003 in The GEO Group, Inc. common stock and the Index companies.
* Total return assumes reinvestment of dividends.

Introduction

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of our consolidated results of operations and financial condition. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of numerous factors including, but not limited to, those described above under “Item 1A. Risk Factors,” and “Forward-Looking Statements — Safe Harbor” below. The discussion should be read in conjunction with the consolidated financial statements and notes thereto.

We are a leading provider of government-outsourced services specializing in the management of correctional, detention and mental health and residential treatment facilities in the United States, Australia, South Africa, the United Kingdom and Canada. We operate a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers and mental health and residential treatment facilities. Our correctional and detention management services involve the provision of security, administrative, rehabilitation, education, health and food services, primarily at adult male correctional and detention facilities. Our mental health and residential treatment services involve the delivery of quality care, innovative programming and active patient treatment, primarily at privatized state mental health facilities. We also develop new facilities based on contract awards, using our project development expertise and experience to design facilities, construct and finance what we believe are state-of-the-art facilities that maximize security and efficiency.

As of the fiscal year ended December 28, 2008, we managed 59 facilities totaling approximately 53,400 beds worldwide and had an additional 3,586 beds under development at seven facilities, including the expansion and renovation of one facility which we own and the expansions of six facilities we currently operate. For the fiscal year ended December 28, 2008, we had consolidated revenues of \$1.04 billion and we maintained an average company wide facility occupancy rate of 96.6%.

Fiscal year 2008

Facility Activations

The following table shows new projects that were activated during the fiscal year 2008:

Facility	Location	Activation	Beds	Start date
Robert A. Deyton Detention Facility	Lovejoy, GA	New contract	576	First Quarter 2008
Central Arizona Correctional Facility	Florence, AZ	200-bed Expansion	1,200	First Quarter 2008
LaSalle Detention Facility	Jena, LA	744-bed Expansion	1,160	Second Quarter 2008
Joe Corley Detention Facility	Conroe, TX	New contract	1,100	Third Quarter 2008
Northeast New Mexico Detention Facility	Clayton, NM	New contract	625	Third Quarter 2008
Rio Grande Detention Center	Laredo, TX	New contract	1,500	Fourth Quarter 2008
Maverick County Detention Facility	Maverick, TX	New contract	688	Fourth Quarter 2008
East Mississippi Correctional Facility	Meridian, MS	500-bed Expansion	1,500	Fourth Quarter 2008

Fiscal year 2007 Developments

Acquisition of CentraCore Properties Trust

On January 24, 2007, we completed the acquisition of CentraCore Properties Trust (“CPT”). We paid an aggregate purchase price of approximately \$421.6 million for the acquisition of CPT, inclusive of the payment of approximately \$368.3 million in exchange for the common stock and the options, the repayment of approximately \$40.0 million in CPT debt and the payment of approximately \$13.3 million in transaction related fees and expenses. We financed the acquisition through the use of \$365.0 million in new borrowings under a new Term Loan B and approximately \$65.7 million in cash on hand. We deferred debt issuance costs of \$9.1 million related to the new \$365.0 million term loan.

These costs are being amortized over the life of the term loan. As a result of the acquisition we no longer have ongoing lease expense related to the properties we previously leased from CPT. However, we have had an increase in depreciation expense reflecting our ownership of the properties and also have higher interest expense as a result of borrowings used to fund the acquisition.

Public Offering

On March 23, 2007, we sold in a follow-on public equity offering 5,462,500 shares of our common stock at a price of \$43.99 per share, (10,925,000 shares of our common stock at a price of \$22.00 per share reflecting the two-for-one stock split). All shares were issued from treasury. The aggregate net proceeds to us from the offering (after deducting underwriter’s discounts and expenses of \$12.8 million) were \$227.5 million. On March 26, 2007, we utilized \$200.0 million of the net proceeds from the offering to repay outstanding debt under the Term Loan B portion of the Senior Credit Facility. We used a portion of the proceeds from the offering for general corporate purposes, which included working capital, capital expenditures and other assets.

Critical Accounting Policies

We believe that the accounting policies described below are critical to understanding our business, results of operations and financial condition because they involve the more significant judgments and estimates used in the preparation of our consolidated financial statements. We have discussed the development, selection and application of our critical accounting policies with the audit committee of our Board of Directors, and our audit committee has reviewed our disclosure relating to our critical accounting policies in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We routinely evaluate our estimates based on historical experience and on various other assumptions that our management believes are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. If actual results significantly differ from our estimates, our financial condition and results of operations could be materially impacted.

Other significant accounting policies, primarily those with lower levels of uncertainty than those discussed below, are also critical to understanding our consolidated financial statements. The notes to our consolidated financial statements contain additional information related to our accounting policies and should be read in conjunction with this discussion.

Revenue Recognition

We recognize revenue in accordance with Staff Accounting Bulletin, or SAB, No. 101, “Revenue Recognition in Financial Statements”, as amended by SAB No. 104, “Revenue Recognition”, and related interpretations. Facility management revenues are recognized as services are provided under facility management contracts with approved government appropriations based on a net rate per day per inmate or on a fixed monthly rate. Certain of our contracts have provisions upon which a portion of the revenue is based on our performance of certain targets, as defined in the specific contract. In these cases, we recognize revenue when the amounts are fixed and determinable and the time period over which the conditions have been satisfied has lapsed. In many instances, we are a party to more than one contract with a single entity. In these instances, each contract is accounted for separately.

Project development and design revenues are recognized as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to estimated total cost for each contract. This method is used because we consider costs incurred to date to be the best available measure of progress on these contracts. Provisions for estimated losses on uncompleted contracts and changes to cost estimates are made in the period in which we determine that such losses and changes are probable. Typically, we enter into fixed price contracts and do not perform additional work unless approved change orders are in place. Costs attributable to unapproved change orders are expensed in the period in which the costs are incurred if we believe that it is not probable that the costs will be recovered through a change in the contract

price. If we believe that it is probable that the costs will be recovered through a change in the contract price, costs related to unapproved change orders are expensed in the period in which they are incurred, and contract revenue is recognized to the extent of the cost incurred. Revenue in excess of the costs attributable to unapproved change orders is not recognized until the change order is approved. Contract costs include all direct material and labor costs and those indirect costs related to contract performance. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements, may result in revisions to estimated costs and income, and are recognized in the period in which the revisions are determined.

When evaluating multiple element arrangements, we follow the provisions of Emerging Issues Task Force (EITF) Issue 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). EITF 00-21 provides guidance on determining if separate contracts should be evaluated as a single arrangement and if an arrangement involves a single unit of accounting or separate units of accounting and if the arrangement is determined to have separate units, how to allocate amounts received in the arrangement for revenue recognition purposes. In instances where we provide project development services and subsequent management services, the amount of the consideration from an arrangement is allocated to the delivered element based on the residual method and the elements are recognized as revenue when revenue recognition criteria for each element is met. The fair value of the undelivered elements of an arrangement is based on specific objective evidence.

We extend credit to the governmental agencies we contract with and other parties in the normal course of business as a result of billing and receiving payment for services thirty to sixty days in arrears. Further, we regularly review outstanding receivables, and provide estimated losses through an allowance for doubtful accounts. In evaluating the level of established loss reserves, we make judgments regarding our customers' ability to make required payments, economic events and other factors. As the financial condition of these parties change, circumstances develop or additional information becomes available, adjustments to the allowance for doubtful accounts may be required. We also perform ongoing credit evaluations of our customers' financial condition and generally do not require collateral. We maintain reserves for potential credit losses, and such losses traditionally have been within our expectations.

Reserves for Insurance Losses

The nature of our business exposes us to various types of third-party legal claims, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, contractual claims and claims for personal injury or other damages resulting from contact with our facilities, programs, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. In addition, our management contracts generally require us to indemnify the governmental agency against any damages to which the governmental agency may be subject in connection with such claims or litigation. We maintain insurance coverage for these general types of claims, except for claims relating to employment matters, for which we carry no insurance.

We currently maintain a general liability policy and excess liability coverage policy for all U.S. corrections operations with limits of \$62.0 million per occurrence and in the aggregate, including a specific loss limit for medical professional liability of \$35.0 million. Our wholly owned subsidiary, GEO Care, Inc., is separately insured for general liability and medical professional liability with a specific loss limit of \$35.0 million per occurrence and in the aggregate. We also maintain insurance to cover property and other casualty risks including, workers' compensation, medical malpractice, environmental liability and automobile liability. For most casualty insurance policies, we carry substantial deductibles or self-insured retentions — \$3.0 million per occurrence for general liability and hospital professional liability, \$2.0 million per occurrence for workers' compensation and \$1.0 million per occurrence for automobile liability. Our Australian subsidiary is required to carry tail insurance on a general liability policy providing an extended reporting period through 2011 related to a discontinued contract. We also carry various types of insurance with respect to its operations in South Africa, United Kingdom and Australia. There can be no assurance that the our insurance coverage will be adequate to cover all claims to which we may be exposed.

In addition, certain of our facilities located in Florida and determined by insurers to be in high-risk hurricane areas carry substantial windstorm deductibles. Since hurricanes are considered unpredictable future events, no reserves have been established to pre-fund for potential windstorm damage. Limited commercial availability of certain types of insurance relating to windstorm exposure in coastal areas and earthquake exposure mainly in California may prevent us from insuring some of our facilities to full replacement value.

Since our insurance policies generally have high deductible amounts, losses are recorded when reported and a further provision is made to cover losses incurred but not reported. Loss reserves are undiscounted and are computed based on independent actuarial studies. Because we are significantly self-insured, the amount of our insurance expense is dependent on our claims experience and our ability to control our claims experience. If actual losses related to insurance claims significantly differ from our estimates, our financial condition and results of operations could be materially impacted.

Income Taxes

We account for income taxes in accordance with Statement of Financial Accounting Standard No. 109, or FAS 109, Accounting for Income Taxes, as clarified by FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"). Under this method, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, we consider tax regulations of the jurisdictions in which we operate, estimates of future taxable income, and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies vary, adjustments to the carrying value of deferred tax assets and liabilities may be required. Valuation allowances are recorded related to deferred tax assets based on the "more likely than not" criteria of FAS No. 109.

FIN 48 requires that we recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the "more-likely-than-not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. The recognized tax benefit could change in the future as statute of limitations expire, tax authorities ultimately settle on an item, or if new items are identified.

Property and Equipment

As of December 28, 2008, we had \$878.6 million in long-lived property and equipment held for use. Property and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Buildings and improvements are depreciated over 2 to 40 years. Equipment and furniture and fixtures are depreciated over 3 to 10 years. Accelerated methods of depreciation are generally used for income tax purposes. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the improvement or the term of the lease. We perform ongoing evaluations of the estimated useful lives of our property and equipment for depreciation purposes. The estimated useful lives are determined and continually evaluated based on the period over which services are expected to be rendered by the asset. Maintenance and repairs are expensed as incurred. Interest is capitalized in connection with the construction of correctional and detention facilities. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life.

We review long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable in accordance with FAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets". Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell. Events that would trigger an impairment assessment include deterioration of profits for a business segment that has long-lived assets, or when other

changes occur which might impair recovery of long-lived assets. In 2008, we announced the termination of our contracts with Delaware County, Pennsylvania for the management of the county-owned George W. Hill Correctional Facility and the State of Idaho for the housing of inmates at the Bill Clayton Correctional Center. We also announced the closure of our transportation division in the United Kingdom, Recruitment Services International as well as the termination of our contract to manage the Tri-County Justice and Detention Center. There were no significant impairments of long-lived assets accounted for under FAS 144 relative to these contract terminations. Management has reviewed its long-lived assets and determined that there are no events requiring impairment loss recognition for the period ended December 28, 2008.

Stock-Based Compensation Expense

We account for stock-based compensation in accordance with the provisions of FAS 123R, “Shared-Based Payment”. Under the fair value recognition provisions of FAS 123R, stock-based compensation cost is estimated at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period of the award. Determining the appropriate fair value model and calculating the fair value of the stock-based awards, which includes estimates of stock price volatility, forfeiture rates and expected lives, requires judgment that could materially impact our operating results.

Recent Accounting Pronouncements

See Note 1 of the Consolidated Financial Statements for a description of certain other recent accounting pronouncements including the expected dates of adoption and effects on our results of operations and financial condition.

Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and the notes to the consolidated financial statements accompanying this report. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those described under “Item 1A. Risk Factors” and those included in other portions of this report.

The discussion of our results of operations below excludes the results of our discontinued operations for all periods presented.

For the purposes of the discussion below, “2008” means the 52 week fiscal year ended December 28, 2008, “2007” means the 52 week fiscal year ended December 30, 2007, and “2006” means the 52 week fiscal year ended December 31, 2006. Our fiscal quarters in the 52-week fiscal years discussed below are referred to as “First Quarter,” “Second Quarter,” “Third Quarter” and “Fourth Quarter.”

2008 versus 2007

Revenues

	<u>2008</u>	<u>% of Revenue</u>	<u>2007</u>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
			(Dollars in thousands)			
U.S. corrections	\$ 711,038	68.2%	\$ 629,339	64.5%	\$ 81,699	13.0%
International services	128,672	12.3%	127,991	13.1%	681	0.5%
GEO Care	117,399	11.3%	110,165	11.3%	7,234	6.6%
Facility construction and design	85,897	8.2%	108,804	11.1%	(22,907)	(21.1%)
Total	\$ 1,043,006	100.0%	\$ 976,299	100%	\$ 66,707	6.8%

U.S. corrections

The increase in revenues for U.S. corrections in 2008 compared to 2007 is primarily attributable to new facility openings, capacity increases at existing facilities and full year operations relative to recent openings and expansions from 2007. The most significant increases to revenue were as follows: (i) revenues increased \$56.2 million in total due to the opening or expansion of seven facilities in 2008 which include activations at the Robert A. Deyton Detention Facility, Rio Grande Detention Facility, Joe Corley Detention Facility and the Northeast New Mexico Detention Facility and expansions of the LaSalle Detention Facility, Central Arizona Correctional Facility and at the East Mississippi Correctional Facility; (ii) revenues increased \$28.8 million in 2008 due to increases at our California facilities, South Texas Detention Center, New Castle Correctional Facility and at the Northwest Detention Facility related to contract modifications and enhanced services; (iii) revenues increased by \$21.6 million due to the full year operation of 2007 activations and expansions that occurred at the Graceville Correctional Facility, Val Verde Correctional Facility and the Moore Haven Correctional Facility. These and other increases were offset by decreases in revenues of \$34.8 million due to the termination of our management contracts at Taft Correctional Institution, Coke County Juvenile Justice Center and Dickens County Correctional Center.

The number of compensated mandays in U.S. corrections facilities increased by approximately 807,000 to 14.7 million mandays in 2008 from 13.8 million mandays in 2007 due to the addition of new facilities and capacity increases. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our U.S. correction and detention facilities was 96.0% of capacity in 2008, excluding the terminated contracts for the Coke County Juvenile Justice Center, the Dickens County Correctional Center, and the Taft Correctional Institution. The average occupancy in our U.S. correction and detention facilities was 96.3% in 2007, excluding our new contracts at the Joe Corley Detention Facility, Rio Grande Detention Center, Robert A. Deyton Detention Facility and the Maverick County Detention Facility.

International services

Revenues for our International services segment during fiscal year 2008 increased by \$4.8 million over fiscal year 2007 due to increases in contractual rates at some of our facilities in Australia and also in South Africa. We also experienced a favorable increase in revenues of \$1.9 million over the prior year due to the overall strengthening of the Australian dollar during fiscal year 2008. This favorable variance was offset during fiscal year 2008 by a decrease in revenues of \$2.9 million related to the expansion in 2007 of the Campsfield House Immigration Removal Centre which was completed in September 2008. We also experienced a decrease in revenues in fiscal year 2008 compared to fiscal year 2007 due to unfavorable foreign exchange currency fluctuations in the South African Rand and the British Pound which resulted in a combined decrease of \$3.2 million.

GEO Care

The increase in revenues for GEO Care in 2008 compared to 2007 is primarily attributable to two items: (i) the Treasure Coast Forensic Center in Stuart, Florida which commenced operation in March 2007, increased revenues by \$7.5 million; and (ii) the Florida Civil Commitment Center in Arcadia, Florida contributed an increase of \$2.6 million both due to increases in population. This favorable increase was partially offset by \$2.4 million due to the loss of the contract with the SFETC Annex.

Facility Construction and Design

The decrease in revenues from construction activities is primarily attributable to the completion of construction at two facilities: (i) the South Florida Evaluation and Treatment Center in Miami, Florida, which was completed in Second Quarter 2008, decreased revenues by \$19.3 million; and (ii) the Northeast New Mexico Detention Facility in Clayton, New Mexico which was completed in Third Quarter 2008 and decreased revenues by \$25.6 million. These decreases over the same period in the prior year were offset by increases in construction revenue for the expansion of the Graceville Correctional Facility in Graceville, Florida which commenced in First Quarter 2008 and increased revenues by \$4.0 million and the construction of the Florida Civil Commitment Center in Arcadia, Florida which increased revenues by \$22.1 million.

Operating Expenses

	% of Segment		% of Segment			
	2008	Revenue	2007	Revenue	\$ Change	% Change
			(Dollars in thousands)			
U.S. corrections	\$ 516,963	72.7%	\$ 464,617	73.8%	\$ 52,346	11.3%
International services	116,379	90.4%	115,618	90.3%	761	0.7%
GEO Care	103,140	87.9%	98,557	89.5%	4,583	4.7%
Facility construction and design	85,571	99.6%	109,070	100.2%	(23,499)	(21.5)%
Total	\$ 822,053	78.8%	\$ 787,862	80.7%	\$ 34,191	4.3%

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and mental health and GEO Care facilities and expenses incurred in our Facility construction and design segment.

U.S. corrections

The increase U.S. corrections operating expenses in 2008 compared to 2007 is primarily attributable to new facility openings, capacity increases at existing facilities and the normalization of openings and expansions from 2007. The most significant increases to operating expenses were as follows: (i) operating expenses increased \$43.3 million in total due to the opening or expansion of seven facilities in 2008 which include activations at the Robert A. Deyton Detention Facility, Rio Grande Detention Facility, Joe Corley Detention Facility and the Northeast New Mexico Detention Facility and expansions of the LaSalle Detention Facility, Central Arizona Correctional Facility and at the East Mississippi Correctional Facility; (ii) operating expenses increased \$19.2 million in 2008 due to increases at our California facilities, South Texas Detention Center, New Castle Correctional Facility and at the Northwest Detention Facility related to contract modifications and enhanced services; (iii) operating expenses increased by \$17.9 million due to the normalization of 2007 activations and expansions that occurred at the Graceville Correctional Facility, Val Verde Correctional Facility and the Moore Haven Correctional Facility. (iv) operating expenses increased by \$3.6 million for the year ended December 28, 2008 due to changes in general liability and workers compensation reserves. The remaining increase in operating expenses is the result of increases in wages and employee benefits as well as general increases in operating costs. These increases were partially offset by decreases of \$31.0 million related to the termination of our management contracts at Coke County Juvenile Justice Center, Taft Correctional Institution and Dickens County Correctional Center which were terminated prior to fiscal 2008. Beginning 2008, we changed our vacation policy for certain employees allowing these employees to use their vacation regardless of their service period but within the fiscal year. The 2008 change in our vacation policy resulted in a \$3.7 million decrease in vacation expense in the fiscal year ended 2008 compared to the fiscal year ended 2007.

International services

Operating expenses for international services facilities remained consistent as a percentage of segment revenues in 2008 compared to 2007. On December 22, 2008, we announced the closure of our U.K.-based transportation division, Recruitment Solutions International (“RSI”). We purchased RSI, which provided transportation services to The Home Office Nationality and Immigration Directorate, for \$2.3 million, including transaction costs, in 2006. The operating loss of this business are reported as discontinued operations and is not presented in the segment information above.

GEO Care

Operating expenses for residential treatment increased approximately \$4.6 million in 2008 as compared to 2007 primarily attributable to increased population at the Treasure Coast Forensic Center and Florida Civil Commitment Center as mentioned above. This positive variance was offset by a decrease due to the closure of our 100-bed South Florida Evaluation and Treatment Center Annex which was effective July 31, 2008. Overall, expenses as a percentage of revenue partly decreased as a result of a decrease in startup costs which were \$0.6 million in 2008 compared to \$1.9 million in 2007.

Facility Construction and Design

Operating expenses for facility construction and design decreased \$23.5 million during fiscal year 2008 compared to fiscal year 2007 primarily due to a decrease in costs associated with our facilities under construction as a result of reduced activity as discussed above.

Depreciation and amortization

	% of Segment		% of Segment						
	2008	Revenue	2007	Revenue	\$ Change	% Change			
	(Dollars in thousands)								
U.S. corrections	\$	34,010	4.8%	\$	30,401	4.8%	\$	3,609	11.9%
International services		1,556	1.2%		1,351	1.1%		205	15.2%
GEO Care		1,840	1.6%		1,466	1.3%		374	25.5%
Facility construction and design									
Total	\$	37,406	3.6%	\$	33,218	3.4%	\$	4,188	12.6%

Depreciation and Amortization

US Corrections

The increase in depreciation and amortization for U.S. corrections in 2008 compared to 2007 is primarily attributable to the following items: (i) depreciation increased \$0.9 million due to the reactivation and expansion of the LaSalle Detention Facility discussed above, (ii) depreciation increased \$0.7 million related to the opening of the Rio Grande Detention Center discussed above and, (iii) depreciation increased \$0.8 million due to the expansion of the Val Verde Correctional Facility discussed above.

International Services

Depreciation and amortization as a percentage of segment revenue in 2008 was consistent with 2007.

GEO Care

The increase in depreciation and amortization for GEO Care in 2008 compared to 2007 is primarily due to the Treasure Coast Forensic Treatment Center expansion in September 2007.

Other Unallocated Operating Expenses

General and Administrative Expenses

	<u>2008</u>	<u>% of Revenue</u>		<u>2007</u>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
				(Dollars in thousands)			
General & Administrative Expenses	\$ 69,151	6.6%	\$	64,492	6.6%	\$ 4,659	7.2%

General and administrative expenses comprise substantially all of our other unallocated expenses. General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. General and administrative expenses increased by \$4.7 million in the fiscal year ended December 28, 2008 as compared to the fiscal year ended December 30, 2007, and remained consistent as a percentage of revenues. The increase in general and administrative costs is mainly due to increases in corporate travel and increases in direct labor costs as a result of increased wages and related increases in employee benefits.

Non Operating Expenses

Interest Income and Interest Expense

	<u>2008</u>	<u>% of Revenue</u>	<u>2007</u> <small>(Dollars in thousands)</small>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
Interest Income	\$ 7,045	0.7%	\$ 8,746	0.9%	\$ (1,701)	(19.4)%
Interest Expense	\$ 30,202	2.9%	\$ 36,051	3.7%	\$ (5,849)	(16.2)%

The decrease in interest income in 2008 compared to 2007 is primarily attributable to the decrease in interest rates for the period as well as the decrease in cash in 2008 as compared to 2007. In First Quarter 2009, one of the lenders elected to prepay its interest rate swap obligation to us at the call option price which approximated the fair value of the interest rate swap on the call dates. We expect our interest expense to increase in fiscal 2009 of approximately one million dollars as a result of the termination of this swap agreement.

The decrease in interest expense is primarily attributable to a significant decrease in LIBOR rates. We also experienced an increase in the amount of interest capitalized in connection with the construction of our correctional and detention facilities. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset’s estimated useful life. During fiscal years ended 2008 and 2007, we capitalized \$4.3 million and \$2.9 million of interest expense, respectively. This was partially offset by an increase in debt in 2008 as compared to 2007.

Provision for Income Taxes

	<u>2008</u>	<u>Effective Rate</u>	<u>2007</u> <small>(Dollars in thousands)</small>	<u>Effective Rate</u>
Income Tax Provision	\$ 34,033	37.3%	\$ 22,293	38.0%

The effective tax rate during 2008 was 37.3% as a result of one-time state tax benefits of \$1.6 million. We expect our tax rate in the future to increase to 38.7% as these benefits are non-recurring in nature.

Minority Interest

	<u>2008</u>	<u>% of Revenue</u>	<u>2007</u> <small>(Dollars in thousands)</small>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
Minority Interest	\$ (376)	(0.0)%	\$ (397)	(0.0)%	\$ 21	5.3%

Our minority interest expense is related to the non-controlling interest in our consolidated joint venture in South Africa. On October 29, 2008, we, along with one other joint venture partner, executed a Sale of Shares Agreement for the purchase of a portion of the remaining non-controlling shares of our consolidated South African Custodial Management Services Pty. Limited (“SACM”) which changed our profit sharing percentage from 76.25% to 88.75%. All of the non-controlling shares of the third joint venture partner were allocated between us and the second joint venture partner on a pro rata basis based on our respective ownership percentages. As a result of the purchase we recognized \$1.9 million in amortizable intangible assets. See Note 1 to the Consolidated Financial Statements. This decrease in the minority interest share was partially offset by an increase in overall earnings of the joint venture.

Equity in Earnings of Affiliate

	<u>2008</u>	<u>% of Revenue</u>	<u>2007</u> <small>(Dollars in thousands)</small>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
Equity in Earnings of Affiliate	\$ 4,623	0.4%	\$ 2,151	0.2%	\$ 2,502	116.3%

Equity in earnings of affiliates represent the earnings of SACS in 2008 and 2007 and reflect contractual increases partially offset by unfavorable foreign currency translation. These results also include the impact of a one-time tax benefit of \$1.9 million.

2007 versus 2006

Revenues

	<u>2007</u>	<u>% of Revenue</u>	<u>2006</u> <small>(Dollars in thousands)</small>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
U.S. corrections	\$ 629,339	64.5%	\$ 574,126	70.1%	\$ 55,213	9.6%
International services	127,991	13.1%	103,139	12.6%	24,852	24.1%
GEO Care	110,165	11.3%	67,034	8.2%	43,131	64.3%
Facility construction and design	108,804	11.1%	74,140	9.1%	34,664	46.8%
Total	\$ 976,299	100.0%	\$ 818,439	100.0%	\$ 157,860	19.3%

U.S. corrections

The increase in revenues for U.S. corrections in 2007 compared to 2006 is primarily attributable to six items: (i) revenues increased \$21.3 million in 2007 due to the completion of the Central Arizona Correctional Facility at the end of 2006 in Florence, Arizona; (ii) revenues increased \$16.9 million in 2007 as a result of the capacity increase in September 2006 in our Lawton Correctional Facility located at Lawton, Oklahoma; (iii) revenues increased \$5.3 million and \$5.0 million in 2007, respectively, as a result of the capacity increases in August 2006 in our South Texas Detention Complex and in December 2006 in our Northwest Detention Center, located at Tacoma, Washington; (iv) revenues increased \$6.6 million due to the commencement of our contract with the Arizona Department of Corrections (“ADC”) located in New Castle, Indiana in March 2007; (v) revenues increased by \$5.4 million due to the opening of our Graceville Correctional Facility in September 2007; and (vi) revenues increased due to contractual adjustments for inflation, and improved terms negotiated into a number of contracts.

The number of compensated mandays in U.S. corrections facilities increased to 13.8 million in 2007 from 12.7 million in 2006 due to the addition of new facilities and capacity increases. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our U.S. correction and detention facilities was 96.3% of capacity in 2007 compared to 97.0% in 2006, excluding our vacant North Lake Correctional Facility in Baldwin, Michigan, referred to as the “Michigan” facility in 2007 and 2006 and our vacant LaSalle Detention Facility in 2006 (reactivated June 2007).

International services

The increase in revenues for International services facilities in 2007 compared to 2006 was primarily due to the following items: (i) South African revenues increased by approximately \$1.3 million due to a contractual adjustment for inflation; (ii) Australian revenues increased approximately \$15.0 million due to favorable fluctuations in foreign currency exchange rates during the period, contractual adjustments for inflation and improved terms and an increase of 50 beds at the Junee Correctional Centre; and (iii) United Kingdom revenues increased approximately \$10.4 million primarily due to the operations at the Campsfield House which began in Second Quarter 2006, a construction project which began in Fourth Quarter 2006, and favorable fluctuations in foreign currency exchange rates.

GEO Care

The increase in revenues for GEO Care in 2007 compared to 2006 is primarily attributable to three items: (i) the Florida Civil Commitment Center in Arcadia, Florida, which commenced in July 2006 and increased revenues by \$14.2 million; (ii) the Treasure Coast Forensic Treatment Center in Stuart, Florida, which commenced operations in First Quarter 2007 and increased revenues by \$14.7 million and (iii) the South Florida Evaluation and Treatment Center — Annex in Miami, Florida which commenced operation in January 2007 and increased revenues by \$9.9 million.

Facility Construction and Design

The increase in revenues from construction activities is primarily attributable to four items: (i) the renovation of the Treasure Coast Forensic Treatment Center located in Martin County, Florida, in March, 2007 increased revenues by \$2.3 million; (ii) the construction of the Northeast New Mexico Detention Facility located in Clayton County, New Mexico, which commenced construction in September 2006 and increased revenues by \$36.9 million; (iii) the construction of the Florida Civil Commitment Center in Arcadia, Florida increased revenues by \$15.7 million and (iv) the construction of the new South Florida Evaluation and Treatment Center in Miami, Florida, which commenced construction in November 2005 and increased revenues by \$20.2 million, offset by decreases in construction revenue for the Graceville Correctional Facility in Graceville, Florida which commenced construction in February 2006 and for which construction was complete in September 2007 and also decreases related to the Moore Haven Correctional Facility in Moore Haven, Florida which commenced construction in February 2006 and was completed in May 2007. These two facilities represented \$32.0 million and \$10.0 million, respectively, of the decrease.

Operating Expenses

	% of Segment		% of Segment			
	2007	Revenue	2006	Revenue	\$ Change	% Change
	(Dollars in thousands)					
U.S. corrections	\$ 464,617	73.8%	\$ 450,187	78.4%	\$ 14,430	3.2%
International services	115,618	90.3%	93,706	90.9%	21,912	23.4%
GEO Care	98,557	89.5%	61,264	91.4%	37,293	60.9%
Facility construction and design	109,070	100.2%	74,729	100.8%	34,341	46.0%
Total	\$ 787,862	80.7%	\$ 679,886	83.1%	\$ 107,976	15.9%

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and GEO Care facilities. Expenses also include construction costs which are included in Facility construction and design.

U.S. corrections

The increase in U.S. corrections operating expenses reflects the new openings and expansions discussed above as well as general increases in labor costs and utilities. Operating expenses as a percentage of revenues decreased in 2007 compared to 2006 which is partially a reflection of higher margins at certain new facilities. Fiscal year 2007 operating expense was reduced \$29.3 million as a result of the CPT acquisition and subsequent elimination of our leases and the related expense. Also reflected in 2007 operating expenses are the proceeds from the insurance settlement of \$2.1 million related to the damages in New Castle, Indiana and recognized as an offset to those related expenditures. Operating expenses in 2007 were favorably impacted by a \$0.9 million overall reduction in our reserves for general liability, auto liability, and workers compensation insurance compared to a \$4.0 million reduction in 2006. These reductions in insurance reserves primarily resulted from our continued improved claims experience. Our savings in the fiscal years ended 2007 and 2006 were the result of revised actuarial projections related to loss estimates for the initial five and four years, respectively, of our insurance program which was established on October 2, 2002. Prior to October 2, 2002, our insurance coverage was provided through an insurance program established by TWC, our former parent company. We experienced significant adverse claims development in general liability and workers' compensation in the late 1990's. Beginning in approximately 1999, we made significant operational changes and began to aggressively manage our risk in a proactive manner. These changes have resulted in improved claims experience and loss development, which we are

realizing in our actuarial projections. As a result of improving loss trends, our independent actuary reduced its expected losses for claims arising since October 2, 2002. We adjusted our reserve at October 1, 2007 and October 1, 2006 to reflect the actuary's expected loss. We expect future actuarial projections will result in smaller annual adjustments as our improved claims experience represents a more significant component of the historical losses used by our actuary in calculating annual loss projections and related reserve requirements.

International services

Operating expenses for International services facilities increased in 2007 compared to 2006 largely as a result of the June 2006 commencement of the Campsfield House Immigration and Removal Centre contract in the United Kingdom. The operating expenses in the United Kingdom increased by \$10.7 million in the fiscal year ended December 28, 2008 as a result of increases in operations at the Campsfield House Immigration and Removal Centre which began in Second Quarter 2006. Australian operating expenses also increased by \$13.1 million due to fluctuations in foreign currency exchange rates during the period as well as additional staffing and expenses related to contract variations. Margins in Australia were consistent with margins for the same period in 2006 while margins in South Africa improved due to certain non-recurring costs incurred in the comparable period of the prior year.

GEO Care

Operating expenses for residential treatment increased approximately \$37.3 million during 2007 from 2006 primarily due to the new contracts discussed above. Operating expenses as a percentage of segment revenues in 2007 increased in 2007 due to certain expenditures required for newly opened facilities such as employee training costs and professional fees.

Facility Construction and Design

Expenses for construction and design increased \$34.3 million during 2007 compared to 2006 primarily due to the four construction contracts discussed above.

Depreciation and amortization

		% of Segment			% of Segment			
	2007	Revenue		2006	Revenue	\$ Change	% Change	
				(Dollars in thousands)				
U.S. corrections	\$ 30,401	4.8%	\$	20,298	3.5%	\$ 10,102	49.8%	
International services	1,351	1.1%		803	0.8%	548	68.2%	
GEO Care	1,466	1.3%		581	0.9%	885	152.3%	
Facility construction and design								
Total	\$ 33,218	3.4%	\$	21,682	2.6%	\$ 11,535	53.2%	

Depreciation and Amortization

The increase in depreciation and amortization is attributable to the U.S. corrections segment and is primarily a result of the purchase of CPT in January 2007. Also included in depreciation and amortization for the U.S. corrections segment is our write-off of \$0.4 million for the intangible asset related to our cancellation of the management contract to operate the 489-bed Dickens County Correctional Center in July 2007.

Other Unallocated Operating Expenses

General and Administrative Expenses

	2007	% of Revenue	2006	% of Revenue	\$ Change	%Change
	(Dollars in thousands)					
General & Administrative Expenses	\$ 64,492	6.6%	\$ 56,268	6.9%	\$ 8,224	14.6%

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. The increase in general and administrative costs is mainly due to increases in direct labor costs and increases in rent expense as a result of increased administrative staff and additional leased space.

Non Operating Expenses

Interest Income and Interest Expense

	<u>2007</u>	<u>% of Revenue</u>	<u>2006</u>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
			(Dollars in thousands)			
Interest Income	\$ 8,746	0.9%	\$ 10,687	1.3%	\$ (1,941)	(18.2)%
Interest Expense	\$ 36,051	3.7%	\$ 28,231	3.4%	\$ 7,820	27.7%

The decrease in interest income is primarily due to lower average invested cash balances.

The increase in interest expense is primarily attributable to the increase in our debt during the period as a result of the CPT acquisition.

Interest is capitalized in connection with the construction of correctional and detention facilities. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset’s estimated useful life. During fiscal years ended 2007 and 2006, the Company capitalized \$2.9 million and \$0.2 million of interest expense, respectively.

Provision for Income Taxes

	<u>2007</u>	<u>Effective Rate</u>	<u>2006</u>	<u>Effective Rate</u>
			(Dollars in thousands)	
Income Tax Provision	\$ 22,293	38.0%	\$ 15,215	36.4%

Income taxes for 2007 and 2006 include certain one time items of \$0.4 million and \$0.7 million, respectively. Without such items, our effective tax rate would have been 38.6% and 38.0%, respectively.

Minority Interest

	<u>2007</u>	<u>% of Revenue</u>	<u>2006</u>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
			(Dollars in thousands)			
Minority Interest	\$ (397)	(0.0)%	\$ (125)	(0.0)%	\$ (272)	(217.6)%

Increase in minority interest reflects increased performance in 2007 due to contractual increases. During 2006, our joint venture experienced lower revenues during First Quarter and Second Quarter 2006 related to facility modifications which resulted in reduced capacity and related billings.

Equity in Earnings of Affiliate

	<u>2007</u>	<u>% of Revenue</u>	<u>2006</u>	<u>% of Revenue</u>	<u>\$ Change</u>	<u>% Change</u>
			(Dollars in thousands)			
Equity in Earnings of Affiliate	\$ 2,151	0.2%	\$ 1,576	0.2%	\$ 575	36.5%

Equity in earnings of affiliates in 2007 and 2006 reflects the normal operations of South African Custodial Services Pty. Limited (“SACS”). In 2007, the facility was operating at full capacity compared to the prior year average capacity of 97%. We also experienced contractual increases as well as favorable foreign currency translation.

In February 2007, the South African legislature passed legislation that has the effect of removing the exemption from taxation on government revenues. As a result of the new legislation, SACS will be subject to South African taxation going forward at the applicable tax rate of 29%. The increase in the applicable income tax rate results in an increase in net deferred tax liabilities which were calculated at a rate of 0% during the period the government revenues were exempt. The effect of the increase in the deferred tax liability of the equity affiliate is a charge to equity in earnings of affiliate in the amount of \$2.4 million. The law change also has the effect of reducing a previously recorded liability for unrecognized tax benefits as provided under FIN 48, Accounting for Uncertainty in Income Taxes, resulting in an increase to equity in earnings of affiliate. The respective decrease and increase to equity in earnings of affiliate are substantially offsetting in nature.

Financial Condition

Capital Requirements

Our current cash requirements consist of amounts needed for working capital, debt service, supply purchases, investments in joint ventures, and capital expenditures related to the development of new correctional, detention and/or mental health facilities. In addition, some of our management contracts require us to make substantial initial expenditures of cash in connection with opening or renovating a facility. Generally, these initial expenditures are subsequently fully or partially recoverable as pass-through costs or are billable as a component of the per diem rates or monthly fixed fees to the contracting agency over the original term of the contract. Additional capital needs may also arise in the future with respect to possible acquisitions, other corporate transactions or other corporate purposes.

We are currently developing a number of projects using company financing. We estimate that these existing capital projects will cost approximately \$202.0 million, of which \$36.8 million was spent during fiscal year 2008. We have future committed capital projects for which we estimate our remaining capital requirements to be approximately \$165.2 million, which will be spent through Fiscal First Quarter 2010. Capital expenditures related to facility maintenance costs are expected to range between \$10.0 million and \$15.0 million. In addition to these current estimated capital requirements for 2009 and 2010, we are currently in the process of bidding on, or evaluating potential bids for the design, construction and management of a number of new projects. In the event that we win bids for these projects and decide to self-finance their construction, our capital requirements in 2009 and/or 2010 could materially increase.

Liquidity and Capital Resources

We plan to fund all of our capital needs, including our capital expenditures, from cash on hand, cash from operations, borrowings under our Senior Credit Facility and any other financings which our management and Board of Directors, in their discretion, may consummate. Our primary source of liquidity to meet these requirements is cash flow from operations and borrowings from the \$240.0 million Revolver under our Third Amended and Restated Credit Agreement referred to as our Senior Credit Facility (see discussion below). As of December 28, 2008, we had \$121.3 million available for borrowing under the revolving portion of the Senior Credit Facility.

As of December 28, 2008, we had a total of \$382.1 million of consolidated debt outstanding, excluding \$114.2 million of non-recourse debt and capital lease liability balances of \$15.8 million. As of December 28, 2008, we also had outstanding seven letters of guarantee totaling approximately \$5.3 million under separate international credit facilities. Based on our debt covenants and the amount of indebtedness we have outstanding, as of January 30, 2009, we had the ability to borrow an additional approximately \$109.7 million under our Senior Credit Facility. We also have the ability to borrow \$150.0 million under the accordion feature of our Senior Credit Facility subject to lender demand and market conditions. Our significant debt service obligations could have material consequences. See “Risk Factors — Risks Related to Our High Level of Indebtedness.”

Our management believes that cash on hand, cash flows from operations and borrowings under our Senior Credit Facility will be adequate to support our capital requirements for 2009 and 2010 disclosed above. However, we are currently in the process of bidding on, or evaluating potential bids for, the design, construction and management of a number of new projects. In the event that we win bids for these projects and decide to self-finance their construction, our capital requirements in 2009 and/or 2010 could materially increase. In that event, our cash on hand, cash flows from operations and borrowings under the Senior Credit Facility may not provide sufficient liquidity to meet our capital needs through

2009 and 2010 and we could be forced to seek additional financing or refinance our existing indebtedness. There can be no assurance that any such financing or refinancing would be available to us on terms equal to or more favorable than our current financing terms, or at all.

In the future, our access to capital and ability to compete for future capital-intensive projects will also be dependent upon, among other things, our ability to meet certain financial covenants in the indenture governing the 8 1 / 4 % Senior Unsecured Notes (the “Notes”) and in our Senior Credit Facility. A substantial decline in our financial performance could limit our access to capital pursuant to these covenants and have a material adverse affect on our liquidity and capital resources and, as a result, on our financial condition and results of operations. In addition to these foregoing potential constraints on our capital, a number of state government agencies have been suffering from budget deficits and liquidity issues. While the company expects to be in compliance with its debt covenants, if these constraints were to intensify, our liquidity could be materially adversely impacted as could our compliance with these debt covenants.

We have entered into individual executive retirement agreements with our CEO and Chairman, President and Vice Chairman, and Chief Financial Officer. These agreements provide each executive with a lump sum payment upon retirement. Under the agreements, each executive may retire at any time after reaching the age of 55. Each of the executives reached the eligible retirement age of 55 in 2005. However, under the retirement agreements, retirement may be taken at any time at the individual executive’s discretion. In the event that all three executives were to retire in the same year, we believe we will have funds available to pay the retirement obligations from various sources, including cash on hand, operating cash flows or borrowings under our revolving credit facility. Based on our current capitalization, we do not believe that making these payments in any one period, whether in separate installments or in the aggregate, would materially adversely impact our liquidity. On February 12, 2009, we announced that Mr. John G. O’Rourke, Chief Financial Officer, will retire effective August 2, 2009. As a result of his retirement, we have an obligation to make a one-time payment of \$3.2 million to Mr. O’Rourke in August 2009 under the terms of his retirement agreement. This amount is recorded in accrued expenses in the accompanying balance sheet as of December 28, 2008.

We are also exposed to various commitments and contingencies which may have a material adverse effect on our liquidity. See Item 3. Legal Proceedings.

The Senior Credit Facility

On October 29, 2008 and again on November 20, 2008, we exercised the accordion feature of our Senior Secured Credit Facility, which was amended on August 26, 2008 (see discussion below), to add \$85.0 million and an additional \$5.0 million, respectively, for a total of \$90.0 million in additional borrowing capacity under the revolving portion of our Senior Credit Facility. As of December 28, 2008, the Senior Credit Facility consisted of a \$365.0 million, seven-year term loan (“Term Loan B”), and a \$240.0 million five-year revolver which expires September 14, 2010 (the “Revolver”). The interest rate for the Term Loan B is LIBOR plus 1.5% (the weighted average rate on outstanding borrowings under the Senior Credit Facility as of December 28, 2008 was 3.24%). The Revolver currently bears interest at LIBOR plus 2.0% or at the base rate (prime rate) plus 1.0%.

As of December 28, 2008, we had \$158.6 million outstanding under the Term Loan B, and our \$240.0 million Revolver had \$74.0 million outstanding in loans, \$44.7 million outstanding in letters of credit and \$121.3 million available for borrowings. We intend to use future borrowings from the Revolver for the purposes permitted under the Senior Credit Facility, including for general corporate purposes.

Indebtedness under the Revolver bears interest in each of the instances below at the stated rate:

	Interest Rate under the Revolver
LIBOR borrowings	LIBOR plus 1.50% to 2.50%
Base rate borrowings	Prime rate plus 0.50% to 1.50%
Letters of credit	1.50% to 2.50%
Available borrowings	0.38% to 0.50%

On August 26, 2008, we completed a fourth amendment to our Senior Credit Facility through the execution of Amendment No. 4 to the Amended and Restated Credit Agreement (“Amendment No. 4”) between the us, as Borrower, certain of the our subsidiaries, as Grantors, and BNP Paribas, as Lender and as Administrative Agent (collectively, the “Senior Credit Facility” or the “Credit Agreement”). As further described below, Amendment No. 4 revises certain leverage ratios, eliminates the fixed charge coverage ratio, adds a new interest coverage ratio and sets forth new capital expenditure limits under the Credit Agreement. Additionally, Amendment No. 4 permits us to add incremental borrowings under the accordion feature of our Senior Credit Facility of up to \$150.0 million on or prior to December 31, 2008 and up to an additional \$150.0 million after December 31, 2008. Amendment No. 4 does not require any lenders to make any new borrowings under the accordion feature but simply provides a mechanism under the Senior Credit Facility after December 31, 2008 for us to incur such borrowings without requiring further lender consent. Any additional borrowings by us under the accordion feature of the Senior Credit Facility, whether as revolving borrowings or incremental term loans as permitted in the Amendment No. 4, would be subject to lender demand and market conditions and may not be available to us on satisfactory terms, or at all. We believe that this amendment may provide additional flexibility if and when we should decide to activate the accordion feature of the Senior Credit Facility beginning on January 1, 2009.

In 2008, we paid \$1.0 million and \$2.6 million of debt issuance costs related to the Amendment No. 4 and the exercise of the accordion feature, respectively, which will be amortized over the remaining term of the Revolver portion of the Senior Credit Facility.

Amendment No. 4 to the Credit Agreement requires us to maintain the following Total Leverage Ratios, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period:

Period	Total Leverage Ratio
Through the penultimate day of fiscal year 2009	≤ 4.50 to 1.00
From the last day of the fiscal year 2009 through the penultimate day of fiscal year 2010	≤4.25 to 1.00
From the last day of the fiscal year 2010 through the penultimate day of fiscal year 2011	≤ 3.25 to 1.00
Thereafter	≤3.00 to 1.00

Amendment No. 4 to the Credit Agreement also requires us to maintain the following Senior Secured Leverage Ratios, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period:

Period	Senior Secured Leverage Ratio
Through the penultimate day of fiscal year 2010	≤ 3.25 to 1.00
From the last day of the fiscal year 2010 through the penultimate day of fiscal year 2011	≤ 2.25 to 1.00
Thereafter	≤ 2.00 to 1.00

In addition, Amendment No. 4 to the Credit Agreement adds a new Interest Coverage Ratio which requires us to maintain a ratio of EBITDA (as such term is defined in the Credit Agreement) to Interest Expense (as such term is defined in the Credit Agreement) payable in cash of no less than 3.00 to 1.00, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period. The foregoing covenants replace the corresponding covenants previously included in the Credit Agreement, and eliminate the fixed charge coverage ratio formerly incorporated in the Credit Agreement.

Amendment No. 4 also amends the capital expenditure limits applicable to us under the Credit Agreement as follows:

<u>Period</u>	<u>Capital Expenditure Limit</u>
Fiscal year 2008	\$200.0 million
Fiscal year 2009	\$275.0 million
Each fiscal year thereafter	\$50.0 million

The foregoing limits are subject to the provision that to the extent that our capital expenditures during any fiscal year are less than the limit permitted for such fiscal year, the following maximum amounts will be added to the maximum capital expenditures that we can make in the following fiscal year: (i) up to \$30.0 million may be added to the fiscal year 2009 limit from unused amounts in fiscal year 2008; (ii) up to \$50.0 million may be added to the fiscal year 2010 limit from unused amounts in fiscal year 2009; or (iii) up to \$20.0 million may be added to the fiscal year 2011 limit, and to fiscal years thereafter, from unused amounts in the immediately prior fiscal years.

All of our obligations under the Senior Credit Facility are unconditionally guaranteed by each of our existing material domestic subsidiaries. The Senior Credit Facility and the related guarantees are secured by substantially all of the our present and future tangible and intangible assets and all present and future tangible and intangible assets of each guarantor, as specified in the Credit Agreement. In addition, the Senior Credit Facility contains certain customary representations and warranties, and certain customary covenants that restrict our ability to be party to certain transactions, as further specified in the Credit Agreement. Events of default under the Senior Credit Facility include, but are not limited to, (i) our failure to pay principal or interest when due, (ii) our material breach of any representation or warranty, (iii) covenant defaults, (iv) bankruptcy, (v) cross default to certain other indebtedness, (vi) unsatisfied final judgments over a specified threshold, (vii) material environmental state of claims which are asserted against us, and (viii) a change of control. We believe we were in compliance with all of the covenants in the Senior Credit Facility as of December 28, 2008.

Senior 8¹/₄% Notes

In July 2003, to facilitate the completion of the purchase of 12.0 million shares from Group 4 Falck, our former majority shareholder, we issued \$150.0 million aggregate principal amount, ten-year, 8 1 / 4 % senior unsecured notes, which we refer to as the Notes. The Notes are general, unsecured, senior obligations of ours. Interest is payable semi-annually on January 15 and July 15 at 8 1 / 4 %. The Notes are governed by the terms of an Indenture, dated July 9, 2003, between us and the Bank of New York, as trustee, referred to as the Indenture. Additionally, after July 15, 2008, we may redeem all or a portion of the Notes plus accrued and unpaid interest at various redemption prices ranging from 100.000% to 104.125% of the principal amount to be redeemed, depending on when the redemption occurs. The Indenture contains certain covenants that limit our ability to incur additional indebtedness, pay dividends or distributions on our common stock, repurchase our common stock, and prepay subordinated indebtedness. The Indenture also limits our ability to issue preferred stock, make certain types of investments, merge or consolidate with another company, guarantee other indebtedness, create liens and transfer and sell assets.

The covenants governing the Notes impose significant operating and financial restrictions which may substantially restrict and adversely affect our ability to operate our business. See “Risk Factors — Risks Related to Our High Level of Indebtedness — The covenants in the indenture governing the Notes and our Senior Credit Facility impose significant operating and financial restrictions which may adversely affect our ability to operate our business.” We believe we were in compliance with all of the covenants in the Indenture as of December 28, 2008.

Non-Recourse Debt

South Texas Detention Complex

We have a debt service requirement related to the development of the South Texas Detention Complex, a 1,904-bed detention complex in Frio County, Texas acquired in November 2005 from Correctional Services Corporation, referred to as “CSC”. CSC was awarded the contract in February 2004 by the Department of Homeland Security, U.S. Immigration and Customs Enforcement, referred to as “ICE”, for development and operation of the detention center. In order to

finance its construction, South Texas Local Development Corporation, referred to as “STLDC”, was created and issued \$49.5 million in taxable revenue bonds. Additionally, we have outstanding \$5.0 million of subordinated notes which represents the principal amount of financing provided to STLDC by CSC for initial development. These bonds mature in February 2016 and have fixed coupon rates between 3.84% and 5.07%.

We have an operating agreement with STLDC, the owner of the complex, which provides us with the sole and exclusive right to operate and manage the detention center. The operating agreement and bond indenture require the revenue from our contract with ICE be used to fund the periodic debt service requirements as they become due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums are distributed to us to cover operating expenses and management fees. We are responsible for the entire operations of the facility including all operating expenses and are required to pay all operating expenses whether or not there are sufficient revenues. STLDC has no liabilities resulting from its ownership. The bonds have a ten year term and are non-recourse to us and STLDC. The bonds are fully insured and the sole source of payment for the bonds is the operating revenues of the center. At the end of the ten year term of the bonds, title and ownership of the facility transfers from STLDC to us. We have determined that we are the primary beneficiary of STLDC and consolidate the entity as a result.

On February 1, 2008, we made a payment of \$4.3 million for the current portion of our periodic debt service requirement in relation to STLDC operating agreement and bond indenture. As of December 28, 2008, the remaining balance of the debt service requirement is \$41.1 million, of which \$4.4 million is due within the next twelve months. Also as of December 28, 2008, included in current restricted cash and non-current restricted cash is \$6.2 million and \$10.9 million, respectively, as funds held in trust with respect to the STLDC for debt service and other reserves.

Northwest Detention Center

On June 30, 2003, CSC arranged financing for the construction of the Northwest Detention Center in Tacoma, Washington, referred to as the Northwest Detention Center, which was completed and opened for operation in April 2004 and acquired by us in November 2005. In connection with the original financing, CSC of Tacoma LLC, a wholly owned subsidiary of CSC, issued a \$57.0 million note payable to the Washington Economic Development Finance Authority, referred to as WEDFA, an instrumentality of the State of Washington, which issued revenue bonds and subsequently loaned the proceeds of the bond issuance back to CSC for the purposes of constructing the Northwest Detention Center. The bonds are non-recourse to us and the loan from WEDFA to CSC is non-recourse to us. These bonds mature in February 2014 and have fixed coupon rates between 3.20% and 4.10%.

The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves. On October 1, 2008, CSC of Tacoma LLC made a payment from its restricted cash account of \$5.4 million for the current portion of its periodic debt service requirement in relation to the WEDFA bid indenture. As of December 28, 2008, the remaining balance of the debt service requirement is \$37.3 million, of which \$5.7 million is classified as current in the accompanying balance sheet.

As of December 28, 2008, included in current restricted cash and non-current restricted cash is \$7.1 million and \$5.1 million, respectively, of funds held in trust with respect to the Northwest Detention Center for debt service and other reserves.

Australia

In connection with the financing and management of one Australian facility, our wholly owned Australian subsidiary financed the facility’s development and subsequent expansion in 2003 with long-term debt obligations, which are non-recourse to us and total \$38.1 million and \$52.9 million at December 28, 2008 and December 30, 2007, respectively. As a condition of the loan, we are required to maintain a restricted cash balance of AUD 5.0 million, which, at December 28, 2008, was approximately \$3.4 million. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria.

Guarantees

In connection with the creation of SACS, we entered into certain guarantees related to the financing, construction and operation of the prison. We guaranteed certain obligations of SACS under its debt agreements up to a maximum amount of 60.0 million South African Rand, or approximately \$6.2 million, to SACS’ senior lenders through the issuance of letters of credit. Additionally, SACS is required to fund a restricted account for the payment of certain costs in the event of contract termination. We have guaranteed the payment of 50% of amounts which may be payable by SACS into the restricted account and provided a standby letter of credit of 8.4 million South African Rand, or \$0.9 million, as security for our guarantee. Our obligations under this guarantee are indexed to the CPI and expire upon the release from SACS of its obligations in respect of the restricted account under its debt agreements. No amounts have been drawn against these letters of credit, which are included in our outstanding letters of credit under the revolving loan portion of our Senior Credit Facility.

We have agreed to provide a loan, if necessary, of up to 20.0 million South African Rand, or approximately \$2.1 million, referred to as the Standby Facility, to SACS for the purpose of financing the obligations under the contract between SACS and the South African government. No amounts have been funded under the Standby Facility, and we do not currently anticipate that such funding will be required by SACS in the future. Our obligations under the Standby Facility expire upon the earlier of full funding or release from SACS of its obligations under its debt agreements. The lenders’ ability to draw on the Standby Facility is limited to certain circumstances, including termination of the contract.

We have also guaranteed certain obligations of SACS to the security trustee for SACS lenders. We have secured our guarantee to the security trustee by ceding our rights to claims against SACS in respect of any loans or other finance agreements, and by pledging our shares in SACS. Our liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract for a facility in Canada, we guaranteed certain potential tax obligations of a not-for-profit entity. The potential estimated exposure of these obligations is CAD 2.5 million, or approximately \$2.0 million commencing in 2017. We have a liability of \$1.3 million and \$1.5 million related to this exposure as of December 28, 2008 and December 30, 2007, respectively. To secure this guarantee, we purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. We have recorded an asset and a liability equal to the current fair market value of those securities on our balance sheet. We do not currently operate or manage this facility.

At December 28, 2008, we also had outstanding seven letters of guarantee totaling approximately \$5.3 million under separate international facilities. We do not have any off balance sheet arrangements.

Derivatives

Effective September 18, 2003, we entered into two interest rate swap agreements in the aggregate notional amount of \$50.0 million (referred to as “Swaps”). We have designated the Swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. The agreements, which have payment, expiration dates and call provisions that mirror the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Each of the Swaps has a termination clause that gives the lender the right to terminate the interest rate Swap at fair market value if they are no longer a lender under the Credit Agreement. In addition to the termination clause, the Swaps also have call provisions which specify that the lender can elect to settle the Swap for the call option price, as specified in the Swap agreement. Under the agreements, we receive a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while we make a variable interest rate payment to the same counterparties equal to the six-month LIBOR plus a fixed margin of 3.55%, also calculated on the notional \$50.0 million amount. Changes in the fair value of the interest rate Swaps are recorded in earnings along with related designated changes in the value of the Notes. As of December 28, 2008 and December 30, 2007, the fair value of the Swap assets totaled \$2.0 million and \$0.0 million, respectively, and is included in other non-current assets in the accompanying consolidated balance sheets. The increase in our Swap assets is due to favorable changes in the interest rates during 2008. There was no ineffectiveness of our interest rate Swaps for the years ended December 28, 2008 or December 30, 2007.

In First Quarter 2009, one of the lenders elected to prepay its Swap obligation to us at the call option price which approximated the fair value of the Swap on the call dates. Since we did not elect to call any portion of the Notes, we will amortize the value of the call option over the remaining life of the Notes. We expect that the termination of this Swap agreement will result in approximately one million dollars in additional interest expense for fiscal 2009.

Our Australian subsidiary is a party to an interest rate Swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. We have determined the Swap to be an effective cash flow hedge. Accordingly, we record the value of the interest rate Swap in accumulated other comprehensive income, net of applicable income taxes. The total value of the Swap as of December 28, 2008 and December 30, 2007 was approximately \$0.2 million and \$5.8 million, respectively, and is recorded as a component of other non-current assets in the accompanying consolidated financial statements. There was no ineffectiveness of this interest rate Swap for the fiscal years presented. The Company does not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings or losses associated with this Swap currently reported in accumulated other comprehensive loss.

Cash Flow

Cash and cash equivalents as of December 28, 2008 was \$31.7 million, compared to \$44.4 million as of December 30, 2007. During Fiscal 2008 we used cash flows from operations to fund all of our operating expenses and used cash on hand, \$74.0 million in borrowings under our Revolver and cash flow from operations to fund \$131.0 million in capital expenditures

Cash provided by operating activities of continuing operations in 2008, 2007 and 2006 was \$76.9 million, \$71.2 million, and \$48.5 million, respectively. Cash provided by operating activities of continuing operations in 2008 was positively impacted by an increase in income from continuing operations of \$23.4 million in addition to \$37.4 million of depreciation and amortization expense. These increases reflect the opening of new facilities as previously discussed and improved financial performance at existing facilities. Cash provided by operating activities of continuing operations in 2007 was positively impacted by an increase in net income of \$10.1 million in addition to \$33.2 million of depreciation and amortization expense. Cash provided by operating activities of continuing operations in 2006 was positively impacted by \$21.7 million of depreciation and amortization expense as well as an increase in accounts payable and accrued expenses.

Cash provided by operating activities of continuing operations was negatively impacted in 2008 by an increase in accounts receivable of \$29.6 million and more earnings in the current year attributable to our investment in our South Africa joint venture, SACS. Cash provided by operating activities of continuing operations was negatively impacted in 2007 by an increase in accounts receivable of \$10.6 million, increases in our deferred income tax benefits of \$5.1 million, and more earnings in the current year attributable to our investment in our South Africa joint venture, SACS. Cash provided by operating activities of continuing operations in 2006 was negatively impacted by an increase in accounts receivable. The increase in accounts receivable was attributable to the increase in value of our Australian subsidiary’s accounts receivable due to an increase in foreign exchange rates, the addition of CSC for the entire year, new contracts at the New Castle Correctional Facility, the South Florida Evaluation and Treatment Center, the Fort Bayard Medical Center and the Campsfield House Immigration and Removal Centre as well as slightly higher billings reflecting a general increase in facility occupancy levels.

Cash used in investing activities of continuing operations in 2008 of \$131.6 million includes capital expenditures of \$131.0 million, of which \$119.3 million related to development capital expenditures and approximately \$11.7 million related maintenance capital expenditures. We are currently developing a number of projects using company financing. We estimate that these existing capital projects will cost approximately \$202.0 million, of which \$36.8 million was spent in fiscal year 2008. We estimate our remaining capital requirements for these projects to be approximately \$165.2 million, which will be spent through Fiscal First Quarter 2010.

Cash used in investing activities of continuing operations in 2007 was \$518.9 million due to our cash investment in CPT of \$410.5 million and capital expenditures of \$115.2 million. Cash used in investing activities of continuing operations in 2006 was \$16.9 million.

Cash provided by financing activities in 2008 was \$53.7 million and reflects proceeds received from net borrowings of \$74.0 million under our Revolver. Borrowings under our \$240.0 million Revolver were primarily used to fund \$119.3 million of development capital expenditures in fiscal 2008. We intend to use cash flows from operations and future borrowings under our Revolver to fund the projects discussed above. Upon completion of these projects we expect to have drawn approximately \$137.1 million under our Revolver, have outstanding letters of credit of \$45.1 million and approximately \$57.9 of remaining available unused capacity. We believe the institutions and banks included in our lender group will be able to fund their commitment to our Revolver. However, we can provide no assurance regarding their solvency or ability to honor their commitments. Failure to honor a commitment could materially impact our ability to meet our future capital needs and complete the projects discussed above.

Cash provided by financing activities in 2007 was \$372.3 million and reflects proceeds received from the equity offering of \$227.5 million as well as cash proceeds of \$387.0 million from our Term Loan B and the Revolver. These cash flows from financing activities are offset by payments on the Term Loan B of \$202.7 million, payments on the Revolver of \$22.0 million and payments on other long term debt of \$12.6 million. Cash provided by financing activities in 2006 was \$21.7 million and reflects proceeds received from the equity offering of \$99.9 million and proceeds received from the exercise of stock options of \$5.4 million offset by payments of debt of \$82.6 million.

Contractual Obligations and Off Balance Sheet Arrangements

The following is a table of certain of our contractual obligations, as of December 28, 2008, which requires us to make payments over the periods presented.

Contractual Obligations	Payments Due by Period				
	Total	Less Than	1-3 Years	3-5 Years	More Than 5
		1 Year			
			(In thousands)		
Long-term debt obligations	\$ 150,056	\$ 28	\$ 28	\$ 150,000	\$ —
Term Loan B	158,613	3,650	7,300	147,663	—
Revolver	74,000	—	74,000	—	—
Capital Lease obligations (includes imputed interest)	26,395	1,957	3,865	3,866	16,707
Operating lease obligations	116,204	16,510	29,511	20,777	49,406
Non-recourse debt	116,505	13,573	28,855	31,638	42,439
Estimated interest payments on debt(a)	112,335	25,433	43,242	39,204	4,456
Estimated funding of pension & other post retirement benefits	19,320	12,953	333	426	5,608
Estimated construction commitments	165,200	155,100	10,100	—	—
Estimated tax payments for uncertain tax positions	3,738	—	3,738	—	—
Total	\$ 942,366	\$ 229,204	\$ 200,972	\$ 393,574	\$ 118,616

(a) Due to the uncertainties of future LIBOR rates, the variable interest payments on our credit facility and swap agreements were calculated using a LIBOR rate of 4.08% based on our bank rates as of January 15, 2009.

We do not have any additional off balance sheet arrangements which would subject us to additional liabilities.

Inflation

We believe that inflation, in general, did not have a material effect on our results of operations during 2008, 2007 and 2006. While some of our contracts include provisions for inflationary indexing, inflation could have a substantial adverse effect on our results of operations in the future to the extent that wages and salaries, which represent our largest expense, increase at a faster rate than the per diem or fixed rates received by us for our management services.

Outlook

The following discussion of our future performance contains statements that are not historical statements and, therefore, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Our forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those stated or implied in the forward-looking statement. Please refer to “Item 1A. Risk Factors” in this Annual Report on Form 10-K, the “Forward-Looking Statements — Safe Harbor,” as well as the other disclosures contained in this Annual Report on Form 10-K, for further discussion on forward-looking statements and the risks and other factors that could prevent us from achieving our goals and cause the assumptions underlying the forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements.

With prison populations growing at 3% to 5% a year, the private corrections industry has played an increasingly important role in addressing U.S. detention and correctional needs. The number of State and Federal prisoners housed in private facilities increased 10.1% since mid-year 2005 with states such as Texas, Indiana, Colorado and Florida accounting for more than half of the increase. At June 2006, approximately 7.2% of the estimated 1.6 million State and Federal prisoners incarcerated in the United States were held in private facilities, up from 6.5% in 2000. In addition to our strong positions in Texas and Florida and in the U.S. market in general, we believe we are the only publicly traded U.S. correctional company with international operations. With the existing operations in South Africa and Australia and the management of the 198-bed Campsfield House Immigration Removal Centre in the United Kingdom beginning in Second Quarter 2006, we believe that our international presence positions us to capitalize on growth opportunities within the private corrections and detention industry in new and established international markets.

We intend to pursue a diversified growth strategy by winning new customers and contracts, expanding our government services portfolio and pursuing selective acquisition opportunities. We achieve organic growth through competitive bidding that begins with the issuance by a government agency of a request for proposal, or RFP. We primarily rely on the RFP process for organic growth in our U.S. and international corrections operations as well as in our mental health and residential treatment services. We believe that our long operating history and reputation have earned us credibility with both existing and prospective clients when bidding on new facility management contracts or when renewing existing contracts. Our success in the RFP process has resulted in a pipeline of new projects with significant revenue potential. In 2008, we announced six new management contracts. The new contracts represent 5,042 new beds. This compares to the seven new management projects announced in 2007 representing 4,499 new beds. As of December 28, 2008, we have ten facilities under various stages of development or pending commencement of operations which represent approximately 8,200 beds. In addition to pursuing organic growth through the RFP process, we will from time to time selectively consider the financing and construction of new facilities or expansions to existing facilities on a speculative basis without having a signed contract with a known customer. We also plan to leverage our experience to expand the range of government-outsourced services that we provide. We will continue to pursue selected acquisition opportunities in our core services and other government services areas that meet our criteria for growth and profitability.

Revenue

Domestically, we continue to be encouraged by the number of opportunities that have recently developed in the privatized corrections and detention industry. Overcrowding at corrections facilities in various states, most recently California and Arizona and increased demand for bed space at federal prisons and detention facilities primarily resulting from government initiatives to improve immigration security are two of the factors that have contributed to the greater number of opportunities for privatization. However, these positive trends may in the future be impacted by government budgetary constraints. According to the Center on Budget and Policy Priorities, at least 46 states are facing budget shortfalls, including our ten state customers. If state budgetary constraints persist or intensify, our state customers’ ability to pay us may be impaired and/or we may be forced to renegotiate our management contracts on less favorable

terms and our financial condition results of operations or cash flows could be materially adversely impacted. We plan to actively bid on any new projects that fit our target profile for profitability and operational risk. Although we are pleased with the overall industry outlook, positive trends in the industry may be offset by several factors, including budgetary constraints, unanticipated contract terminations contract non-renewals and contract re-bids. Additionally, several of our management contracts are up for renewal and/or re-bid in 2009. Although we have historically had a relative high contract renewal rate, there can be no assurance that we will be able to renew our management contracts scheduled to expire in 2009 on favorable terms, or at all. Also, while we are pleased with our track record in re-bid situations, we cannot assure that we will prevail in any such future situations.

Internationally, in the United Kingdom, we recently won our second contract since re-establishing operations to operate the Harmondsworth Immigration Removal Centre. This project will commence operations in Third Quarter 2009. We believe that additional opportunities will become available in that market and plan to actively bid on any opportunities that fit our target profile for profitability and operational risk. In South Africa, the government has issued a procurement for the design, build, finance and manage of four 3,000-bed prisons. Bids are to be submitted in April 2009 with awards expected to be announced in late 2009.

With respect to our mental health/residential treatment services business conducted through our wholly-owned subsidiary, GEO Care, Inc., we are currently pursuing a number of business development opportunities.

In addition, we continue to expend resources on informing state and local governments about the benefits of privatization and we anticipate that there will be new opportunities in the future as those efforts begin to yield results. We believe we are well positioned to capitalize on any suitable opportunities that become available in this area.

In addition to our seven facilities under construction at December 28, 2008, we also have three additional facilities in the planning and design phase which brings our total projects to ten with approximately 8,200 beds that will become available upon completion. Subject to achieving our occupancy targets, five of these projects have associated management contracts and are expected to generate a total of approximately \$77.0 million in combined annual operating revenues when opened between First Quarter 2009 and Fourth Quarter 2010. We do not have customers for the five remaining projects. Three of these projects relate to expansions of existing facilities for which we have associated management contracts, while one of these facilities is being marketed to state and federal government agencies. We believe that these projects comprise the largest and most diversified organic growth pipeline in our industry.

Operating Expenses

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and mental health facilities. Labor and related cost represented approximately 56.3% of our operating expenses in the fiscal year 2008. Additional significant operating expenses include food, utilities and inmate medical costs. In 2008, operating expenses totaled approximately 78.8% of our consolidated revenues. Our operating expenses as a percentage of revenue in 2009 will be impacted by the opening of new facilities including the expansion at the Robert A. Deyton Detention Facility in Georgia and the expansion at the Graceville Correctional Facility in Florida. Overall, excluding start-up expenses, we anticipate that operating expenses as a percentage of our revenue will remain relatively flat, consistent with our fiscal year ended December 28, 2008.

General and Administrative Expenses

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. In 2008, general and administrative expenses totaled approximately 6.6% of our consolidated revenues. We expect operating expenses as a percentage of revenue in 2009 to be generally consistent with our operating expenses for 2008. We have recently incurred increasing general and administrative costs including increased costs associated with increases in business development costs, professional fees and travel costs, primarily relating to our mental health residential treatment services business. We expect this trend to continue as we pursue additional business development opportunities in all of our business lines and build the corporate infrastructure necessary to support our mental health residential treatment services business. We also plan to continue expending resources from time to time on the evaluation of potential acquisition targets.

Forward-Looking Statements — Safe Harbor

This report and the documents incorporated by reference herein contain “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. “Forward-looking” statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are “forward-looking” statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate” or “continue” or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or “cautionary statements,” include, but are not limited to:

- our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs;
- the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, and South Africa, or other countries in which we may choose to conduct our business;
- our ability to reactivate the North Lake Correctional Facility;
- an increase in unreimbursed labor rates;
- our ability to expand, diversify and grow our correctional and mental health and residential treatment services;
- our ability to win management contracts for which we have submitted proposals and to retain existing management contracts;
- our ability to raise new project development capital given the often short-term nature of the customers’ commitment to use newly developed facilities;
- our ability to estimate the government’s level of dependency on privatized correctional services;
- our ability to accurately project the size and growth of the U.S. and international privatized corrections industry;
- our ability to develop long-term earnings visibility;
- our ability to obtain future financing at competitive rates;
- our exposure to rising general insurance costs;
- our exposure to state and federal income tax law changes internationally and domestically;
- our exposure to claims for which we are uninsured;
- our exposure to rising employee and inmate medical costs;
- our ability to maintain occupancy rates at our facilities;
- our ability to manage costs and expenses relating to ongoing litigation arising from our operations;
- our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers compensation and automobile liability claims;
- our ability to identify suitable acquisitions, and to successfully complete and integrate such acquisitions on satisfactory terms;
- the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us; and
- other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this annual report on Form 10-K, our Form 10-Qs and our Form 8-Ks filed with the SEC.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this report.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

Interest Rate Risk

We are exposed to market risks related to changes in interest rates with respect to our Senior Credit Facility. Payments under the Senior Credit Facility are indexed to a variable interest rate. Based on borrowings outstanding under the Senior Credit Facility portion of \$232.6 million as of December 28, 2008 for every one percent increase in the interest rate applicable to the Senior Credit Facility, our total annual interest expense would increase by \$2.3 million.

Effective September 18, 2003, we entered into interest rate swap agreements in the aggregate notional amount of \$50.0 million. We have designated the swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. Changes in the fair value of the interest rate swaps are recorded in earnings along with related designated changes in the value of the Notes. The agreements, which have payment and expiration dates and call provisions that coincide with the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Each of the Swaps has a termination clause that gives the lender the right to terminate the interest rate swap at fair market value if they are no longer a lender under the Credit Agreement. In addition to the termination clause, the interest rate swaps also have call provisions which specify that the lender can elect to settle the swap for the call option price, as specified in the swap agreement. Under the agreements, we receive a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while we make a variable interest rate payment to the same counterparties equal to the six-month LIBOR plus a fixed margin of 3.55%, as of January 15, 2009, also calculated on the notional \$50.0 million amount. For every one percent increase in the interest rate applicable to the \$50.0 million swap agreements on the Notes described above, our total annual interest expense would increase by \$0.5 million. In First Quarter 2009, one of our lenders elected to prepay its interest rate swap obligations to us at the call option price which approximated or was greater than the fair value of the interest rate swaps on the respective call dates. We expect that the termination of this swap will result in approximately one million dollars in additional interest expense for fiscal 2009.

We have entered into certain interest rate swap arrangements for hedging purposes, fixing the interest rate on our Australian non-recourse debt to 9.7%. The difference between the floating rate and the swap rate on these instruments is recognized in interest expense within the respective entity. Because the interest rates with respect to these instruments are fixed, a hypothetical 100 basis point change in the current interest rate would not have a material impact on our financial condition or results of operations.

Additionally, we invest our cash in a variety of short-term financial instruments to provide a return. These instruments generally consist of highly liquid investments with original maturities at the date of purchase of three months or less. While these instruments are subject to interest rate risk, a hypothetical 100 basis point increase or decrease in market interest rates would not have a material impact on our financial condition or results of operations.

Foreign Currency Exchange Rate Risk

We are exposed to market risks related to fluctuations in foreign currency exchange rates between the U.S. Dollar, the Australian Dollar, the Canadian Dollar, the South African Rand and the British Pound currency exchange rates. Based upon our foreign currency exchange rate exposure as of December 28, 2008 with respect to our international operations, every 10 percent change in historical currency rates would have approximately a \$3.4 million effect on our financial position and approximately a \$1.2 million impact on our results of operations over the next fiscal year.

Item 8. *Financial Statements and Supplementary Data*

MANAGEMENT’S RESPONSIBILITY FOR FINANCIAL STATEMENTS

To the Shareholders of
The GEO Group, Inc.:

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States. They include amounts based on judgments and estimates.

Representation in the consolidated financial statements and the fairness and integrity of such statements are the responsibility of management. In order to meet management’s responsibility, the Company maintains a system of internal controls and procedures and a program of internal audits designed to provide reasonable assurance that our assets are controlled and safeguarded, that transactions are executed in accordance with management’s authorization and properly recorded, and that accounting records may be relied upon in the preparation of financial statements.

The consolidated financial statements have been audited by Grant Thornton LLP, independent registered public accountants, whose appointment by our Audit Committee was ratified by our shareholders. Their report expresses a professional opinion as to whether management’s consolidated financial statements considered in their entirety present fairly, in conformity with accounting principles generally accepted in the United States, the Company’s financial position and results of operations. Their audit was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). The effectiveness of our internal control over financial reporting as of December 28, 2008 has been audited by Grant Thornton LLP, independent registered public accountants, as stated in their report which is included in this Form 10-K.

The Audit Committee of the Board of Directors meets periodically with representatives of management, the independent registered public accountants and our internal auditors to review matters relating to financial reporting, internal accounting controls and auditing. Both the internal auditors and the independent registered certified public accountants have unrestricted access to the Audit Committee to discuss the results of their reviews.

MANAGEMENT’S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company’s internal control over financial reporting is a process designed under the supervision of the Company’s Chief Executive Officer and Chief Financial Officer that: (i) pertains to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Company’s assets; (ii) provides reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements for external reporting in accordance with accounting principles generally accepted in the United States, and that receipts and expenditures are being made only in accordance with authorization of the Company’s management and directors; and (iii) provides reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management has assessed the effectiveness of the Company’s internal control over financial reporting as of December 28, 2008. In making its assessment of internal control over financial reporting, management used the criteria set forth by the Committee of Sponsoring Organizations (“COSO”) of the Treadway Commission in Internal Control — Integrated Framework.

The Company evaluated, with the participation of its Chief Executive Officer and Chief Financial Officer, its internal control over financial reporting as of December 28, 2008, based on the COSO Internal Control — Integrated Framework. Based on this evaluation, the Company’s management concluded that as of December 28, 2008, its internal control over financial reporting is effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Grant Thornton LLP, the registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K, has issued an attestation report on our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and
Shareholders of The GEO Group, Inc.

We have audited The GEO Group, Inc. and subsidiaries’ (the “Company”) internal control over financial reporting as of December 28, 2008, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, The GEO Group, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 28, 2008, based on criteria established in Internal Control-Integrated Framework issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of The GEO Group, Inc. and subsidiaries as of December 28, 2008 and December 30, 2007, and the related consolidated statements of income, cash flow, and shareholders’ equity and comprehensive income for each of the three years in the period ended December 28, 2008, and our report dated February 17, 2009 expressed an unqualified opinion on those financial statements.

/s/ Grant Thornton LLP

Miami, Florida
February 17, 2009

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and
Shareholders of The GEO Group, Inc.

We have audited the accompanying consolidated balance sheets of The GEO Group, Inc. and subsidiaries (the “Company”) as of December 28, 2008 and December 30, 2007, and the related consolidated statements of income, cash flows, and shareholders’ equity and comprehensive income for each of three years in the period ended December 28, 2008. Our audits of the basic financial statements included the financial statement schedule listed in the index appearing under Item 15. These financial statements and financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The GEO Group, Inc. and subsidiaries as of December 28, 2008 and December 30, 2007, and the consolidated results of their operations and their consolidated cash flows for each of the three years in the period ended December 28, 2008 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As described in Note 1 to the consolidated financial statements, effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, “Accounting for Uncertainty in Income Taxes”. As described in Note 14 to the consolidated financial statements, the Company recognized the funded status of its benefit plans in accordance with the provisions of Statement of Financial Accounting Standards No. 158, Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans — an amendment of FASB Statements No. 87, 88, 106, and 132R, as of December 31, 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), The GEO Group, Inc. and subsidiaries’ internal control over financial reporting as of December 28, 2008, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated February 17, 2009 expressed an unqualified opinion thereon.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Fiscal Years Ended December 28, 2008, December 30, 2007, and December 31, 2006

1. Summary of Business Operations and Significant Accounting Policies

The GEO Group, Inc., a Florida corporation, and subsidiaries (the “Company”) is a leading developer and manager of privatized correctional, detention and mental health residential treatment services facilities located in the United States, Australia, South Africa, the United Kingdom and Canada. The Company operates a broad range of correctional and detention facilities including maximum, medium and minimum security prisons, immigration detention centers, minimum security detention centers and mental health and residential treatment facilities. As of the fiscal year ended December 28, 2008, GEO managed 59 facilities totaling approximately 53,400 beds worldwide and had an additional 3,586 beds under development at seven facilities, including an expansion and renovation of one vacant facility which is Company owned and the expansions of six facilities which it currently operates.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States. The significant accounting policies of the Company are described below.

Fiscal Year

The Company’s fiscal year ends on the Sunday closest to the calendar year end. Fiscal years 2008, 2007 and 2006 each included 52 weeks. The Company reports the results of its South African equity affiliate, South African Custodial Services Pty. Limited, (“SACS”), and its consolidated South African entity, South African Custodial Management Pty. Limited (“SACM”) on a calendar year end, due to the availability of information.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and all controlled subsidiaries. Investments in 50% owned affiliates, which the Company does not control, are accounted for under the equity method of accounting. Intercompany transactions and balances have been eliminated in consolidation.

Reclassifications

Certain prior year amounts related to discontinued operations have been reclassified to conform to current year presentation. See Note 3.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company’s significant estimates include reserves for self-insured retention related to general liability insurance, workers’ compensation insurance, auto liability insurance, employer group health insurance, percentage of completion and estimated cost to complete for construction projects, stock based compensation, and allowance for doubtful accounts. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While the Company believes that such estimates are reasonable when considered in conjunction with the consolidated financial statements taken as a whole, the actual amounts of such estimates, when known, will vary from these estimates. If actual results significantly differ from the Company’s estimates, the Company’s financial condition and results of operations could be materially impacted.

Fair Value of Financial Instruments

For the Company’s 81/4% Senior Unsecured Notes, the stated value and fair value based on observable market data for similar securities was \$150.0 million and \$131.3 million, respectively, at December 28, 2008. For the Company’s non-recourse debt related to the South Texas Detention Complex and Northwest Detention Center, the combined stated value and fair value based on observable market data for similar securities was \$78.4 million and \$68.4 million, respectively, at December 28, 2008.

Cash and Cash Equivalents

Cash and cash equivalents include all interest-bearing deposits or investments with original maturities of three months or less. The Company maintains cash and cash equivalents with various financial institutions. These financial institutions

are located throughout the United States, Australia, South Africa, Canada and the United Kingdom. A significant portion of the Company’s unrestricted cash held at the Company and its subsidiaries is maintained with a small number of banks and, accordingly, the Company is subject to credit risk.

Accounts Receivable

The Company extends credit to the governmental agencies it contracts with and other parties in the normal course of business as a result of billing and receiving payment for services thirty to sixty days in arrears. Further, the Company regularly reviews outstanding receivables, and provides estimated losses through an allowance for doubtful accounts. In evaluating the level of established loss reserves, the Company makes judgments regarding its customers’ ability to make required payments, economic events and other factors. As the financial condition of these parties change, circumstances develop or additional information becomes available, adjustments to the allowance for doubtful accounts may be required. The Company also performs ongoing credit evaluations of customers’ financial condition and generally does not require collateral. The Company maintains reserves for potential credit losses, and such losses traditionally have been within its expectations.

Notes Receivable

Immediately following the purchase of Correctional Services Corporation (“CSC”) in November 2005, the Company sold Youth Services International, Inc., (“YSI”) the former juvenile services division of CSC, for \$3.8 million, \$1.8 million of which was paid in cash and the remaining \$2.0 million of which was paid in the form of a promissory note accruing interest at a rate of 6% per annum. Subsequently, during 2006, the Company received approximately \$2.0 million in additional sales proceeds, consisting of approximately \$1.5 million in cash and a \$0.5 million increase in the promissory note related to the final purchase price of YSI. The balance of the note was paid in November 2008. The balance of \$1.0 million as of December 30, 2007 is included in accounts receivable in the consolidated balance sheet for 2007.

The Company has notes receivable from its former joint venture partner in the United Kingdom related to a subordinated loan extended to the joint venture partner while an active member of the partnership. The balance outstanding as of December 28, 2008 and December 30, 2007 was \$3.4 million and \$5.1 million, respectively. The notes bear interest at a rate of 13%, have semi-annual payments due June 15 and December 15 through June 2018.

Inventories

Food and supplies inventories are carried at the lower of cost or market, on a first-in first-out basis and are included in other current assets in the accompanying consolidated balance sheets. Uniform inventories are carried at amortized cost and are amortized over a period of eighteen months. The current portion of unamortized uniforms is included in other current assets and the long-term portion is included in “other non-current assets” in the accompanying consolidated balance sheets.

Restricted Cash

The Company has current and long-term restricted cash as of December 28, 2008 and December 30, 2007, presented as such in the accompanying balance sheets. These balances are primarily attributable to amounts held in escrow or in trust in connection with the 1,904-bed South Texas Detention Complex in Frio County, Texas and the 1,030-bed Northwest Detention Center in Tacoma, Washington. Additionally, the Company’s wholly owned Australian subsidiary financed a facility’s development and subsequent expansion in 2003 with long-term debt obligations, which are non-recourse to the Company. See Note 11.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Buildings and improvements are depreciated over 2 to 40 years. Equipment, furniture and fixtures are depreciated over 3 to 10 years. Accelerated methods of depreciation are generally used for income tax purposes. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the improvement or the term of the lease. The Company performs ongoing evaluations of the estimated useful lives of the property and equipment for depreciation purposes. The estimated useful lives are

determined and continually evaluated based on the period over which services are expected to be rendered by the asset. Maintenance and repairs are expensed as incurred. Interest is capitalized in connection with the construction of correctional and detention facilities. Capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset’s estimated useful life. During fiscal years ended 2008 and 2007, the Company capitalized \$4.3 million and \$2.9 million of interest expense, respectively.

Assets Held Under Capital Leases

Assets held under capital leases are recorded at the lower of the net present value of the minimum lease payments or the fair value of the leased asset at the inception of the lease. Amortization expense is recognized using the straight-line method over the shorter of the estimated useful life of the asset or the term of the related lease and is included in depreciation expense.

Long-Lived Assets

The Company reviews long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable in accordance with Financial Accounting Standard (“FAS”) No. 144 “Accounting for the Impairment or Disposal of Long-Lived Assets.” Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell. Events that would trigger an impairment assessment include deterioration of profits for a business segment that has long-lived assets, or when other changes occur, such as a contract termination, which might impair recovery of long-lived assets. In 2008, the Company announced the termination of certain of its management contracts and the closure of its transportation division in the United Kingdom. There were no significant impairments of long-lived assets accounted for under FAS 144 relative to this closure these contract terminations. Management has reviewed the Company’s long-lived assets and determined that there are no events requiring impairment loss recognition for the year ended December 28, 2008. See Notes 3 and 8.

Goodwill and Other Intangible Assets

Acquired intangible assets are separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented or exchanged, regardless of the Company’s intent to do so. The Company has intangible assets which it recorded in connection with its acquisition of CSC and also has recorded an intangible asset of \$1.9 million in connection with the purchase of additional shares in its consolidated joint venture (See Note 8). The Company’s intangible assets recorded in connection with the acquisition of CSC, have finite lives ranging from 4-17 years and are amortized using a straight-line method. The Company’s intangible asset related to the share purchase is amortized using the straight line method over the remaining life of the management contract. The Company reviews finite-lived intangible assets for impairment whenever an event occurs or circumstances change which indicate that the carrying amount of such assets may not be fully recoverable.

With the adoption of FAS No. 142, the Company’s goodwill is no longer amortized, but is subject to an annual impairment test. There was no impairment of goodwill associated with CSC or the Company’s Australian subsidiary as a result of the annual impairment tests completed as of the beginning of Fourth Quarters 2008 and 2007. In the fiscal year ended December 28, 2008, the Company wrote off goodwill of \$2.3 million associated with the termination of its transportation services business in the United Kingdom. See Notes 3 and 8.

Variable Interest Entities

The Company applies guidance of FAS Interpretation No. 46, revised (and amended in December 2008 by FSP 140-4 and FIN 46R-8) “Consolidation of Variable Interest Entities,” (FIN 46R) for all ventures deemed to be variable interest entities (“VIEs”). All other joint venture investments are accounted for under the equity method of accounting when the Company has a 20% to 50% ownership interest or exercises significant influence over the venture. If the Company’s interest exceeds 50% or in certain cases, if the Company exercises control over the venture, the results of the joint venture are consolidated herein.

The Company has determined its 50% owned South African joint venture in South African Custodial Services Pty. Limited, which the Company refers to as SACS, is a variable interest entity (“VIE”) in accordance with (FIN 46R) which addressed consolidation by a business of variable interest entities in which it is the primary beneficiary. SACS has a number of variable interest holders as defined in FIN 46R however, since the company does not have control of the SACS, the Company determined that it is not the primary beneficiary of SACS and as a result it is not required to consolidate SACS under FIN 46R. The Company accounts for SACS as an equity affiliate. SACS was established in 2001, to design, finance and build the Kutama Sinthumule Correctional Center. Subsequently, SACS was awarded a 25 year contract to design, construct, manage and finance a facility in Louis Trichardt, South Africa. SACS, based on the terms of the contract with the government, was able to obtain long-term financing to build the prison. The financing is fully guaranteed by the government, except in the event of default, for which it provides an 80% guarantee. The company’s maximum exposure for loss under this contract is limited to its investment in joint venture of \$6.2 million at December 28, 2008 and its guarantees related to SACS as disclosed in Note 11. Separately, SACS entered into a long-term operating contract with South African Custodial Management (Pty) Limited (“SACM”) to provide security and other management services and with SACS’ joint venture partner to provide purchasing, programs and maintenance services upon completion of the construction phase, which concluded in February 2002. The Company’s maximum exposure for loss under this contract is \$12.8 million, which represents the Company’s initial investment and related to the guarantees discussed in Note 11.

Also, in accordance with FIN 46R, as amended by FSP 140-4 and FIN 46R-8, the Company consolidates South Texas Local Development Corporation (“STLDC”) which was created in order to finance construction for the development of a 1,904-bed facility in Frio County, Texas. This entity issued \$49.5 million in taxable revenue bonds and has an operating agreement with STLDC, the owner of the complex, which provides it with the sole and exclusive right to operate and manage the detention center. The operating agreement and bond indenture require the revenue from the contract be used to fund the periodic debt service requirements as they become due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums are distributed to the Company to cover operating expenses and management fees. The Company is responsible for the entire operations of the facility including all operating expenses and is required to pay all operating expenses whether or not there are sufficient revenues. STLDC has no liabilities resulting from its ownership. The bonds have a ten-year term and are non-recourse to the Company and STLDC. The bonds are fully insured and the sole source of payment for the bonds is the operating revenues of the center. At the end of the ten-year term of the bonds, title and ownership of the facility transfers from STLDC to the Company. The Company has determined that it is the primary beneficiary of STLDC and consolidates the entity as a result.

Minority Interest in Income of Consolidated Subsidiary

The Company includes the results of operations and financial position of South African Custodial Management Pty. Limited (“SACM” or the “joint venture”), its majority-owned subsidiary, in its consolidated financial statements in accordance with FAS 94, “Consolidation of All Majority-Owned Subsidiaries”. SACM was established in 2001 to operate correctional centers in South Africa. The joint venture currently provides security and other management services for the Kutama Sinthumule Correctional Center in the Republic of South Africa under a 25-year management contract which commenced in February 2002. On October 29, 2008, the Company, along with one other joint venture partner, executed a Sale of Shares Agreement for the purchase of a portion of the remaining non-controlling shares of SACM which changed the Company’s share in the profits of the joint venture from 76.25% to 88.75%. All of the non-controlling shares of the third joint venture partner were allocated between the Company and the second joint venture partner on a pro rata basis based on their respective ownership percentages. As a result of the share purchase the Company recognized \$1.9 million in amortizable intangible assets. The minority interest in income of consolidated subsidiary represents the portion of the consolidated net income of the joint venture that is attributable to the joint venture partner.

Revenue Recognition

In accordance with Staff Accounting Bulletin (“SAB”) No. 101, “Revenue Recognition in Financial Statements”, as amended by SAB No. 104, “Revenue Recognition”, and related interpretations, facility management revenues are recognized as services are provided under facility management contracts with approved government appropriations based on a net rate per day per inmate or on a fixed monthly rate. Certain of the Company’s contracts have provisions upon which a portion of the revenue is based on its performance of certain targets, as defined in the specific contract.

In these cases, the Company recognizes revenue when the amounts are fixed and determinable and the time period over which the conditions have been satisfied has lapsed. In many instances, the Company is party to more than one contract with a single entity. In these instances, each contract is accounted for separately.

Project development and design revenues are recognized as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to estimated total cost for each contract. This method is used because the Company considers costs incurred to date to be the best available measure of progress on these contracts. Provisions for estimated losses on uncompleted contracts and changes to cost estimates are made in the period in which the Company determines that such losses and changes are probable. Typically, the Company enters into fixed price contracts and does not perform additional work unless approved change orders are in place. Costs attributable to unapproved change orders are expensed in the period in which the costs are incurred if the Company believes that it is not probable that the costs will be recovered through a change in the contract price. If the Company believes that it is probable that the costs will be recovered through a change in contract price, costs related to unapproved change orders are expensed in the period in which they are incurred, and contract revenue is recognized to the extent of the costs incurred. Revenue in excess of the costs attributable to unapproved change orders is not recognized until the change order is approved. Contract costs include all direct material and labor costs and those indirect costs related to contract performance. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements, may result in revisions to estimated costs and income, and are recognized in the period in which the revisions are determined.

When evaluating multiple element arrangements, the Company follows the provisions of Emerging Issues Task Force (EITF) Issue 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). EITF 00-21 provides guidance on determining if separate contracts should be evaluated as a single arrangement and if an arrangement involves a single unit of accounting or separate units of accounting and if the arrangement is determined to have separate units, how to allocate amounts received in the arrangement for revenue recognition purposes. In instances where the Company provides project development services and subsequent management services, the amount of the consideration from an arrangement is allocated to the delivered element based on the residual method and the elements are recognized as revenue when revenue recognition criteria for each element is met. The fair value of the undelivered elements of an arrangement is based on specific objective evidence.

Lease Revenue

In connection with the CPT acquisition in January 2007, the Company took ownership of two facilities that had existing leases with unrelated third parties. As a result of the ownership in these two leased facilities, the Company acts as the lessor relative to these two properties. The first lease has an initial term which expires in July 2013 with an option to terminate in July 2010. The second lease has a term of ten years and expires in January 2018. Both of these leases have options to extend for up to three additional five-year terms. The carrying value of these assets included in property and equipment at December 28, 2008 was \$53.0 million, net of accumulated depreciation of \$2.2 million. The Company also receives a small amount of rental income related to the sublease of an office space for which both the sublease and the Company’s obligation under the original lease expire November 2010. Rental income received on these leases for the fiscal year ended December 28, 2008 was \$5.7 million.

Fiscal Year	Annual Rental (In thousands)
2009	\$ 5,924
2010	5,324
2011	4,358
2012	4,489
2013	4,623
Thereafter	20,357
	\$ 45,075

Income Taxes

The Company accounts for income taxes in accordance with FAS No. 109, “Accounting for Income Taxes” (“FAS 109”) as clarified by Financial Accounting Standards Board (“FASB”) Interpretation No. 48, “Accounting for Uncertainty in Income Taxes (“FIN 48”). Under this method, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, the Company considers tax regulations of the jurisdictions in which it operates, estimates of future taxable income and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies varies, adjustments to the carrying value of the deferred tax assets and liabilities may be required. Valuation allowances are based on the “more likely than not” criteria of FAS 109.

FIN 48 requires that the Company recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely- than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding. The calculation of diluted earnings per share is similar to that of basic earnings per share, except that the denominator includes dilutive common share equivalents such as share options and restricted shares.

Direct Finance Leases

The Company accounts for the portion of its contracts with certain governmental agencies that represent capitalized lease payments on buildings and equipment as investments in direct finance leases. Accordingly, the minimum lease payments to be received over the term of the leases less unearned income are capitalized as the Company’s investments in the leases. Unearned income is recognized as income over the term of the leases using the effective interest method.

Reserves for Insurance Losses

The nature of the Company’s business exposes it to various types of third-party legal claims, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, contractual claims and claims for personal injury or other damages resulting from contact with the Company’s facilities, programs, personnel or prisoners, including damages arising from a prisoner’s escape or from a disturbance or riot at a facility. In addition, the Company’s management contracts generally require it to indemnify the governmental agency against any damages to which the governmental agency may be subject in connection with such claims or litigation. The Company maintains insurance coverage for these general types of claims, except for claims relating to employment matters, for which it carries no insurance.

The Company currently maintains a general liability policy and excess liability coverage policy for all U.S. corrections operations with limits of \$62.0 million per occurrence and in the aggregate, including a specific loss limit for medical professional liability of \$35.0 million. The Company’s wholly owned subsidiary, GEO Care, Inc., is separately insured for general liability and medical professional liability with a specific loss limit of \$35.0 million per occurrence and in the aggregate. The Company also maintains insurance to cover property and other casualty risks including, workers’ compensation, medical malpractice, environmental liability and automobile liability. For most casualty insurance policies, the Company carries substantial deductibles or self-insured retentions — \$3.0 million per occurrence for general liability and hospital professional liability, \$2.0 million per occurrence for workers’ compensation and \$1.0 million per occurrence for automobile liability. The Company’s Australian subsidiary is required to carry tail insurance on a general liability policy providing an extended reporting period through 2011 related to a discontinued contract. The Company also carries various types of insurance with respect to its operations in South Africa, United Kingdom and Australia. There can be no assurance that the Company’s insurance coverage will be adequate to cover all claims to which it may be exposed.

In addition, certain of the Company’s facilities located in Florida and determined by insurers to be in high-risk hurricane areas carry substantial windstorm deductibles. Since hurricanes are considered unpredictable future events, no reserves have been established to pre-fund for potential windstorm damage. Limited commercial availability of certain types of insurance relating to windstorm exposure in coastal areas and earthquake exposure mainly in California may prevent the Company from insuring some of its facilities to full replacement value.

Since the Company’s insurance policies generally have high deductible amounts or retentions, losses are recorded when reported and a further provision is made to cover losses incurred but not reported. Loss reserves are undiscounted and are computed based on independent actuarial studies. Because the Company is significantly self-insured, the amount of its insurance expense is dependent on its claims experience and its ability to control claims experience. If actual losses related to insurance claims significantly differ from management’s estimates, the Company’s financial condition and results of operations could be materially adversely impacted.

Debt Issuance Costs

Debt issuance costs totaling \$9.6 million and \$7.8 million at December 28, 2008, and December 30, 2007, respectively, are included in other non-current assets in the consolidated balance sheets and are amortized to interest expense using the effective interest method, over the term of the related debt.

Comprehensive Income

The Company’s comprehensive income is comprised of net income, foreign currency translation adjustments, net unrealized loss on derivative instruments, and pension liability adjustments in the Consolidated Statements of Shareholders’ Equity and Comprehensive Income.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents, trade accounts receivable, direct finance lease receivable, long-term debt and financial instruments used in hedging activities. The Company’s cash management and investment policies restrict investments to low-risk, highly liquid securities, and the Company performs periodic evaluations of the credit standing of the financial institutions with which it deals. As of December 28, 2008, and December 30, 2007, the Company had no significant concentrations of credit risk except as disclosed in Note 15.

Foreign Currency Translation

The Company’s foreign operations use their local currencies as their functional currencies. Assets and liabilities of the operations are translated at the exchange rates in effect on the balance sheet date and shareholders’ equity is translated at historical rates. Income statement items are translated at the average exchange rates for the year. The impact of foreign currency fluctuation is included in shareholders’ equity as a component of accumulated other comprehensive income, net of income tax, and totaled \$10.7 million, \$2.9 million and \$3.8 million for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, respectively. The cumulative income (loss) on foreign currency translation

recorded as a component of shareholders’ equity as of December 28, 2008 and December 30, 2007 was (\$5.8) million and \$4.9 million, respectively.

Vacation Policy

The Company accounts for its vacation expense in accordance with FAS 43, “Accounting for Compensated Absences”. Certain of the Company’s employees are permitted to carry forward vacation from year to year provided that the Company’s obligation to compensate employees for absences relates to rights attributable to services already rendered, the compensated absences relate to time that vests and accumulates and payment is probable and reasonably estimable. Accrued expense for employee rights to receive payment for compensated absences is included in the accompanying balance sheets in accrued payroll and related taxes. During the fiscal year ended December 28, 2008, the Company changed its vacation policy for certain employees which conformed to a fiscal year-end based policy. Under the new policy, these employees are permitted to use vacation regardless of their service rendered but within the fiscal year. Since this vacation is not carried over from year to year, it is not longer accrued by the Company. The Company’s vacation expense for the fiscal year ended December 28, 2008 was \$3.7 million less than the Company’s vacation expense for the fiscal year ended December 30, 2007. This decrease in expense is primarily attributable to this change.

Fair Value Measurements

The Company partially adopted FAS No. 157, “Fair Value Measurements” on December 31, 2007 (see discussion on FASB FSP 157-2 following). This Statement establishes a framework for measuring fair value in accordance with GAAP and expands disclosures about fair value measurements. The Company determines fair value based on quoted market prices in active markets for identical assets or liabilities. If quoted market prices are not available, the Company uses valuation techniques that place greater reliance on observable inputs and less reliance on unobservable inputs. In measuring fair value, the Company may make adjustments for risks and uncertainties, if a market participant would include such an adjustment in pricing. Relative to FAS 157, in February 2008, the FASB issued FSP FAS 157-2, “Effective Date of FASB Statement No. 157” (“FSP 157-2”) to provide a one-year deferral of the effective date of FAS 157 for non-financial assets and non-financial liabilities. This FSP defers the effective date of FAS 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of this FSP. As a result of the issuance of FSP 157-2, the Company elected to defer the adoption of FAS 157 for non-financial assets and non-financial liabilities. The Company does not expect that the adoption of this standard for non-financial assets and liabilities will have a significant impact on its financial condition, results of operations or cash flows. See Note 9.

Financial Instruments

In accordance with FAS No. 133, “Accounting for Derivative Instruments and Hedging Activities,” and its related interpretations and amendments, the Company records derivatives as either assets or liabilities on the balance sheet and measures those instruments at fair value. For derivatives that are designed as and qualify as effective cash flow hedges, the portion of gain or loss on the derivative instrument effective at offsetting changes in the hedged item is reported as a component of accumulated other comprehensive income and reclassified into earnings when the hedged transaction affects earnings. Total accumulated other comprehensive income, net of tax, related to these cash flow hedges was \$0.1 million and \$5.0 million as of December 28, 2008 and December 30, 2007, respectively. For derivative instruments that are designated as and qualify as effective fair value hedges, the gain or loss on the derivative instrument as well as the offsetting gain or loss on the hedged item attributable to the hedged risk is recognized in current earnings as interest income (expense) during the period of the change in fair values.

The Company formally documents all relationships between hedging instruments and hedge items, as well as its risk-management objective and strategy for undertaking various hedge transactions. This process includes attributing all derivatives that are designated as cash flow hedges to floating rate liabilities and attributing all derivatives that are designated as fair value hedges to fixed rate liabilities. The Company also assesses whether each derivative is highly effective in offsetting changes in the cash flows of the hedged item. Fluctuations in the value of the derivative instruments are generally offset by changes in the hedged item; however, if it is determined that a derivative is not highly effective as a hedge or if a derivative ceases to be a highly effective hedge, the Company will discontinue hedge accounting prospectively for the affected derivative.

Stock-Based Compensation Expense

The Company recognizes stock based compensation expense in accordance with FAS No. 123R, “Share-Based Payment”. Accordingly, the Company recognizes the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards. The Company uses a Black-Scholes option valuation model to estimate the fair value of each option awarded. The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized.

The fair value of stock-based awards was estimated using the Black-Scholes option-pricing model with the following weighted average assumptions for fiscal years ending 2008, 2007 and 2006, respectively:

	2008	2007	2006
Risk free interest rates	2.87 %	4.8 %	4.65 %
Expected term	4-5 years	4-5 years	3-4 years
Expected volatility	41 %	40 %	41 %
Expected dividend	—	—	—

Expected volatilities are based on the historical and implied volatility of the Company’s common stock. The Company uses historical data to estimate award exercises and employee terminations within the valuation model. The expected term of the awards represents the period of time that awards granted are expected to be outstanding and is based on historical data and expected holding periods. The risk-free rate is based on the rate for five year U.S. Treasury Bonds, which is consistent with the expected term of the awards. See Note 2.

Recent Accounting Pronouncements

In December 2008, the FASB issued FASB Staff Position (FSP) FAS 140-4 and FIN 46(R)-8, Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities. The document increases disclosure requirements for public companies and is effective for reporting periods (interim and annual) that end after December 15, 2008. This FSP amends FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, to require public entities to provide additional disclosures about transfers of financial assets. It also amends FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities, to require public enterprises, including sponsors that have a variable interest in a variable interest entity, to provide additional disclosures about their involvement with variable interest entities. The Company adopted this standard in the reporting period ended December 28, 2008 and its impact was not material on the Company’s financial position, results of operations or its financial statement disclosures.

In May 2008, the FASB issued FAS No. 162, The Hierarchy of Generally Accepted Accounting Principles” which identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This statement is effective 60 days following the SEC’s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, “ The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles”. The Company does not expect that the adoption of this pronouncement will have a significant impact on its financial condition, results of operations and cash flows.

In April 2008, the FASB issued Financial Staff Position 142-3, “Determination of the Useful Life of Intangible Assets” (“FSP 142-3”) which amends the factors that must be considered when developing renewal or extension assumptions used to determine the useful life over which to amortize the cost of a recognized intangible asset under FAS 142, “Goodwill and Other Intangible Assets”. This statement amends paragraph 11(d) of FAS 142 to require an entity to consider its own assumptions about renewal or extension of the term of the arrangement, consistent with its expected use of the asset. This statement is effective for financial statements in fiscal years beginning after December 15, 2008. The Company does not expect that the adoption of this pronouncement will have a significant impact on its financial condition, results of operations or cash flows.

In March 2008, the FASB issued FAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133” (“FAS 161”). FAS 161 applies to all derivative instruments accounted for under FAS 133 and requires entities to provide greater transparency about (i) how and why an entity uses derivative instruments, (ii) how derivative instruments are accounted for under FAS 133 and related interpretations, and (iii) how derivative instruments and related hedged items affect an entity’s financial position, results of operations and cash flows. This guidance is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early adoption encouraged. The Company does not expect that the adoption of this pronouncement will have a significant impact on its financial condition, results of operations and cash flows.

In December 2007, the FASB issued FAS No. 141(R) “Applying the Acquisition Method” (“FAS 141R”), which is effective for fiscal years beginning after December 15, 2008. This statement retains the fundamental requirements in FAS 141 that the acquisition method be used for all business combinations and for an acquirer to be identified for each business combination. FAS 141R broadens the scope of FAS 141 by requiring application of the purchase method of accounting to transactions in which one entity establishes control over another entity without necessarily transferring consideration, even if the acquirer has not acquired 100% of its target. Among other changes, FAS 141R applies the concept of fair value and “more likely than not” criteria to accounting for contingent consideration, and preacquisition contingencies. As a result of implementing the new standard, since transaction costs would not be an element of fair value of the target, they will not be considered part of the fair value of the acquirer’s interest and will be expensed as incurred. The Company does not expect that the impact of this standard will have a significant effect on its financial condition, results of operations and cash flows.

In December 2007, the FASB issued FAS No. 160, “Accounting for Noncontrolling Interests” (FAS 160), which is effective for fiscal years beginning after December 15, 2008. In December 2008, the FASB also issued EITF 08-10 “Selected Statement 160 Implementation Questions”. FAS 160 amends ARB No. clarifies the classification of noncontrolling interests in the consolidated statements of financial position and the accounting for and reporting of transactions between the reporting entity and the holders of non-controlling interests. The Company does not expect that the adoption of this standard will have a significant impact on its financial condition, results of operations and cash flows.

2. Equity Incentive Plans

In accordance with the modified prospective method of adoption under FAS No. 123R, “Share-based Payment” (“FAS 123R”), the Company recognizes compensation cost for all stock options granted after January 1, 2006, plus any prior awards granted to employees that remained unvested at that time, using a Black-Scholes option valuation model to estimate the fair value of each option awarded. The Company regularly reviews its actual forfeitures to determine future estimates. The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized.

The Company had awards outstanding under four equity compensation plans at December 28, 2008: The Wackenhut Corrections Corporation 1994 Stock Option Plan (the “1994 Plan”); the 1995 Non-Employee Director Stock Option Plan (the “1995 Plan”); the Wackenhut Corrections Corporation 1999 Stock Option Plan (the “1999 Plan”); and The GEO Group, Inc. 2006 Stock Incentive Plan (the “2006 Plan” and, together with the 1994 Plan, the 1995 Plan and the 1999 Plan, the “Company Plans”).

On May 1, 2007, the Company’s Board of Directors adopted and its shareholders approved several amendments to the 2006 Plan, including an amendment providing for the issuance of an additional 500,000 shares of the Company’s common stock which increased the total amount available for grant to 1,400,000 shares pursuant to awards granted under the plan and specifying that up to 300,000 of such additional shares may constitute awards other than stock options and stock appreciation rights, including shares of restricted stock. See “Restricted Stock” below for further discussion.

Except for 750,000 shares of restricted stock issued under the 2006 Plan as of December 28, 2008, all of the foregoing awards previously issued under the Company Plans consist of stock options. Although awards are currently outstanding under all of the Company Plans, the Company may only grant new awards under the 2006 Plan. As of December 28, 2008, the Company had the ability to issue awards with respect to 58,157 shares of common stock pursuant to the 2006 Plan.

Under the terms of the Company Plans, the vesting period and, in the case of stock options, the exercise price per share, are determined by the terms of each plan. All stock options that have been granted under the Company Plans are exercisable at the fair market value of the common stock at the date of the grant. Generally, the stock options vest and become exercisable ratably over a four-year period, beginning immediately on the date of the grant. However, the Board of Directors has exercised its discretion to grant stock options that vest 100% immediately for the Chief Executive Officer. In addition, stock options granted to non-employee directors under the 1995 Plan became exercisable immediately. All stock options awarded under the Company Plans expire no later than ten years after the date of the grant.

A summary of the activity of the Company’s stock options plans is presented below:

	Shares (In thousands)	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term	Aggregate Intrinsic Value (In thousands)
Options outstanding at December 30, 2007	2,770	\$ 7.15	5.0	\$ 58,698
Granted	254	17.97		
Exercised	(171)	4.39		
Forfeited/Canceled	(45)	23.84		
Options outstanding at December 28, 2008	2,808	\$ 8.03	4.6	\$ 29,751
Options exercisable at December 28, 2008	2,381	\$ 6.00	3.8	\$ 29,427

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (i.e., the difference between the company’s closing stock price on the last trading day of fiscal year 2008 and the exercise price, times the number of shares that are “in the money”) that would have been received by the option holders had all option holders exercised their options on December 28, 2008. This amount changes based on the fair value of the company’s stock. The total intrinsic value of options exercised during the fiscal years ended December 28, 2008, December 30, 2007, and December 31, 2006 was \$2.9 million, \$6.2 million, and \$9.5 million respectively.

For the years ended December 28, 2008 and December 30, 2007 and December 31, 2006, the amount of stock-based compensation expense related to stock options was \$1.5 million, \$0.9 million and \$0.4 million, respectively. The weighted average grant date fair value of options granted during the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006 was \$6.58, \$8.73 and \$3.22 per share, respectively.

The following table summarizes the status of the Company's non-vested shares as of December 28, 2008 and changes during the fiscal year ending December 28, 2008:

	Number of Shares	Wtd. Avg. Grant Date Fair Value
Options non-vested at December 30, 2007	397,662	\$ 7.94
Granted	254,000	6.60
Vested	(189,146)	6.28
Forfeited	(35,800)	11.49
Options non-vested at December 28, 2008	426,716	\$ 7.58

As of December 28, 2008, the Company had \$2.6 million of unrecognized compensation costs related to non-vested stock option awards that are expected to be recognized over a weighted average period of 2.8 years. The total fair value of shares vested during the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, was \$1.2 million, \$1.2 million, and \$0.6 million respectively. Proceeds received from stock options exercises for 2008, 2007 and 2006 was \$0.8 million, \$1.2 million and \$5.4 million, respectively. Tax benefits realized from tax deductions associated with option exercises and restricted stock activity for 2008, 2007 and 2006 totaled \$0.8 million, \$3.1 million and \$2.8 million, respectively.

The following table summarizes information about the exercise prices and related information of stock options outstanding under the Company Plans at December 28, 2008:

Exercise Price	Options Outstanding			Options Exercisable	
	Number Outstanding	Wtd. Avg Remaining Contractual Life	Wtd. Avg Exercise Price	Number Exercisable	Wtd. Avg Exercise Price
\$2.63 - \$2.81	239,500	1.2	2.81	239,500	2.81
\$3.10 - \$3.10	372,000	2.1	3.10	372,000	3.10
\$3.17 - \$3.98	157,019	4.1	3.20	157,019	3.20
\$4.67 - \$4.67	415,638	4.3	4.67	415,638	4.67
\$5.13 - \$5.13	657,000	3.1	5.13	657,000	5.13
\$5.30 - \$7.83	311,117	5.6	7.08	305,201	7.07
\$10.73 - \$20.63	297,400	9.2	16.54	94,600	15.26
\$21.56 - \$21.56	346,400	8.1	21.56	137,600	21.56
\$21.64 - \$21.64	2,000	8.1	21.64	800	21.64
\$28.24 - \$28.24	10,000	0.3	28.24	2,000	28.24
	2,808,074	4.6	8.03	2,381,358	6.00

Restricted Stock

Shares of restricted stock become unrestricted shares of common stock upon vesting on a one-for-one basis. The cost of these awards is determined using the fair value of the Company's common stock on the date of the grant and compensation expense is recognized over the vesting period. The shares of restricted stock granted under the 2006 Plan vest in equal 25% increments on each of the four anniversary dates immediately following the date of grant. A summary of the activity of restricted stock is as follows:

	Shares	Wtd. Avg. Grant date Fair value
Restricted stock outstanding at December 30, 2007	626,512	\$ 19.14
Granted	24,228	26.66
Vested	(176,600)	18.27
Forfeited/Canceled	(48,456)	22.48
Restricted stock outstanding at December 28, 2008	425,684	\$ 19.54

During the fiscal year ended December 28, 2008, December 30, 2007 and December 31, 2006, the Company recognized \$3.0 million, \$2.5 million and \$1.0 million, respectively, of compensation expense related to its outstanding shares of restricted stock. As of December 28, 2008, the Company had \$6.5 million of unrecognized compensation expense that is expected to be recognized over a weighted average period of 1.9 years.

3. Discontinued Operations

Under the provisions of FAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the termination of any of the Company's management contracts by expiration or otherwise, may result in the classification of the operating results of such facility, net of taxes, as a discontinued operation, so long as the financial results can be clearly identified, and so long as the Company does not have any significant continuing involvement in the operations of the component after the disposal or termination transaction. As of and during the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, the Company discontinued operations at certain of its domestic and international subsidiaries. The results of operations, net of taxes, and the assets and liabilities of these operations, each as further described below, have been reflected in the accompanying consolidated financial statements as discontinued operations in accordance with FAS 144 for the fiscal years ended 2008, 2007, and 2006. Assets, primarily consisting of accounts receivable, and liabilities have been presented separately in the accompanying consolidated balance sheets for all periods presented.

U.S. corrections. On November 7, 2008, the Company announced its receipt of notice for the discontinuation of its contract with the State of Idaho, Department of Correction ("Idaho DOC") for the housing of approximately 305 out-of-state inmates at the managed-only Bill Clayton Detention Center (the "Detention Center") effective January 5, 2009. On August 29, 2008, the Company announced its discontinuation of its contract with Delaware County, Pennsylvania for the management of the county-owned 1,883-bed George W. Hill Correctional Facility effective December 31, 2008.

International services. On December 22, 2008, the Company announced the closure of its U.K.-based transportation division, Recruitment Solutions International ("RSI"). The Company purchased RSI, which provided transportation services to The Home Office Nationality and Immigration Directorate, for approximately \$2.0 million in 2006. As a result of the termination of its transportation business in the United Kingdom, the company wrote off assets of \$2.6 million including goodwill of \$2.3 million.

GEO Care. On June 16, 2008, the Company announced the discontinuation by mutual agreement of its contract with the State of New Mexico Department of Health for the management of Fort Bayard Medical Center effective June 30, 2008. On January 1, 2006, the Company completed the sale of Atlantic Shores Hospital, a 72 bed private mental health hospital which the Company owned and operated since 1997, for approximately \$11.5 million.

The following are the revenues related to discontinued operations for the periods presented:

	2008	2007	2006
		(In thousands)	
Revenues — International services	\$ 1,806	\$ 2,326	\$ 414
Revenues — U.S. corrections	43,784	42,617	38,684
Revenues — GEO Care	1,806	4,546	3,345

4. Property and Equipment

Property and equipment consist of the following at fiscal year end:

	Useful Life (Years)	2008	2007
		(In thousands)	
Land	—	\$ 49,686	\$ 43,340
Buildings and improvements	2 to 40	765,103	635,809
Leasehold improvements	1 to 15	68,845	57,737
Equipment	3 to 10	55,007	44,895
Furniture and fixtures	3 to 7	9,033	6,819
Facility construction in progress		56,574	87,987
		\$ 1,004,248	\$ 876,587
Less accumulated depreciation and amortization		(125,632)	(93,224)
		\$ 878,616	\$ 783,363

The Company’s construction in progress primarily consists of development costs associated with the Facility construction and design segment for contracts with various federal, state and local agencies for which we have management contracts. Interest capitalized in property and equipment was \$4.3 million and \$2.9 million for the fiscal years ended December 28, 2008 and December 30, 2007, respectively.

Depreciation expense was \$31.9 million, \$29.8 million and \$19.2 million for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, respectively.

At both December 28, 2008 and December 30, 2007, the Company had \$18.2 million of assets recorded under capital leases including \$17.5 million related to buildings and improvements, \$0.6 million related to equipment \$0.1 million related to leasehold improvements. Accumulated amortization of \$3.1 million and \$2.2 million, at December 28, 2008 and December 30, 2007, respectively, is included in Depreciation and Amortization in the accompanying consolidated statements of income. Depreciation expense of capital leases for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006 was \$0.9 million, \$1.0 million and \$1.2 million, respectively.

5. Assets Held for Sale

The Company’s assets held for sale consist of two assets. On March 17, 2008, the Company purchased its former Coke County Juvenile Justice Center and the related land at a cost of \$3.1 million. The Company’s intention was to retain the facility and the related land for future business purposes and as such, no formal plan was entered into for the sale of the asset. In October 2008, the company established a formal plan to sell the asset. Secondly, in conjunction with the

acquisition of CSC, the Company acquired land and a building associated with a program that had been discontinued by CSC in October 2003. These assets which are included within the segment assets of U.S. Corrections, meet the criteria to be classified as held for sale per the guidance of FAS 144, and have been recorded at their net realizable value of \$4.3 million at December 28, 2008. No depreciation has been recorded related to these assets in accordance with FAS 144.

6. Investment in Direct Finance Leases

The Company’s investment in direct finance leases relates to the financing and management of one Australian facility. The Company’s wholly-owned Australian subsidiary financed the facility’s development with long-term debt obligations, which are non-recourse to the Company.

The future minimum rentals to be received are as follows:

Fiscal Year	Annual Repayment
	(In thousands)
2009	\$ 5,653
2010	5,700
2011	5,721
2012	5,747
2013	5,891
Thereafter	20,889
Total minimum obligation	\$ 49,601
Less unearned interest income	(15,844)
Less current portion of direct finance lease	(2,562)
Investment in direct finance lease	\$ 31,195

7. Derivative Financial Instruments

The Company’s primary objective in holding derivatives is to reduce the volatility of earnings and cash flows associated with changes in interest rates. The Company measures its derivative financial instruments at fair value in accordance with FAS No. 133, “Accounting for Derivative Instruments and Hedging Activities,” and its related interpretations and amendments.

Effective September 18, 2003, the Company entered into two interest rate swap agreements in the aggregate notional amount of \$50.0 million. The agreements, which have payment and expiration dates and call provisions that coincide with the terms of the \$150.0 million aggregate principal amount, ten-year, 8 1 / 4 % Senior Unsecured Notes (“Notes”), effectively convert \$50.0 million of the Notes into variable rate obligations. Under the agreements, the Company receives a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while the Company makes a variable interest rate payment to the same counterparties equal to the six-month London Interbank Offered Rate (“LIBOR”) plus a fixed margin of 3.55%, which was the rate at December 28, 2008, also calculated on the notional \$50.0 million amount. The Company has designated the swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. Accordingly, the changes in the fair value of the interest rate swaps are recorded in earnings along with related designated changes in the value of the Notes. Total net (losses) gains recognized and recorded in earnings related to these fair value hedges were \$2.0 million, \$1.7 million and (\$0.7) million for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, respectively. As of December 28, 2008 and December 30, 2007, the fair value of the swaps totaled approximately \$2.0 million and \$0, respectively, and is included in other non-current assets and as an adjustment to the carrying value of the Notes in the accompanying consolidated balance sheets. There was no material ineffectiveness in this interest rate swap during the period ended December 28, 2008. (See Note 18).

The Company’s Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. The Company has determined the swap, which has a notional amount of \$50.9 million, payment and expiration dates, and call provisions that coincide with the terms of the non-recourse debt to be an effective cash flow hedge. Accordingly, the Company records the change in the value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. Total net (loss) gain recognized in the periods and recorded in accumulated other comprehensive income, net of tax, related to these cash flow hedges was (\$3.5) million, \$1.3 million and \$2.6 million for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006, respectively. The total value of the swap asset as of December 28, 2008 and December 30, 2007 was approximately \$0.2 million and \$5.8 million, respectively, and is recorded as a component of other assets in the accompanying consolidated balance sheets.

There was no material ineffectiveness of the Company’s interest rate swaps for the fiscal years presented. The Company does not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings or losses associated with this swap currently reported in accumulated other comprehensive income (loss).

8. Goodwill and Other Intangible Assets, Net

Changes in the Company’s goodwill balances for 2008 were as follows (in thousands):

	Balance as of December 31, 2007	Goodwill Resulting from Business Combination	Foreign Currency Translation	Balance as of December 28, 2008
U.S. corrections	\$ 21,709	\$ (17)	\$ —	\$ 21,692
International services	652	—	(142)	510
Total Segments	\$ 22,361	\$ (17)	\$ (142)	\$ 22,202

Recruitment Solutions International (“RSI”). On December 22, 2008, the Company announced the closure of its U.K.-based transportation division, Recruitment Solutions International (“RSI”). The Company purchased RSI, which provided transportation services to The Home Office Nationality and Immigration Directorate, for approximately \$2.0 million in 2006. As a result of the termination of the transportation business in the United Kingdom, the Company wrote off assets of \$2.6 million including the carrying amount of goodwill of \$2.3 million. The balance of goodwill is included in assets of discontinued operations as of the prior fiscal year ended December 30, 2007.

International services goodwill decreased \$0.1 million as a result of unfavorable fluctuations in foreign currency translation.

Intangible assets consisted of the following (in thousands):

	Useful Life in Years	2008	2007
U.S. corrections - Facility Management Contracts	7 - 17	\$ 14,450	\$ 14,550
International services - Facility Management Contract	18	1,875	—
U.S. Corrections - Covenants not to compete	4	1,470	1,470
		\$ 17,795	\$ 16,020
Less Accumulated Amortization		(5,402)	(3,705)
Net book value of amortizable intangible assets		\$ 12,393	\$ 12,315

During the fiscal year ended December 28, 2008, the Company purchased an additional ownership percentage in its consolidated joint venture and accounted for the excess of the purchase price over the value of the minority interest in accordance with FAS 141, Business Combinations (“FAS 141”). As a result of the share purchase, the Company recorded an amortizable intangible asset of \$1.9 million which will be amortized using the straight-line method over the life of the contract.

Amortization expense was \$1.4 million, \$1.8 million and \$1.4 million for U.S. corrections facility management contracts for the fiscal years ended 2008, 2007 and 2006, respectively. Amortization expense was \$0.4 million, \$0.4 million, and \$0.4 million for U.S. corrections covenants not to compete for the fiscal years ended 2008, 2007 and 2006, respectively. The Company’s weighted average useful life related to its intangible assets is 12.55 years. Amortization expense is recognized on a straight-line basis over the estimated useful life of the intangible assets.

In April 2008, we terminated our contract with Tri-County Justice and Detention Center. This management contract had an associated intangible asset of \$0.1 million which was written off in fiscal 2008. In July 2007, the Company cancelled the Operating and Management contract with Dickens County for the management of the 489-bed facility located in Spur, Texas. As a result, the Company wrote off its intangible asset related to the facility of \$0.4 million (net of accumulated amortization of \$0.1 million). These impairment charges are included in depreciation and amortization expense in the accompanying consolidated statements of income for the fiscal years ended December 28, 2008 and December 30, 2007, respectively.

Estimated amortization expense for fiscal year 2009 through fiscal year 2013 and thereafter are as follows (in thousands):

Fiscal Year	U.S. corrections - Expense Amortization	International services - Expense Amortization	Total Expense Amortization
2009	\$ 1,641	\$ 103	\$ 1,744
2010	1,335	103	1,438
2011	1,335	103	1,438
2012	1,214	103	1,317
2013	606	103	709
Thereafter	4,403	1,344	5,747
	\$ 10,534	\$ 1,859	\$ 12,393

9. Fair Value of Assets and Liabilities

In February 2007, the Financial Accounting Standards Board (“FASB”) issued FAS No. 159, “Fair Value Option” which provides companies an irrevocable option to report selected financial assets and liabilities at fair value. This Statement was effective for entities as of the beginning of the first fiscal year beginning after November 15, 2007. The Company did not exercise the irrevocable option to change the reporting for any of its assets or liabilities not already accounted for using fair value. There was no impact on the Company’s financial condition, results of operations, cash flows or disclosures as a result of the adoption of this standard.

In September 2006, the FASB issued FAS No. 157, “Fair Value Measurements,” (“FAS 157”), which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. The Company adopted FAS 157 on December 31, 2007 with the exception of the application of the statement to non-recurring non-financial assets and non-financial liabilities (see discussion related to FSP 157-2). This statement defines fair value, establishes a

framework for measuring fair value and expands the related disclosure requirements. This statement applies under other accounting pronouncements that require or permit fair value measurements. FAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels which distinguish between assumptions based on market data (observable inputs) and the Company’s assumptions (unobservable inputs). The level in the fair value hierarchy within which the respective fair value measurement falls is determined based on the lowest level input that is significant to the measurement in its entirety. Level 1 inputs are quoted market prices in active markets for identical assets or liabilities, Level 2 inputs are other than quotable market prices included in Level 1 that are observable for the asset or liability either directly or indirectly through corroboration with observable market data. Level 3 inputs are unobservable inputs for the assets or liabilities that reflect management’s own assumptions about the assumptions market participants would use in pricing the asset or liability.

Relative to FAS 157, in February 2008, the FASB issued FSP FAS 157-2, “Effective Date of FASB Statement No. 157” (“FSP 157-2”) to provide a one-year deferral of the effective date of FAS 157 for non-financial assets and non-financial liabilities. This FSP defers the effective date of FAS 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of this FSP. As a result of the issuance of FSP 157-2, the Company has elected to defer the adoption of this standard for non-financial assets and non-financial liabilities. The Company does not expect that the adoption of this standard for non-financial assets and liabilities will have a significant impact on its financial condition, results of operations or cash flows.

The following table provides the Company’s significant assets carried at fair value measured on a recurring basis as of December 28, 2008 (in thousands):

Fairvalue measurements at December 28, 2008				
Total Carrying Value at December 28, 2008	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Interest Rate Swap				
Derivative assets	\$ 2,213	\$ —	\$ 2,213	\$ —
Investments other than derivatives	15,827	14,495	1,332	—
	\$ 18,040	\$ 14,495	\$ 3,545	\$ —

Valuation technique

The Company’s assets carried at fair value on a recurring basis consist of interest rate swap derivative assets, U.S. dollar denominated money market accounts and long-term investments. Where applicable, the Company uses quoted prices in active markets for identical assets to determine fair value. This pricing methodology applies to the Company’s Level 1 U.S. dollar denominated money market accounts. If quoted prices in active markets for identical assets are not available to determine fair value, then the Company uses quoted prices for similar assets or inputs other than the quoted prices that are observable either directly or indirectly. These investments are included in Level 2 and consist of interest rate swap derivative assets and a long-term investments. The changes in value of the money market accounts, long term investment and the fair value interest rate swaps are recorded in interest income or expense. Changes in the value of the Company’s cash flow hedge are recorded in other comprehensive income. The net unrealized gain (loss) in the cash flow hedges for the years ended December 28, 2008, December 30, 2007 and December 31, 2006 were (\$3.5) million, \$1.3 million and \$2.6 million respectively. The Company does not have any Level 3 assets or liabilities upon which the value is based on unobservable inputs reflecting the Company’s assumptions.

The Company does not have any assets and liabilities it measures at fair value on a non-recurring basis other than those assets that are assessed for impairment under the provisions of FAS No. 144. There are no assets or liabilities that the Company recognizes or discloses at fair value for which the entity has not applied the provisions of FAS No. 157. The Company did not record any significant impairment charges to long-lived assets during the fiscal years 2008, 2007 and 2006. See Notes 3 and 8.

10. Accrued Expenses

Accrued expenses consisted of the following (dollars in thousands):

	2008	2007
Accrued interest	\$ 8,539	\$ 8,586
Accrued bonus	7,838	8,687
Accrued insurance	30,261	29,099
Accrued taxes	8,783	8,368
Construction retainage	7,866	11,897
Other	19,155	18,861
Total	\$ 82,442	\$ 85,498

11. Debt

Debt consisted of the following (dollars in thousands):

	2008	2007
Capital Lease Obligations	\$ 15,800	\$ 16,621
Senior Credit Facility:		
Term loan	158,613	162,263
Revolver	74,000	—
Total Senior Credit Facility	\$ 232,613	\$ 162,263
Senior 8¼% Notes:		
Notes Due in 2013	150,000	150,000
Discount on Notes	(2,553)	(2,984)
Swap on Notes	2,010	(6)
Total Senior 8¼% Notes	\$ 149,457	\$ 147,010
Non-Recourse Debt:		
Non-recourse debt	\$ 116,505	\$ 140,926
Discount on bonds	(2,298)	(2,973)
Total non-recourse debt	114,207	137,953
Other debt	56	83
Total debt	\$ 512,133	\$ 463,930
Current portion of capital lease obligations, long-term debt and non-recourse debt	(17,925)	(17,477)
Capital lease obligations, long-term portion	(15,126)	(15,800)
Non-recourse debt	(100,634)	(124,975)
Long-term debt	\$ 378,448	\$ 305,678

The Senior Credit Facility

On October 29, 2008 and again on November 20, 2008, the Company exercised the accordion feature of its Senior Secured Credit Facility, which was amended on August 26, 2008 (see discussion below), to add \$85.0 million and an additional \$5.0 million, respectively, for a total of \$90.0 million in additional borrowing capacity under the revolving portion of the Senior Credit Facility. As of December 28, 2008, the Senior Credit Facility consisted of a \$365.0 million, seven-year term loan (“Term Loan B”), and a \$240.0 million five-year revolver which expires September 14, 2010 (the “Revolver”). The interest rate for the Term Loan B is LIBOR plus 1.5% (the weighted average rate on outstanding borrowings under the Term Loan portion of the facility as of December 28, 2008 was 3.16%). The Revolver currently bears interest at LIBOR plus 2.0% or at the base rate (prime rate) plus 1.0%. The weighted average interest rate on outstanding borrowings under the Senior Credit Facility was 3.24% as of December 28, 2008.

As of December 28, 2008, the Company had \$158.6 million outstanding under the Term Loan B, and the Company’s \$240.0 million Revolver had \$74.0 million outstanding in loans, \$44.7 million outstanding in letters of credit and \$121.3 million available for borrowings. The Company intends to use future borrowings from the Revolver for the purposes permitted under the Senior Credit Facility, including for general corporate purposes.

Indebtedness under the Revolver bears interest in each of the instances below at the stated rate:

	Interest Rate under the Revolver
LIBOR borrowings	LIBOR plus 1.50% to 2.50%.
Base rate borrowings	Prime rate plus 0.50% to 1.50%.
Letters of credit	1.50% to 2.50%.
Available borrowings	0.38% to 0.50%.

On August 26, 2008, the Company completed a fourth amendment to its senior secured credit facility through the execution of Amendment No. 4 to the Amended and Restated Credit Agreement (“Amendment No. 4”) between the Company, as Borrower, certain of the Company’s subsidiaries, as Grantors, and BNP Paribas, as Lender and as Administrative Agent (collectively, the “Senior Credit Facility” or the “Credit Agreement”). As further described below, Amendment No. 4 revises certain leverage ratios, eliminates the fixed charge ratio, adds a new interest coverage ratio and sets forth new capital expenditure limits under the Credit Agreement. Additionally, Amendment No. 4 permits the Company to add incremental borrowings under the accordion feature of the Senior Credit Facility of up to \$150.0 million on or prior to December 31, 2008 and up to an additional \$150.0 million after December 31, 2008. Amendment No. 4 does not require any lenders to make any new borrowings under the accordion feature but simply provides a mechanism under the Senior Credit Facility after December 31, 2008 for the Company to incur such borrowings without requiring further lender consent. Any additional borrowings by the Company under the accordion feature of the Senior Credit Facility, whether as revolving borrowings or incremental term loans as permitted in the Amendment No. 4, would be subject to lender demand and market conditions and may not be available to the Company on satisfactory terms, or at all. The Company believes that this amendment may provide additional flexibility if and when it should decide to activate the accordion feature of the Senior Credit Facility beginning on January 1, 2009.

In 2008, the Company paid \$1.0 million and \$2.6 million of debt issuance costs related to the Amendment No. 4 and to the exercise of the accordion feature, respectively, which will be amortized over the remaining term of the Revolver portion of the Senior Credit Facility.

Amendment No. 4 to the Credit Agreement requires the Company to maintain the following Total Leverage Ratios, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period:

Period	Total Leverage Ratio
Through the penultimate day of fiscal year 2009	≤ 4.50 to 1.00
From the last day of the fiscal year 2009 through the penultimate day of fiscal year 2010	≤ 4.25 to 1.00
From the last day of the fiscal year 2010 through the penultimate day of fiscal year 2011	≤ 3.25 to 1.00
Thereafter	≤ 3.00 to 1.00

Amendment No. 4 to the Credit Agreement also requires the Company to maintain the following Senior Secured Leverage Ratios, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period:

Period	Senior Secured Leverage Ratio
Through the penultimate day of fiscal year 2010	≤ 3.25 to 1.00
From the last day of the fiscal year 2010 through the penultimate day of fiscal year 2011	≤ 2.25 to 1.00
Thereafter	≤ 2.00 to 1.00

In addition, Amendment No. 4 to the Credit Agreement adds a new interest coverage ratio which requires the Company to maintain a ratio of EBITDA (as such term is defined in the Credit Agreement) to Interest Expense (as such term is defined in the Credit Agreement) payable in cash of no less than 3.00 to 1.00, as computed at the end of each fiscal quarter for the immediately preceding four quarter-period. The foregoing covenants replace the corresponding covenants previously included in the Credit Agreement, and eliminate the fixed charge coverage ratio formerly incorporated in the Credit Agreement.

Amendment No. 4 also amends the capital expenditure limits applicable to the Company under the Credit Agreement as follows:

Period	Capital Expenditure Limit
Fiscal year 2008	\$ 200.0 million
Fiscal year 2009	\$ 275.0 million
Each fiscal year thereafter	\$ 50.0 million

The foregoing limits are subject to the provision that to the extent that the Company’s capital expenditures during any fiscal year are less than the limit permitted for such fiscal year, the following maximum amounts will be added to the maximum capital expenditures that the Company can make in the following fiscal year: (i) up to \$30.0 million may be added to the fiscal year 2009 limit from unused amounts in fiscal year 2008; (ii) up to \$50.0 million may be added to the fiscal year 2010 limit from unused amounts in fiscal year 2009; or (iii) up to \$20.0 million may be added to the fiscal year 2011 limit, and to fiscal years thereafter, from unused amounts in the immediately prior fiscal years.

All of the obligations under the Senior Credit Facility are unconditionally guaranteed by each of the Company’s existing material domestic subsidiaries. The Senior Credit Facility and the related guarantees are secured by substantially all of the Company’s present and future tangible and intangible assets and all present and future tangible and intangible assets of each guarantor, as specified in the Credit Agreement. In addition, the Senior Credit Facility contains certain customary representations and warranties, and certain customary covenants that restrict the Company’s ability to be party to certain transactions, as further specified in the Credit Agreement. Events of default under the Senior Credit Facility include, but are not limited to, (i) the Company’s failure to pay principal or interest when due, (ii) the Company’s material breach of any representation or warranty, (iii) covenant defaults, (iv) bankruptcy, (v) cross default to certain other indebtedness, (vi) unsatisfied final judgments over a specified threshold, (vii) material environmental state of claims which are asserted against it, and (viii) a change of control. The Company believes it was in compliance with all of the covenants in the Senior Credit Facility as of December 28, 2008.

Senior 8¹/₄% Notes

In July 2003, to facilitate the completion of the purchase of 12.0 million shares from Group 4 Falck, the Company’s former majority shareholder, we issued \$150.0 million in aggregate principal amount, ten-year, 8 1 / 4 % senior unsecured notes (the “Notes”). The Notes are general, unsecured, senior obligations. Interest is payable semi-annually on January 15 and July 15 at 8 1 / 4 %. The Notes are governed by the terms of an Indenture, dated July 9, 2003, between the Company and the Bank of New York, as trustee, referred to as the Indenture. Additionally, after July 15, 2008, the

Company may redeem all or a portion of the Notes plus accrued and unpaid interest at various redemption prices ranging from 100.000% to 104.125% of the principal amount to be redeemed, depending on when the redemption occurs. The Indenture contains covenants that, among other things, limit the Company’s ability to incur additional indebtedness, pay dividends or distributions on its common stock, repurchase its common stock, and prepay subordinated indebtedness. The Indenture also limits the Company’s ability to issue preferred stock, make certain types of investments, merge or consolidate with another company, guarantee other indebtedness, create liens and transfer and sell assets. The Company believes it was in compliance with all of the covenants of the Indenture governing the Notes as of December 28, 2008.

The Notes are reflected net of the original issue discount of \$2.6 million as of December 28, 2008 which is being amortized over the ten-year term of the Notes using the effective interest method.

Non-Recourse Debt

South Texas Detention Complex:

The Company has a debt service requirement related to the development of the South Texas Detention Complex, a 1,904-bed detention complex in Frio County, Texas acquired in November 2005 from Correctional Services Corporation (“CSC”). CSC was awarded the contract in February 2004 by the Department of Homeland Security, U.S. Immigration and Customs Enforcement (“ICE”) for development and operation of the detention center. In order to finance its construction, South Texas Local Development Corporation (“STLDC”) was created and issued \$49.5 million in taxable revenue bonds. These bonds mature in February 2016 and have fixed coupon rates between 3.84% and 5.07%. Additionally, the Company is owed \$5.0 million of subordinated notes by STLDC which represents the principal amount of financing provided to STLDC by CSC for initial development.

The Company has an operating agreement with STLDC, the owner of the complex, which provides it with the sole and exclusive right to operate and manage the detention center. The operating agreement and bond indenture require the revenue from the contract with ICE be used to fund the periodic debt service requirements as they become due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums are distributed to the Company to cover operating expenses and management fees. The Company is responsible for the entire operations of the facility including all operating expenses and is required to pay all operating expenses whether or not there are sufficient revenues. STLDC has no liabilities resulting from its ownership. The bonds have a ten-year term and are non-recourse to the Company and STLDC. The bonds are fully insured and the sole source of payment for the bonds is the operating revenues of the center. At the end of the ten-year term of the bonds, title and ownership of the facility transfers from STLDC to the Company. The Company has determined that it is the primary beneficiary of STLDC and consolidates the entity as a result. The carrying value of the facility as of December 28, 2008 and December 30, 2007 was \$27.9 million and \$28.7 million, respectively and is included in property and equipment in the accompanying balance sheets.

On February 1, 2008, STLDC made a payment from its restricted cash account of \$4.3 million for the current portion of its periodic debt service requirement in relation to the STLDC operating agreement and bond indenture. As of December 28, 2008, the remaining balance of the debt service requirement under the STDLC financing agreement is \$41.1 million, of which \$4.4 million is due within the next twelve months. Also, as of December 28, 2008, included in current restricted cash and non-current restricted cash is \$6.2 million and \$10.9 million, respectively, of funds held in trust with respect to the STLDC for debt service and other reserves.

Northwest Detention Center

On June 30, 2003, CSC arranged financing for the construction of the Northwest Detention Center in Tacoma, Washington, referred to as the Northwest Detention Center, which was completed and opened for operation in April 2004. The Company began to operate this facility following its acquisition in November 2005. In connection with the original financing, CSC of Tacoma LLC, a wholly owned subsidiary of CSC, issued a \$57.0 million note payable to the Washington Economic Development Finance Authority, referred to as WEDFA, an instrumentality of the State of Washington, which issued revenue bonds and subsequently loaned the proceeds of the bond issuance back to CSC for the purposes of constructing the Northwest Detention Center. The bonds are non-recourse to the Company and the loan from WEDFA to CSC is non-recourse to the Company. These bonds mature in February 2014 and have fixed coupon rates between 3.20% and 4.10%.

The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves. On October 1, 2008, CSC of Tacoma LLC made a payment from its restricted cash account of \$5.4 million for the current portion of its periodic debt service requirement in relation to the WEDFA bid indenture. As of December 28, 2008, the remaining balance of the debt service requirement is \$37.3 million, of which \$5.7 million is classified as current in the accompanying balance sheet.

As of December 28, 2008, included in current restricted cash and non-current restricted cash is \$7.1 million and \$5.1 million, respectively, of funds held in trust with respect to the Northwest Detention Center for debt service and other reserves.

Australia

The Company’s wholly-owned Australian subsidiary financed the development of a facility and subsequent expansion in 2003 with long-term debt obligations. These obligations are non-recourse to the Company and total \$38.1 million and \$52.9 million at December 28, 2008 and December 30, 2007, respectively. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria. As a condition of the loan, the Company is required to maintain a restricted cash balance of AUD 5.0 million, which, at December 28, 2008, was approximately \$3.4 million. This amount is included in restricted cash and the annual maturities of the future debt obligation is included in non-recourse debt.

Debt repayment schedules under capital lease obligations, long-term debt and non-recourse debt are as follows:

Fiscal Year	Capital Leases	Long Term Debt	Non Recourse	Revolver	Term Loan	Total Annual Repayment
	(In thousands)					
2009	1,957	28	13,573	—	3,650	19,208
2010	1,932	28	14,101	74,000	3,650	93,711
2011	1,933	—	14,754	—	3,650	20,337
2012	1,933	—	15,427	—	3,650	21,010
2013	1,933	150,000	16,211	—	144,013	312,157
Thereafter	16,707	—	42,439	—	—	59,146
	\$ 26,395	\$ 150,056	\$ 116,505	\$ 74,000	\$ 158,613	\$ 525,569
Original issuer's discount	—	(2,553)	(2,298)	—	—	(4,851)

Interest imputed on Capital Leases	(10,595)	—	—	—	—	(10,595)
Interest rate swap		2,010				2,010
Non-current portion	\$ 15,126	\$ 149,485	\$ 100,634	\$ 74,000	\$ 154,963	\$ 494,208

Guarantees

In connection with the creation of South African Custodial Services Ltd., referred to as SACS, the Company entered into certain guarantees related to the financing, construction and operation of the prison. The Company guaranteed certain obligations of SACS under its debt agreements up to a maximum amount of 60.0 million South African Rand, or approximately \$6.2 million, to SACS’ senior lenders through the issuance of letters of credit. Additionally, SACS is required to fund a restricted account for the payment of certain costs in the event of contract termination. The Company has guaranteed the payment of 50% of amounts which may be payable by SACS into the restricted account and provided a standby letter of credit of 8.4 million South African Rand, or \$0.9 million, as security for its guarantee. The Company’s

obligations under this guarantee expire upon SACS’ release from its obligations in respect of the restricted account under its debt agreements. No amounts have been drawn against these letters of credit, which are included in the Company’s outstanding letters of credit under its Revolving Credit Facility.

The Company has agreed to provide a loan, of up to 20.0 million South African Rand, or approximately \$2.1 million, referred to as the Standby Facility, to SACS for the purpose of financing SACS’ obligations under its contract with the South African government. No amounts have been funded under the Standby Facility, and the Company does not currently anticipate that such funding will be required by SACS in the future. The Company’s obligations under the Standby Facility expire upon the earlier of full funding or SACS’s release from its obligations under its debt agreements. The lenders’ ability to draw on the Standby Facility is limited to certain circumstances, including termination of the contract.

The Company has also guaranteed certain obligations of SACS to the security trustee for SACS’ lenders. The Company secured its guarantee to the security trustee by ceding its rights to claims against SACS in respect of any loans or other finance agreements, and by pledging the Company’s shares in SACS. The Company’s liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract for a facility in Canada, the Company guaranteed certain potential tax obligations of a not-for-profit entity. The potential estimated exposure of these obligations is Canadian Dollar (“CAD”) 2.5 million, or approximately \$2.0 million, commencing in 2017. The Company has a liability of \$1.3 million and \$1.5 million related to this exposure as of December 28, 2008 and December 30, 2007, respectively. To secure this guarantee, the Company has purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. The Company has recorded an asset and a liability equal to the current fair market value of those securities on its consolidated balance sheet. The Company does not currently operate or manage this facility.

At December 28, 2008, the Company also had seven letters of guarantee outstanding under separate international facilities relating to performance guarantees of its Australian subsidiary totaling approximately \$5.3 million. The Company does not have any off balance sheet arrangements other than those previously disclosed.

12. Commitments and Contingencies

Operating Leases

The Company leases correctional facilities, office space, computers and transportation equipment under non-cancelable operating leases expiring between 2009 and 2028. The future minimum commitments under these leases are as follows:

Fiscal Year	Annual Rental (In thousands)
2009	\$ 16,510
2010	16,306
2011	13,205
2012	10,699
2013	10,078
Thereafter	49,406
	\$ 116,204

The Company’s corporate offices are located in Boca Raton, Florida, under a 10 1/2 -year lease which was renewed in October 2007. The current lease has two 5-year renewal options and expires in March 2018. In addition, The Company leases office space for its regional offices in Charlotte, North Carolina; New Braunfels, Texas; and Carlsbad, California. The Company also leases office space in Sydney, Australia, Sandton, South Africa, and Berkshire, England through its overseas affiliates to support its Australian, South African, and UK operations, respectively. These rental commitments

are included in the table above. Certain of these leases contain escalation clauses and as such, the Company has recognized the rental expense on a straight-line basis related to those leases.

Rent expense was \$27.7 million, \$22.5 million and \$25.7 million for fiscal years 2008, 2007 and 2006, respectively. On January 24, 2007, the Company completed its acquisition of CPT. As a result of the acquisition of CPT and the related facilities, the Company has no on going rent commitment for these facilities. Prior to the acquisition, the Company recorded net rental expense related to the CPT leases of \$23.0 million in 2006.

Litigation, Claims and Assessments

On September 15, 2006, a jury in an inmate wrongful death lawsuit in a Texas state court awarded a \$47.5 million verdict against the Company. In October 2006, the verdict was entered as a judgment against the Company in the amount of \$51.7 million. The lawsuit is being administered under the insurance program established by The Wackenhut Corporation, the Company’s former parent company, in which the Company participated until October 2002. Policies secured by the Company under that program provide \$55.0 million in aggregate annual coverage. As a result, the Company believes it is fully insured for all damages, costs and expenses associated with the lawsuit and as such has not recorded any reserves in connection with the matter. The lawsuit stems from an inmate death which occurred at the Company’s former Willacy County State Jail in Raymondville, Texas, in April 2001, when two inmates at the facility attacked another inmate. Separate investigations conducted internally by the Company, The Texas Rangers and the Texas Office of the Inspector General exonerated the Company and its employees of any culpability with respect to the incident. The Company believes that the verdict is contrary to law and unsubstantiated by the evidence. The Company’s insurance carrier has posted a supersedeas bond in the amount of approximately \$60.0 million to cover the judgment. On December 9, 2006, the trial court denied the Company’s post trial motions and the Company filed a notice of appeal on December 18, 2006. The appeal is proceeding. On March 26, 2008, oral arguments were made before the Thirteenth Court of Appeals, Corpus Christi, Texas (No. 13-06-00692-CV) which took the matter under advisement pending the issuance of its ruling. Currently, the appeal is still under review by the Thirteenth Court of Appeals and no ruling has been made.

In June 2004, the Company received notice of a third-party claim for property damage incurred during 2001 and 2002 at several detention facilities that its Australian subsidiary formerly operated. The claim relates to property damage caused by detainees at the detention facilities. The notice was given by the Australian government’s insurance provider and did not specify the amount of damages being sought. In August 2007, legal proceedings in this matter were formally commenced when the Company was served with notice of a complaint filed against it by the Commonwealth of Australia seeking damages of up to approximately AUD 18.0 million or \$12.3 million, plus interest. The Company believes that it has several defenses to the allegations underlying the litigation and the amounts sought and intends to vigorously defend its rights with respect to this matter. Although the outcome of this matter cannot be predicted with certainty, based on information known to date and the Company’s preliminary review of the claim, the Company believes that, if settled unfavorably, this matter could have a material adverse effect on its financial condition, results of operations and cash flows. The Company is uninsured for any damages or costs that it may incur as a result of this claim, including the expenses of defending the claim. The Company has established a reserve based on its estimate of the most probable loss based on the facts and circumstances known to date and the advice of legal counsel in connection with this matter.

On January 30, 2008, a lawsuit seeking class action certification was filed against the Company by an inmate at one of its facilities. The case is now entitled Allison and Hocevar v. The GEO Group, Inc. (Civil Action No. 08-467) and is pending in the U.S. District Court for the Eastern District of Pennsylvania. The lawsuit alleges that the Company has a companywide blanket policy at its immigration/detention facilities and jails that requires all new inmates and detainees to undergo a strip search upon intake into each facility. The plaintiff alleges that this practice, to the extent implemented, violates the civil rights of the affected inmates and detainees. The lawsuit seeks monetary damages for all purported class members, a declaratory judgment and an injunction barring the alleged policy from being implemented in the future. The Company believes it has several defenses to the allegations underlying this litigation, and the Company intends to vigorously defend its rights in this matter. In September 2008, the Company filed a motion for judgment on pleadings which may be dispositive of this matter as a result of a recent but significant development in the law regarding similar strip search practices. The District Court has, in the interim, stayed further discovery. Nevertheless, the Company

believes that, if resolved unfavorably, this matter may have a material adverse effect on its financial condition and results of operations. Discovery has recently commenced in connection with this matter.

On October 23, 2008, a wage and hour claim seeking potential class action certification was served against the Company. The case is styled *Mayes v. The GEO Group Inc.* (Civil Action No. 08-0248) and it is pending in the U.S. District Court for the Northern District of Florida, Panama City Division. The plaintiffs in this case have alleged that the Company violated the Fair Labor Standards Act by failing to pay certain employees for work performed before and after their scheduled shifts. The Company is in the preliminary stages of evaluating this claim but has preliminarily denied the plaintiffs’ assertions. Nevertheless, the Company cannot assure that, if resolved unfavorably, this matter would not have a material adverse effect on its financial condition, results of operations and cash flows.

The nature of the Company’s business exposes it to various types of claims or litigation against the Company, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, indemnification claims by its customers and other third parties, contractual claims and claims for personal injury or other damages resulting from contact with the Company’s facilities, programs, personnel or prisoners, including damages arising from a prisoner’s escape or from a disturbance or riot at a facility. Except as otherwise disclosed above, the Company does not expect the outcome of any pending claims or legal proceedings to have a material adverse effect on its financial condition, results of operations or cash flows.

Collective Bargaining Agreements

The Company had approximately 16% of its workforce covered by collective bargaining agreements at December 28, 2008. Collective bargaining agreements with four percent of employees are set to expire in less than one year.

Contract Terminations

On December 22, 2008, the Company announced the closure of its U.K.-based transportation division, Recruitment Solutions International (“RSI”), which will have no material impact on the Company’s future financial performance. The Company purchased RSI, which provided transportation services to The Home Office Nationality and Immigration Directorate, for approximately \$2.0 million in 2006. The Company recorded a goodwill write-off of \$2.3 million associated with this closure.

On November 7, 2008, the Company announced that it received a notice of discontinuation of its contract with the State of Idaho, Department of Correction (“Idaho DOC”) for the housing of approximately 305 out-of-state inmates at the managed-only Bill Clayton Detention Center effective January 5, 2009. The State of Idaho intends to consolidate its entire out-of-state inmate population into one large-scale private correctional facility. The Company does not expect the discontinuation of this contract to have a material adverse impact on its financial condition, results of operations or cash flows.

On October 1, 2008, the Company announced that its management contract for the continued management and operation of the 1,040-bed Sanders Estes Unit in Venus, Texas, was awarded to a competitor. The Sanders Estes Unit generated approximately \$11.0 million in annual operating revenues under a managed-only contract with TDJC. This contract will terminate effective as of the beginning of First Quarter 2009.

On August 29, 2008, the Company announced the discontinuation of its contract with Delaware County, Pennsylvania for the management of the county-owned 1,883-bed George W. Hill Correctional Facility effective December 31, 2008. This facility is the only local county jail managed by the Company and is generating approximately \$38.0 million in annualized operating revenues. The Company does not expect the discontinuation of the Delaware County, Pennsylvania contract to have a material adverse impact on its financial condition, results of operations or cash flows.

On June 16, 2008, the Company announced the discontinuation by mutual agreement of its contract with the State of New Mexico Department of Health for the management of the Fort Bayard Medical Center effective June 30, 2008.

The Company does not expect that the termination of this contract will have a material adverse impact on its financial condition, results of operations or cash flows.

As we previously disclosed on May 1, 2008, GEO Care Inc., activated the new 238-bed South Florida Evaluation and Treatment Center (“SFETC”) in Florida City, Florida which replaced the old SFETC center located in downtown Miami, Florida. Following the opening of the new SFETC center, the State of Florida approved budget language providing for the closure of the 100-bed South Florida Evaluation and Treatment Center Annex, referred to as the Annex, effective July 31, 2008. The Annex generated approximately \$7.5 million in revenues for GEO Care in 2008. Simultaneously, the Florida legislature also approved budget language providing for an increase in the capacity of two GEO Care facilities, the new SFETC center in Florida City, Florida, and the Treasure Coast Forensic Treatment Center located in Indiantown, Florida, for a total of 73 beds. The increased capacity at these two facilities resulted in an increase of approximately \$2.5 million in revenues for GEO Care in 2008, largely offsetting the closure of the Annex. The closure of the Annex did not have a material adverse impact on the Company’s financial condition, results of operations or cash flows.

On April 30 2008, the Company exercised its contractual right to terminate the contract for the operation and management of the Tri-County Justice and Detention Center located in Ullin, Illinois. The Company managed the facility through August 28, 2008. The termination of this contract did not have a material adverse impact on the Company’s financial condition, results of operations or cash flows.

Insurance claims

The Company maintains general liability insurance for property damages incurred, property operating costs during downtimes, business interruption and incremental costs incurred during inmate disturbances. In April 2007, the Company incurred significant damages at one of its managed-only facilities in New Castle, Indiana. The total amount of impairments, insurance losses recognized and expenses to repair damages incurred has been recorded in the accompanying consolidated statements of income as operating expenses and is offset by \$2.1 million of insurance proceeds the Company received from insurance carriers in First Quarter 2008.

Commitments

The Company is currently self-financing the simultaneous construction or expansion of several correctional and detention facilities in multiple jurisdictions. As of December 28, 2008, the Company was in the process of constructing or expanding seven facilities representing 4,266 total beds. The Company is providing the financing for five of the seven facilities, representing 3,162 beds. Total capital expenditures related to these projects and to other miscellaneous approved projects is expected to be \$202.0 million, of which \$36.8 million was spent through the Fourth Quarter 2008. The Company expects to incur the remaining \$165.2 million by fiscal First Quarter 2010. Additionally, financing for the remaining two facilities representing 1,104 beds is being provided for by third party sources for state or county ownership. The Company is managing the construction of these projects with total costs of \$85.1 million, of which \$76.8 million has been completed through Fourth Quarter 2008 and \$8.3 million remains to be completed through fiscal year 2009. The Company capitalized interest related to ongoing construction and expansion projects of \$4.3 million and \$2.9 million for the fiscal years ended December 28, 2008 and December 30, 2007, respectively.

13. Shareholders' Equity

Earnings Per Share

The table below shows the amounts used in computing earnings per share ("EPS") in accordance with FAS No. 128 and the effects on income and the weighted average number of shares of potential dilutive common stock.

Fiscal Year	2008	2007	2006
	(In thousands, except per share data)		
Income from continuing operations	\$ 61,453	\$ 38,089	\$ 28,000
Basic earnings per share:			
Weighted average shares outstanding	50,539	47,727	34,442
Per share amount	\$ 1.22	\$ 0.80	\$ 0.81
Diluted earnings per share:			
Weighted average shares outstanding	50,539	47,727	34,442
Effect of dilutive securities:			
Employee and director stock options and restricted stock	1,291	1,465	1,302
Weighted average shares assuming dilution	51,830	49,192	35,744
Per share amount	\$ 1.19	\$ 0.77	\$ 0.78

For fiscal year 2008, 372,725 weighted average shares of stock underlying options and 8,986 weighted average shares of restricted stock were excluded from the computation of diluted EPS because the effect would be anti-dilutive.

For fiscal year 2007, no shares of stock underlying options or shares of restricted stock were excluded from the computation of diluted EPS because their effect would have been anti-dilutive.

For fiscal year 2006, 1,269 weighted average shares of stock underlying options and no shares of restricted stock were excluded in the computation of diluted EPS because their effect would be anti-dilutive.

Preferred Stock

In April 1994, the Company's Board of Directors authorized 30 million shares of "blank check" preferred stock. The Board of Directors is authorized to determine the rights and privileges of any future issuance of preferred stock such as voting and dividend rights, liquidation privileges, redemption rights and conversion privileges.

Rights Agreement

On October 9, 2003, the Company entered into a rights agreement with EquiServe Trust Company, N.A., as rights agent. Under the terms of the rights agreement, each share of the Company's common stock carries with it one preferred share purchase right. If the rights become exercisable pursuant to the rights agreement, each right entitles the registered holder to purchase from the Company one one-thousandth of a share of Series A Junior Participating Preferred Stock at a fixed price, subject to adjustment. Until a right is exercised, the holder of the right has no right to vote or receive dividends or any other rights as a shareholder as a result of holding the right. The rights trade automatically with shares of our common stock, and may only be exercised in connection with certain attempts to acquire the Company. The rights are designed to protect the interests of the Company and its shareholders against coercive acquisition tactics and encourage potential acquirers to negotiate with our Board of Directors before attempting an acquisition. The rights may, but are not intended to, deter acquisition proposals that may be in the interests of the Company's shareholders.

14. Retirement and Deferred Compensation Plans

The Company has two noncontributory defined benefit pension plans covering certain of the Company's executives. Retirement benefits are based on years of service, employees' average compensation for the last five years prior to retirement and social security benefits. Currently, the plans are not funded. The Company purchased and is the beneficiary of life insurance policies for certain participants enrolled in the plans.

In 2001, the Company established non-qualified deferred compensation agreements with three key executives. These agreements were modified in 2002, and again in 2003. The current agreements provide for a lump sum payment when the executives retire, no sooner than age 55. All three executives have reached age 55 and are eligible to receive the payments upon retirement.

The Company adopted FAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans — an amendment of FASB Statements No. 87, 88, 106, and 132(R)", at December 30, 2006. FAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability on its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. FAS 158 requires an employer to measure the funded status of a plan as of its year-end date. Upon adoption of this standard the Company recorded a charge of \$1.9 million, net of tax, to accumulated other comprehensive income and a \$3.3 million credit to non-current liabilities. The unamortized portion of these costs as of December 28, 2008 included in accumulated other comprehensive income is \$1.6 million, net of tax.

FAS 158 also requires an entity to measure a defined benefit postretirement plan's assets and obligations that determine its funded status as of the end of the employer's fiscal year, and recognize changes in the funded status of a defined benefit postretirement plan in comprehensive income in the year in which the changes occur. Since the Company currently has a measurement date of December 31 for all plans, this provision did not have a material impact in the year of adoption.

The following table summarizes key information related to these pension plans and retirement agreements which includes information as required by FAS 158. The table illustrates the reconciliation of the beginning and ending balances of the benefit obligation showing the effects during the period attributable to each of the following: service cost, interest cost, plan amendments, termination benefits, actuarial gains and losses. The assumptions used in the Company's calculation of accrued pension costs are based on market information and the Company's historical rates for employment compensation and discount rates, respectively.

In accordance with FAS 158, the Company has also disclosed contributions and payment of benefits related to the plans. There were no assets in the plan at December 28, 2008 or December 30, 2007. All changes as a result of the adjustments to the accumulated benefit obligation are included below and shown net of tax in the consolidated statements of shareholders' equity and comprehensive income. There were no significant transactions between the employer or related parties and the plan during the period.

	2008	2007
Change in Projected Benefit Obligation		
Projected Benefit Obligation, Beginning of Year	\$ 17,938	\$ 17,098
Service Cost	530	551
Interest Cost	654	619

Weighted Average Assumptions for Expense		
Discount Rate	5.75%	5.75%
Expected Return on Plan Assets	N/A	N/A
Rate of Compenstaion Increase	5.50%	5.50%

On February 12, 2009, the Company announced that its Chief Financial Officer will retire effective August 2, 2009. As a result of his retirement, the Company has a current obligation of \$3.2 million which represents a one-time lump sum payment under the defined benefit pension plan. This amount is recorded in accrued expenses in the accompanying balance sheet as of December 28, 2008. The projected benefit liability for the three plans at December 28, 2008 are as follows, \$5.5 million for the executive retirement plan, \$1.3 million for the officer retirement plan and \$12.5 million for the two key executives’ plans. Although these individuals have reached the eligible age for retirement, the liabilities for the plans at December 28, 2008 and December 30, 2007 are included in other non-current liabilities based on actuarial assumption and expected retirement payments.

The amount included in other accumulated comprehensive income as of December 28, 2008 that is expected to be recognized as a component of net periodic benefit cost in fiscal year 2009 is \$0.3 million.

The Company also has a non-qualified deferred compensation plan for employees who are ineligible to participate in its qualified 401(k) plan. Eligible employees may defer a fixed percentage of their salary, which earns interest at a rate equal to the prime rate less 0.75%. The Company matches employee contributions up to \$400 each year based on the employee’s years of service. Payments will be made at retirement age of 65 or at termination of employment. The Company recognized expense of \$0.1 million, \$0.3 million and \$0.2 million in fiscal years 2008, 2007 and 2006, respectively. The liability for this plan at December 28, 2008 and December 30, 2007 was \$4.0 million and \$3.2 million, respectively, and is included in “Other non-current liabilities” in the accompanying consolidated balance sheets.

The Company expects to make the following benefit payments based on eligible retirement dates:

Fiscal Year	Pension Benefits
	(In thousands)
2009	12,953
2010	168
2011	165
2012	199
2013	227
Thereafter	5,608
	\$ 19,320

15. Business Segment and Geographic Information

Operating and Reporting Segments

The Company conducts its business through four reportable business segments: U.S. corrections segment; International services segment; GEO Care segment; and Facility construction and design segment. The Company has identified these four reportable segments to reflect the current view that the Company operates four distinct business lines, each

of which constitutes a material part of its overall business. The U.S. corrections segment primarily encompasses U.S.-based privatized corrections and detention business. The International services segment primarily consists of privatized corrections and detention operations in South Africa, Australia and the United Kingdom. GEO Care segment, which is operated by the Company’s wholly-owned subsidiary GEO Care, Inc., comprises privatized mental health and residential treatment services business, all of which is currently conducted in the U.S. The Facility construction and design segment consists of contracts with various state, local and federal agencies for the design and construction of facilities for which the Company has management contracts.

The segment information presented in the prior periods has been reclassified to conform to the current presentation:

Fiscal Year	2008	2007	2006
	(In thousands)		
Revenues:			
U.S. corrections	\$ 711,038	\$ 629,339	\$ 574,126
International services	128,672	127,991	103,139
GEO Care	117,399	110,165	67,034
Facility construction and design	85,897	108,804	74,140
Total revenues	\$ 1,043,006	\$ 976,299	\$ 818,439
Depreciation and amortization:			
U.S. corrections	\$ 34,010	\$ 30,401	\$ 20,298
International services	1,556	1,351	803
GEO Care	1,840	1,466	581
Facility construction and design	—	—	—
Total depreciation and amortization	\$ 37,406	\$ 33,218	\$ 21,682
Operating Income (loss):			
U.S. corrections	\$ 160,065	\$ 134,321	\$ 103,641
International services	\$ 10,737	\$ 11,022	\$ 8,630
GEO Care	12,419	10,142	5,189
Facility construction and design	326	(266)	(589)
Operating income from segments	183,547	155,219	116,871
General and Administrative Expenses	(69,151)	(64,492)	(56,268)
Total operating income	\$ 114,396	\$ 90,727	\$ 60,603
Segment assets:			
U.S. corrections	\$ 1,093,880	\$ 954,419	\$ 447,504
International services	69,937	88,788	77,154
GEO Care	21,169	19,334	14,705
Facility construction and design	10,286	16,385	21,057
Total segment assets	\$ 1,195,272	\$ 1,078,926	\$ 560,420

In fiscal year 2008, the Company’s general and administrative expenses include non-cash deferred compensation costs of \$4.5 million associated with stock-based compensation compared to a charge of \$3.5 million in fiscal 2007, and \$1.3 million in fiscal 2006. Fiscal year 2008 U.S. corrections segment operating income includes the \$2.7 million increase in the Company’s insurance reserve compared to \$0.9 million decrease in fiscal year 2007 and a \$4.0 million reduction in 2006. In fiscal year 2008, the Company wrote off \$2.3 million of goodwill associated with the termination of operation of RSI, which is included in loss from discontinued operations. In 2007 the Company wrote off \$4.8 million deferred financing fees related to its repayment of borrowings from the Term Loan B.

The increase in operating expenses attributable to new facilities and expansions of existing facilities was offset by the effects of a change in our vacation policy for certain employees which conformed to a fiscal year-end based policy during 2008. The new policy allows employees to use vacation regardless of service period but within the fiscal year. Vacation expense decreased by \$3.7 million fiscal year 2008 compared to fiscal year 2007 primarily due to the change in our policy.

Assets in the Company's Facility construction and design segment include trade accounts receivable, construction retainage receivable and other miscellaneous deposits and prepaid insurance. Trade accounts receivable balances were \$5.8 million and \$10.2 million as of December 28, 2008 and December 30, 2007, respectively. Construction retainage receivable balances were \$3.9 million and \$4.7 million as of December 28, 2008 and December 30, 2007, respectively. Other assets were \$0.0 million and \$1.5 million as of December 28, 2008 and December 30, 2007, respectively. During fiscal years 2008 and 2007, the Company wrote-off \$0.0 million and \$0.5 million, respectively, for construction overruns net of recoveries. Such items were not significant as of or for the periods ended December 28, 2008 and December 30, 2007, respectively.

Fiscal Year	2008	2007	2006
	(In thousands)		
Operating income from segments	\$ 183,547	\$ 155,219	\$ 116,871
Unallocated amounts:

Total long-lived assets	\$ 878,616	\$ 783,363	\$ 287,292

Sources of Revenue

The Company derives most of its revenue from the management of privatized correction and detention facilities. The Company also derives revenue from the management of GEO Care facilities and from the construction and expansion of new and existing correctional, detention and GEO Care facilities. All of the Company's revenue is generated from external customers.

Fiscal Year	2008	2007	2006
	(In thousands)		
Revenues:			
Correction and detention	\$ 839,710	\$ 757,330	\$ 677,265
GEO Care	117,399	110,165	67,034
Facility construction and design	85,897	108,804	74,140
Total revenues	\$ 1,043,006	\$ 976,299	\$ 818,439

Equity in Earnings of Affiliates

Equity in earnings of affiliates for 2008, 2007 and 2006 include one of the joint ventures in South Africa, SACS. This entity is accounted for under the equity method and the Company's investment in SACS is presented as a component of other non-current assets in the accompanying consolidated balance sheets.

A summary of financial data for SACS is as follows:

Fiscal Year	2008	2007	2006
	(In thousands)		
Statement of Operations Data			
Revenues	\$ 35,558	\$ 36,720	\$ 34,152
Operating income	13,688	14,976	13,301
Net income	9,247	4,240	3,124
Balance Sheet Data			
Current assets	18,421	21,608	15,396
Non-current assets	37,722	53,816	60,023
Current liabilities	2,245	6,120	5,282
Non-current liabilities	41,321	62,401	63,919
Shareholders' equity	12,577	6,903	6,218

As of December 28, 2008 and December 30, 2007, the Company's investment in SACS was \$6.2 million and \$3.5 million, respectively. The investment is included in other non-current assets in the accompanying consolidated balance sheets.

Business Concentration

Except for the major customers noted in the following table, no other single customer made up greater than 10% of the Company's consolidated revenues for the following fiscal years.

Customer	2008	2007	2006
Various agencies of the U.S. Federal Government	28%	27%	31%
Various agencies of the State of Florida	17%	16%	13%

Credit risk related to accounts receivable is reflective of the related revenues.

16. Income Taxes

The United States and foreign components of income (loss) before income taxes, minority interest and equity income from affiliates are as follows:

	2008	2007
	(In thousands)	
Depreciation	\$ (14)	\$ (223)
Total Asset (Liability)	\$ (14)	\$ (223)

In accordance with FAS No. 109, Accounting for Income Taxes, deferred income taxes should be reduced by a valuation allowance if it is not more likely than not that some portion or all of the deferred tax assets will be realized. On a periodic basis, management evaluates and determines the amount of the valuation allowance required and adjusts such valuation allowance accordingly. At fiscal year end 2008 and 2007, the Company has recorded a valuation allowance of approximately \$4.8 million and \$3.2 million, respectively. The valuation allowance increased by \$1.6 million during the fiscal year ended December 28, 2008. At the fiscal year end 2008 and 2007, the valuation allowance included \$0.1 million and \$0.1 million, respectively reported as part of purchase accounting relating to deferred tax assets for state net operating losses from the CSC acquisition. While prior accounting pronouncements provided that a reduction of a valuation allowance related to tax assets recorded as part of purchase accounting are to reduce goodwill, for years beginning after December 15, 2008 FAS No. 141R provides that such a reduction of a valuation allowance would be accounted for as a reduction of income tax expense. At fiscal year end 2008 and 2007 a partial valuation allowance was provided against net operating losses from the acquisition. The remaining valuation allowance of \$4.7 million and \$3.1 million, for 2008 and 2007, respectively, relates to deferred tax assets for foreign net operating losses and state tax credits unrelated to the CSC acquisition.

The Company provides income taxes on the undistributed earnings of non-U.S. subsidiaries except to the extent that such earnings are indefinitely invested outside the United States. At December 28, 2008, \$4.8 million of accumulated undistributed earnings of non-U.S. subsidiaries were indefinitely invested. At the existing U.S. federal income tax rate, additional taxes (net of foreign tax credits) of \$1.7 million would have to be provided if such earnings were remitted currently.

At fiscal year end 2008, the Company had \$3.6 million of combined net operating loss carryforwards in various states from the CSC acquisition, which begin to expire in 2015.

Also at fiscal year end 2008 the Company had \$11.0 million of foreign operating losses which carry forward indefinitely and \$4.6 million of state tax credits which begin to expire in 2010. The Company has recorded a full and partial valuation allowance against the deferred tax assets related to the foreign operating losses and state tax credits, respectively.

In fiscal 2008, the Company’s equity affiliate SACS recognized a one time tax benefit of \$1.9 million related to a change in the tax treatment applicable to the affiliate with retroactive effect. Under the tax treatment, expenses which were previously disallowed are now deductible for South African tax purposes. The one time tax benefit relates to an increase in the deferred tax assets of the affiliate as a result of the change in tax treatment.

On January 2, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R, “Share-Based payment” (FAS 123R). FAS 123R requires companies to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards. The exercise of non-qualified stock options which have been granted under the Company’s stock option plans give rise to compensation income which is includable in the taxable income of the applicable employees and deducted by the Company for federal and state income tax purposes. Such compensation income results from increases in the fair market value of the Company’s common stock subsequent to the date of grant. The Company has elected to use the transition method described in FASB Staff Position 123(R)-3 (“FSP FAS 123(R)-3”). In accordance with FSP FAS 123(R)-3, the tax benefit on awards that vested prior to January 2, 2006 but that were exercised on or after January 2, 2006 “Fully Vested Awards” are credited directly to additional paid-in-capital. On awards that vested on or after January 2, 2006 and that were exercised on or after January 2, 2006, “Partially vested Awards” the total tax benefit first reduces the related deferred tax asset associated with the compensation cost recognized under 123(R) and any excess tax benefit, if any, is credited to additional paid-in capital. Special considerations apply and which are addressed in the FSP FAS 123(R)-3, if the ultimate tax benefit upon exercise is less than the related deferred tax asset underlying the award. At fiscal year end 2008 the deferred tax asset net of a valuation allowance related to unexercised stock options and restricted stock grants was \$1.5 million.

In June 2006, the FASB issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes” (“FIN 48”). The Company adopted the provisions of FIN 48, on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, Accounting for Contingencies. As required by FIN 48, which clarifies Statement 109, Accounting for Income Taxes, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied FIN 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of FIN 48, the Company recognized an increase of approximately a \$2.5 million in the liability for unrecognized tax benefits, which was accounted for as a reduction to the January 1, 2007, balance of retained earnings.

In May 2007, the FASB published FSP FIN 48-1. FSP FIN 48-1 is an amendment to FIN 48. It clarifies how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. As of our adoption date of FIN 48, our accounting is consistent with the guidance in FSP FIN 48-1.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows in (dollars in thousands):

	(In thousands)
Balance at December 30, 2007	\$ 5,417
Additions based on tax positions related to the current year	1,877
Additions for tax positions of prior years	659
Reductions for tax positions of prior years	(1,809)
Reductions as result of a lapse of applicable statutes of limitations	(169)
Settlements	(86)
Balance at December 28, 2008	\$ 5,889

All amounts in the reconciliation are reported on a gross basis and do not reflect a federal tax benefit on state income taxes. Inclusive of the federal tax benefit on state income taxes the ending balance as of December 28, 2008 is \$5.6 million. Included in the balance at December 28, 2008 is \$1.9 million related to tax positions for which the ultimate deductibility is highly certain, but for which there is uncertainty about the timing of such deductibility. Under deferred tax accounting, the timing of a deduction does not affect the annual effective tax rate but does affect the timing of tax payments. Absent a decrease in the unrecognized tax benefits related to the reversal of these timing related tax positions, the Company does not anticipate any significant increase or decrease in the unrecognized tax benefits within 12 months of the reporting date. The balance at December 28, 2008 includes \$3.7 million of unrecognized tax benefits which, if ultimately recognized, will reduce the Company’s annual effective tax rate.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2002.

The Company is currently under examination by the Internal Revenue Service for its U.S. income tax returns for fiscal years 2002 through 2005. The Company expects this examination to be concluded in 2010.

In adopting FIN 48 on January 1, 2007, the Company changed its previous method of classifying interest and penalties related to unrecognized tax benefits as income tax expense to classifying interest accrued as interest expense and penalties as operating expenses. Because the transition rules of FIN 48 do not permit the retroactive restatement of prior period financial statements, the Company’s 2006 financial statements continue to reflect interest and penalties on unrecognized tax benefits as income tax expense. During the fiscal year ended December 28, 2008 and December 30, 2007 the Company recognized respectively \$0.4 million and \$0.6 million in interest and penalties. The Company had accrued approximately \$1.9 million and \$1.5 million for the payment of interest and penalties at December 28, 2008, and December 30, 2007, respectively.

17. Selected Quarterly Financial Data (Unaudited)

The Company's selected quarterly financial data is as follows (in thousands, except per share data):

	First Quarter	Second Quarter
2008		
Revenues	\$ 262,454	\$ 269,994
Operating income	23,687	26,990
Income from continuing operations	11,888	13,852
Income from discontinued operations, net of tax	519	347
Basic earnings per share:		
Income from continuing operations	\$ 0.24	\$ 0.27
Income from discontinued operations	0.01	0.01
Net income per share	\$ 0.25	\$ 0.28
Diluted earnings per share:		
Income from continuing operations	\$ 0.23	\$ 0.27
Income from discontinued operations	0.01	—
Net income per share	\$ 0.24	\$ 0.27
	Third Quarter	Fourth Quarter
Revenues	\$ 254,105	\$ 256,453
Operating income (1),(4)	28,733	34,986
Income from continuing operations	15,497	20,216
Income (loss) from discontinued operations, net of tax	362	(3,779)
Basic earnings per share:		
Income from continuing operations	\$ 0.31	\$ 0.40
Income (loss) from discontinued operations	0.00	(0.08)
Net income per share	\$ 0.31	\$ 0.32
Diluted earnings per share:		
Income from continuing operations	\$ 0.30	\$ 0.39
Income (loss) from discontinued operations	0.01	(0.07)
Net income per share	\$ 0.31	\$ 0.32

	First Quarter	Second Quarter
2007		
Revenues	\$ 225,119	\$ 246,528
Operating income (2),(5)	19,582	25,414

Diluted earnings per share:		
Income from continuing operations	\$ 0.22	\$ 0.20
Income from discontinued operations	0.03	0.02
Net income per share	\$ 0.25	\$ 0.22

(1) Operating income for Third and Fourth Quarters 2008 includes the effects of a change in our vacation policy for certain employees which conformed to a fiscal year-end based policy. The new policy allows employees to use vacation regardless of service period but within the fiscal year. Vacation expense decreased by \$3.7 million fiscal year 2008 compared to fiscal year 2007 primarily due to this change. This had a positive impact on earnings for Third and Fourth Quarters of \$2.0 million and \$1.7 million, respectively. Also included in our results for fiscal Fourth Quarter ended December 28, 2008 is a one-time tax benefit related to our equity affiliate of \$1.9 million.

(2) Selected Financial data for 2007 includes adjustments to First Quarter, Second Quarter, Third Quarter and Fourth Quarter operating income for income on discontinued operations of \$0.9 million, \$1.2 million, \$1.4 million and \$1.5 million, respectively.

(3) Fiscal year 2007 income from continuing operations reflects \$2.1 million in insurance recoveries related to damages incurred at the New Castle Correctional Facility in Indiana offset by a write-off of \$1.4 million in deferred acquisition costs.

(4) Third Quarter results reflect increases and (decreases) to insurance reserves of \$2.7 million and \$(0.9) million for fiscal 2008 and fiscal 2007, respectively.

(5) First Quarter 2007 income from continuing operations reflects a write-off of debt issuance costs of \$4.8 million related to the repayment of \$200.0 million in the Term Loan B.

18. Subsequent events

During September 2003, GEO entered into two interest rate swaps with its lenders. The agreements, which have payment and expiration dates and call provisions that mirror the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Each of the Swaps has a termination clause that gives the lender the right to terminate the interest rate swap at fair market value if they are no longer a lender under the Credit Agreement. In addition to the termination clause, the interest rate swaps also have call provisions which specify that the lender can elect to settle the swap for the call option price, as specified in the swap agreement. In First Quarter 2009, one of the Company's lenders elected to prepay its interest rate swap obligations to the Company at the call option price which equaled or was greater than the fair value of the interest rate swap on the respective call date. Since the Company did not elect to call any portion of the Notes, the Company will amortize the value of the call options over the remaining life of the Notes. The termination of this Swap is expected to increase the Company's interest expense for fiscal 2009 by approximately one million dollars.

New contracts

In January 2009, the Company announced that its wholly owned U.K. subsidiary, GEO UK Ltd., has signed a contract with the United Kingdom Border Agency for the management and operation of the Harmondsworth Immigration Removal Centre (the "Centre") located in London, England. The Company's contract for the management and operation of the Centre will have a term of three years and is expected to generate approximately \$14.0 million in annual revenues for GEO. Under the terms of the contract, the Company will take over management of the existing Centre, which has a current capacity of 260 beds on June 29, 2009. Additionally, the Centre will be expanded by 360 beds bringing its capacity to 620 beds when the expansion is completed in June 2010. Upon completion of the expansion, this management contract is expected to generate approximately \$19.5 million in annual revenues.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

Item 9A. *Controls and Procedures*

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, referred to as the Exchange Act), as of the end of the period covered by this report. On the basis of this review, our management, including our Chief Executive Officer and our Chief Financial Officer, has concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to give reasonable assurance that the information required to be disclosed in our reports filed with the Securities and Exchange Commission, or the SEC, under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and to ensure that the information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

It should be noted that the effectiveness of our system of disclosure controls and procedures is subject to certain limitations inherent in any system of disclosure controls and procedures, including the exercise of judgment in designing, implementing and evaluating the controls and procedures, the assumptions used in identifying the likelihood of future events, and the inability to eliminate misconduct completely. Accordingly, there can be no assurance that our disclosure controls and procedures will detect all errors or fraud. As a result, by its nature, our system of disclosure controls and procedures can provide only reasonable assurance regarding management's control objectives.

Internal Control Over Financial Reporting

(a) *Management's Annual Report on Internal Control Over Financial Reporting*

See "Item 8. — Financial Statements and Supplemental Data — Management's Report on Internal Control over Financial Reporting" for management's report on the effectiveness of our internal control over financial reporting as of December 28, 2008.

(b) *Attestation Report of the Registered Public Accounting Firm*

See "Item 8. — Financial Statements and Supplemental Data — Report of Independent Registered Certified Public Accountants" for the report of our independent registered public accounting firm on the effectiveness of our internal control over financial reporting as of December 28, 2008.

(c) *Changes in Internal Control over Financial Reporting*

Our management is responsible for reporting any changes in our internal control over financial reporting (as such terms is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management believes that there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Items 10, 11, 12, 13 and 14

The information required by Items 10, 11, 12 (except for the information required by Item 201(d) of Regulation S-K which is included in Part II, Item 5 of this report), 13 and 14 of Form 10-K will be contained in, and is incorporated by reference from, the proxy statement for our 2009 annual meeting of shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of the fiscal year covered by this report.

PART IV

Item 15. Exhibits, and Financial Statement Schedules

(a)(1) Financial Statements.

The consolidated financial statements of GEO are filed under Item 8 of Part II of this report.

(2) Financial Statement Schedules.

Schedule II — Valuation and Qualifying Accounts — Page 124

All other schedules specified in the accounting regulations of the Securities and Exchange Commission have been omitted because they are either inapplicable or not required.

(3) Exhibits Required by Item 601 of Regulation S-K. The following exhibits are filed as part of this Annual Report:

Exhibit Number	Description
2.1	Agreement and Plan of Merger, dated as of September 19, 2006, among the Company, GEO Acquisition II, Inc. and CentraCore Properties Trust (incorporated herein by reference to Exhibit 2.1 of the Company’s report on Form 8-K, filed on September 21, 2006)
3.1	Amended and Restated Articles of Incorporation of the Company, dated May 16, 1994 (incorporated herein by reference to Exhibit 3.1 to the Company’s registration statement on Form S-1, filed on May 24, 1994)
3.2	Articles of Amendment to the Amended and Restated Articles of Incorporation, dated October 30, 2003 (incorporated herein by reference to Exhibit 3.2 to the Company’s report on Form 10-K, filed on February 15, 2008)
3.3	Articles of Amendment to the Amended and Restated Articles of Incorporation, dated November 25, 2003 (incorporated herein by reference to Exhibit 3.3 to the Company’s report on Form 10-K, filed on February 15, 2008)
3.4	Articles of Amendment to the Amended and Restated Articles of Incorporation, dated September 29, 2006 (incorporated herein by reference to Exhibit 3.4 to the Company’s report on Form 10-K, filed on February 15, 2008)
3.5	Articles of Amendment to the Amended and Restated Articles of Incorporation, dated May 30, 2007 (incorporated herein by reference to Exhibit 3.5 to the Company’s report on Form 10-K, filed on February 15, 2008)
3.6	Amended and Restated Bylaws of the Company (incorporated herein by reference to Exhibit 3.1 to the Company’s report on Form 8-K, filed on April 2, 2008)
4.1	Indenture, dated July 9, 2003, by and between the Company and The Bank of New York, as Trustee, relating to 8 1 / 4 % Senior Notes Due 2013 (incorporated herein by reference to Exhibit 4.1 to the Company’s report on Form 8-K, filed on July 29, 2003)
4.2	Registration Rights Agreement, dated July 9, 2003, by and among the Company Corporation and BNP Paribas Securities Corp., Lehman Brothers Inc., First Analysis Securities Corporation, SouthTrust Securities, Inc. and Comerica Securities, Inc. (incorporated herein by reference to Exhibit 4.2 to the Company’s report on Form 8-K, filed on July 29, 2003)

Exhibit Number	Description
4.3	Rights Agreement, dated as of October 9, 2003, between the Company and EquiServe Trust Company, N.A., as the Rights Agent (incorporated herein by reference to Exhibit 4.3 to the Company's report on Form 8-K, filed on July 29, 2003)
10.1	Stock Option Plan (incorporated herein by reference to Exhibit 10.1 to the Company's registration statement on Form S-1, filed on May 24, 1994)†
10.2	1994 Stock Option Plan (incorporated herein by reference to Exhibit 10.2 to the Company's registration statement on Form S-1, filed on May 24, 1994)†
10.3	Form of Indemnification Agreement between the Company and its Officers and Directors (incorporated herein by reference to Exhibit 10.3 to the Company's registration statement on Form S-1, filed on May 24, 1994)†
10.4	Senior Officer Retirement Plan (incorporated herein by reference to Exhibit 10.4 to the Company's registration statement on Form S-1/A, filed on December 22, 1995)†
10.5	Amendment to the Company's Senior Officer Retirement Plan (incorporated herein by reference to Exhibit 10.5 to the Company's report on Form 10-K, filed on March 23, 2005)†
10.6	1999 Stock Option Plan (incorporated herein by reference to Exhibit 10.12 to the Company's report on Form 10-K, filed on March 30, 2000)†
10.7	Amended and Restated Employment Agreement, dated November 4, 2004, between the Company and Dr. George C. Zoley (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 10-Q, filed on November 4, 2004)†
10.8	Amended and Restated Employment Agreement, dated November 4, 2004, between the Company and Wayne H. Calabrese (incorporated herein by reference to Exhibit 10.2 to the Company's report on Form 10-Q, filed on November 5, 2004)†
10.9	Executive Employment Agreement, dated March 7, 2002, between the Company and John G. O'Rourke (incorporated herein by reference to Exhibit 10.17 to the Company's report on Form 10-Q, filed on May 15, 2002)†
10.10	Executive Retirement Agreement, dated March 7, 2002, between the Company and Dr. George C. Zoley (incorporated herein by reference to Exhibit 10.18 to the Company's report on Form 10-Q, filed on May 15, 2002)†
10.11	Executive Retirement Agreement, dated March 7, 2002, between the Company and Wayne H. Calabrese (incorporated herein by reference to Exhibit 10.19 to the Company's report on Form 10-Q, filed on May 15, 2002)†
10.12	Executive Retirement Agreement, dated March 7, 2002, between the Company and John G. O'Rourke (incorporated herein by reference to Exhibit 10.20 to the Company's report on Form 10-Q, filed on May 15, 2002)†
10.13	Amended Executive Retirement Agreement, dated January 17, 2003, by and between the Company and George C. Zoley (incorporated herein by reference to Exhibit 10.18 to the Company's report on Form 10-K, filed on March 20, 2003)†

10.14	Amended Executive Retirement Agreement, dated January 17, 2003, by and between the Company and Wayne H. Calabrese (incorporated herein by reference to Exhibit 10.19 to the Company's report on Form 10-K, filed on March 20, 2003)†
10.15	Amended Executive Retirement Agreement, dated January 17, 2003, by and between the Company and John G. O'Rourke (incorporated herein by reference to Exhibit 10.20 to the Company's report on Form 10-K, filed on March 20, 2003)†
10.16	Senior Officer Employment Agreement, dated March 23, 2005, by and between the Company and John J. Bulfin (incorporated herein by reference to Exhibit 10.22 to the Company's report on Form 10-K, filed on March 23, 2005)†
10.17	Senior Officer Employment Agreement, dated March 23, 2005, by and between the Company and Jorge A. Dominicis (incorporated herein by reference to Exhibit 10.23 to the Company's report on Form 10-K, filed on March 23, 2005)†
10.18	Senior Officer Employment Agreement, dated March 23, 2005, by and between the Company and John M. Hurley (incorporated herein by reference to Exhibit 10.24 to the Company's report on Form 10-K, filed on March 23, 2005)†

Exhibit Number	Description
10.19	Office Lease, dated September 12, 2002, by and between the Company and Canpro Investments Ltd. (incorporated herein by reference to Exhibit 10.22 to the Company's report on Form 10-K, filed on March 20, 2003)
10.20	The Geo Group, Inc. Senior Management Performance Award Plan (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 10-Q, filed on May 13, 2005)
10.21	The GEO Group, Inc. 2006 Stock Incentive Plan (incorporated herein by reference to Exhibit 10.21 to the Company's report on Form 10-K, filed on February 15, 2008)†
10.22	Amendment to The Geo Group, Inc. 2006 Stock Incentive Plan (incorporated herein by reference to the Company's report on Form 10-Q, filed on August 9, 2007)
10.23	Third Amended and Restated Credit Agreement, dated as of January 24, 2007, by and among The GEO Group, Inc., as Borrower, BNP Paribas, as Administrative Agent, BNP Paribas Securities Corp. as Lead Arranger and Syndication Agent, and the lenders who are, or may from time to time become, a party thereto (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 8-K, filed on January 30, 2007)
10.24	Amendment No. 1 to the Third Amended and Restated Credit Agreement, dated as of January 31, 2007, between The GEO Group, Inc., as Borrower, and BNP Paribas, as Lender and as Administrative Agent (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 8-K, filed on February 6, 2007)

10.25	Amendment No. 2 to the Third Amended and Restated Credit Agreement, dated as of January 31, 2007, between The GEO Group, Inc., as Borrower, and BNP Paribas, as Lender and as Administrative Agent (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 8-K, filed on February 20, 2007)
10.26	Amendment No. 3 to the Third Amended and Restated Credit Agreement dated as of May 2, 2007, between The Geo Group, Inc., as Borrower, and BNP Paribas, as Lender and as Administrative Agent (incorporated herein by reference to Exhibit 10.1 to the Company's report on Form 8-K, dated May 8, 2007)
10.27	Amendment No. 4 to the Third Amended and Restated Credit Agreement, dated effective as of August 26, 2008, between The GEO Group Inc., as Borrower, certain of GEO's subsidiaries, as Grantors, and BNP Paribas, as Lender and as Administrative Agent (incorporated by reference to Exhibit 10.1 of the Company's report on Form 8-K, filed on September 2, 2008)
10.28	Form of Lender Addendum, dated as of October 29, 2008, by and among The GEO Group, Inc. as Borrower, BNP Paribas as Administrative Agent and the Lender parties thereto (incorporated by reference to Exhibit 10.2 to the Company's report on Form 10-Q, filed November 5, 2008)
10.29	Second Amended and Restated Executive Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and George C. Zoley (incorporated by reference to Exhibit 10.1 to the Company's report on Form 8-K January 7, 2009)
10.30	Second Amended and Restated Executive Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and Wayne H. Calabrese (incorporated by reference to Exhibit 10.2 to the Company's report on Form 8-K January 7, 2009)†
10.31	Amended and Restated Executive Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and John G. O'Rourke (incorporated by reference to Exhibit 10.3 to the Company's report on Form 8-K January 7, 2009)
10.32	Amended and Restated Senior Officer Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and John J. Bulfin (incorporated by reference to Exhibit 10.4 to the Company's report on Form 8-K January 7, 2009)
10.33	Amended and Restated Senior Officer Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and Jorge A. Dominicis (incorporated by reference to Exhibit 10.5 to the Company's report on Form 8-K January 7, 2009)†
10.34	Amended and Restated Senior Officer Employment Agreement, effective December 31, 2008, by and between The GEO Group, Inc. and Thomas M. Wierdsma (incorporated by reference to Exhibit 10.6 to the Company's report on Form 8-K January 7, 2009)

Exhibit Number	Description

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have issued our reports dated February 17, 2009, with respect to the consolidated financial statements, schedule and internal control over financial reporting included in the Annual Report of The GEO Group, Inc. on Form 10-K for the year ended December 28, 2008. We hereby consent to the incorporation by reference of said reports in the Registration Statements of The GEO Group, Inc. on Form S-4 (File No. 333-107709, effective November 10, 2003), Forms S-3 (File No. 333-141244, effective March 13, 2007 and File No. 333-111003, effective December 8, 2003 as amended by File No. 333-111003, effective January 20, 2004 as amended by File No. 333-111003, effective January 26, 2004) and Forms S-8 (File No. 333-142589, effective May 3, 2007, File No. 333-79817, effective June 2, 1999, File No. 333-17265, effective December 4, 1996, File No. 333-09977, effective August 12, 1996 and File No. 333-09981, effective August 12, 1996).

Exhibit 31.1

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, George C. Zoley, certify that:

1. I have reviewed this annual report on Form 10-K of The GEO Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f), for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fiscal Fourth Quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s Board of Directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal controls over financial reporting.

Exhibit 31.2

CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, John G. O’Rourke, certify that:

1. I have reviewed this annual report on Form 10-K of The GEO Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f), for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fiscal Fourth Quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s Board of Directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal controls over financial reporting.

The Annual Shareholder Meeting for The GEO Group, Inc. will be held at the Boca Raton Resort & Club, 501 E. Camino Real, Boca Raton, Florida 33432 at 9:00 a.m. on April 30, 2009.

Officer Certification

The certifications of The GEO Group, Inc.'s Chief Executive Officer and Chief Financial Officer, required under section 302 of the Sarbanes-Oxley Act of 2002, have been filed as exhibits to The GEO Group, Inc.'s Annual Report on Form 10-K. In 2008, The GEO Group, Inc.'s Chief Executive Officer submitted the annual certification to the New York Stock Exchange regarding The GEO Group, Inc.'s compliance with the New York Stock Exchange corporate governance listing standards.

Forward-Looking Statements — Safe Harbor

This report and the documents incorporated by reference herein contain "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. "Forward-looking" statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are "forward-looking" statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate" or "continue" or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or "cautionary statements," include, but are not limited to our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs; the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, and South Africa, or other countries in which we may choose to conduct our business; our ability to reactivate the North Lake Correctional Facility; an increase in unreimbursed labor rates; our ability to expand, diversify and grow our correctional and mental health and residential treatment services; our ability to win management contracts for which we have submitted proposals and to retain existing management contracts; our ability to raise new project development capital given the often short-term nature of the customers' commitment to use newly developed facilities; our ability to estimate the government's level of dependency on privatized correctional services; our ability to accurately project the size and growth of the U.S. and international privatized corrections industry; our ability to develop long-term earnings visibility; our ability to obtain future financing at competitive rates; our exposure to rising general insurance costs; our exposure to state and federal income tax law changes internationally and domestically; our exposure to claims for which we are uninsured; our exposure to rising employee and inmate medical costs; our ability to maintain occupancy rates at our facilities; our ability to manage costs and expenses relating to ongoing litigation arising from our operations; our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers compensation and automobile liability claims; our ability to identify suitable acquisitions, and to successfully complete and integrate such acquisitions on satisfactory terms; the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us; and other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this annual report on Form 10-K, our Form 10-Qs and our Form 8-Ks filed with the SEC. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this report.
